Student's Full Name: ……

THE CATHOLIC DIOCESE OF SAME
KINDOROKO GIRLS' SECONDARY SCHOOL
FORM ONE TERMINAL EXAMINATIONS

033 **BIOLOGY**

Time: 2:30 Hours **Year: 2025**

Instructions

1. This paper consists of sections A, B and C with a total of **ten (10)** questions.
2. Answer **all** questions in the spaces provided.
3. Section A and C carry **fifteen (15)** marks each and section B carries **seventy (70)** marks.
4. Except for drawings which must be drawn in pencil, all writings must be in **blue** or **black** ink.
5. Cellular phones, calculators and any unauthorized materials are **not** allowed in the assessment room.
6. Write your **Name in Full** on the top right hand corner of every page.

KINDOROKO TERMINAL 2025

Student's Full Name: ……

SECTION A (15 Marks)

Answer **all** questions in this section

1. For each of the items (i) – (x), choose the correct answer from among the given alternatives and write its letter besides the item number in the space provided.

(i) Which of the following fields is not related to biology?

A Agriculture B Astrology
C Medicine D Nutrition

(ii) The branch of biology that deals with microbes is called:

A Microbiology B Botany
C Cytology D Zoology

(iii) The practice of keeping animals and growing crops is called**:**

A Nutrition B Agriculture
C Medicine D Forestry

(iv) The term bios means:

A Life B Study
C Cell D Bacteria

(v) We can see very small organisms by using:

A Beaker B Conical flask
C Periscope D Microscope

(vi) The nucleus of the animal cell is:

A At the peripheral B In the vacuole
C At the center D Outside the cell

(vii) 0 degrees Celsius is equal to**:**

A 273.15 Fahrenheit B 273.15 Kilograms
C 273.15 Kelvin D 273.15 Milliliters

(viii) The sense organ used to detect the taste of food is:

A The tongue B The nose
C Ears D Eyes

(ix) The first step in scientific procedure is:

A Hypothesis formulation B Identifying the problem
C Experimentation D Data analysis

(x) Which of the following is **correct** about the leaf of sugarcane plant?

A It is short and broad B It is thin and long
C It has parallel veins D It is yellow in colour

ANSWERS

QUESTION	(i)	(ii)	(iii)	(iv)	(v)	(vi)	(vii)	(viii)	(ix)	(x)
ANSWER										

2. Match each of the sets in **List A** with the branches of biology in which they are studied in **List B** by writing its letter below the corresponding item number in the space provided.

LIST A		**LIST B**	
(i)	Dropper	A	To observe small organisms
(ii)	Thermometer	B	To stir chemicals so as to mix well
(iii)	Hand lens	C	To transfer liquid drop by drop
(iv)	Bunsen burner	D	To measure temperature
(v)	Glass rod	E	To heat chemical substances
		F	To store specimens for future use

ANSWERS

LIST A	(i)	(ii)	(iii)	(iv)	(v)
LIST B					

SECTION B (70 Marks)

Answer **all** questions in this section

3. (a) Define the following terms:

(i) Biology ……

..……

(ii) Hypothesis ...……

..……

(iii) Cage ….....……

..……

(iv) Multicellular organism ……

..……

(v) Cell ...……...……

..……

(b) Briefly explain five life processes exhibited by all living things.

(i) ..……

..……

(ii) ..……

..……

(iii) ..……

..……

(iv) ..……

..……

(v) ..……

..……

4. (a) State any four characteristics of a good laboratory.

   (i) ……..

   (ii) ……..

   (iii) ……..

   (iv) ……..

   (b) With examples, explain three types of variables used during laboratory and other scientific activities.

   (i) ……..

   ……..

   (ii) ……..

   ……..

   (iii) ……..

   ……..

5. (a) What is the microscope? ….……..

   ……..……..

   ……..……..

   (b) Outline four precautions to be considered when handling the microscope.

   (i) ……..

   (ii) ……..

   (iii) ……..

   (iv) ……..

   (c) What is the smallest total magnification of the specimen being observed by using a light microscope whose eye piece lens is written 18X and the objective lenses are 120X, 45X and 80X?

   ……..……..

   ……..……..

   ……..……..

   ……..……..

   ……..……..

   ……..……..

   ……..……..

   ……..……..

   ……..……..

(d) Draw a well labeled diagram of the light microscope and label its parts.

6. Yasinta does not like biology. Convince her to like it by using five points.

(i) ……..……..

……..……..

(ii) ……..……..

……..……..

(iii) ……..……..

……..……..

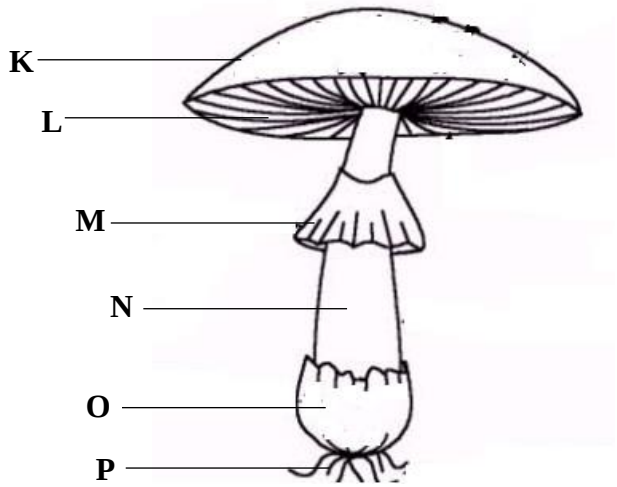

(iv) ……..……..

……..……..

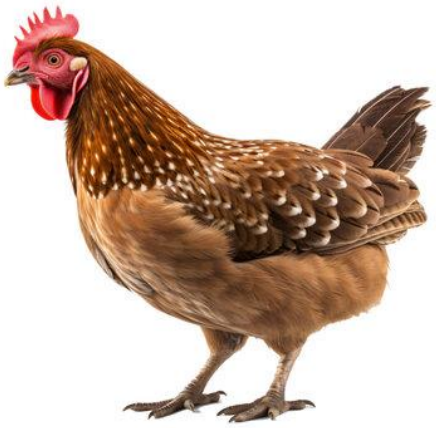

(v) ……..……..

……..……..

7. Carefully study the specimens below and then answer the questions that follow:

Specimen AA

Specimen BB

(a) Give the name of the organisms above and identify the Kingdom into which each of them belongs.

SPECIMEN	NAME	KINGDOM
AA		
BB		

(b) Name the parts labeled **K, L, M, N, O** and **P** on specimen **AA**.

K ……..……..

L ……..……..

M ……..……..

N ……..……..

O ……..……..

P ……..……..

(c) What difference do you see between specimen **AA** and **BB**?

……..……

……..……

……..……

(d) What is the name of a person who is specialized in the study of specimen **AA**?

……..……

(e) Identify one advantage of specimen **BB** in to human being.

……..……

……..……

8. (a) Mention and define the two types of cells.

……...……

……...……

……...……

……...……

……...……

(b) Analyze four similarities between plant and animal cells.

(i) ……..

(ii) ……..

(iii) ……..

(iv) ……..

(c) How does a bacterial cell differ from animal cell in terms of the following?

SN	CRITERIA	BACTERIA CELL	ANIMAL CELL
(i)	Cell wall		
(ii)	Type of nucleus		
(iii)	Shape		
(iv)	Size		

9. (a) List down two behaviours that every person must avoid when eating food.

(i) ……..

(ii) ……..

(b) Explain four importance of plants in the environment.

(i) ……..

……..

(ii) ……..

……..

(iii) ……..

……..

(iv) ……..

……..

SECTION C (15 Marks)

Answer the question **ten (10)** below

10. Explain any six minor branches of biology showing clearly what each branch deals with.

© Mr. Ephraim Joseph Seth
