Candidate's examination number ……

PRESIDENT'S OFFICE

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT

ARUSHA REGION

FORM TWO REGIONAL MOCK EXAMINATION

036 INFORMATION AND COMPUTER STUDIES

TIME 2:30 Hours **MAY 2024**

Instructions

1. This paper consists of sections A, B and C with a total of 10 questions.
2. Answer all questions.
3. Write your answer in a spaces provided.
4. All answers must be written in black or blue ink.
5. Cellular phones, calculators and any unauthorized materials are not allowed in the examination room.
6. Write your examination number on the top right corner of every page.

SECTION A (20 Marks)

Answer **all** questions in this section.

1. For each of the following items (i-x), choose the correct answer and write its letter in the box provided.

i. Which of the following application software can be used to write books, memos, essays and reports.

A. Adobe page maker
B. Microsoft word
C. Microsoft excel
D. Adobe acrobatic reader

ii. The collection of output devices which generates softcopy outputs are

A. Plotter, projector and light emitting diode (LED)
B. Printer, light emitting diode (LED) and speaker
C. Speaker plotters and monitors
D. light emitting diode (LED), monitors and speakers

iii. pressing together the keyboard keys CTRL and P enables a computer user to

A. paste text in a document
B. print a document
C. save a document
D. align text in a document

iv. Which of the following error in an Excel is displayed due to result being too long to fit in the cell?
   A. #NULL
   B. #REF
   C. ######
   D. #VALUE

v. The type of computer based on the operational principle of computer (technology) are named as…….
   A. Minicomputer, supercomputer, digital computers
   B. Analogy, hybrid microcomputer
   C. Mainframe, supercomputer and microcomputer
   D. Analogy, hybrid and digital computers

vi. Why a company may prefer to install star type of network topology for its employees to use.
   A. Once one node fail others continue working
   B. Difficult to install
   C. Most expensive
   D. Need each computer to interconnect to each other

vii. What represent protocol in the Uniform Resource Locator (URL) http://wwww.Itilima.go.tz/itlimadc/agriculture.html
   A. wwww.Itilima.go.tz
   B. http
   C. itlimadc
   D. agriculture.html

viii. The source of information based on personal interview, e-mail contact, event and discussion to extract information is?
   A. Traditional source
   B. Modern source
   C. Secondary source
   D. Primary source

ix. The strategy that can prevent a computer being infected by virus is
   A. Restarting a computer
   B. Use a virus scanning program
   C. Downloading free programs
   D. Visiting unsafe website

x. The function of keyboard in a computer is
   A. To process data given to computer
   B. To accept information and process them to output
   C. To output data processed by CPU
   D. To accept data from the user to the computer

2. Match the following functions used in calculation manipulation on excel file in **List A** with their description in **List B** by writing the letter of the correct description below the corresponding item item number in the table provided.

List A	List B
i. AND ( ) ii. IF ( ) iii. COUNTIF ( ) iv. MIN ( ) v. NOT ( )	A. Returns true if its arguments is true B. Return the arithmetic mean of its arguments. C. Negates the unary operand D. Returns the largest value in a set of value within a range. E. Conditionally counts the number of cells within a range that meets a given condition. F. Returns the smallest value in a set of values. G. Conditionally adds the specified cells according to set of criteria. H. Returns true if all its arguments are true or false and if any argument is false I. Returns a value or label if a condition you specify is evaluated to true and another is evaluated to false. J. Multiplies all the values in arguments.

List A	(i)	(ii)	(iii)	(iv)	(v)
List B					

3. For each of the following statements write **TRUE** if the statement is correct or **FALSE** if the statement is not correct.
   i. Upload means transfer a file from your computer to another computer through network ……..
   ii. RAM in computer store and control programs that are necessary the initial activation of hardware when power is switched on ……..
   iii. Dust block flow of electricity to circuit system of a computer …….
   iv. Landscape layout of a page in Microsoft word, text and graphics are placed with the longest side of a page placed vertically …….
   v. Network protocol is a rule of exchanging data between computers in a network ……..

SECTION B (60 Marks)

Answer **all** questions in this section.

4. (a) differentiate data from information

……
……
……

(b) Describe four (4) qualities of information

- ……
  ……
  ……..
- ……
  ……
  ……
- ……
  ……
  ……
- ……
  ……
  ……..

(c) Outline four (4) importance of information to the Tanzanian society.

- ……
  ……
- ……
  ……..
- ……
  ……
- ……
  ……..

5. (a) outline the procedures/step to italicise the text on Microsoft word processor
   - ……
     ……
   - ……
     ……

   (b) Outline three (3) factors to consider when choosing a word processor
   - ……
     ……
   - ……
     ……..
   - ……
     ……

(c) Differentiate the following terms as used in Microsoft word processors.

i. Save and save As

……
……
……
……

ii. Superscript and subscript

……
……
……

(d) What is print preview …… …….

……..

6. (a) Give four (4) differences between Random Access Memory (RAM) and Read Only Memory (ROM).

Random Access Memory (RAM)	Read Only Memory (ROM)
(i)	
(ii)	
(iii)	
(iv)	

(b) with three examples briefly describe secondary storage memory

……

……

……

7. (a)Define the term computer networks

……

……..

(b) For data to be entered into a computer there must be an input device specifically for entering data to the computer also there must be an output device specifically for particularly output information .Enumerate any five input devices and any five output devices you know

Input devices	Output devices
i.	
ii.	
iii.	
iv.	
v	

(c) Physical network topology refers to the physical layout or arrangement of components of the networks. Mention four types of physical network topology

i……

ii……

iii……...

iv……..

8. (a) mention two examples of application software

- …….
- ……..

(b) Mention two (2) examples of system software

- ……..
- …….

(c) Briefly describe four (4) functions of operating system

i. ……
……
…….

ii. ……
……
……..

iii. ……
……
……

iv. ……
……
……

9. Here is a part of worksheet containing some numerical data:

	A	B	C	D
1				
2	1		12	
3	6	4		
4				
5				
6	20			

(a) Write the cell address containing
   i. 4
   ii. 12
   iii. 20

(b) Write the formula that will give:
   i. The product of cell A3 and C2……
   ii. The difference between cell A6 and B3…….
   iii. Total of all numbers in the sheet……..

(c) Write the procedure used for shading cell in a worksheet
……
…….

SECTION C (20 Marks)

10. Explain three advantages and two disadvantages of computer networks to an organization which decides to employ computer network to run the organization.
……
……
……
……
……
……
……
……
……
……
……
……
……
……
