CANDIDATE NAME _____

THE PRESIDENT'S OFFICE- RALG
LONGIDO DISTRICT PRE REGIONAL MOCK 2021
FORM ONE
BIOLOGY

033
TIME: 2:30 HRS
Instruction

- This paper consist of two section **A** and **B**
- Answer **all** the questions in both section
- All writing should be in **black** or **blue pen** except for diagram must be drown in **pencil**
- Cellular phone and any unauthorized material are not allowed in **Examination Room**
- Write your **NAME** on every page of your answer sheet provided

SECTION A
Answer all the questions

1. Question (i-x) is multiple choice items. Write the correct letter of the answer in each case
   i. Which the following will be a sequence to follow in the scientific procedure after formulation of hypothesis?
      A. Observation
      B. Problem setting
      C. Experimentation
      D. Conclusion
   ii. Modern chemical container carry special chemical warning sign which are
      A. Explosive, Toxic and Cohesive
      B. Explosive, Additive and Toxic
      C. Explosive, oxidizing agent and Toxic
      D. Flammable, Explosive and concentrated
   iii. Which of following is the correct definition of the word Biology
      A. A study of living things
      B. Study of plant and Animal
      C. Scientific study of life and living things
      D. All the above
   iv. First aid is given to
      A. A victim of an accident
      B. A victim after visiting doctor
      C. Anyone who wants it
      D. Patients in the hospital
   v. In the microscope the eyepiece reads x10 and objective lens reads x40 the total magnification is
      A. 400 times
      B. 200 times
      C. 300 times
      D. 40 times
   vi. Tila quickly removed his hand up touching a hot metal cup. In that case Tila exhibited
      A. Response
      B. Irritability
      C. Fairness
      D. Irresponsibility

CANDIDATE NAME _____

vii. Incinerator is the best method for burning
   A. Organic waste
   B. Non organic state
   C. Gaseous waste
   D. All type of waste

viii. Are condition or factors that can change or be changed in an experiment
   A. Hypothesis
   B. Variables
   C. Problems
   D. Conclusion

ix. Which the following is Not the contribution of biology in the field of forestry
   A. Fast manufacturing plant
   B. Increase desertification
   C. Varieties of plant that do well in arid areas
   D. Solution to plant disease and pest

x. In biology human being, lizard and Fish belong to the following brach of biology
   A. Mycology
   B. Virology
   C. Zoology
   D. Botany

i	ii	iii	iv	v	vi	vii	viii	ix	X

2. In each the following statement write TRUE if the statement is correct and FALSE if the statement is not correct
   i. Scientific use the beam balance to measure volume_____
   ii. The word BIOLOGY comes from the Greek words, Bios and Logos _____
   iii. A hypothesis is an idea or explanation that is proposed as an answer to observe the problems _____
   iv. Using Microscope , Biologist have been able to observe small organism _____
   v. We use clean water salt and sugar to make a rehydration drink for the person who as vomiting _____

i	ii	iii	iv	v

3. Match the function of the part of the microscope in List A with their corresponding parts of microscope in LIST B by writing the letter of the correct response beside the item number of the answer sheet provided

LIST A	LIST B
i. Allow the light to pass from the objective lens to the eyepiece ii. Support the eyepiece, revolve nose piece iii. Rise and lower the body tube in order to bring the sharp image in focus iv. Rises or lower body tube in order to bring the image in focus v. Rises and lower the stage to keep the spacemen in right position for observation	A. Body tube B. Course adjustment knob C. Diaphragm D. Fine adjustment knob E. Huge screw F. Mirror G. Ocular tube H. Stage clip

CANDIDATE NAME _____

LIST A	i	ii	iii	iv	v
LIST B					

SECTION B
Answer all questions

4. (a) What is laboratory

_____
_____

(b) According to the laboratory rules, what should do in the following situation?

i. While boiling some water you realize that you need to go and get book from the class room
_____
ii. You have finished the experiment of biology for the day
_____
iii. Your partner is bitten by a mouse during the activity
_____
iv. You need to perform experiment but there is no body in Laboratory
_____

5. (a) What is first aid

_____
_____

(b) List four (4) component of the first aid

i. _____
ii. _____
iii. _____
iv. _____

(c) State the procedure of giving first aide to a person who has been bitten by snake

6. (a)Outline four (4) qualities of good laboratory

i. _____
ii. _____
iii. _____
iv. _____

(b) Mention functions of the following apparatus

i. Dropper _____
ii. Mortar and pestle _____
iii. Crucible _____
iv. Sweep net _____

7. (a)Define the term Biology and Biologist

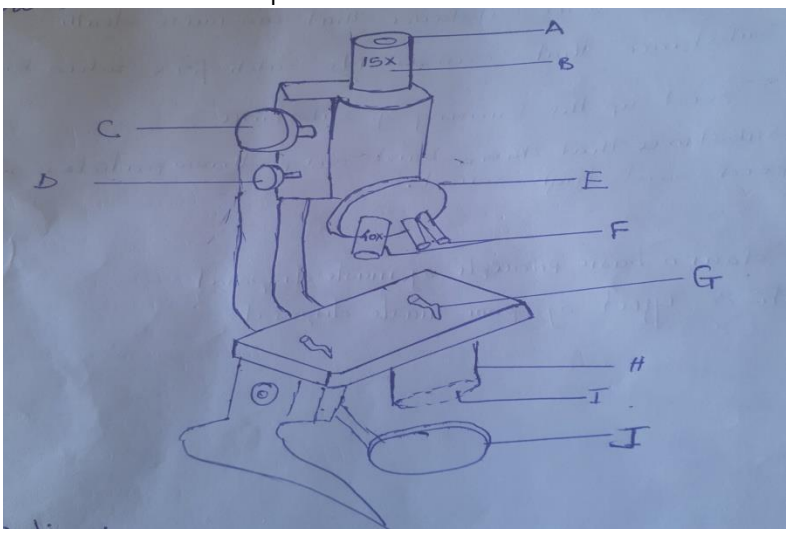

_____
_____

(b) List down four importance of studying biology

i. _____
ii. _____
iii. _____
iv. _____

CANDIDATE NAME _____

8. Study the diagram below and Answer the questions that follows.

   a) Identify the parts labeled A-J
   b) If magnification is part B is 15x and F is 40x what would be total magnification of an object

9. (a) What is warning sign
   (b) In Biology Laboratory there are different warning sign. Draw warning sign which used to show
      i. Poisonous substance that can cause death
      ii. Substance that can easily catch fire when brought near flame
      iii. Speed the burning of substance
      iv. Substance can bust throw particles with very high speed spread and high sound

10. (a) list down basic principle of waste disposal
    (b) Mention effect of poor waste disposal
