THE PRESIDENT'S OFFICE
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT
FORM FOUR JOINT EXAMINATION FOR GOVERNMENT SCHOOLS –JEGOS

PRE-MOCK EXAMINATION
GEOGRAPHY
MARKING SCHEMES 2024

SECTION A: (16 Marks)

(i)	(ii)	(iii)	(iv)	(v)	(vi)	(vii)	(viii)	(ix)	(x)
D	E	A	D	A	A	C	A	C	A

01 mark @ = 10 marks

(i)	(ii)	(iii)	(iv)	(v)	(vi)
D	H	G	A	F	E

01 mark @ = 06 marks

SECTION B: (54 Marks)

a) (i) Sheet number = 265/2

(ii) Edition number = 1-TSD

(iii) Latitudinal position = $9^0$5'00"s **$^{001}/_{2}$ *mark***

(iv) Year of production = 1987.

b) Area covered by Makaka pond.

Area = $\frac{Half\ squares}{2}$ + Full squares **$^{001}/_{2}$ *mark***

Half squares = 2

Full squares = 0 **$^{001}/_{2}$ *mark***

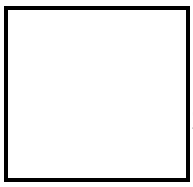

The area = $\frac{2square}{2}$ + 0sq

Area = 1 sq

3. (b) From the map scale **$^{001}/_{2}$ *mark***

1cm = $^{1}/_{2}$ km

To find area of 1 square **$^{001}/_{2}$ *mark***

2cm = 1km

2cm = 1km

Area = side x side

= 1km x 1km

= $1km^2$

Then, 1sq = $1km^2$

1sq = X

$$X = \frac{1sq \; X \; 1km2}{1sq}$$

X = $1km^2$

:. The area covered by Makaka pond is $1km^2$. ***01 mark***

(c) Social activities carried out in the area

i. Education: This is shown by presence of school in the grid reference 599987.

ii. Health service : It is shown by presence of dispensary in the grid reference 604987. iii. Worshiping: It is shown by presence of mission house in the grid reference 605985.

iv. Water supply: It is suggested due to presence of pump house in grid reference 604985 ***3@ 01 mark***

(d) Bearing of Luhombero GR 565975 from Njigimu hill, grid reference 612990 is 249. ***01 mark/total = 09 mark***

4. (a) Total annual rainfall

80 + 50 + 150 + 81 + 241 + 600 + 550 + 388 + 214 + 262 + 124 + 2

TAR = 2,768 mm ***01mark***

(b) Mean annual temperature

$$\frac{26+27+28+29+28+26+25+25+26+26+27+26}{12}$$

$$= \frac{319°c}{12}$$

MAT = 26.58°C ***02 mark***

(c) At the graph paper. ***05 mark***

(d) The crop that can grow in this condition

i. Cocoa

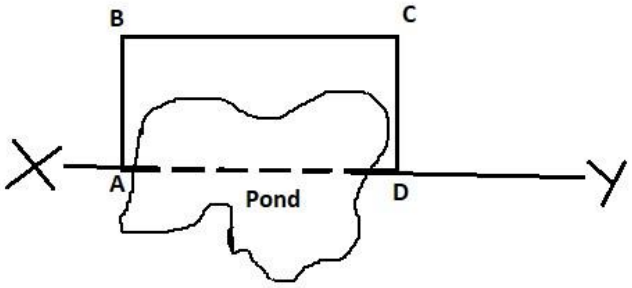

ii. Palm oil ***iii.*** Rubber ***2crops @ 001/2 = mark***

TOTAL = 09 marks.

5. (a) The obstacle which hinder visibility but can be walked around. ***01 mark***

(b) The obstacle can be overcome by using right angle method. ***01 mark***

(c)

XY is the main line of traverses. Insect a ranging pole at A and D along the line XY. From A, establish a perpendicular line AB and CD at right angle to avoid obstacle from B develop a line BC at right angle to avoid obstacle and thus

AD = BC ***02 marks.***

5. (d) Advantages of chain survey.

i. It is a simplest and common technique of survey
ii. It does not require many people to practice
iii. It is not effective method composed to other method
iv. It does not involve complex mathematical calculation

3points @ 01 mark

TOTAL = 09 marks.

6. (a) The feature is Mountain. ***01 mark***

(b) Types of Mountain

i. Blok mountain
ii. Volcanic mountain
iii. Fold mountain ***01 mark @ = 04 marks*** iv. Residual mountain (c) Advantages of mountains.
i. They are majority source of world's fresh water
ii. They can be source of tourist attractions
iii. They provide valuable mineral resources
iv. They are used by many countries to define their borders.
v. They protect geographical regions from extremely cold winds

4 points 01 mark@ = 04 marks

TOTAL = 09marks

7.(a) The type is applied research/ secondary research ***01 1/2 mark***

(b) The method of data collection is interview ***01 1/2 mark***

(c) Advantage of Interview

i. It can be used by literate and illiterate people

ii. A truly and good relationship can be developed between researcher and respondent.

iii. It generate in depth data which is not possible to get in other methods

iv. It allows probing questions and asking for follow up when needs.

v. It allowed researcher to be score that respondent understand question properly

4 point @ 01 1/2= 06 marks

TOTAL = 09 marks.

8. (a) Types of photographs is ground. ***01 mark***

Reasons; (i) It has been taken at surface level

(ii) The frontal part of the photograph is seen clearly.

2points @ 01 mark

(b) Types of ground photograph

i. General ground photograph

ii. Close -up ground photograph ***01mark @ = 02 mark***

(c) Time is everning /morning ***01 mark***

Reason; The shadow of an object is casted to the Eastern part ***01 mark***

(d) Activity that might take place in the area

i. Tourism

ii. Trade ***02points @ 01mark*** iii. transport ***TOTAL = 09 marks***

SECTION C: (30 Marks)

9. ***Introduction:*** meaning of settlement or any relevant introduction ***02marks*** ***Main body:***

Factors for growth of settlement

i. Availability of social services

ii. Presence of employment opportunities

iii. Presence of peace and security

iv. Presence of Indian ocean

v. The city is free from pest and diseases

vi. Favoulable climatic condition. vii. Presence of industrial activity.

6point @ 02marks =12 marks

Conclusion:

Any relevant conclusion ***01mark***

TOTAL = 15 marks

10. Benefits of construction of Julius Nyerere hydroelectric power plant in Tanzania.

Introductio:

Any relevant introduction ***02 marks***

Main body:

- Benefits of JN HEPP

i. It does not led to environmental pollution
ii. Generation of enough electricity for domestic and industrial use
iii. It may encourage the development of industries
iv. It provides employment to the people.
v. The hydro power stations can be used foe irrigation when water is scarce.
vi. It may improve the living standard of people
vii. It may help to generate government revenue

6points @ 02 marks = 12 marks

Conclusion:

Any relevant conclusion ***01mark***

TOTAL = 15 marks

11. Problem facing Industrial sectors.

Introductio:

Any relevant introduction ***02 marks***

Main body:

i. Inadequate supply of raw materials
ii. Shortage of capital to run Industries
iii. High cos and unreliable power supply iv. Poor means of transport and communication
v. Shortage of adequate skilled labours
vi. Absence of Internal and International market

6points @ 02 marks = 12marks

Conclusion:

Any relevant conclusion ***01mark***

TOTAL = 15 marks
