THE UNITED REPUBLIC OF TANZANIA
THE PRESIDENT'S OFFICE
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT
NAMANGA FORM THREE PRE-MIDTERM EXAMINATION

GEOGRAPHY

Time: 3 Hours **August 2024**

Instructions

1. This paper consists of three sections A, B and C.
2. Answer ALL questions in section A and B and ONLY two questions from section C.
3. Map extract is provided.
4. Credit will be given for the use of relevant sketch maps, examples and diagrams.
5. Write your examination name to each page.

SECTION "A" (16 MARKS)

1. For each of the following item (i-x), choose the most correct answer from among the given alternatives and write its letter besides the item number in the booklet provided.

(i) The following are form of organically formed sedimentary rock;

A. Argillaceous, arenaceous and rudaceous
B. Argillaceous, siliceous and calcareous
C. Siliceous, argillaceous and calcareous
D. Carbonaceous, siliceous and calcareous
E. Carbonaceous, calcareous and arenaceous

(ii) Linda climbed up mountain Kilimanjaro last year. She saw very heavy forests along the way few feet before the peak. Identify the type of climate in the area

A. Equatorial region
B. Tropical region
C. Tundra and polar regions
D. Monsoon region
E. Mediterranean region

(iii) The transition zone between outer mantle and inner mantle is known as…….

A. Conrad discontinuity
B. Lehman discontinuity
C. Mohorovicic discontinuity
D. Repeti discontinuity
E. Gutenberg discontinuity

(iv) Paleozoic these are rock formed between: -

A. 30-600 million years ago
B. 1-20 million years ago
C. 220-600 million years ago
D. 60-220 million years ago
E. 40-300 million years ago

(v) …….is the type ocean Tide that rise very high and fall very low which occur during new moon days and full moon day.

A. Neap tides
B. Spring tides
C. Shallow waves tides
D. Deep waves tides
E. Crest waves tide

(vi) The season of the year after winter and before summer in which vegetation begins to appear is known as…….

A. Fall season
B. Autumn season
C. Spring season
D. Winter season
E. Hot season

(vii) A striker from Azam sports club, Fei toto won a prize for the best goal of the year at CAF awards held in Mali. He scored the goal against the Bamako team in Mali (24°S, 39°E) at 4:10Pm. What will be the time his home town in Dar es salaam (34°N, 6°W)?

A. 7:10 am
B. 1:10 Pm
C. 6:22am
D. 1:58 pm
E. 1:10 am

(viii) The process of changing one types of into another types of rock is called……...

A. Metamorphism
B. Sedimentation
C. Melting
D. Weathering
E. Lithification.

(ix) During dry seasons, most plants shade their leaves as a way to reduce the amount of water released, the correct term for this process is

A. Evaporation
B. Precipitation
C. Transpiration
D. Condensation
E. Infiltration

(x) The temperature of Mombasa at mean sea level is 20º C. What will be the temperature of Tanga at 2000 meters above mean sea level?

A. O8ºC C. 28ºC E. 12^0C

B. -08ºC D. -28ºC

2. Match the phrases in "LIST A" with the responses in "LIST B" by writing the letter of the correct response besides the item number.

COLUMN A	**COLUMN B**
i. Conrad discontinuity	A. Semi-molten flid material.
ii. Mohorovic discontinuity	B. Layer between inner core and outer core.
iii. Guttenberg discontinuity	C. Layer between upper mantle and lower mantle.
iv. Repetti discontinuity	D. Layer between mantle and core
v. Lehmen discontinuity	E. Layer between crust and mantle.
vi. Asthenosphere	F. Layer between sial and sima
	G. Layer between crust and core
	H. Layer between sial and inner core.

SECTION "B" (54 MARKS)

Answer all the questions in this section and write short answer. Each question carries 09 marks.

3. Study carefully data below and then answer the questions that follows.

Month	J	F	M	A	M	J	J	A	S	O	N	D
Temp ºc	25.5	25.5	26.1	26.7	27.2	26.7	25	26.1	26.7	26.7	25.6	26.1
Rainfall (mm)	246	180	185	198	165	178	170	198	175	201	256	264

i) Calculate the mean annual temperature for the station

ii) Calculate the annual range of temperature

iii) Calculate the total rainfall for the station

iv) What are the three economic activities can be conducted in the station

v) Give two reasons for suggesting the type of climate of the station.

4. The earth consists of inner zone and outer zones. With the aid of diagrams describe the internal structure of the earth.

5. Define the following terminologies: -
   a) Asthenosphere.
   b) Diastrophism.
   c) Hade

6. There are some forces that operate within and outside the earth surface, which are endogenic forces and exogenic forces. With clearly diagram and examples describe any five volcanicity features.

7. Study the map given then answer the questions that follows: -

a) Find bearing and direction of grid reference 910540 from grid reference 940570

b) Giving evidences from the map, suggest three economic activities taking place in the area.

c) If the boat sail from grid reference 880550 to grid reference 960550.What will be the actual ground distance, if the boat sail three times.

d) Comment on the type on North used on the map.

8. By using the knowledge of agriculture topic in form two, study the following photography given then answer the question that follows

a) With clear reason, specify the type farming.
b) Mention four pros of the specific types of farming mention in (a) above.
c) Mention three regions in Tanzania that might practice that kind of agriculture.
d) State the scale of agriculture (with two reasons).
e) State two reasons to why farmer practice that type of agriculture.

SECTION "C" (30 MARKS)
Answer ONLY two (2) questions from this section.

9. Explain how distance to water source from household affects the girl child.

10. Tanzania tourism sector has the bright future. Discuss this statement by giving six (6) points.

11. Mining plays a great role in improving the economy of Tanzanian peoples. With examples, elaborate five challenges that can be caused by mining sector.
