MKALAMA DISTRICT COUNCIL- SINGIDA
FORM ONE–TERMINAL EXAMINATION
GEOGRAPHY

Time: 2:30 Hours **May, 2025**

INSTRUCTIONS

1. This paper consists three sections A, B and C with total of ten quations
2. Answer all questions from each section
3. All writtings must be in blue or black ink, use pencil in drawings

SECTION A (15 Marks)

Answer all questions in this section

1. .For each of the following items (I-X) choose the most correct answer from the given alternatives and write its letter in the box provided

i. The study of the interrelationship between human beings and the environment over time and space

A. Geography B. Solar system C. Agriculture D. Solar power

ii. …… is the biggest planet in the solar system

A. Earth B.Saturn C. Jupiter D. Uranus

iii. The main source of heat and light in the solar system is …….

A. The sun B.The moon C. The planet D. Electricity

iv. The path used by the Earth and other planets when going around the sun is known as

A. Revolution B. Rotation C. Axis D. Orbit

v. Places on the East of Greenwich experience sunrise before places on West because the Earth …….

A. Rotate from West to East B. Revolution around the Earth
C. Rotates from East to West D. Rotates from south to north

vi. Spinning of a body on its own axis is known as ……..

A. Revolution B. Tilting C. Rotation D. Axis

vii. If the time recorded in Accra 0˚ was 05:00 pm, what will be the time at Bujumbura 30˚ east?

A.07:00 PM B.07:00 AM C.02:00 PM D.02:00 AM

viii. Which of the following theories explain that the solar system was formed from cold spinning clouds of gases?

A. Big bag theory B. Nebular hypothesis
C. Interstellar dust hypothesis D. Creation theory

ix. Which of the following is not true about earth rotation?

A. 1˚ to 4 minutes B. 15˚ to 60 minutes C. 15˚ to 24 hours D. 360˚to 24 hours

x. The sun is central body made up of …….

A. Carbon, air and soil B. Helium, oxygen and hydrogen
C .Planets, asteroids and earth D. Sun, solar energy and solar

LIST A	(i)	(ii)	(iii)	(iv)	(v)	(vi)	(vii)	(viii)	(ix)	(x)
LIST B										

2. Match the explanations of various contents from the solar system in List A with the correct respective answer in List B and write its letter in the table provided below

wazelimu.com

LIST A	LIST B
i. .Is needed everywhere in our lives	A. Aphelion
ii. An imaginary line joining North pole and South pole	B. Axis
iii. The furthest position of the Earth to the sun	C. Perihelion
iv. The only planet which support human life	D. Solar energy
v. Composed of the Sun, planets and other heavy bodies	E. Solar system
	F. Umbra
	G. Earth

Answers

LIST A	I	II	III	IV	V
LIST B					

SECTION B (70 Marks)

Answer all questions in this section

3. a) Explain the origin of the term GEOGRAPHY

b) Explain any three (3) branches of geography.

4. (a) Patrick does not want to study Geography since he is not aware on the importance of this subject. You as a student of teacher Juma express to him five benefits of studying Geography

(b). Explain any three relationships between geography and other disciplines.

5. (a) what is the difference between rotation and revolution of the Earth?

(b) Name any four outcomes of the earth's rotation

6. (a) Define the term "Earth's structure"

(b) Mention and explain the three (3) layers of the Earth.

7. a) what is revolution of the earth

b) Name four seasons of the year

c) Apart from seasons name any other three effect of revolution

8. (a) Explain any three (3) factors that determine the size and shape of the Earth

(b) Mention any four evidences to proofs that the Earth's rotation.

9. (a) Define Earth the term "Earth's position"

(b) List any four consequences of the earth's position in the solar system.

SECTION C (15marks)

10. There was a debate on the shape of the Earth. As a Geography expert, with the help of diagrams, discuss five (5) evidence to prove that the earth is spherical.
