SECTION B – ANSWERS

3. (a) Why is it advised to close windows and doors in a computer laboratory? Give four reasons.

1. To prevent dust from entering the laboratory – Dust can accumulate inside computers and cause overheating or malfunction.

2. To prevent rain and moisture from entering – Water or moisture can damage computer components and cause electrical faults.

3. To improve security – Closed doors and windows prevent unauthorised people from entering the computer laboratory.

4. To control the laboratory environment – Closing them helps maintain suitable temperature and reduces unnecessary exposure to wind and other environmental conditions.

3. (b) What are the two effects of opening windows and doors on computers in a laboratory?

1. Dust accumulation – Dust can enter computers, block ventilation and cause overheating.

2. Moisture/water damage – Rain or moisture may enter and damage electronic components, causing short circuits or computer failure.

4. (a) Why the teacher opted for e-mail communication? Give three reasons.

1. Fast communication – E-mail allows the teacher to send the students' magazine quickly.

2. Low cost – Sending an e-mail is cheaper than printing and physically delivering the magazine.

3. Easy to attach files – The magazine can be attached as a document and sent directly to the teacher's e-mail address.

4. (b) Explain the function of each field during composing an e-mail.

i. To field – The To field is used to enter the e-mail address of the main recipient of the message.

ii. CC field – The CC (Carbon Copy) field is used to send a copy of the e-mail to other recipients who need to see the message.

iii. BCC field – The BCC (Blind Carbon Copy) field is used to send a copy of the e-mail to recipients without showing their e-mail addresses to other recipients.

5. Which steps are to be followed when:

(a) Inserting a comment to a slide

1. Open the PowerPoint presentation.
2. Select the slide where you want to insert the comment.
3. Go to the **Review** tab.
4. Click **New Comment**.
5. Type the comment and save the presentation.

(b) Printing six slides in a single page

1. Open the PowerPoint presentation.
2. Click **File**.

3. Select **Print**.

4. Under Layout/Settings, select **Handouts**.

5. Choose **6 Slides per Page**.

6. Click **Print**.

(c) Running a slide show in PowerPoint presentation

1. Open the PowerPoint presentation.

2. Click the **Slide Show** tab.

3. Click **From Beginning** to start from the first slide.

4. Alternatively, press **F5** on the keyboard.

5. Use the mouse or arrow keys to move between slides.

6. (a) Explain the role of ICT in the following sectors

(i) Education – ICT helps in teaching and learning through computers, projectors, the Internet and online learning platforms. It also helps students and teachers to access educational information and communicate easily.

(ii) Banking – ICT enables banks to provide services such as ATM, mobile banking, Internet banking and electronic money transfers. It also helps banks to store and process customer information efficiently.

(iii) Health – ICT helps hospitals and health centres to store patients' records, communicate medical information and support diagnosis and treatment. It also enables communication between healthcare workers and patients.

6. (b) State four examples of ICT tools used in everyday life.

1. Mobile phones

2. Computers

3. Internet

4. Television

Other acceptable examples include: Radio, Tablets, E-mail, Printers and Projectors.

6. (c) How can ICT improve communication within a business?

1. E-mail – Employees can send messages and documents quickly.

2. Video conferencing – Workers can communicate through online meetings even when they are in different locations.

3. Instant messaging – Applications such as messaging platforms allow employees to communicate in real time.

4. Shared online systems – Employees can share documents and information easily, improving coordination and reducing delays.

Short exam-style conclusion: ICT improves business communication by making communication faster, easier, cheaper and more reliable.
