A Sun
B Solar energy
C Solar system
D Meteors

(iii) Long narrow deep and steep-sided depressions between parallel faults on the earth's surface are called:

A Volcano
B Rift valleys
C River
D Ocean deep

A Maximum thermometer
B Minimum thermometer
C Six's thermometer
D Thermometer

Which of the following is essential in measuring distance on maps?

A Scale
B Key
C Compass
D Frame

(iv) The instrument used to measure the highest temperature between the readings is:

(v)

(vi) If temperature of Mpanda 1500M above the sea level is 20°C, what will be the temperature of Tumbatu Island which found on the sea level?

- Block mountain
- Residual mountain
- C. Volcanic mountain
- D. Fold mountain

(vii) Which types of mountain is formed by prolonged denudation.

(viii) A scale of 4cm representing 18km on the ground will be represented by representative fraction (R.F) scale as:

A 1:450,000
B 2:900,000
C 1:900,000
D 1:800,000

(ix) Given that the local time at Greenwich Meridianis12:00noon, what will be the local time at Mikindani which is 10°S40°E?

A 2.40a.m. B 2.20 p.m.

C 2.40 p.m. D 2.20a.m.

(x) The time increases by 4 minutes for every 1° of longitude when one travels from: A North to South B East to South

C West to South D West to East

	(i)	(ii)	(iii)	(iv)	(v)	(vi)	(vii)	(viii)	(ix)	(x)
ANS										

2. Match each item in **List A** with the correct response in **List B** by writing its letter below the number of the corresponding item in the answer table provided.

LISTA	**LISTB**
(i) Occurs when the atmosphere becomes heated more than its surroundings leading to upward motion, rain falls from convective clouds like cumulonimbus clouds (ii) Occurs when masses of air with different density (moisture and temperature) meet, warmer air rises over cold air which produces precipitation (rain) (iii) It is caused when masses of air pushed by wind are forced up the side of elevated land formations like mountains (iv) Occur at night due to the fact that land temperatures drop faster than water (v) During the day the breeze comes from the sea because the land is warmer and air travels from areas of high pressure to areas of low pressure	A. Orographic rainfall B. Cloud cover C Land breezes D Convectional rainfall E Ocean current F Sea breezes G Cyclonic rainfall H Atmospheric pressure

ANSWERS

S/N	(i)	(ii)	(iii)	(iv)	(v)
ANSWERS					

SECTIONB (70 Marks)

Answer **all** questions in this section

3. (a)There is enough evidence to show that the earth is not straight. As a future geographer list five evidences that indicates that the earth is not straight is spherical

(i) ……..

(ii) ……..

(iii) ……..

(iv) ……..

(v) ……..

(b) The form one student at Malaja secondary school debates on the ability to be allowed by the headmaster to drop Geography subject because they think it is useless. As form two student tell the form one the benefits of studying Geography

(i) ……..

(ii) ……..

(iii) ……..

(iv) ……..

(v) ……..

4. Define the following terminologies:

(a) Bush following

……
……
……
…….

(b) Land reclamation

……
……
……
…….

(c) Hydrological cycle

……
……
……
……

(d) Water pollution

……
……
……
……..

(e) Tourism

……
……
……
…….

5. Despite the fact that; tourism sector in Tanzania has been very advantageous but it has been facing many challenges. Mention five (05) challenges

i. ……
.

ii. ……
.

iii. ……
..

iv. ……
.

v. ……
...

6. Carefully study the data below and answer the following questions that follows.

Month	J	F	M	A	M	J	J	A	S	O	N	D
Temperature (^{0}C)	28	27	28	24	27	28	29	28	28	29	30	30
Rainfall (mm)	200	150	190	140	160	200	202	112	226	130	300	250

i. Calculate the total rainfall of the last six months of the given data.

……

……

……..

ii. Find the temperature range of the given data.

……

……

……

iii. Calculate the mean temperature of the given data.

……

……

……

iv. With two reasons identify the types of climate of the given data.

Types of climate ……

Reasons

a) ……

b) ……..

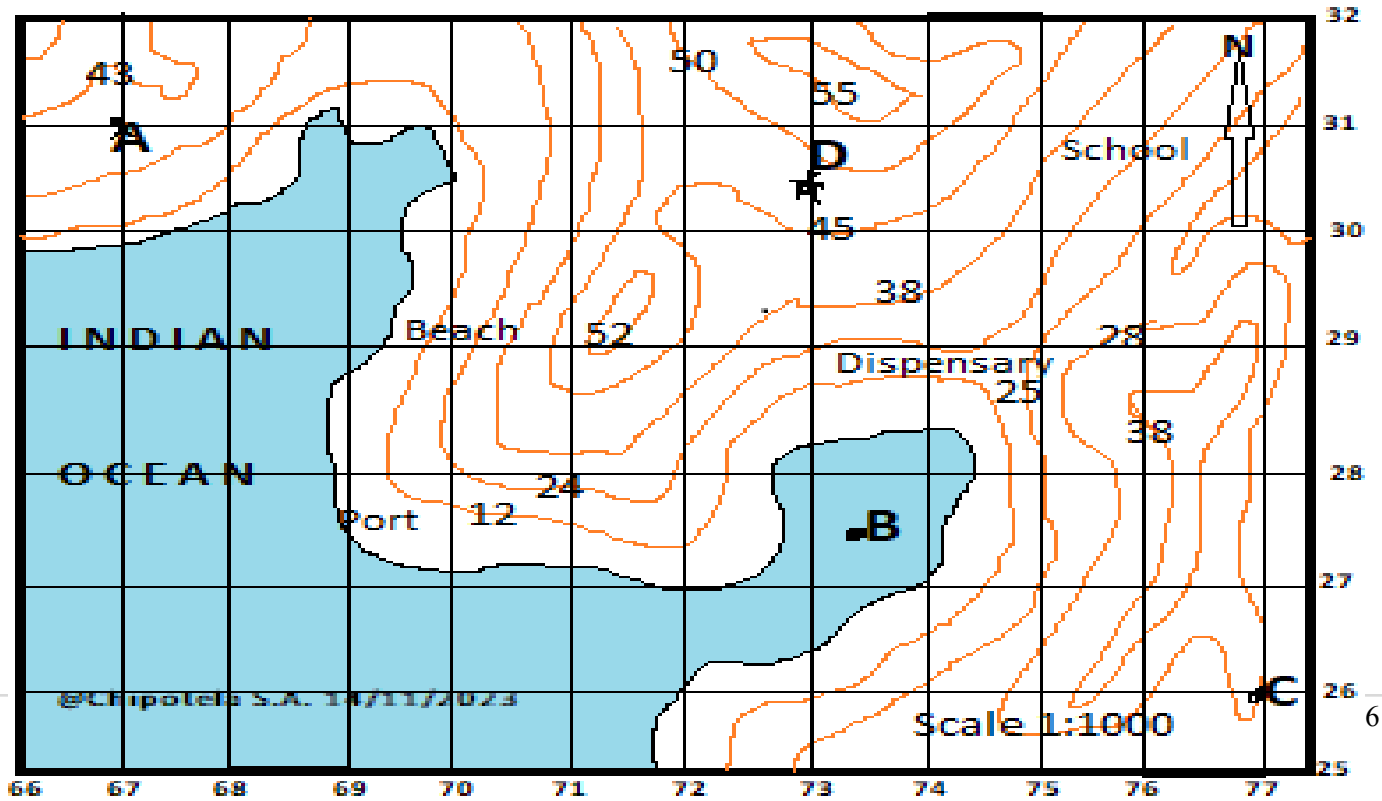

v. Mention two crops that grown in the mentioned type of climate in 6(iv)

a) ……

.

b) ……

7. Study the sketch map of KIMANZICHANA provided below and answer the questions follow.

(a) From the map provided, identify any four (4) essentials of map that can be seen.

(i) ……..

(ii) ……..

(iii) ……..

(iv) …… ……..

(b) Write the grid references of points **A, B, C** and **D** as located on the map.

A ……..

B ……..

C ……..

D ……..

(c) (i) Identify the type of scale shown on the map……..

(ii) Name the method /ways used to provide the scale identified above

…….....……
……

(iii) Change the scale given into the statement scale

……..……
……..……
……..……
……
…….

8. Hersi is form two students in Singida region, he gets confused after being heard News on the radio that now days the degree of hotness and coldness is highly affected by number of factors.

a) Name the phenomenon that confused Hersi……

b) List down four (04) factors that affect the phenomenon that you have mentioned above.

i. ……

ii. ……

iii. ……

iv. ……

9. An agricultural activity in Tanzania is like a light in the darkness for its economic development. Justify this statement by providing five points.

i. ……
…

ii. ……
…

iii. ……..

iv. ……
…

v. ……

SECTIONC (15 Marks)

Answer the question **ten (10)** below

10. A Forests have significant contribution to social, economic and ecological development. They Provide various products for human use such us timber, poles, wood, logs and honey. With Examples explain six (6) points, what is likely to happen if the forest is cleared or destroyed?
