Student's Full Name: ……

THE CATHOLIC DIOCESE OF SAME
KINDOROKO GIRLS' SECONDARY SCHOOL
FORM ONE FIRST CONTINUOUS ASSESSMENT TEST

033 **BIOLOGY**

Time: 2:00 Hours **Year: 2025**

Instructions

1. This paper consists of sections A, B and C with a total of **ten (10)** questions.
2. Answer **all** questions in the spaces provided.
3. Section A and C carry **fifteen (15)** marks each and section B carries **seventy (70)** marks.
4. Except for drawings which must be drawn in pencil, all writings must be in **blue** or **black** ink.
5. Cellular phones, calculators and any unauthorized materials are **not** allowed in the assessment room.
6. Write your **Name in Full** on the top right hand corner of every page.

KINDOROKO BIO 1 CAT 1 2025

Student's Full Name: ……

SECTION A (15 Marks)

Answer **all** questions in this section

1. For each of the items (i) – (x), choose the correct answer from among the given alternatives and write its letter besides the item number in the space provided.

(i) Biology comes from two Greek words: **Bios** and **Logos**. The term ***"bios"*** means:

A Cell B Life
C Study D Organism

(ii) A chemical substance used by farmers to control fungi (*sing: fungus*) in their crops is called:

A Herbicide B Insecticide
C Fungicide D Pesticide

(iii) A person who studies biology is most likely to become:

A A doctor B A policeman or woman
C A bank clerk D A carpenter

(iv) Zumina likes to observe different plants like Mango, Beans, Hibiscus, Pawpaw, Moss and Fern plants. Therefore, Zumina is a:

A Plantist B Zoologist
C Botanist D Scientist

(v) All living things must get food for them to survive. How do plants get their food?

A Through phototropism B Through photosynthesis
C Through hydrotropism D They eat fungi like mushroom

(vi) What is agriculture?

A Is the study of interaction between living things and their environment
B Is the practice of keeping animals and growing crops for food or business
C Is the branch of science that deals with the study of classification
D Is the study of different food substances and their usefulness in the body

(vii) Biology deals with the study of things like:

A Rats, moss plants and mushroom B Stones, cockroaches and goats
C Elephants, water and plants D Butterflies, air and sand

(viii) Very small organisms that cannot be seen by the naked eyes but they can only be seen using a microscope are known as:

A Multicellular organisms B Living organisms
C Plants and animals D Microorganisms

(ix) Tics live on the skin of cows and suck blood from them. Therefore, tics are:

A Parasites B Non-living things
C Microorganisms D Insects

(x) The state of existing and being alive that distinguish living from non-living things is called:

A Biology B Life

C Cell D Organisms

ANSWERS

QUESTION	(i)	(ii)	(iii)	(iv)	(v)	(vi)	(vii)	(viii)	(ix)	(x)
ANSWER										

2. Match each definition in **List A** with the correct branch of biology in **List B** by writing its letter below the number of the corresponding item in the space provided.

LIST A	**LIST B**
(i) The study of cells	A Genetics
(ii) The study of insects	B Fungology
(iii) The study of fungi	C Entomology
(iv) The study of heredity and variation	D Virology
(v) The study of viruses	E Cytology
	F Insectology
	G Mycology

ANSWERS

LIST A	(i)	(ii)	(iii)	(iv)	(v)
LIST B					

SECTION B (70 Marks)

Answer **all** questions in this section

3. Give the meaning of the following terminologies:

(a) Unicellular organism ...……..

..……..

(b) Taxonomy ……

..……..

(c) Bacteriologist ..……..

..……..

(d) Cell ..……..

..……..

(e) Microscope ……

..……..

4. In order to enhance safety around the school compound, students are taught how to fight the fire. As a good student who attended the training about firefighting, answer the following questions:
   (a) State the burning material in each of the following classes of fire:
      (i) Class A fire ...……
      (ii) Class B fire ...……
      (iii) Class C fire ...……
      (iv) Class D fire ...……
   (b) Analyze the steps involved in the process of fighting fire using a portable fire extinguisher.

      ……

      ……

      ……

      ……

      ……

      ……

      ……

5. (a) Define the term **biology**. ...……

      ……

   (b) Point out four importance of studying biology.
      (i) ...……
      (ii) ...……
      (iii) ...……
      (iv) ...……

6. (a) What is the laboratory? ….……

      ...……..

   (b) As a biologist, how would you use the following equipment in the biology laboratory?
      (i) A cage ……..
      (ii) An aquarium ……..
   (c) Briefly explain four characteristics of a good biology laboratory.
      (i) ...……
      (ii) ...……
      (iii) ...……
      (iv) ...……

7. Njengite studies biology very hard because she wants to become the best agriculturalist in future. Help Njengite with the answers of the following questions:

   (a) What is the main job of agriculturalists? ……...

   ..……..

   (b) Highlight four applications of the knowledge of biology in agriculture.

   (i) ..……

   (ii) ..……

   (iii) ..……

   (iv) ..……

8. (a) Fill in the table below about the main branches of biology.

S/N	BRANCH	WHAT IT DEALS WITH
(i)		
(ii)		
(iii)		

   (b) Apart from agriculture, name four other fields in which the knowledge of biology is applied.

   (i) ..……

   (ii) ..……

   (iii) ..……

   (iv) ..……

9. (a) List down any four things which **DO NOT** have life.

   (i) ..……

   (ii) ..……

   (iii) ..……

   (iv) ..……

   (b) Mosquitoes are living things. Give six points to support this statement.

   (i) ..……

   (ii) ..……

   (iii) ..……

   (iv) ..……

   (v) ..……

   (vi) ..……

Student's Full Name: ……

SECTION C (15 Marks)

Answer the question **ten (10)** below

10. (a) Describe three things that you are **NOT** supposed to do when you work in the laboratory.

(i) ……

(ii) ……

(iii) ……

(b) Give the name of the following apparatii which are commonly used in the biology laboratory.

S/N	APPARATUS	NAME
(i)		
(ii)		
(iii)		
(iv)		

(c) Draw the diagram of the following warning signs.

S/N	WARNING SIGN	DIAGRAM
(i)	Flammable	
(ii)	Toxic	
(iii)	Oxidizing agent	
(iv)	Harmful
