i. This is the stage where data or instructions are put into a computer system
A. Information B. Input C. Process D. Output

ii. These are raw facts, figures, values or instructions with no specific meaning by themselves.
A. Information B. Data C. meaning D. Knowledge

iii. This is processed information that comes out of a computer system
A. Information B. Output C. Process D. Output

iv. Which among these is not an example of a hardware?
A. A printer B. Motherboard C. Operating system D. Monitor

v. Processed data is called
A. Field B. Information C. Record D. File

vi. Keyboard key to leave space between characters
A. Backspace B. Spacebar C. Delete D. ESC

vii. What is raw fact?
A. Number only B. Alphabets only C. Processed data D. Unprocessed data

viii. The fastest memory devices is
A. CPU B. Register C. Read only Memory D. Random Access memory

ix. The following are parts of mouse except

A. Right click button B. Left click button C. Monitor D. scroll Wheel

x. which of the following is data processing sequence

A. Output, main memory, CPU, Input B. Input, Output, main memory, CPU

C. Input, main memory, CPU, Output D. main memory, Input, Output, CPU

2. **Match the items between Column A and the correct response in Column B**

COLUMN A	COLUMN B
i. Memory storage whose content can be accessed and read but cannot be changed.	A. Digital Versatile Disks
ii. Working storage that is used to hold instructions and data needed by the currently application.	B. RAM storage
iii. Memory storage which are suitable for recording motion pictures.	C. Real storage
iv. A special temporary storage available in the ALU.	D. ROM storage
v. The main memory in a virtual memory system.	E. Optical storage
	F. Register
	G. Floppy disks
	H. Flash disk

SECTION B (70 marks)

3. Write five **(5)** four secondary storage devices in electronic devices.

i.
ii.
iii.
iv.
v.

4. Give the long term of these.

a. RAM_____

b. TV_____

c. CPU_____

d. ALU_____

e. HD_____

5. Give five **(5)** uses of computer at Home.

i._____

ii._____

iii._____

iv._____

v._____

6. Study the following computer hardware given and answer the questions that follow:

a) Name the computer hardware accessories labeled 1-6.

1-_____
2-_____
3-_____
4-_____
5-_____
6-_____

b) State the function of each hardware labeled 1, 2,4 and 6.

1_____

2_____

4_____

6_____

c) List two input devices and one output device from hardware labeled 1-6 above.

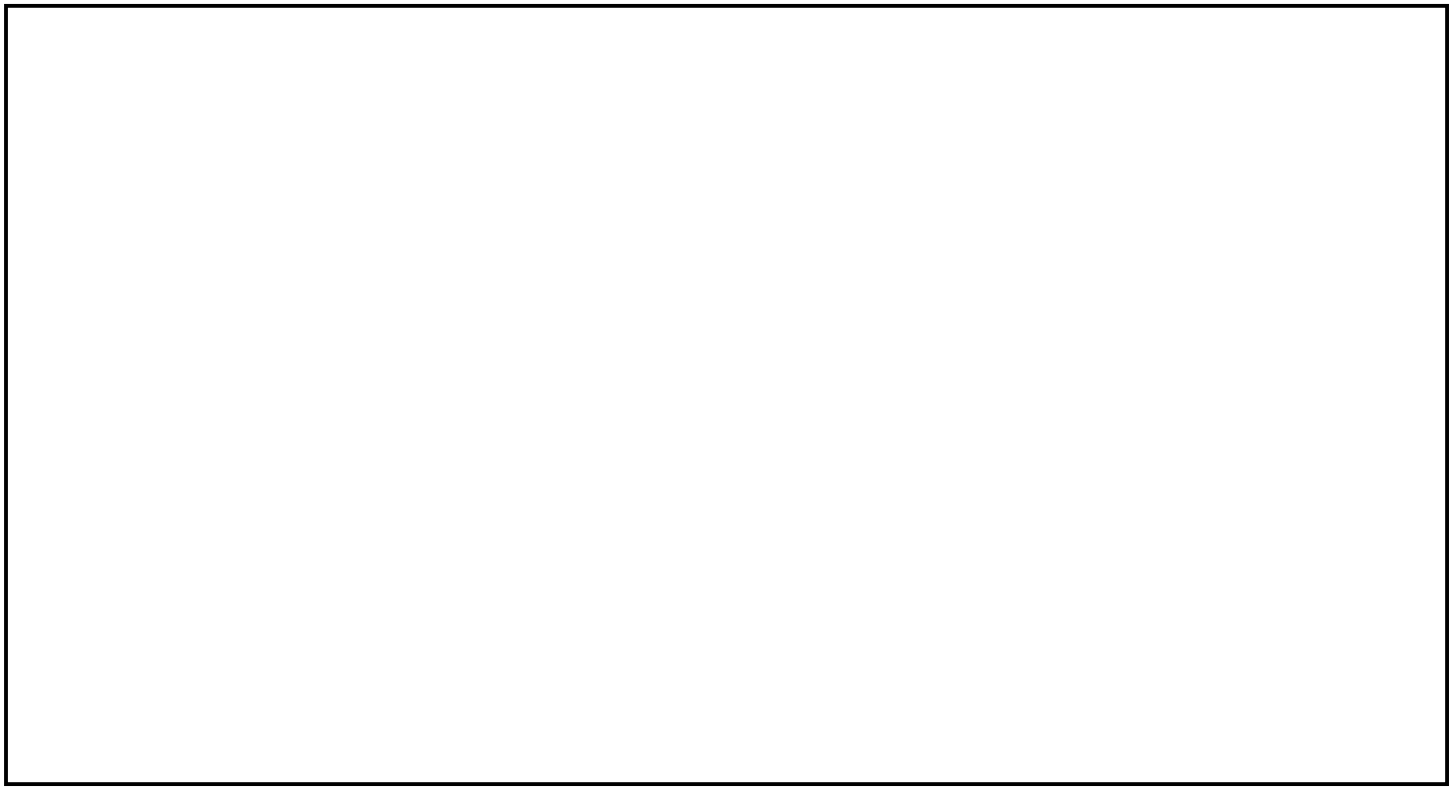

Input devices	Output devices
i.	i.
ii.	

d) Which hardware labeled 1- is housing Central Processing Unit of computer?

_____

_____

e) Draw well-labeled CPU BLOCK diagram by using pencil.

7. (a) Define Operating system(1mark)

_____

_____

b) Describe five resources managed by an operating system. (5marks)

i. _____
ii. _____
iii. _____
iv. _____
v. _____

c) With one example briefly explain the difference between single-user operating system and multi-user operating system. (2 marks)

_____

_____

_____

_____
