THE PRIME MINISTER'S OFFICE
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT
NAMANGA SECONDARY SCHOOL
FORM TWO PRE-MOCK EXAMINATION
COMPUTER SCIENCE

Time: 2:00 Hours **MAY 2026**

INSTRUCTIONS:

1. *This paper consists of **Sections A, B, and C** with a total of **ten (10) questions**.*
2. *Answer **all** questions.*
3. *Use blue or black ink for writing.*
4. *Non- programmable calculators may be used.*
5. *Unauthorized materials are not allowed in the examination room.*
6. *Section A and Section C each carry **15 marks**, and Section B carries **70 marks**.*

SECTION A (15 MARKS)

***Answer all questions in this section**.*

1. For each of the following items (i) to (x) choose the most correct answer from the given alternatives and write its letter in the table indicated below the items.

i. Nyamogi told his classmate that computer science is the only about learning how to type and use Microsoft Word. Which statement best corrects his ideas? _____

A. Computer science is the use of computers for entertainment only
B. Computer science is the study of computers, how they work and their applications
C. Computer science is the repairing computer machines only
D. Computer science is the learning how to browse the internet

ii. A company hires an expert to protect its system from hackers and viruses. This field is called:

A. Networking
B. Software engineering
C. Cyber security
D. Artificial intelligence

iii. Early computers use vacuum tubes while modern computers use microprocessors. This difference shows: _____

A. Types of operating system
B. Generations of computers
C. Brands of computers
D. Uses of computers

iv. Mary types her essay using a keyboard and later scans a picture into the computer. Which device is she using? ___

A. Output devices
B. Storage devices
C. Processing devices.
D.Input devices

v. A bank uses powerful computer for transactions while a student uses a laptop for assignments. Which is the correct classification? _____

A. Bank- Supercomputer, Student- Multicomputer

B. Bank – Mainframe, Student – Microcomputer

C. Bank - laptop, Student – Supercomputer

D. Bank – Microcomputer, Student - Mainframe

vi. which of the following is good password practice? _____

A. Use your name as your password

B. Use a combination of letters, numbers, and symbols

C. Use the same passwords for all accounts

D. Share your password with your friends.

vii. what is the primary purpose of a firewall in computer security? ____

A. To store file securely

B. To prevent unauthorized access to or from a private network

C. To increase the speed of computer
