SECTION A: (15 Marks).

Answer all questions in this section.

1. For each of the item (i) – (x) choose the most correct answer and write its letter in the booklet provided

(i) The local time at station Y (15W) is 8:00AM, what will be the time at station X (40°W)?

A. 6:00PM
B. 6:20PM
C. 6:20AM
D. 7:20PM
E. 7:20AM

(ii) Evidence of river capture may be found when one of the following feature is present

A. A knick point
B. A river regime
C. A misfit stream
D. A river rejuvenation
E. A water fall

(iii) Kame terraces, outwash plain, Roche mountain are examples of _____ features

A. Gracial erosion and deposition
B. Wind erosion and deposition
C. Desert water erosion and deposition
D. River erosion and deposition
E. Wave erosion and deposition

(iv) I f the temperature of Sumbawanga 800meters above the sea level is 26°C, what will be the altitude at Mbeya whose temperature is 23°C

A. 500 meters
B. 300 meters
C. 1200 meters
D. 1000 meters
E. 1300 meters

(v) Which of the following is true about the tropical region

A. It is found between 15°C and 30° North and South of equator
B. It has a moderate rainfall of about 500 – 1500M
C. It has a very high day temperature above 40°C
D. It has four rainfall maxima
E. It has a total rainfall of about 2000MM

(vi) A sharp boundary separating mantle from core is

A. Moho discontinuity
B. Conrad discontinuity
C. Asthenosphere
D. Guternburg discontinuity
E. methosphere

(vii) The process in which nutrients are washed down in solution from the top soil layer is called:-

A. Leaching
B. Illuviation
C. Eluviation
D. Soil erosion
E. Weathering

Scanned by CamScanner

(viii) The word "Geography" was originated from two Greek words which are Geo and grapho. The word grapho means _____

A. the earth
B. the solar system
C. to write
D. the world
E. wondering star

(ix) When there is a small differences in reading of two thermometer it indicates that

(a) Humidity is fixed
(b) Humidity is high
(c) Humidity is low
(d) Humidity is moderate
(e) The air is not saturated

(x) Mountains can be classified according to the

(a) Importance
(b) Light
(c) Mode of formation
(d) Surrounding
(e) composition

2. Match the items in list A with the correct response in list B by writing the letter of the correct response in the item number

LIST A	LIST B
(i). The renewal of the erosive activity of the river in its valley	A. Interlocking spurs
(ii). The layer of porous rock which becomes impermeable after absolving water	B. Delta
(iii). The residual hill formed by water erosion in desert	C. Magma
(iv). Formed at the upper part of the river	D. Volcanic mountains
(v). The molten materials ejected during volcanism	E. River capture
	F. River rejuvenation
	G. Inselberg
	H. Rock pedestal
	I. Aquitard
	J. Aquiclude.

SECTION B: (55Marks)

Answer all questions in this section

3. (a) Carefully study the following data showing maize production in Rukwa region from 2012 to 2018

Year	2012	2013	2014	2015	2016	2017	2018
Production	260	240	300	280	315	220	340

(i) Present the data by using a divergent bar graph

(ii) State two advantages and disadvantages of the method

(b) (i) Define the word sampling as used in research

(ii) Outline four (4) problems encountered in field research

4. (a) Explain five importance things a surveyor has to prepare before deciding to conduct a chain survey

Scanned by CamScanner

(b)What would help you to recognize the following in the photograph?

(i). (a) Title of the photograph
(b) Time when photograph was taken
(c) Type of photograph

(ii). Give three (3) limitations of photographs in studying Geography.

5. Study the map extract of Korogwe (series Y 742 sheet 129/2) then answer the questions that follows

(a) (i) Calculate the area of the map North 34 in Kilometer Squares

(ii) Examine the settlement pattern of the area

(iii) Name two ways that have been used to express the map scale

(iv) Describe the relief of the mapped area

(b) With the aid of diagrams, Explain briefly how three types of rainfall are formed

6. (i) Outline six (6) benefit resulting from the use of solar energy
(ii) Give five differences between weather and climate
7. (i) Give six (6) essentials influencing the location of industries
(ii) Mention five factors which hinder tourism development.

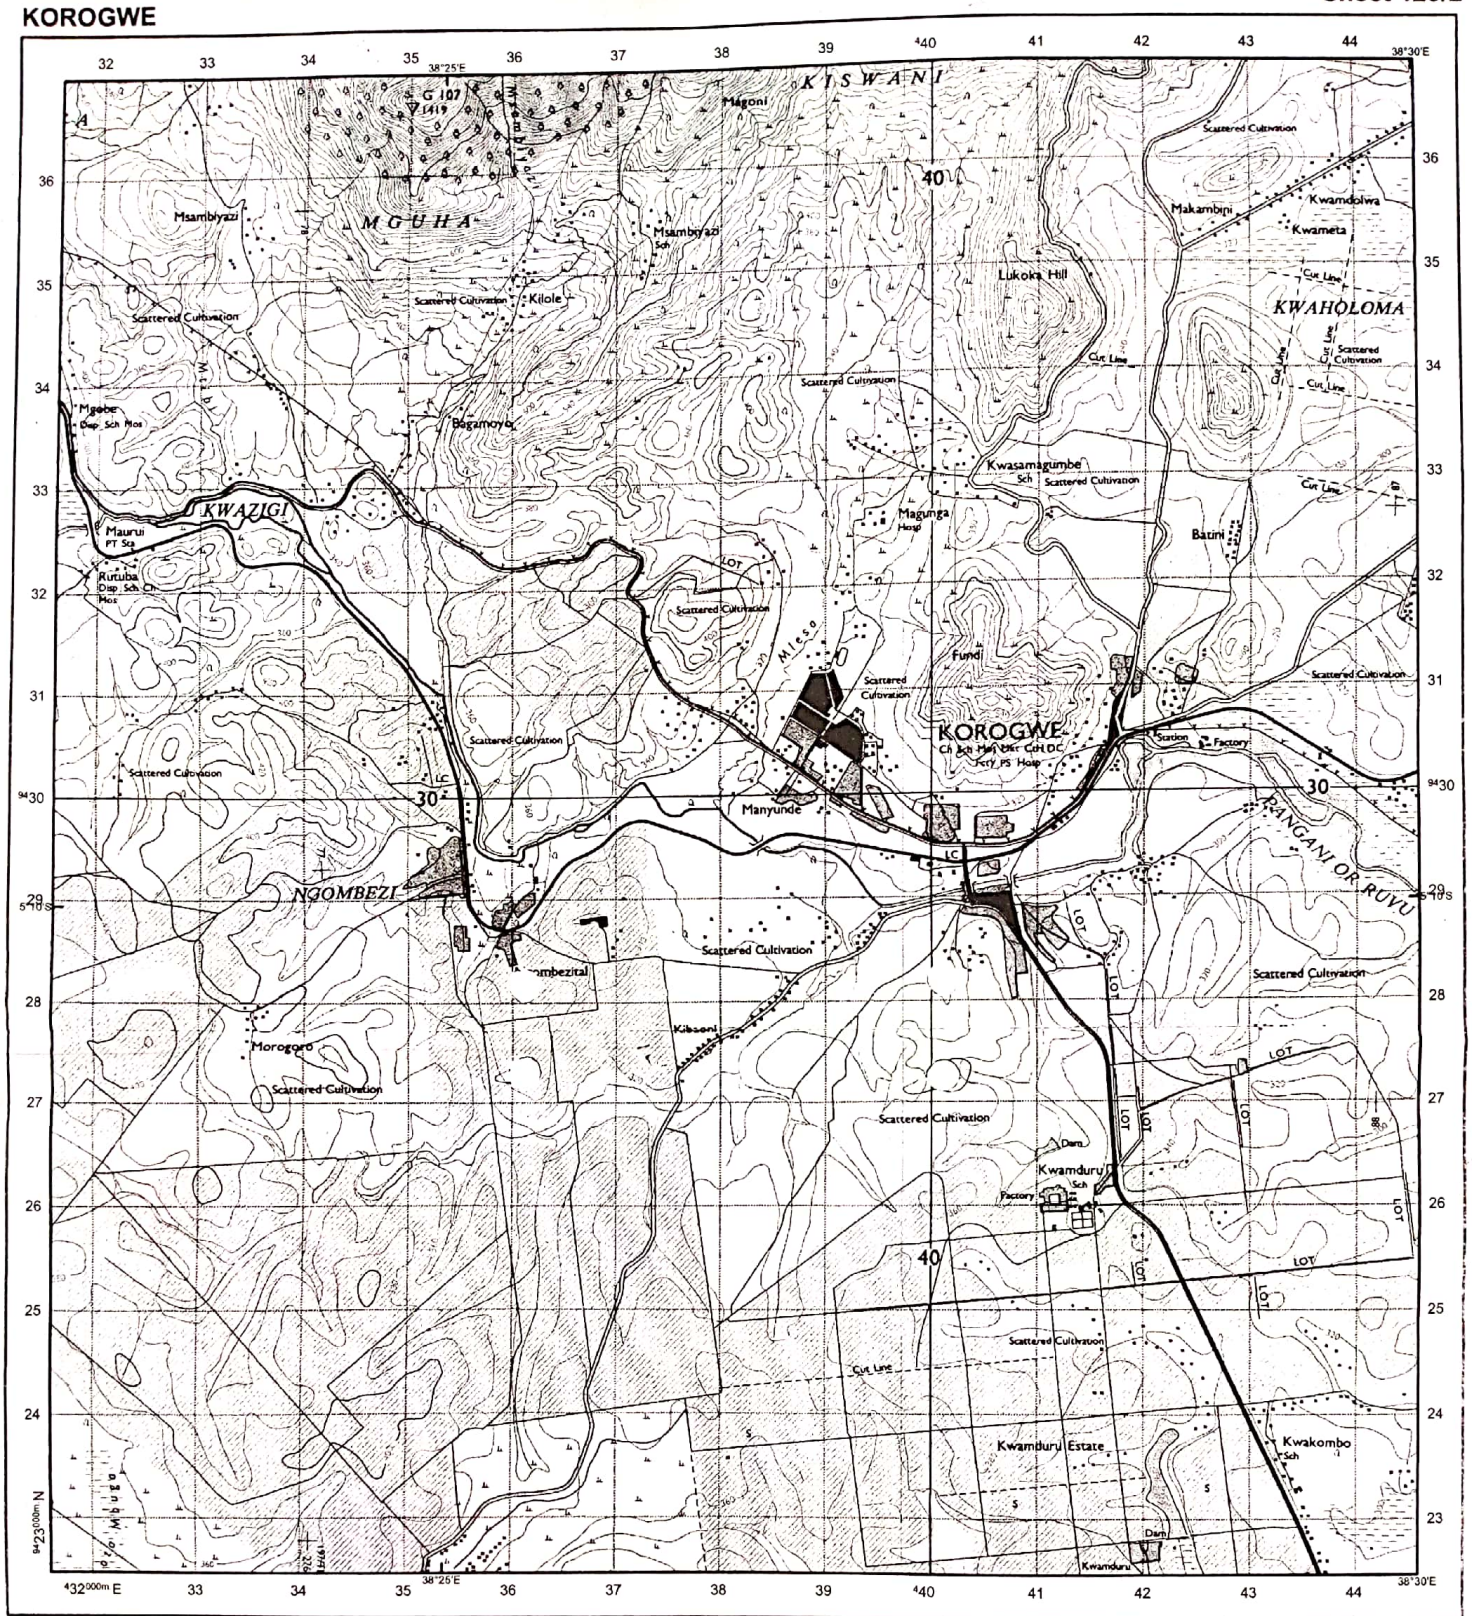

SECTION C: 30 MARKS

Answer only two questions from this section

8. (a) Explain five factors which influence population distribution in the World.
(b) Explain (6) factors that lead to the increase in environmental pollution
9. Critically explain any six (6) conditions necessary for generating Hydro electric power.
10. Global warming and Green house effects are like two lions that can eat the nation at once. Verify this statement by describing two (2) causes and four (4) effects of global warming and green house effects

KOROGWE

Extract from Korogwe sheet 129/2
Series Y742, Edition 3-TSD/ Ministry of Lands.
Government of the United Republic of Tanzania 1988

HEIGHTS IN METRES

Scale 1: 50,000

1 0.5 0 1 2 3 Kilometers

- Town or area with permanent buildings
- Other populated area, Houses
- All Weather Road:- Bound Surface — Road A12 Number
- All Weather Road:- Loose Surface — Culvert, Bridge
- Main Track (Motorable)
- Other Track and Footpath
- Cut Line — Cut Line
- Railway, Siding, Station, Level Crossing — Sta, LC
- Railway Light
- Airfield Runway
- Telephone Line
- Telephone Line along Road
- Power Line
- Crater
- Steep Slope
- Spot Height (in metres) 204
- Contours (V.I.20m) ..... Depression
- Air Photo Principal Point with Film No. — JICA/91 R7B-5
- Watercourse, Waterfall, Rapids, Dams
- Watercourse, (Wide), Waterfall Rapids
- Watercourse (Indefinite)
- WateTank, Windpump
- Borehole, WateHole, Well, Spring
- Bund, Major Fence, Hedge
- Cliff
- Forest
- Thicket
- Bamboo
- Riverrine Trees
- Plantation:- ..... (Coffee C, Palm P, Sisal S, Sugar Su, Wattle W)
- Woodland
- Scrub
- Scattered Trees
- Palm Trees
- Mangroove Swamp
- Tree Swamp
- Papyrus Swamp, Marsh, Boge
- Seasonal Swamp
- Sand or Mud ..... Inland ..... Coastal
- Outcrop Rock
- Coral
