6. (a) You have learned about eight planets in the solar system and each one has its own characteristics but the planet earth is only planet in the solar system that support life, Give four points why the planet earth support life?

i.

ii.

iii.

iv.

(b) What are the challenges facing the planet Earth?

i.
ii.
iii.
iv.
v.
vi.

7. (a) What is continent?

_____

_____

_____

_____

(b) Outline all continents which are found on the earth's surface.

i. _____
ii. _____
iii. _____
iv. _____
v. _____
vi. _____
vii. _____

8. (a) General all continents surrounded by different seas and oceans although all of them have different quantity of saltiness in water. Why this happen? (Give 3 points)

i. _____
ii. _____
iii. _____

(b) There are some effects of the earth rotation. From your knowledge of geography show the effects of earth rotation.

i. _____
ii. _____
iii. _____
iv. _____
v. _____

9. Give five evidence of the earth's rotation.

i. _____
ii. _____
iii. _____
iv. _____
v. _____

SECTION C (15 MARKS).

10. Grace is a form one student, she doesn't know why she is studying geography. With six (06) points educate her why she is studying geography?

_____

_____
