SECTION (A) 16 MARKS
Answer all questions in this section

1. For each of the items (i)-(x), choose the correct answer from among the given alternatives and write its letter besides the item number in the answer booklet provided.

   i. The sun appears as round yellow object in the day time sky. At night we see other stars appear as tiny points of light. Why does the sun appear large than stars that we see at night?
      A. Earth's atmosphere filters out light from other stars making them appear smaller
      B. The sun is close to the earth than other star making the sun appear large.
      C. Star light bend as it pass planets making stars appear smaller
      D. Day light bend brightness the sun, making it appear larger.
      E. None of the above

   ii. The DW broadcast channel is conducted an interview at Alaska 75ºW at 7:30 pm Tuesday. At what time and day will the people in Arusha 45ºE will be listening to the interview?
      A. 3:30 pm Wednesday
      B. 1:30 am. Tuesday
      C. 9:30 am Wednesday
      D. 3:30 am Wednesday
      E. 3:30 pm Wednesday

   iii. You have been visited the coastal area of Bagamoyo and you find the forests with deep roots and roots project above the mud and water to absorb oxygen, what kind of forest is that?
      A. Tropical forest
      B. Mangrove forest
      C. Coniferous forest
      D. Deciduous forest
      E. Temperate forest

   iv. Form two students were told by their teacher to select an industry which deals with production of industrial spare parts. Which type of industry will be selected?
      A. Chemical industry
      B. Fabrication industry
      C. Textile industry
      D. Metallurgical industry
      E. Processing industry

   v. Last session in Geography club, Kamla and Rohan were studying about the Earth. Which of the following is true regarding the Earth as they were discussed?
      A. It is the third largest planet in the solar system
      B. It is the only planet that is known support life.
      C. It has average temperature that crosses the orbits of other planets
      D. It revolve around the sun once in every 364 days
      E. It is the only planet that is known does not support life.

   vi. If the minimum and maximum temperature recorded in Dar-es-salaam on May 23rd 2019 were 23.5℃ and 32.5℃ respectively. Calculate the daily range of temperature in Dar-es-salaam.
      A. 56℃
      B. 9.0℃
      C. -8.5℃
      D. 28℃
      E. -28℃

vii. Our teacher was teaching about the internal structure of the earth and he said that there are various layers in there, such as SIAL and SIMA. Then a student interfered by asking the teacher about a boundary separating the two layers. Which one of the following would be the best response?

A. Moho discontinuity
B. Conrad discontinuity
C. Gutenberg discontinuity
D. mesosphere
E. Asthenosphere

viii. Suppose you are living in an urban center and you are interested in keeping livestock. What type of livestock keeping would be suitable for you?

A. Sedentary
B. Ranching
C. Nomadism
D. Transhumance
E. Zero grazing

ix. Mwantumu failed to identify the correct process of rain formation. Assist Mwantumu by choosing the correct process on the following options.

A. Evaporation, Precipitation, condensation and cooling
B. cooling, evaporation, condensation and precipitation
C. Evaporation, cooling, condensation and rainfall
D. Evaporation, cooling, precipitation and rainfall
E. Condensation, cooling, precipitation and rainfall

x. Wambura was mentioning the list of block Mountains, but he listed with one which is not among of it. Which one will be not the intended list mentioned by Wambura?

A. Rockies, Andes, and Appalachian
B. Ruwenzori, Vosges and Sinai
C. Usambara, Uluguru and Ruwenzori
D. Vosges and oldonyo lengai
E. Black forest and Usambara

2. Match the phrases in **LIST A** with the responses in **LIST B** by writing the letter of the correct response below the item number in the answer grid provided.

LIST A	**LIST B**
i. Mediterranean climate	A. 45° and 90° N and S
ii. Tropical climate	B. 10° and 30° N and S
iii. Polar climate	C. 00° and 05° N and S
iv. Equatorial climate	D. 30° and 50° N and S
v. Hot desert climate	E. 30° and 45° N and S
vi. Tropical monsoon	F. 05° and 20° N and S
	G. 20° and 30° N and S
	H. 30^0 and 30^0 N and S
	I. 10^0 North and tropic of cancer

SECTION (B) 54 MARKS

Answer all questions in this section

3. Study the map extract of **Mkomazi (sheet 109/1)** and then answer the following questions.
   (a) By using linear scale, find the length of the railway from grid reference 901896 up the meeting point of the railway and the main stream of river Mkomazi.
   (b) Use grid square method, calculate the area covered by forest in km^2
   (c) Show the general alignment of the road from grid 954870 to grid 010820.
   (d) By using naming method, locate the position of a place which is 2km, 030°N from grid 950820
   (e) Comment on the drainage pattern (s) and their direction flow of the area between 94 and 96 easting.

4. Study the table below of crops production from 1988 to 1990 then answer the questions that follows

YEAR / CROPS	1988 (000 tonnes)	1989 (000 tonnes)	1990 (000 tonnes)
MAIZE	200	260	275
TEA	100	200	180
COFFEE	150	220	200

   a) Present the data shown in a table into multiple bar graph to show crop production from 1988 to1990
   b) State the merits and demerits of the method used in (a) above. Two points on each.
   c) Comment on the trend of the production
   d) What are other two alternative method which can be used in present the data above

5. Assume you have been employed as the district surveyor in Kakonko district council. You are asked by the District Executive Director (DED) of Kakonko district council to conduct land survey in one of the streets within a district. As a leader of the team of survey:

   a) Name four (4) methods of the type of survey (mentioned above) that you will use in surveying the street.

   b) Explain six (6) sources of errors or are likely to occur during the surveying process.

   c) Apart from a leader list down other two (2) individuals/people with their task who will comprise a surveying team.

   d) With the aid of diagram identify and explain any two (2) tools used to mark stations during the surveying process

6. Sombasomba wanted to conduct a research to know the causes of the influx of sugar price in Tanzania, where by the topic of research is: '**THE REASONS FOR THE INFLUX OF SUGAR PRICE IN TANZANIA"**. In order to have an intensive discussion on the topic he decided to use small group of seven (07) people as a method of data collection with some businessmen representatives.
   a) Identify and explain the method used to collect data.

b) (i) Give the meaning of variables
(ii) With examples, identify and explain the dependent and independent variables used in the topic?

c) Give merits and demerits of using method of data collection mentioned in (a) above. (Four points on each).

7. Form three students visited the river basin to observe the river profile, on their observation they observed from the main river there is deviation of small channel divided from the main river and for a short distance it joined again to the main river.
   a) What is the name given to the features observed by the students?
   b) Give five (5) conditions necessary which can lead the influence or occurrence of the observed features.
   c) This feature is likely to be formed in which stage of the river?
   d) With the aid of diagram describe the features observed.

8. Study the following photograph then answer the questions that follows.

   a) With four evidences, name the type of photograph.
   b) Identify and explain types of photograph named in (a).
   c) Basing on the types identified in (b) above, the photograph shown it fall under which type of the photograph? Give the one specific reason.
   d) With evidence, suggest the time when the photograph was taken.
   e) Name two economic activities which might take place in the area
   f) Explain four factors that can affect the type of photograph

SECTION C 30 MARKS

Answer two questions from this section

9. Mr. Robin Van Damian visited Tanzania from Netherlands for the first time in 2023. He experienced a lot of constraints that facing road transport. What are the six problems that Mr. Robin Van Damian experienced?

10. Agriculture is the backbone of many countries in Africa and world at large. In Tanzania agriculture sector only employed more than 70% of the population but still is not doing well as compared to rest of the world. Give six ways to solve the problem.

11. The Tanzanian census conducted in 2022 showed that, Dar es Salaam is experiencing fast growth of settlement compared to other places in the country. As an expert, explain six (6) possible factors for this growth.
