MINISTRY OF EDUCATION SCIENCE AND TECHNOLOGY
LONGIDO DISTRICT EXAMINATION SYNDICATE
FORM TWO MOCK EXAMINATION,SEPTEMBER, 2019
BIOLOGY

TIME: 2HOURS

INSTRUCTIONS

i. This paper consists of sections A, B and C with total of all questions
ii. Answer all questions in section A and B and only one question in section C
iii. All writing should be in blue or black ink pen except diagrams which should be in pencil

SECTION A (30 MARKS)

1. For each of the items (i) to (x) choose the correct answer among the given alternatives and write its letter beside the item number in the space provided

i. The purpose of control in an experiment is to
   A. Identify the problem
   B. Test the hypothesis
   C. Display results
   D. Confirm conclusion
   E. Predicts the results

ii. Incineration is the best method for burning
   A. Gaseous waste
   B. Hazardous waste
   C. Non-organic solid waste
   D. Liquid waste
   E. All type of waste.

iii. In the microscope the eye piece lens read x10 and objective lens read x40, the total magnification is
   A. X400
   B. X200
   C. X300
   D. X4000
   E. X20

iv. Oxygen dept occurs when
   A. Too much carbon dioxide is present in the body
   B. The rate of respiration exceed that of photosynthesis in green plant
   C. Alcohol is formed in tissue
   D. There is insufficient oxygen in muscles tissue during the strenuous exercise
   E. There is insufficient lactic acid in muscle tissue

v. Which of the following sets of enzymes is responsible for protein digestion?
   A. Amylase and maltase
   B. Amylase and rennin
   C. Maltase and pepsin
   D. Maltase and rennin

vi. Amoeba ,plasmodium, euglena, paramecium belong to kingdom
   A. Protoctista
   B. Monera
   C. Fungi
   D. Animalia
   E. Non-of them

vii. In which of the following mammalian blood vessels does deoxygenated blood flow away from the heart
   A. Aorta
   B. Venacava
   C. Pulmonary artery
   D. Pulmonary vein
   E. None of them

viii. The concept of good health implies…….health
   A. Sexual, physical and mental
   B. Physical ,mental and social
   C. Mental, sexual and physical
   D. Physical, mental and family
   E. Reproduction, social and family.

ix. In biology human being, lizard ,fish and elephant belong to which branch of biology ?
   A. Botany
   B. Animalogy
   C. zoology
   D. mycology
   E. virology

x. ways of treating food to make it edible appetizing and safe or to keep it fresh for a long time is referred to as;
   A. food preservation
   B. food storage
   C. food processing
   D. food manipulation
   E. balanced diet

2. Write TRUE for the correct statements and FALSE for incorrect statements

i) A hand lens is used to make an object look smaller than normal size……
ii) Breathing into a plastic bag stops hiccups …….
iii) Mosses and liverworts are seed producing plants……..
iv) All the epidemic diseases are communicable diseases……
v) Both plant and animal cells have chloroplasts…….
vi) Photosynthesis uses water and releases oxygen…….
vii) It is safe to warm room by using charcoal when people are sleeping the whole nigh ……
viii)Onion store food in leaves while carrots store food in root tubers…….
ix) Green plants are decomposers ……
x) People living with HIV/AIDS should not be isolated ……

3. Match the phrase in list A with the responses in list B by writing the letter of the correct responses from list B below the item number

LIST A	LIST B
i) The first part of small intestine	A) lipase
ii) Control the flow of material out the stomach	B) Erepsin
iii)Wave like muscular contraction push food along the esophagus	C) Duodenum
iv) An enzyme that converts lipids to fatty acid and glycerol	D)Colon
v) It contain acidic medium for digestion	E) Cardiac sphincter
	F) Pyloric sphincter
	G) Stomach
	H)Liver
	I)Digestion
	J) Peristalysis

SECTION B (50 marks)

4. a)Define the following term
   - i) Biology
   - ii) Biologist

   b) Mention two major branches of biology

   c) Explain how biology is related to the following
   - i) Agriculture
   - ii) Medicine

5. (a) (i) What is the laboratory

   ii) Outline four qualities of a good laboratory

   b) Mention one function of each of the following apparatus.
   - i) Petri dish
   - ii) Hand lens
   - iii) Mortar and pestle
   - iv) Thermometer

6. a)Define the transpiration

   b) Outline significance of transpiration in plant (3 point)

   c) Mention two structural factures that affects the rate of transpiration

7. a)Name four parts of the human alimentary canal

   b) Give any three (3) adaptations of ileum for absorption of food in the alimentary canal

8. a)Define the following
   - i) Food chain
   - ii) Food web

   b) Construct the food chain by using the following organisms; grasses, snake, grasshopper, and frog

   c) List down the significance of food chain and food web in the real life situation

SECTION C (20 Marks)

9. Elaborate any three traditional and three modern methods used in food processing, preservation and storage
10. Describe the causes, mode of transmission and prevention measures of tuberculosis disease in the respiratory system
