Colonial trade refers to the exchange system of products and services involving different products during colonial era and the **Second World War** refer to the second world imperialist antagonism that involved the whole world but led by imperialist nations like Great Britain, German, France, Italy, etc. the war occurs from 1939 to 1945.

Main body six (6) points @3marks

A candidate to examine two (2) roles of colonial trade and its four (4) effects to the Africans.

Roles of colonial trade

1. To maintain African continent as the market for the metropolitan industrial goods.
2. Commercial exploitation through unequal exchange.
3. To increase the quality and quantitative output of raw materials.

Effects

i. The increase of un – equal trade activities
ii. Intensive exploitation of raw materials.
iii. The colonial monopoly companies controlled trade and commerce
iv. The collapse of the African local trade.
v. Colonial masters encouraged European commercial companies come to Africa eg (FAO)

Conclusion (01 mark)

Any relevant conclusion

6. *Explain why colonialist adopted various Agricultural system in Africa (six points)*

Introduction (1mark)

- Colonial Agriculture refers to the science of crop cultivation which was controlled by European in Africa during the colonial are.
- Colonial Agriculture aimed at intensifying or/ concentrating on cash crop production such as sisal, cotton, coffee, and very rare food crops were entertained in some areas in the colony.

Main body six points (@2marks)

Reasons for the adoption of various colonial agricultural systems in Africa.

i) Climatic condition. Areas with hot climate like Ghana, Uganda Nigeria were not conducive for settlers hence peasants was pre –dominant unlike areas with cold climate like Zimbabwe, Kikuyu land in Kenya Algeria and South Africa were more attractive to setters and plantation Agriculture.
ii) Population density. Areas with high population such as Uganda, Kenya and Nigeria land alienation was not successful since colonial masters feared strong resistance hence peasant was encouraged apart from areas with shallow population such as Kenya and Zimbabwe.
iii) Presence/ absence of government support (the role of colonial state)
iv) Economic strength of the mother country (capital)
v) Accessibility and navigability of the colony.
vi) Soil factor/ soil fertility.

Conclusion (01 mark)
Any relevant conclusion
