MICHAUD GIRLS SECONDARY SCHOOL

FORM ONE HOLYDAY PACKAGES -1 APRIL 2020

1. BIOLOGY

1. From items (i)-(x) Choose the correct answer among the alternative given and write its letter besides the item number.
   i. The study of living things is known as…….

      (a) Biology (b) Taxonomy (c) Chemistry (d) Cytology

   ii. A person who studies biology is called…….

      (a) Botanist (b) Zoologist (c) Biologist (d) mycologist

   iii. In biology, Human beings, lizards and fish belong to the following branch of Biology……

      (a) Mycology (b) botany (c) zoology (d0 virology

   iv. The process involving acquiring food materials from the environment and make use of it is known as.

      (a) Excretion (b) Reproduction (c) Nutrition (d) Respiration

   v. In scientific procedure which one of the following uses variables…….

      (a) Hypothesis (b) Data interpretation (c) Experimentation (d) Conclusion

   vi. All scientific investigations begin with …… of the environment.

      (a) An observation (b) Collecting data. (c) interpreting data (d) hypothesis

   vii. The chemical substance that catches fire easily is called……

      (a) Flammable (b) Biohazard (c) explosive (d) Toxic

   viii. Calculate the eye piece magnification, if the objective lens magnification is x40 and total magnification is x200.

      (a) x20 (b) x50 (c) x5 (d) x15

   ix. ……are important for cleaning wounds, cuts and prevent infections.

      (a) Pain killer (b) Antibiotics (c) Antiseptics (d) Medical scissors

   x. Children playing near the deep swimming pool, what danger are they facing?

      (a) Stings and bites (b) Bleeding (c) Drowning (d) Scalds and burns

2. Match the phrase or term in LIST A with the correct term or phrase in LIST B and write the letter from list B besides the roman in list A.

LIST A	LIST B
(i) The study of viruses, bacteria, protozoa and other very small organisms (ii) Wasps, bees and hornets (iii) Only applied to organic waste (iv) A product of eye piece power multiplied by objective lens power (v) Principles of proper waste disposal (vi) The study of structure of organisms (vii) Causes Malaria (viii) The discarded vegetable and dead animals (ix) Are sites for dumping waste and covering it with soil (x) Making useful product from waste	A. Magnification B. Gauze bandage C. Microbiology D. Compositing E. Recycling F. Stings G. Bites H. Plasmodium I. Anopheles mosquito J. Anatomy K. Physiology L. Reduction, re-use and recycle M. Recycle, burry and incinerate O. Waste disposal P. Recycling Q. Incineration R. Pit latrine S. Organic matter T. Inorganic matter

List A	i	ii	iii	iv	v	vi	vii	viii	ix	x
List B										

3. Write True for statements that are true and False for statements that are not true in the space provided against each statement.

i. Using cloth instead of paper to clean windows helps to reduce……
ii. A person who is nose bleeding should lie down……..
iii. Sexual harassment can neither make you worry nor make you drop out of school……
iv. A hand lens is used to make objects look smaller than normal size…….
v. A compound microscope is more powerful than an electron microscope……
vi. A test tube rack is used to hold test tubes during heating……
vii. All solid waste is Biodegradable……
viii. First aid is only provided by skilled people such as doctors and nurses……
ix. A toxic substance can only be harmful if swallowed……..
x. Stage clip is a part of a Microscope which holds the slide firmly in place……..

4(a) Define biology

(b) Why Biology is important? Give four reasons.

5(a) Define First aid.

(b) Why First aid is importance. Give four reasons.

6(a) Define Microscope

(b) Fill the gaps in the following table

Eyepiece lens magnification	Objective lens magnification	Total magnification
x15	x30	(a)……..
x20	(b)……	x500
(c)……..	x40	600
x25	x50	(d)……..

7(a) scientific measurements are taken using specific instruments and units. State the specific instrument and unit of the following measures

Measure	Instrument	SI unit
Mass	……	……..
Length	……..	……
Temperature	……..	……

(b) convert the following into kelvin

(i) 100^0C (ii) 40^0C

8(a) What is Biology **apparatus**?

(b) What Unique characteristics that distinguish biology laboratory from other school facilities such as chemistry and physics laboratory. Give four reasons.

9. Until today, waste disposal is a debate in Tanzania. Using the following guidelines write an essay on the waste disposal;

(i) Meaning of waste and waste disposal

(ii) Classes and types of waste

(iii) Proper ways of waste disposal

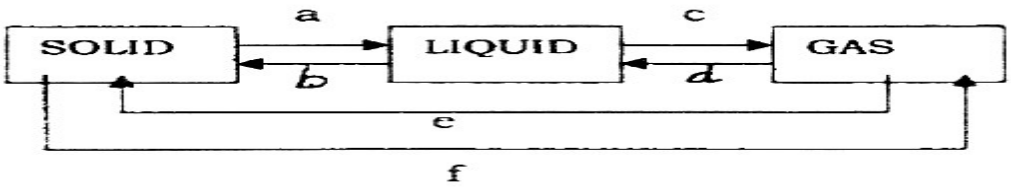

(iv) Effects of improper ways of waste disposal

(v) Prevention and control

10. Briefly explain, the procedures of giving First aid to a victim of Snake bit.

2.CHEMISTRY

1. (a)Define the following terms
   (i) First Aid
   (ii) First Aid Kit
   (b)Mention any ten items and their uses found in the First Aid Kit
   (c)Mention three (03) importance of first aid
2. (a) Define matter
   (b) Write the names of the following processes of changing matter from one state to another in figure below

3. (a)Explain why are there laboratory rules? Give two reasons.
   (b) Suppose your laboratory does not have any water, mention two possible dangers of using it
4. (a)By four reasons give out why most laboratory supplies are made by glass materials
5. (a) Define the following terms
   (i) Burns (ii) Suffocation (iii) Choking (iv) Bruises (v) Fainting
   (b) Give the uses of the following chemistry laboratory apparatus.
   (i) Test tube holder (ii) Test tube rack (iii) Tets tube rack (iv) Tongs (v) Fainting.
6. (a) What do you understand by the following terms.
   (i) Chemistry (ii) Chemists (iii) Pharmacists
   (b) List down four importance of studying chemistry.
7. (a)Define the following terms
   (i) Flame (ii) Luminous flame (iii) Non-luminous flame
   (b) List down four sources of heat in the laboratory.
   (c) Make five differences between luminous flame and non-luminous flame
8. (a) Draw the following diagram and provide their uses:-
   (i) Toxic (ii) Harmful (iii) Radioactive (iv) Flammable (v) Oxidant
   (b) Give the uses of the following components of first aid kit.
   (i) Water (ii) Torch (iii) Pain killer (iv)Whistle (v) Liniment

3. CIVICS

1. Define the following

   A. Civics

   B. A nation

   C. Family

   D. National symbols

   E. Life skills

   F. Parliament

2. Mention and explain the importance of studying civics

3. a) what is coat of arm?

   b) Mention and explain the components of the coat of arm.

4. National flag has four colours, mention them and explain the meaning of each colour.

5. a. Define social life skills.

   b. Explain the all aspects of social life skills

6. i. What are the sources of life skills? Mention 8

   ii. Identify the importance of life skill in our daily life

7. a) How can you apply life skills in your daily life?

   b) what are the impact of not applying life skills in our daily life?

8. a) Define citizenship

   b) List down and explain types of citizenship.

9. a) What a work?

   b) Mention the importance of work.

4.GEOGRAPHY

A. FILL THE BLANKS

1. The condition of atmosphere recorded over a short period of time is…….
2. ……..is the human activities which is affected by climate
3. The process whereby water vapour is turned into water droplets is called……
4. The farthest position from the sun in the orbit of the earth is called……
5. ……..means equal day and night

B. SHORT ANSWER

6. Define the following term
   (i) Climate
   (ii) Geography
   (iii) Rotation
   (iv) Weather
   (v) Revolution
7. Explain the evidence and effect of rotation
8. Explain the result of the earth revolution
9. The earth is sphere prove that statement
10. Mention four source of water in Tanzania
11. Explain how recent continent is formed
12. With the aid of diagram explain the feature of the ocean floor
13. Explain factor which affect weather of a place
14. Explain the importance of weather forecasting

5.ENGLISH

1. Mention and explain seven parts of speech of English language.
2. What are the types of each parts of speech?
3. State the uses of preposition;
   i. in
   ii. at
   iii. on
   iv. under
   v. since
   vi. for
   vii. after
4. What are the five terms used when describing and giving directions?.
5. Use the following words to give direction of different locations at Michaud Secondary school (opposite, behind, in front, beside, adjacent)
   i. Where is the National flag?
   ii. Where is the school Kitchen and Canteen?
   iii. Where is the netball ground from girls' toilet?
   iv. Where is school Library from Laboratory
   v. Where is headmistress office from form one A and B classes?
6. By using Pronoun' he' or 'she' express personal routine or habits at home in ten sentences.
7. Use your dictionary to differentiate the following words
   i. Sick/seek
   ii. Hunt/aunt
   iii. File/ fail
   iv. Lead/read
   v. Flour/flower
8. Mention ten occupations done by people in your society.
   i…… ii……. Iii ……. iv……. v…… vi…….. vii……. viii……. Ix…….. x…….. .
9. Change the following verbs in to simple present tense
   i. Caught ……..
   ii. Burnt ……..
   iii. Built ……
   iv. Matched …….
   v. Taught …….
10. Use any fruits or food to make three sentences by using a word 'like'.
11. Write the plural of the following words:-
   i. Man ……
   ii. Child ……..
   iii. Tooth ……..
   iv. Dress …….
   v. Watch ……
   vi. Cut ……..
   vii. Mango …….
12. Answer the following questions by using appropriate words
   i. The sister of your wife is your ……..
   ii. The son of your brother is your ……
   iii. The daughter of your sister is your ……
   iv. The brother of your Father is your ……..
   v. The child of your uncle is your ……..

6.KISWAHILI

1. Taja aina nane za maneno katika Lugha ya Kiswahili na kuzitolea maana zake.
2. Nomino zimegawanyika katika makundi mangapi? Elezea makundi hayo.
3. Andika wingi wa viwakilishi vifuatavyo kisha tunga sentensi kwa kila moja
    i. Mimi ……..
    ii. Yeye ……
    iii. Wewe …….
4. Vifuatavyo ni vitenzi, kwa kila kimoja unda nomino moja
    i. Andika ……..
    ii. Cheza ……..
    iii. Sema ……..
    iv. Lima ……..
    v. Funga ……
5. Eleza maana ya Lugha na kisha taja Nyanja kuu mbili za Lugha kwa kuzingantia mambo makuu yanayo jenga lugha.
6. Eleza dhima tano za lugha katika jamii.
7. Eleza maana ya kamusi na utaje kazi tano za Kamusi.
8. Panga maneno yafuatayo kama yanavyotakiwa kuwa katika Kamusi
    i. Duwaa
    ii. Chichiri
    iii. Adhabu
    iv. Kidahizo
    v. Faladi
    vi. Chege
    vii. Kitomeo
    viii. Dabiri
    ix. Anzari
    x. Fanusi
9. Bainisha alama zisizopungua tano na matumizi yake katika Kamusi.
10. Kamusi ina mambo makuu mawili ambayo ni Kidahizo na Kitomeo. Taja taarifa tano zinazopatikana katika Kitomeo

7.PHYSICS

1. (a)Define physics (b) pressure depends on ……and …….
   (c) Find the pressure exerted by a force of 50000N acting on a surface area of 10000m^2
2. (a)A piece of metal has mass of 0.72g and volume of 0.24cm^3 . calculate the relative density if the density of the steel metal is 7.9g/cm^3
3. (a). Define matter
   (b). State three states of matter and give one example for each.
   (c) A block weighs 1.50N in air .when it is completely immersed in water it weighs 1.0N. Calculate
   (i) Relative density (ii) density of the body
4. Define the following terms
   (a) (i) First aid
   (ii) First aid kit
   (iii) Laboratory
   (b) Why water is not suitable for fire extinguisher?
5. Mention 4 importance of the scientific
   (a) Procedure
   (b) Differentiate mass and weight (4 differences)
6. (a) The mass of the solid object with an irregular shape is 40g. The solid object is totally immersed in water of volume 50cm^3 containing in a Measuring cylinder rise to 70cm^3. Calculate the density of the body.
7. (a) Define the following terms
   (i) Fundamental force
   (ii) Electromagnetic force
   (iii) Friction force

   (b)State the properties of gravitational force.

8. (a) define
   (i) Up thrust
   (ii) A parent weight

   (b)A body immersed in water displaced 1.1N of the liquid if its weight when weighs in water is 3.3N. Find the weight in air

9. (a) (i) Define sinking

   (ii) State the conditions for sinking (two conditions)

   (b)(i) Define floating

   (ii) State the conditions for floating

   (iii)State the law of floating

10. (a) State hooks law
    (b) Define the following terms (i) Kinetic theory of matter (ii) Brownian motion
    (iii)Elasticity (iv) Surface tension.

8.MATHEMATICS

1. a)Write $\frac{31}{8}$ as a mixed number

   b) How many minutes are there in 3 hours?
2. What is x, if x+2y = 16 and y = 3.
3. Write the number 2373695 in words
4. Find the lowest common multiple and greatest common factor of 24,36,48
5. If N is a number. Such that when multiplied by 0.75 gives 1. Find the value of N
6. Write the following number in the shortest form 9×100000+3×10+7×1000+9×1+3×100
7. Write 624.3278 correct to
   a. Three significant figures
   b. Three decimal places
8. Perform the following $3\frac{9}{10} \div (3\frac{3}{5} - 1\frac{1}{2}) + 3\frac{1}{2}$
9. Find the difference between 2.45 a.m and 2.49 p.m
10. Round off 86787413 to the nearest
    i. Thousands
    ii. Millions
11. Represent on the number line -9 + 4 = -5
12. Express $1.9\dot{6}$ in the form of $\frac{a}{b}$, where a and b are integers such that b≠0
13. The sum of three consecutive numbers is 99, find the three numbers
14. Simplify 18n +25p -6n -10p + n -2p
15. Find

	km	dam	dm
	2	10	91
+	7	92	18

dm	cm	mm
5	8	9
×		18

16. John is 5cm taller than his friend Ally and the sum of their height is 307cm. Find their height
17. Simplify (3x-y)-2(4x-3y)
18. Kafwembe drinks 400ml of milk every day.How many litres will Kafwembe drink for one week.
19. a) Find the value of 't' given that 2t = 0.25.

    b) $3\frac{1}{3} + 4\frac{1}{2}$ =
20. a)How many even number are there between 710 and 720

    b) Write down the place value of digit 6 in 278.768
21. a) Represent $-4 < y \leq 6$ on a number line

    b) Fill the following table by changing time as shown in the table

12-hours		3.38 p.m
24-hours	0037-hours	

c) What time is 5-hours 30 min before 2.18 a.m

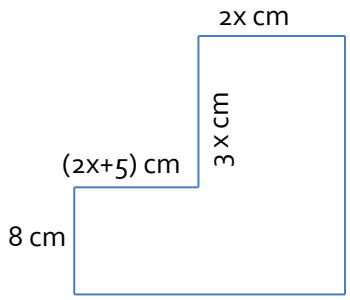

d) During examination, a student sat for 6 papers. The first paper lasted $2\frac{1}{2}$ hours,The second and third paper lasted 1 hour 40 minutes each. The fourth and fifth paper lasted $2\frac{1}{2}$ each, and the last paper lasted 2 hours 50 minutes, Find the total time the student took to the Examination.

22. a) solve $\frac{0.4 \times (3.4 \div 0.17)}{2.46 - 0.06}$

b) Solve the following system of simultaneous equations $\begin{cases} p + 2q = 8 \\ 2p - q = -2 \end{cases}$

23. a) Magu is 7 years younger than her brother Patrice. If the sum of their age is 47 years. Find their ages.

b) Find x, if the perimeter of the figure is 68cm

24. a) Solve for x, $\frac{x+1}{2} - \frac{x+3}{7} = 5$

b) Solve the following inequality, 12- x > 6 + 2x > x-2

c) A red light flashes on every 8 seconds and a green light flashes on every 10 seconds. If the two lights are switched on at the same time. After how long will both lights flashes on together?

9. HISTORY

1. Write short notes on the following historical terms

i.	Oral tradition	vii.	Stone age
ii.	Carbon 14	viii.	Australopithecus
iii.	Museums	ix.	Homo Habilis
iv.	Anthropology	x.	Homo Erectus
v.	Generation	xi.	Homo sapiens
vi.	Evolution		

2. Draw a sketch map of East Africa and mark the following historical sites: Olduvai Gorge, Mogadishu, Kilwa, Mombasa, Lamu, Kalambo, Nsongezi, Engaruka and Biggo.
3. Mention five (5) sources of historical information
4. Mention five (5) limitation of archaeology as source of getting historical information
5. Briefly differentiate between historical sites and museums

ESSAY QUESTIONS

6. Explain five (5) importance of studying history
7. Explain five (5) uses of fire during middle stone age
8. Explain five (5) advantages of oral tradition as a method of constructing history.
9. Explain five (5) stages of evolution of man

Preapred by

Michaud Girls Secondary Staff
