STUDENT'S NAME_____

**PRESDENT'S OFFICE**
**REGIONAL ADMINISTARTION AND LOCAL GOVERNMENT**
**LONGIDO DISTRICT**
**FORM ONE MIDTERM TEST**
# BIOLOGY

**TIME: 2:30 HRS.**

## SECTION A (20 marks)

1. (i) Which of the following terms is not a branch of biology.
   A. Microbiology
   B. Ecology
   C. Science
   D. Taxonomy

(ii) Which of the following is NOT a field of study related to biology?
   A. Agriculture
   B. Astronomy
   C. Medicine
   D. Nutrition

(iii) Of the terms listed below, which are the two main branches of Biology?
   A. Cytology and ethology
   B. Botany and Zoology
   C. Mammology and ornithology
   D. Limnology and hydrobiology

(iv) Which of the following is not a contribution of Biology in the field of Forestry?
   A. Fast maturing plants
   B. Increased desertification
   C. Varieties of trees that grow well in arid areas
   D. Solutions to plant diseases and pest

(v) Which of the following sets include a characteristics, that is not exclusive to living organism?
   A. Feeding, irritability and growth
   B. Reproduction, death and definite shape
   C. Excretion, locomotion and feeding
   D. Growth, movement and respiration

(vi) In biological investigations the aim of an experiment is to:
   A. predict the problem
   B. confirm the results
   C. identify the problem
   D. test the hypothesis

**STUDENT'S NAME**_____

(vii) Juma picked up a phone after hearing it ringing. Which characteristic of living things was Juma showing by these action?

A. Growth
B. Movement
C. Nutrition
D. Irritability

(viii) Form one students at Mtakuja secondary school were seen by their head of school collecting houseflies, grasshoppers, butterflies, and millipedes that can study them. Which branch of biology is concerning with their activities?

A. Parasitology
B. Mycology
C. Microbiology
D. Entomology

(ix) A mother went to hospital with her baby complaining of the baby high body temperature. Which instrument will be used to examine the baby?

A. Beam balance
B. Thermometer
C. Stopwatch
D. Stethoscope.

(x) The following are the basic life processes, except……

A. sleeping
B. movement
C. feeding
D. respiration

| (i) | (ii) | (iii) | (iv) | (v) | (vi) | (vii) | (viii) | (ix) | (x) |
|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | | | |

2. Match the following parts of the body with their functions

| Body part | Function |
|---|---|
| (i) Leg | A) Hear |
| (ii) Digits | B) See |
| (iii)Elbow | C) Protect the eye |
| (iv)Arm | D) Walk |
| (v) Ankles | E) Feeling |
| (vi)Eyes | F) Bend the fingers to grip |
| (vii) Ears | G) Lift things |
| (viii) Nose | H) Bends the arm he makes it work |
| (ix)Eyelids | I) Grip/hold things |
| (x) Skin | J) Smell |

| Body part | i. | ii. | iii. | iv. | v. | vi. | vii. | viii. | ix. | x. |
|---|---|---|---|---|---|---|---|---|---|---|
| Function | | | | | | | | | | |

**STUDENT'S NAME**_____

## SECTION B (70 marks)

3. Group the following things into either living things or non –living things.

| |
|---|
| Stone, chair, table, mango tree, snake, cup, lizard, guinea, ruler and duck. |

| LIVING THINGS | NON - LIVING THINGS |
|---|---|
| | |
| | |
| | |
| | |
| | |

4. (a) List five (05) domestic animals.

(i) _____
(ii) _____
(iii) _____
(iv) _____
(v) _____

b) Define the following terms as used in biology

(i) Biology

_____
_____

(ii) Nutrition

_____
_____

(iii)Botany

_____
_____

(iv)Zoology

_____
_____

(v) Entomology

_____
_____

5. (a) Aneth required to give seven characteristics of living things by his teacher but she only give two of them. Can you please help her other five.

(i) _____
(ii) _____
(iii) _____
(iv) _____
(v) _____

5(b) With specific examples, mention five (5) reasons why we should study biology.

i. ……..
ii. ……..
iii. ……..
iv. ……...
v. ……

6. Fill the blanks by using the words given below.

| Live, transmitted, cause, multiplies, measles |
|---|

A virus is a very small organism that (a) _____ in living things. Viruses can (b) _____ in all types of animals and plants. In human beings, viruses are (c)_____ from one person to another through contact with an infected person. Viruses can (d)_____ various diseases including HIV/AIDS, rabies, flu, dengue fever, Ebola, common cold, mumps yellow fever, (e)_____ and mouth disease.

7. (a) State the unit and instrument that will you use to measure the following:-

| | QUANTITY/MEASURES | INSTRUMENT | UNIT |
|---|---|---|---|
| i | Time | | |
| ii | Mass | | |
| iii | Length | | |
| iv | Temperature | | |

b) Mention steps of conducting a scientific experiment.

(i)_____

(ii)_____

(iii)_____

(iv)_____

(v)_____

(vi)_____

**STUDENT'S NAME**_____

8. (a) What do you understand by the following terms

i. Laboratory

_____

_____

ii. Biology laboratory

_____

_____

(b) List any five equipments that are found in a biology laboratory.

(i) _____
(ii) _____
(iii)_____
(iv)_____
(v) _____

9. (a) Define the following terms.

(i) Inanimate things

_____

_____

(ii) Animate things.

_____

_____

(b) What are the factors to consider when constructing a biological laboratory?

_____
_____
_____
_____
_____
_____

**SECTION C (10 marks)**

10. List down any ten (10) laboratory rules.

(i) _____
(ii) _____
(iii)_____
(iv)_____
(v) _____
(vi)_____
(vii) _____
(viii) _____
(ix)_____
(x) _____
