SECTION B (70 marks)
Answer all questions in this section

3. Explain why;
   a) The first generation computers were large, over- heating and power inefficient ……
   b) The development of microprocessors was a major development in computer technology…….
   c) Mobile phone is regarded as a computer (Give three points)
      i. ……..
      ii. ……..
      iii. ……..
   d) A central processing unit (CPU) sometimes called the brain of computer…….
4. (a) Online education refers to a form of e-learning where by specifically learning takes place over the internet, unlike offline methods such as DVD or radio lessons. Briefly explain any five advantages of E- learning
      i. …….
      ii. …….
      iii. …….
      iv. …….
      v. …….

   (b) What are the key concepts and ideas that form the foundation of computer science? Describes these concepts with five points.
   i. …….
   ii. …….
   iii. ……..
   iv. ……...
   v. …….
5. (a) Define computer care and Handling ……
   ……..
   (b) State four effects of dusts inside the computer.
      i. …….
      ii. …….
      iii. ……..
      iv. ……...

   (c) Why is it important to use carboncopy (CC) and Blind carboncopy (BCC) field appropriately when sending an e-mail? (Give three points)
      i. ……
      ii. ……..
      iii. ……..

6. (a) How can you differentiate computer from interpreter in programming language?.....
……...

(b) John is a form two student at Faru secondary school. One day his computer science teacher, sir Paul, instructed him to install a new application software on a computer. Outline five important factors that John should understand or consider before installing software.

i. ……
ii. ……
iii. ……
iv. ……
v. ……..

7. (a) What is Pseudode?.....
……...

(b) Write a Pseudocode for converting temperature from Fahrenheit into Celsius. The input to the algorithm are the temperature in Fahrenheit and the expected output is temperature in Celsius……..
…….

8. (a)What is the meaning of trouble shooting?.....
……..

(b) Outline any four (4) aspect of trouble shooting

(i) …….
(ii) …….
(iii) ……
(iv) …….

9. (a) Information and data that are stored in the cloud computing should be secured all time, so what are the best practices for the online cloud security that users should follows? Give out four points.

i. ……
ii. ……
iii. ……
iv. ……

(b) What is computer hardware? List five categories of computer hardware with examples.

i. ……
ii. ……
iii. ……
iv. ……
v. ……..
