FORM ONE - TERMINAL EXAMINATION

GEOGRAPHY

TIME: 2:00 Hour's **23rd May 2023**

Instructions:

1. This paper consists of sections **A, B,** and **C** with a total of **Ten (10)** questions.
2. Answer all questions in sections **A, B** and **C.**
3. All answer must be written in the space provided
4. All writing must be in blue or black ink
5. Any form of malpractice is not allowed.

QUESTION NUMBER	1.	2.	3.	4.	5.	6.	7.	8.	9.	10.
TICK (√) IN THE ATTEMPTED QUESTIONS										
SCORE										

TOTAL SCORE=

SECTION A (15 Marks)

Answer **all** questions in this section.

1. For each of the items (i) – (x), choose the correct answer from among the given alternatives and write its letter beside the item number in your answer sheet provided.

i. Usually, the waves travel in a definite direction whereas the water moves up and down. The highest part of the wave is known as

A. Wave length
B. Trough
C. Tides
D. Crest

MsomiBora.com

ii. Four seasons of the year which occurs on the earth surface are the results of ……

A. Revolution of the earth
B. Deflation of winds
C. Seasons of the year
D. Rotation of the earth

Student name

……

iii. The form one students of Atlantic secondary school once made a tour to visit Tanzania, when they were near to land at the airport they observed out focusing the Indian Ocean and saw a part of land completely surrounded by water at a far distance from the coast line. What is the geographical term of that part surrounded by water?

A. Gulf
B. Straight
C. Island
D. Cape

iv. John is a form two student at Mbugani School, he asked his fellow student that what happened when someone crosses the International Date Line eastward?

A. The day become longer than night
B. One day is turned back
C. Time is gained by four minutes at every one degree
D. Greenwich mean time is recorded

v. It is defined as the removal of water from the earth's surface……

A. Drainage
B. Wave
C. Ocean
D. Valley

vi. From the following pairs of mountains which one represents block Mountain?

A. Himalaya and Vosges
B. Alps and Usambara
C. Uluguru and usambara
D. Kilimanjaro and usambara

vii. The earth is made up of different components including the atmosphere, biosphere, lithosphere and hydrosphere. Hydrosphere include the part of water bodies on the earth surface, from that case water bodies occupies how many percent over the other components?

A. 70%
B. 71%
C. 21%
D. 05%

viii. The partial shadow of the solar eclipse is known as ……

A. Umbra
B. Penumbra
C. Eclipse
D. Elliptical

ix. Kimpembe went to the Indian ocean in the morning and found the sea water was far from the beach and went back in the evening the same day and found that the water was near to the beach. What do you think was the cause for water variation Kimpembe observed?

A. Revolution of the earth

Student name ……

B. Seasons of the year
C. Rotation of the earth
D. Deflection of winds and ocean currents

x. The arrangement of planets and other solid heavily bodies in relation to their position from the sun are called….
   A. Solar eclipse
   B. Solar system
   C. Lunar system
   D. Solar energy

2. From the list A there are elements of weather and list B there are instruments used to measure these elements. Match the items in **List A** with the responses in **List B** by writing the letter of the correct response in the space available.

List A	**List B**
(i) Temperature (ii) Wind speed (iii) Sunshine (iv) Atmospheric pressure (v) Humidity	A. Campbell-stokes B. Anemometer C. Wind vane D. Hygrometer E. Rain gauge F. Oktas G. Barometer H. Thermometer

(i)	(ii)	(iii)	(iv)	(v)

SECTION B (70 Marks)
Answer all questions in this section.

3. Using the knowledge obtained geography, differentiate the following geographical terms.
   i. Weather and climate
   ……
   ……
   ……
   ii. Gulf and a cape
   ……
   ……
   ……
   iii. Aphelion and perihelion
   ……
   ……
   ……
   iv. Compressional forces and tensional forces

Student name ……
……
……
……

v. Latitude and longitude
……
……
……

4. The Maasai around Ol-Doinyo Le Ngai Mountain were wondering the way the mountain was ejecting molten materials characterized with fire and smoke. They believe that the mountain was possessed by bad evils. Using the knowledge obtained from the topic of major features help them to understand the following.

a) Name the type of the mountain wondered by the Maasai people
……
b) What process involved in the formation of the mountain named in 4(a) above
……
c) Explain three types of the mountain named in 4(a) above

(i) ……
……
……

(ii) ……
……
……

(iii) ……
……
……

d) With examples outline other three types of mountains apart from the one named in 4(a) above

(i) ……
(ii) ……
(iii) ……

5. One day some people who did not have any knowledge of geography had a discussion about the ocean floor. They failed to have the correct discussion about it. As a form one student help them to understand the following.

a) What is the shape of the ocean floor ……
b) Explain in briefly any five features of the ocean floor

(i) ……
……
……

(ii) ……
……
……

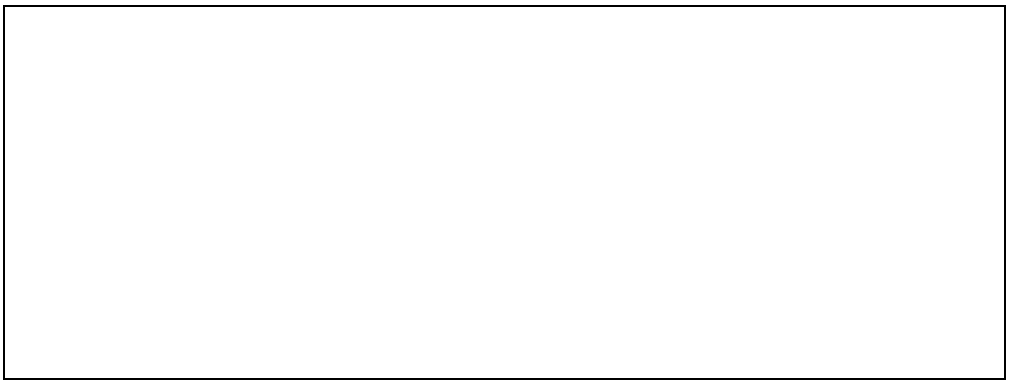

(iii) ……
……
……

Student name ……

(iv) ……
……
……

(v) ……
……
……

c) Draw the diagram of the ocean floor and well label it

6. Some of the form one students at Kibwgere secondary school did not know why they are studying geography, that why they did not take serious in this subject as a result their performance was very poor on their mid-term examination. Being a form one student of Destiny secondary school advice your fellow form one's about five importance of studying geography.

(i) ……
……

(ii) ……
……

(iii) ……
……

(iv) ……
……

(v) ……
……

7. a) An ocean is a large body of salt water surrounding the landmass of the earth. This body of water connects different parts of the word surrounding the continents, forming different types of it. Mention the major five oceans of the world.

i. ……
ii. ……
iii. ……
iv. ……
v. ……

b) Outline any three factors affecting salinity in the ocean water

Student name .....

i. .....
ii. .....
iii. .....

c) Mention two social and economic importance of ocean to human life.

i. .....
ii. .....

8. a) What is earth's revolution?

.....
.....

b) Explain any four effects of earth's revolution

i. .....
.....
ii. .....
.....
iii. .....
.....
iv. .....
.....

c) Latitudes are imaginary lines parallel to the equator joining all the places at an equal angular measurement Northwards 90° and Southwards 90° from the equator. In the light of this statement give any five most common parallels with its degrees.

i. .....

ii. .....

iii. .....

iv. .....

v. .....

9. (a) The burden of fetching firewood by mostly Tanzanian's villages is carried by women and girls which is very risk and tedious task. The use of solar energy has contributed much in woman emancipation. As environmental expert explain how solar energy has contributed to woman emancipation in rural areas.

(i) .....
.....
(ii) .....
.....
(iii) .....
.....

Student name .....

(iv) .....

.....

(v) .....

.....

(b) Study the features below and answer the questions that follows;

Figure.01

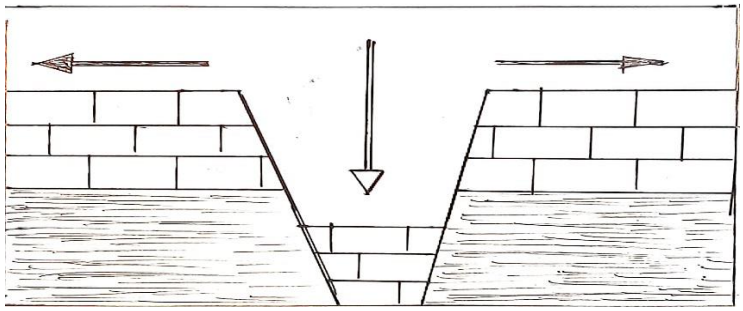

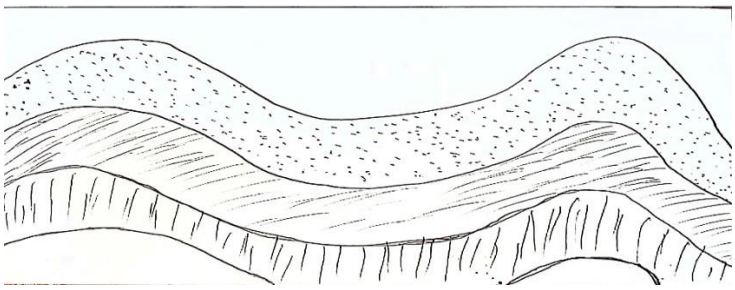

Figure. 02

(i) Name the feature shown by the above figures

figure 01. .....

figure 02.....

(ii) What force caused the formation of figure one and two?

figure 01. .....

figure 02. .....

(iii) give two examples of;

Figure 01.....

Figure 02.....

SECTION C (15 Marks)

Answer the question accordingly

Student name .....

10. Weather is a condition of the atmosphere which occur at a particular place at a short period of time. It involves elements such as temperature, sunshine, cloud cover, precipitation, humidity, pressure and wind. People describe weather condition of a place good or bad depending on the state of the atmosphere at that particular time, using six points explain the importance of weather in daily life.
