PRESIDENT'S OFFICE

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT

FORM TWO PRE-MOCK EXAMINATION AUGUST 2020

GEOGRAPHY

TIME 2;30HOURS

INSTRUCTION

i. This paper consist section A and B
ii. Answer all question section A and any two questions in section B
iii. Write your Examination Number at the top right corner of any page
iv. All answers must be written in the space provided

SECTION A

1. For each of the following items choose the correct Answer from the give alternatives and write the letter in the box provided
   i. Movement of farmers seasonallywith their animals from one grazing ground to another in search pasture and water
      A. Nomadism
      B. Pastoralism
      C. Sedentary ferming
      D. Transhumance
   ii. An angular distance measured in degrees East and West of prime meridian
      A. Equator
      B. Latitude
      C. Longitude
      D. Tropic of cancer
   iii. The occurance of summer ,winter ,Autumn and spring is result of ;
      A. Farrels law
      B. Revolution of the earth
      C. Rotation of the earth
      D. Tilting of the earth on its axis
   iv. The following features are found in the ocean
      A. Basin,ridge,plain ,and dune
      B. Continental shelf ,continental slopeand trench
      C. Ridge ,basin ,plateau,and water fall
      D. Trench,ridge,plain and dune

v. The condition of atmosphere recorded over short period of time is;
   A. Climate
   B. Pressure
   C. Temperature
   D. Weather

vi. Branches of Geography include ;
   A. Human Economic and Regional
   B. Physical ,Regional, and practical
   C. Practical,human and regional
   D. Practical Environmental and Region

vii. The features resulted to eruption of molten rocks are;
   A. Block mountains
   B. Fold mountains
   C. Residual mountains
   D. Volcanic mountains

viii. A representative scale of 1:250,000 can be represented by a statement scale of ;
   A. 2cm to 2.5km
   B. 2cm to 25km
   C. 1cm to 2.5km
   D. 1cm to 250,000km

ix. The movement of surfaces water in the ocean is called ;
   A. wave
   B. ocean current
   C. continental shelf
   D. tides

x. Human activities which are done by top executives or officials in such field as government are called ;
   A. Tertiary Activities
   B. Primary activities
   C. Secondary activities
   D. Quinary Activities

2. Match each items in list A with correct response in list B by writing its letter below the number of the corresponding item in the table provided

	LIST A		LIST B
i	Solar system including all stars	A	Isohel

ii	The type of climate found in area between 5°North and 5°South	B	Core
iii	Line joining places with the same amount Of sunshine	C	Galaxy
Iv	Small scale subsistence Agriculture	D	Is the Agriculture activities aimed at production of food
v	Partial show of solar eclipse	E	Umbra
vi	Active volcanic mountains	F	Penumbra
vii	The inner most part of the earth	G	Moon
vii	Equinoxes	H	Olonyo lengai
ix	Commercial farming	I	Refer to the period when the sun is over head at equator
x	A line where a date is changed or calendar day begins	J	Is agriculture system that involve production of scale .
		K	International date line
		L	Equatorial

3. For each of the following statements write "T" I f the statement is correct and "f" if the statement is not correct
    i. The suface of the earth has two main features which are water bodies and land ……..
    ii. Forest are always neutral…….
    iii. Sustainable mining does not ensure that minerals serve humans for a long time ……..
    iv. Cyclonic rainfall is most common in high land regions ……..
    v. Over exploitation of forest resources may lead to desertification ……..
    vi. The distance between homes and water resource affects women ……
    vii. Globalwarming is the result of environmental pollution……
    viii. Tennessee Valley Authority (TVA) was established in order to control floods and soil erosion
    ix. A bearing of a point on a map can be found only when the north is given …….
    x. Geography deals with Earth's features only……..
4. (a) carefully study the climatic data given for station y and then Answer the questions that follow

MONTH	J	F	M	A	M	J	J	A	S	O	N	D
TEMPERATURE(^{O}C)	25.5	25.8	26	26	27.3	26.5	26.5	26.1	26.8	26.8	26.3	25.7
RAINFALL(MM)	246	186	185	198	184	176	174.1	197	183	206	261	266

i. Calculate the mean annual temperature
ii. Determine the annual range of temperature
iii. Find the annual rainfall for the station
iv. What types of climate does station Y experience
v. Mention four crops that can be grown in the area

(b)

i. Define the following terms
   (a) A map
   (b) A scale

(ii) list down four essential of a map

(iii) In station K on a map an covered by thick forest was found to be 20 full squres and 26 half squres .Calculate the area of the thick forest in squre kilometers where map scale is1:50,000.

iv) if the map distance of matale river is 29cm calculate the actual distance of Matale River in kilometres given that map scale is 1:50000

V) Change the scale 1:25,000 into stamen scale

5. (a) List down any five main hydro-electric power generating station in Tanzania
   (b) List down three causes of deforestation
   (c) Mention two factors affecting the temperature of a place

   SECTION B

   Answer any TWO questions
6. Describe ways of improving subsistence small scale agriculture
7. Explain how forest are endangered in Tanzania and suggest measures that can save them .
8. What are the problems caused by mining industry in Tanzania.
9. What are the negative results of tourism in Tanzania
10. Water plays a great role in sustaining life on our planet Earth . Do you agree? Why?
11. Geographers prefer watching Weather forecasting news everyday . Do they often benefit by watching such news ? Give reasons for your answer .
