THE PRIME MINISTER'S OFFICE
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT
LONGIDO DISTRICT MID TERM EXAMINATION

FORM THREE
051 FOOD AND HUMAN NUTRITION
MARKING SCHEME AUGUST 2026

SECTION A (16 MARKS)

1.

(i)	(ii)	(iii)	(iv)	(v)	(vi)	(vii)	(viii)	(ix)	(x)
B	B	D	D	A	D	D	B	C	C

10 points @ 01 Mark, total 10 Marks.

2.

(i)	(ii)	(iii)	(iv)	(v)	(vi)
H	B	C	G	D	A

6 points @ 01 Mark, total 06 Marks.

SECTION B (54 MARKS)

3. (a)
   (i) Chemical food poisoning: This caused by the presence of toxic chemical substances in the food. For example pesticides.
   (ii) Microbial food poisoning: Caused by the consumption of food or water contaminated with bacteria, viruses, fungi (yeasts, moulds) and parasites or their toxins.
   (iii)Biological food poisoning: Caused by eating plants containing harmful naturally-occuring substances. For example, poisonous mushrooms.
   3 points @01 Mark, total 03 Marks

   (b) Effects of food poisoning:
   (i) May lead to a sickness, associated with signs such as nausea, vomiting, diarrhoea, fever and abdominal pain.
   (ii) Lead to Miscarriage, still birth and premature birth.
   (iii)Result to kidney failure, paralysis, mental retardation, hearing and visual impairment.
   (iv)Lead to death
   4 points @ 01Mark, Total 04 Marks.

   (c) Categories of Foodborne illness:
   - Food infection
   - Food intoxication.

2pts @01 Mark, Total 02 Marks.
TOTAL 09 Marks.

4. (a) Causes of heavy bread texture.
   (i) Stale yeast used
   (ii) Too hot liquid used
   (iii) Too cold or hot condition during bread making
   (iv) Insufficient liquid used.
   (v) Insufficient time used for rising or proving procedures.
   5 pts @ 01Mark,Total 05 Marks.
   (b) Four rules of using Raising agents.
   (i) Use yeast which is stored in an airtight package store in a cool, dry place to prevent it from losing its strength.
   (ii) Use the right amount of the raising agents to get a desirable product.
   (iii) Mix the raising agent with flour and sieve them together.
   (iv) Distribute moisture evenly into the mixture to ensure an even and proper action of the raising agent.
   4pts @01 Mark, Total 04 Marks
   TOTAL 09 MARKS

5. (a) Nutritive value of pulses.
   (i) They contain a second class of protein
   (ii) They contain B-vitamins, except for riboflavin.
   (iii) They contain carbohydrates
   (iv) They contain minerals such as iron.
   (v) They contain low fat
   5pts @01 Mark, Total 05 Marks.
   (b) Methods of cooking pulses
   (i) Boiling
   (ii) Pressure cooking
   (iii) Stewing
   (iv) Frying
   4pts @01 Mark,Total 04 Marks
   TOTAL 09 MARKS.

6. (a) Reasons for cooking meals
   (i) Killing germs and bacteria which can cause diseases
   (ii) To be more attractive and appetizing.
   (iii) Improving the appearance, flavour and smell of food.

(iv) Keep perishable foods long by creating an unfavourable environment for spoilage.
(v) Providing a variety of menu as different methods of cooking may be used.
5 pts @ 01 Mark, 05 Marks

(b) (i) Deep frying
(ii) Deep frying
(iii) Baking
(iv) Boiling
(v) Baking
5 points @ 01 Mark, 05 Marks
TOTAL 09 MARKS.

7. (a) (i) Mechanical raising agent: Introducing of air into mixture through Sieving, rolling and folding, creaming, whisking and rubbing-in.
(ii) Physical raising gents: In this category, steam is a physical raising agent. During cooking, small water droplets from the mixture are formed which raise the mixture by physical action.
(iii) Chemical raising agents: These added to the flour mixture to introduce carbon dioxide and ammonia gas in it. For example Bicarbonate of soda, Baking powder and Baking ammonia.
(iv) Biological raising agents: Yeast is a biological raising agent, which produces carbon dioxide gas when added to the mixture through fermentation.
4 points @01.5 Mark, total 06 Marks.
(b) Examples of snacks which can made from any three category.
(i) Mechanical raising agents: chapati, sponge cakes, plain cakes and pastry. Any 2 examples @0.5 Mark, Total 01 Mark
(ii) Physical raising agents: flaky, rough puff, choice pastry and pancakes. Any 2 examples @ 0.5 Mark, Total 01 Mark.
(iii) Chemical raising agents: Ginger breads, half cakes, buns, scones, cakes and doughnuts. Any 2 examples @ 0.5 Mark, Total 01 Mark
(iv) Biological raising agents: Bread and Buns 2points @ 0.5 Mark, Total 01Mark.

8. (a) Agents of food spoilage
(i) Bacteria
(ii) Moulds
(iii) Yeast
3 points @ 01Mark, total 03 Marks
(b) (i) Wood fragments
(ii) Soil

(iii) hair

(iv) Microorganisms

(v) Chemicals such as detergents and pesticides

5 points @1Mark, total 05 Mrks

SECTION C (30 MARKS)

9.

Introduction

Malnutrition means a body condition which results from inadequate or excessive intake of one or more nutrients for a long time.

Any related introduction 02 Marks.

Three effects of Malnutrition;

(i) Poor school performance

(ii) Decreased productivity and economic growth

(iii) Increased risk of NCDs

(iv) Increased risk of illness and death

(v) Increased cost of treatment

(vi) Development of disabilities

(vii) Progression of Malnutrition from one generation to another

Any 06 points @ 02 Marks, total 12 Marks.

Any related conclusion 01 Mark

Total 15 Marks

10. Roughage is the part of food that is not digested by the body's

Digestive enzymes.

Any related Introduction 02 Marks.

(i) Assists in digestion

(ii) Prevents constipation

(iii) Helps to regulate body weight

(iv) Helps to keep the stomach full as it swells.

(v) Prevent the risk of getting diseases such as heart diseases

(vi) Colon and stomach cancer.

(vii) Help to ease inflammation in the bowel by reducing its occurrence in the intestine.

Any six points @ 02 Marks, Total 12 Marks.

Any related conclusion 01 Mark.

11. Cereals are edible seeds or grains of cultivated grasses.

Any related introduction 02 Marks

(i) Used for making foods such as cakes, breads, biscuits, pastry and batter. For example wheat

(ii) Commonly used as the main meal for example rice.

(iii) Used for making foods such as porridge. For example oat.

(iv) Used for making beer. For example Barley.

(v) Can be milled into flour and used to make porridge or ugal.For example maize or corn.

(vi) Also used for making foods such as porridge, ugali and cookies. For example sorghum.

6 points @ 02 Marks, total 12 Marks.

Any related conclusion 01 Mark.

Main total 15 Marks.
