   a) 1:25,000
   b) 1:50,000
   c) 1:500,000
   d) 1:10,000.

ix. What is the compass direction of 135·
   a) NNE
   b) NWW
   c) NEN
   d) NES

x. What is the temberature of Arusha 1400m above the sea level when it is 28·C at tanga 800m at the sea level.
   a) 31.6·c
   b) 3.6·c
   c) 24·c
   d) 24.4·c

2. Match the items in **list A** with those in **list B** by writteing the letter of the correct below its corresponding item number in **list A**

LIST A	LIST B
i)a negative effect caused by tourism in a coutry like Tanzania	A. agriculture
ii)the science dealing with crops production and animal keeping	B. aphelion
iii)formed when large masses of air with different physical propertis meet	C. cooking oil
1v)it occur when the earth become far from the sun	D. destruction of culture
v)maximum and minimum temperature	E. isobars
	F. nature gss
	G. ocean deep
	H. perihelion
	I. ridge
	J. relief rain
	K. six's thermometer
	L. stevenson screen

3. The following statment are either correct or not correct,write **TRUE** if the statment is correct and **FALSE** if the statment is not correct.
   i) Equinox means equal day and night hours at all latitudes.....
   ii) Good railway and road netwarks stimulates economic development.....
   iii) Industrial activities have no negative impact to the environments.....
   iv) It is possible to tap underground water in desert and sem-deserts areas .....
   v) Lake victoria is within the rift valley.....
   vi) Planets out ligh.....
   vii) Tanzania is among the minerals mined in Uganda.....
   viii) Trenches and ocean deep are the same relief features of the river basin.....
   ix) Two opposing longitudes can make a great circle.....
   x) Use the solar energe minimize the enviromental degradation .....

SECTION B

ANSWER ALL QUESTION IN THIS SECTION

4 A) Explain the concepts of underground water

B) By using examples, explain four (4) types of underground water

i) .....

ii) .....

iii) .....

iv) .....

C) i) define minining

ii)By giving examples, outline two major classifications of minerals in the world

d)name four (4)main types of transport

5 (a)Identfy four (4) important things (factors) to be considered in the location of industries

i) .....

ii) .....

iii) .....

iv) .....

(b) carefully study the the climatic data given for station Y then answer the questions that follows:

month	J	F	M	A	M	J	J	A	S	O	N	D
Temp · c	25.5	25.5	26	26	27.3	26.5	26.5	26.1	26.8	26.8	26	25.2
Rainfall (NN)	246	186	185	190	184	176	174	197	185	206	261	266

i. Calculate the mean annual temperature
ii. Calculate the total annual rainfall
iii. State the annual renge of temperature

I. Suggest the type of climate for station Y

II. Give two economic activities taking place in station Y

6 A) Explain the following terms as used in geography

i. Eco-tourism

ii. Extensive farming

iii. Geothermal energy

iv. Intensive farming

v. Land reclamation

B) outline four ways of determing a place on a map

i. .....

ii. .....

iii. .....

iv. .....

v. .....

SECTIN C(30 MARKS)
ANSWER ONLY TWO QUESTION

7.Describe five problems facing transportation system in east africa

8.Expain how shortuge of power in Tanzania contribute to drop of our economy.

9.Explain six environmental problems caused by manufacturing

10.Describe seven socio-economic benefits of songosongo natural gas.
