Candidate's Number: .....

THE PRESIDENT'S OFFICE
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT
MOSHI MUNICIPAL COUNCIL
SECONDARY EDUCATION EXAMINATIONS SYNDICATE
013 GEOGRAPHY
FORM TWO MOCK EXAMINATION

Tuesday 28th June, 2022 Pm **Time: 2:30Hours**

INSTRUCTIONS

1. This paper consist of section **A, B** and **C**
2. Answer all questions from **A, B** and **C**

SECTION A (25 Marks)

Answer **all** questions in this section.

1. For each of the items (i) – (x), choose the most correct answer from the given alternatives and write its letter in the table provided.

i. Suppose the local time at Greenwich meridian is 12:00 noon, what is local time at Mikindani which is 10^0S 40^0E

A. 2:40Pm B. 2:20Pm C. 2:40Am D. 2:20Am

ii. At what rate does temperature decreases with increase in altitude?

A. 1.6^0C for every 100 meters B. 16^0C every 100 meters

C. 0.6 ^{0}C for every 100 meters D. 0.06^0 C for every 100 meters

iii. Three categories of commercial livestock-keeping are:-

A. Pastoralism, sedentary and nomadism.

B. Beef livestock – keeping, dairy livestock – keeping and sheep – keeping

C. Traditional, modern and nomad livestock – keeping

D. Sheep keeping, cattle – keeping and diary livestock – keeping.

iv. The periodic rise and fall in the level of water in the ocean is known as:

A. Tides B. Waves C. Ocean currents D. Wind

v. The gird reference of station X is 612825. What numbers are for Eastings and Northings?

A. 825 are Northings and 612 are Eastings

B. 282 are Eastings and 625 are Northings

C. 825 are Eastings and 612 are Northings

D. 228 are Northings and 825 are Eastings

vi. Amina moves to the west and crosses the International Date Line. What happens with regard to time?

A. No time is gained or lost B. One whole day is lost

C One whole day is gained D. One whole day is repeated

vii. Human activities influence the distribution of forest as they can _____

A. Increase the size of a forest

B. Increase or decrease the size of the forest

C. Decrease the size of the forest

D. Increases consumption of the forest

viii. A scale of 4cm representing 18km on the ground, will be represented by representative fraction (R.F) scale as

A. 1:900,000 B. 1:1,800,000 C. 1:450,000 D. 2:800,000

ix. A channel diverging from Main River and flowing into the sea or lake by a separate mouth is called.

A. Distributary B. Stream C. Tributary D. River basin

x. The winds which blow from the sea to the land is called;

a) Wind breeze b) Sea breeze c) Land breeze d) Ocean currents

I	Ii	iii	iv	V	Vi	vii	viii	ix	x

2. Match the items in **List A** with responses in **List B** by writing the letter of the correct response below the corresponding item number in the table provided.

List A	List B
i) Barometer. ii) Rain gauge. iii) Wind vane. iv) Six's thermometer. v) Anemometer.	a) Humidity b) Temperature c) Wind direction. d) Atmospheric pressure e) Rainfall. f) Sunshine g) Wind speed h) Clouds

List A	i	Ii	iii	iv	v
List B					

SECTION B (70 Marks)

Answer all questions in this section.

3. In each of the following items (i – x), write True if the statement is correct or False if the statement is not incorrect.

i. Global warming is a decrease in temperature on the earth surface

_____

ii. Reforestation is a process of cutting down all trees without replacement

_____

iii. Mozambique current causes rainfall along the eastern coast of Tanzania _____

iv. Lapse rate is the gradual decrease or increase in temperature as altitude increases or decreases _____

v. Hydrological cycle is a continuous circulation of water from earth's surface to the atmosphere _____

vi. Dry bulb and wet bulb thermometers are used when measuring humidity, when the air is not saturated the two thermometers show the different readings and when the air is saturated the two thermometers show same readings _____

vii. Wind is air in motion from low pressure to high pressure area _____

viii. A longitudes is an angular distance measured in degree East and South of the equator_____

ix. The area from which river system collects its rain water is called catchment area_____

x. People living in Dar es Salaam see the sunrise earlier than in Kigoma Because people in Kigoma sleeps longer _____

4. a) Define the following geographical terms

i. Forestry

_____

_____

iii. Mines

_____

_____

iv. Solar system

_____

_____

v. Mining industry

_____

_____

vi. Land reclamation

_____

_____

5. (a) Differentiate between primary and Secondary human Activities

_____

_____

_____

_____

(b). Name four benefits of livestock keeping in Tanzania

i. _____

ii. _____

iii. _____

iv. _____

(c). Mention four uses of water in Africa

i. _____

ii. _____

iii. _____

iv. _____

6. Study carefully a data recorded from Major weather station January to December 2020 and answers the question below.

Day	J	F	M	A	M	J	J	A	S	O	N	D
Temp C	27	25	25	26	25	25	25	26	26	26	26	25
Rain (mm)	198	337	431	352	279	231	58	71	15	12	15	66

i. Calculate the annual average temperatures_____

_____

_____

_____

ii. Compute the annual rainfall _____

_____

_____

iii. What type of climate is this?

_____

iv. Give two reasons to support the choice of the climate mentioned in (iii) above

_____

_____

_____

v. In which part of Africa this climate is found?

_____

_____

_____

7. (a). Convert the following scales according to the instructions given

i. "One centimeter on the map represents half kilometer on the ground" Convert this scale into Representative fraction (R.F) scale.

_____

_____

_____

_____

ii. 1:150,000. Convert into statement scale.

_____

_____

_____

b). State the directions of the following bearing.

i. 270^0 _____

ii. 135^0_____

c). How can we locate positions on map?

i. _____

ii. _____

iii. _____

iv. _____

8. Fill the blanks for each of the following items:

i. _____is the degree of hotness or coldness of an object or a place.

ii. The air in motion from high pressure to low pressure zone is_____

iii. An _____is a piece of land that is completely surrounded by water.

iv. _____are formed by the wrinkling of the earth crust, which is caused by compression forces.

v. _____are used in the field of navigation by ships and airplanes.

9. (a) What do you understand by the term transport?

_____

_____

_____

(b) Identify three main types of transports in the world.

(i) _____

(ii) _____

(iii) _____

(c) Mention any five factors for the development and growth of tourism in the world.

(i) _____

_____

(ii) _____

_____

(iii) _____

_____

(iv) _____

_____

(v) _____

SECTION C (15 Marks)

Answer this question in **essay** form.

10. Forests have significant contribution to social, economic and ecological development. They provide varieties of products for human use such as timber, poles, wood, logs and honey. With examples explain what is likely to happen if the forest is cleared or destroyed. (six points)
