REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT
……SECONDARY SCHOOL
FORM ONE MIDTERM EXAMINATION

CODE:033 **BIOLOGY**

TIME: 2: 30 HRS **YEAR: AUGUST 2025**

INSTRUCTIONS

1. This paper consists three sections A, B and C.
2. Answer all the questions in all sections.
3. Section **A** and **C** carry **15 marks** each while section **B carries 70 marks.**

SECTION A (15 MARKS)

1. Choose the correct answer among the given alternatives and write the answer in the box provided below:

(i) The process which plants and some bacteria use the energy from the sun to produce glucose is called: -

A. Photolysis
B. Hydrolysis
C. Photosynthesis
D. Plasmolysis.

(ii) The following are typical part of eukaryotic cell except: -

A. Cytoplasm
B. Cell membrane
C. Nucleus
D. Cilia

(iii) A structure that enclose and protect the inner part of plant cell are called: -

A. Cell wall
B. Cell membrane
C. Nucleus
D. Chloroplasts

(iv) Which of the following field of study is not related to Biology?

A. Agriculture
B. Astronomy
C. Medicine
D. Nutrition

(v) The instrument which used to magnifying small specimen into large size is called: -

A. Beaker
B. Measuring cylinder
C. Microscope
D. Thermometer

(vi) The process of grouping organisms according to their similarities and differences is called: -

A. Classification
B. Nutrition
C. Reproduction
D. Respiration

(vii) In order to maintain the continuity of living things the organism should give birth of new individual of their kind. This process is called: -

A. Respiration
B. Excretion
C. Nutrition
D. Reproduction

(viii) Cells have various functions is human body, the process in which a cell change from one form to another and become more specialized to perform specific functions is called: -

A. Cell differentiation
B. Cell multiplication
C. Cell division
D. Cell clevelage

(ix) John is not feeling well, he goes to see a medical doctor at a nearby hospital. The doctor orders John's body temperature, blood and urine samples for observation in the laboratory. Which steps of the scientific method represented by these situations?

A. Problem identification and experimentation
B. Problem identification and hypothesis formulation
C. Experimentation and data recording
D. Data analysis and conclusion

(x) A form one student who was using light microscope in the laboratory complained that his micros scope was not functioning properly since the specimen under observation was not seen clearly. Which part among the following was not functioning properly?

A. Objective lens
B. Body tube
C. Revolving nosepiece
D. Mirror

2. Match the phrase in List A with responses in List B by writing the correct letter of the response in List B below the item number of List A in a table provided.

LIST A	LIST B
(i) The highest group in which Bacteria belong. (ii) The highest rank of classification. (iii) A group of organisms which can interbreed to produce viable offspring. (iv) A group of genera with similar characteristics. (v) A subdivision of a highest group of classification.	A. Kingdom Protoctista B. Kingdom Monera C. Species D. Kingdom E. Phylum F. Genus G. Order H. Family I. Class

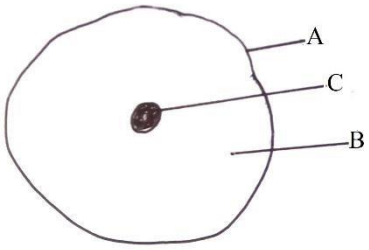

Answers

List A	(i)	(ii)	(iii)	(iv)	(v)
List B					

SECTION B (70 Marks)

Answer **all** questions in this section

3. Figure 1 represents a diagram of simple animal cell. Study the diagram, then answer the questions that follow:

(a) Name the parts labelled with letter A, B and C

A. ……...

B. ……..

C. ……..

(b) Give the function of the parts labelled by letter A and C.

A. ……

……

B. ……

……

C. ……

……

(c) Give three differences between animal cell and plant cell.

(i) ……

……

(ii) ……

……

(iii) ……

4. (a) Outline seven scientific procedure that can be used by the scientists to solve scientific problems.

(i) ……

(ii) ……

(iii) ……

(iv) ……

(v) ……

(vi) ……

(b) How do the following biological terminologies differ?

(i) Eukaryotic cell and prokaryotic cell……

……...

(ii) Zoology and Botany……

……

(c) Why mitochondria are called power houses of the cell?

……

……

5. (a)Biological apparatus are tools and equipment needed for effective studying of Biology. Give the name and uses of the apparatus shown in the following table:

Apparatus	Name	Uses
		
		

(b) Laboratory rule is important to ensure laboratory users and laboratory apparatus are safe. Suggest four laboratory rules that can be implemented in the biology laboratory in order to ensure safety of the laboratory users

(i) ……

(ii) …….

(iii)…….

(iv)……

(b) Distinguish laboratory from Biology laboratory

……

……

…….

6. (a) In four (4) points show how avocado cell and cheek cell are similar.

(i) ……

(ii) ……

(iii)……

(iv)……

(b) Draw the diagram of Avocado cell as seen under light microscope and show five (5) main parts.

7. Form two students asked by the teacher to walk around the school compound and collect variety of plants, insects and other animals and then group them according to their similarities and differences.
   (a) What is the name of the process?

   ……

   ……

   (b) Why do you think it is important to classify organisms? Give four (4) points
   (i) ……

   ……

   (ii) ……

   (iii)……

   ……

   (iv)……

   ……

7. (a) The head master of Maweni secondary school wants to construct a new biology laboratory. As a form one student advice the head master of Maweni secondary school on five qualities of good Biology laboratory.

   (i) ……..
   (ii) …….
   (iii)…….
   (iv)…….
   (v) …….

(b) Give the function of each of the following laboratory apparatus and equipment
   (i) Test tube brush…….....

   ……...

   (ii) Bunsen burner …….....

   ……...

   (iii)Petri dish……..

   ……...

   (iv)Specimen bottle…….

……...

(v) Hand lens…….....

……...

8. (a) Identify the field that uses the knowledge of Biology to solve the following problems.

(i) Improving crops and eggs production…….

(ii) Protecting cattle from tsetse flies……..

(iii)Conserving village river from drying……

(iv)Preventing, treating and curing diseases……

(b) Nuru is form one student she wrote the scientific name of human being as ***Homo sapiens***

(i) What system was used by the student to assign this name …….

(ii) Identify the genus and the specific epithet of the name ***Homo sapiens***

Genus ……. Specific epithet …….

(iii) Why the system used by the student to assign the scientific name of human being is very important? Give one reason

…….……

…….....

SECTION C (15 Marks)

Answer question **ten (10)**

10. Form one students, were debating on the motion "Biology is better than History" being the proposer side defend the motion with four (04) points.

……

……

……

……

……

……

……

……

……..

……

……

……

……

……

……

……

……

……

……..

……

……

……

……

……

……

……

……
