Ability of the body to resist infection and disease iv. The invasion of pathogens into the body of living organism. v. A process of inducing antigens into a health person,	A. Disease B. Vaccination C. Infections D. Vectors E. Immunity F. Endemic G. Antibodies H. Pandemic

LIST A	**(I)**	**II**	**III**	**IV**
LIST B				

SECTION B (50 Marks)

Answer all questions in this section

4. (a) Five importance of studying Biology are

i. _____

ii. _____

iii. _____

iv. _____

v. _____

(b)

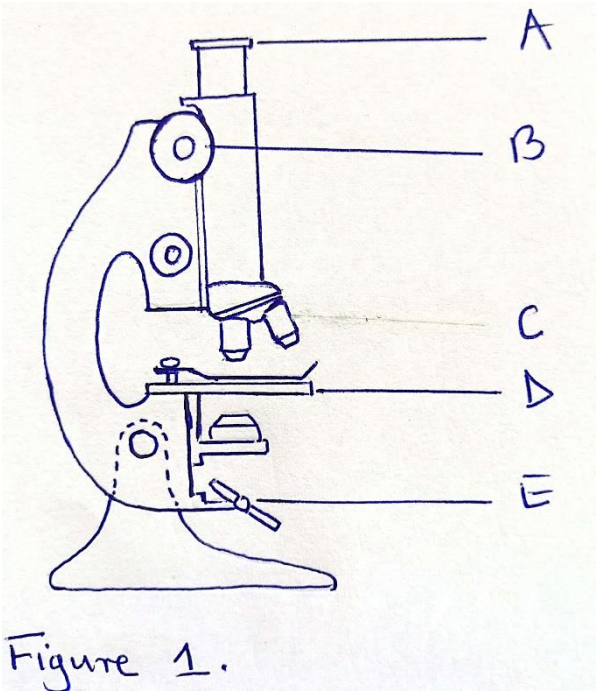

Figure 1.

i. Name the parts labeled A - E

A. _____

B. _____

C. _____

D. _____

E. _____

ii. State the function of the part labeled E

_____

_____

_____

5. (a) State The use of the following components of First Aid Kit

i. Cotton wool

_____

ii. New razor blade

_____

iii. Soap

_____

iv. Iodine tincture

_____

(b) Draw the diagram of the following

i. Beaker

ii. Mortar and pestle

6. (a)Good manner is

_____

_____

(b) Five (5) principles of personal hygiene are

i. _____
ii. _____
iii. _____
iv. _____
v. _____

7. (a) A disease is

_____

_____

_____

(b) The constatives of ill health are

i. _____
ii. _____
iii. _____
iv. _____
v. _____

8. (a) Waste is

_____

_____

_____

(b) Three sources of wastes are

i. _____
ii. _____
iii. _____

(c) Three states of waste materials are

i. _____

ii. _____

iii. _____

(d) Two common accidents occur at homes are

i. _____

ii. _____

SECTION C (20 Marks)
Answer all question in this section

9. Read the passage and fill the blanks provided

A laboratory is a designed place, or a room or a building used for keeping specimens, equipments or apparatus and conducting scientific experiments. Three types of school laboratory are (i)_____. (ii) _____ and (iii) _____
In the laboratory, the experimenter must be guided by some laboratory rules. Those laboratory rules help the experimenter to carry out experiments in safety condition; such laboratory rules are (iv)_____ , (v)_____, (vi) _____, (vii) _____, (viii)_____, (ix)_____ and (x) _____

Any laboratory should be known as good laboratory if has the following features, has a big space for doing experiments, has large windows for air ventilation and allowing light to enter, has been supplied with systems like water, sewage and electricity; also has enough apparatus and other equipment; supplied with specimens guided by orders and laboratory rules and furthermore there must be laboratory technician

ANSWERS:

i. _____

ii. _____

iii. _____

iv. _____

v. _____

vi. _____

vii. _____

viii. _____

ix. _____

x. _____
