*Student's Assessment Number*_____

TUNDUMA TOWN COUNCIL
SUMAGHA SECONDARY SCHOOL
FORM TWO ASSESSMENT SERIES I
037 COMPUTER SCIENCE

Duration: 2:30 Hours **Year: 2026**

Instructions

1. This paper consists of sections A, B and C with a total of **ten (10)** questions.
2. Answer all questions in the spaces provided.
3. Section A and C carry **fifteen (15)** marks each and section B carries **seventy (70)** marks.
4. All answers must be written in **blue** or **black** ink.
5. Communication devices and any other unauthorized materials are **not** allowed in the assessment room.
6. Write your **assessment number** at the top right corner of every page.

*Student's Assessment Number*_____

SECTION A (15 Marks)

Answer **all** questions in this section

1. For each of the items (i) - (x), choose the correct answer from the given alternatives and write its letter in the box provided. **(10 Marks)**

(i) Suppose you are using a computer in a place where there is frequent fluctuation of electricity, which device would you use to prevent the computer from being damaged? _____

A. Voltage regulator
B. Surge protector
C. Generator
D. UPS

(ii) Why computer files are stored in a Read Only Memory (ROM)? _____

A. To enhance the efficient access of file
B. To restrict changes of files done by the user
C. To manage easily users accounts and files
D. To maximize users working storage

(iii) Which technology was developed in the fourth generation computers and is used in digital devices such as watches and calculators? _____

A. Transistors
B. Vacuum tubes
C. Microprocessor
D. Artificial intelligence

(iv) Select the output from this Python code: _____

```
first = 10
second = 20
if first >= second:
        print (first + second)
else:
        print (first * 10)
```

A. 100
B. 10
C. 30
D. 20

(v) Which application software is suitable for calculating daily sales, profit and loss? __

A. Presentation
B. Spreadsheets
C. Word processing
D. Desktop publishing

(vi) Which combination of keys would you use to save a file without changing its name?

A. Ctrl + S
B. Ctrl + F
C. Ctrl + A
D. Ctrl + V

(vii) Pili is a form one student who wants to compose and send an electronic letter but had a problem of identifying the appropriate program to use. Which software would you advise her to use? _____

A. Search engine
B. Internet explorer
C. Google chrome
D. Google mail

(viii) Which of the following is a correct declaration of an integer variable in C? _____

A. integer number = 5;
B. num int = 5;
C. int number = 5;
D. int = 5;

(ix) The situation where an individual respecting others when chatting, posting, or commenting online is called: _____

A. Firewall
B. Netiquette
C. Streamgraph
D. Safe browsing

(x) Why do we give a module an alias, like import math as m? _____

A. To make the code more colourful
B. To use all functions at once
C. To make the program faster
D. To make typing easier

2. Match the descriptions of computer programing in **List A** with their corresponding terminologies of computer programing in **List B** by writing the letter of the correct response below the item number in the table provided. **(05 Marks)**

List A	List B
(i) Converts all source code into machine code at once. (ii) Converts source code into machine code one statement at a time. (iii)Converts assembly code into machine code. (iv)Converts source code into binary format. (v) Collection of instructions written by using high-level language.	A. Assembler B. Compiler C. Object code D. Interpreter E. Source code F. Translator

Answers

List A	(i)	(ii)	(iii)	(iv)	(v)
List B					

SECTION A (70 Marks)

Answer **all** questions in this section

3. A computer teacher has assigned Form Two students to visit different institutions where computers are employed in performing the daily activities.
   (a) Identify three institutions you would suggest to be visited by the students. **(03 Marks)**

   (i) _____

   (ii) _____

   (iii)_____

(b) Explain one function of computer for each institution identified in 3 (a). **(06 Marks)**

(i) _____

_____

(ii) _____

_____

(iii)_____

_____

(c) Identify one component of the computer system that is expected to be found in the visited institutions. **(01 Mark)**

_____

4. (a) Explain the concept of internet. **(02 Marks)**

_____

_____

(b) Describe three uses of internet at school. **(06 Marks)**

(i) _____

_____

(ii) _____

_____

(iii)_____

_____

(c) Identify two software that facilitates the use of electronic mail. **(02 Marks)**

(i) _____

(ii) _____

5. You have been provided with a computer which is installed with Microsoft Windows 10, Microsoft Office 2016, Avast antivirus and Internet browser that are saved in a hard disk.

   (a) Identify the types of each software installed in the computer. **(03 Marks)**

   (i) Microsoft Windows 10 _____

   (ii) Microsoft Office 2016 _____

   (iii)Avast antivirus _____

   (b) Explain the function of each type of software identified in 5 (a). **(06 Marks)**

   (i) _____

   _____

   _____

   (ii) _____

   _____

   _____

   (iii)_____

   _____

   _____

   (c) Why was the software installed in hard disk drives of the computer? Give one reason.

   _____

   _____

6. (a) Suppose you want to create a strong password for your Instagram account in order to prevent unauthorized access. Describe, five factors you would consider when creating your password. **(05 Marks)**

(i) _____

_____

_____

(ii) _____

_____

_____

(iii)_____

_____

_____

(iv)_____

_____

_____

(v) _____

_____

_____

(b) The components of cybersecurity are the key elements that work together to protect information, systems, and networks from cyber threats. Explain five components of cybersecurity. **(05 Marks)**

(i) _____

_____

(ii) _____

_____

(iii)_____

_____

(iv)_____

_____

(v) _____

_____

7. (a) Why is it important to keep operating systems and software applications up to date? Give five reasons. **(05 Marks)**

(i) _____

(ii) _____

(iii)_____

(iv)_____

(v) _____

(b) Describe three steps you would take to remove malware on a computer. **(03 Marks)**

(i) _____

_____

(ii) _____

_____

(iii)_____

_____

(c) What are the conditions that must be met when doing preventive maintenance? Give two points **(02 Marks)**

(i) _____

(ii) _____

8. (a) Distinguish variable from array. **(02 Marks)**

_____

_____

_____

_____

(b) Write a C program that inputs two numbers and prints their sum, difference, quotient, and remainder using the appropriate arithmetic operators. **(04 Marks)**

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

(c) Write a C program that store five numbers in an array and prints its elements. **(04 Marks)**

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

_____

9. (a) After writing a Python in Thonny IDE, how would you run it? What is the expected output if you create a program that prints "Jambo, Tanzania!"? **(02 Marks)**

_____

_____

_____

_____

(b) A person is eligible to vote if they are a citizen and 18 years or older. Write a Python program that:

(i) Asks the user for their age and citizenship status (Yes or No). **(1 Mark)**

(ii) Prints "Eligible to vote" if both conditions are met, otherwise, prints "Not eligible to vote". **(02 Marks)**

(iii)Modify the program to reject any input with negative ages. **(1 Mark)**

(c) Write a Python program that prints numbers from 1 to 10 using a for loop. **(02 Marks)**

(d)Define a function called *welcome_message* that takes a string parameter name and prints a message "Welcome, [name]!" when you call this function with the argument "John" it should print "Welcome, John!" **(02 Marks)**

SECTION C (15 Marks)

Answer question **ten (10)** only

10. Explain six main aspects of troubleshooting.
