(v) Oral tradition/recalling events - relating events to known historical happenings
(any other relevant point)

4. Any five (5) valid points = 10 marks

Effects of agriculture

(i) Growth of permanent settlements – people stopped moving frequently because they could produce food in one area.
(ii) Increase in population – reliable food supply supported population growth.
(iii) Development of trade – surplus agricultural products were exchanged with other communities.
(iv) Development of social and political organizations – leaders emerged to organize communities and control resources.
(v) Development of specialized activities – some people engaged in crafts, trade and other occupations because not everyone had to produce food.
(vi) Improvement of food security – agriculture provided regular sources of food.
(any other relevant point)

5. 2 marks @ = 10 marks

Differences between Organic Evolution theory and Creation theory (any five):

(i) Evolution theory: humans developed gradually from earlier species; Creation theory: humans were made directly by God

(ii) Evolution theory relies on scientific evidence (fossils, DNA); Creation theory relies on religious scriptures/faith
(iii) Evolution theory explains change over millions of years; Creation theory describes an instantaneous act of creation
(iv) Evolution theory is supported by scientists/archaeologists; Creation theory is supported by religious leaders/theologians
(v) Evolution theory sees humans as related to other primates; Creation theory sees humans as a special, separate creation
(any other relevant point)

6. Any five (5) valid points = 10 marks
Benefits of studying History regardless of one's future career (any five):

(any other relevant point)

8. 2 marks @ = 10 marks
Chronology

1st	2nd	3rd	4th	5th
iii	v	ii	i	iv

9. Any five (5) valid points = 10 marks
Economic factors that influenced socio-political organisation in pre-colonial Africa (any five):
(i) The type of economic activity practised (e.g., pastoralist societies often had mobile, less centralised leadership)
(ii) Availability and control of resources such as land, water and minerals influenced power structures
(iii) Trade and wealth accumulation gave rise to powerful chiefs/kings who controlled trade routes
(iv) Surplus food production allowed some societies to support specialised leaders and officials
(v) Need for defence of economic resources led to organised military/political structures

(any other relevant point)

SECTION C (15 MARKS)

10. Introduction 02 marks, Main body 02 marks @ 6 points = 12 marks, (Conclusion may be integrated) Total = 15 marks (Adjust: 02+02x6+01=15 or as per school marking scheme)

Historical limitations of written records (any six):

(i) Systems of conflict resolution and justice administered by chiefs, elders or councils They may be biased, reflecting the writer's own interests or point of view.

(ii) Many African societies had no writing tradition, so records only cover limited periods/regions.

(iii) Records can be lost or destroyed through fire, war, insects or poor storage.

(iv) Some records contain deliberate falsification, exaggeration or propaganda.

(v) Language and translation problems can distort the original meaning.

(vi) Access to archives may be restricted, expensive or require special permission.

(vii) Interpreting old documents requires special skills (palaeography), which few historians have.

(any other relevant point)
