*Student's Assessment Number*_____

TUNDUMA TOWN COUNCIL
SUMAGHA SECONDARY SCHOOL
FORM TWO ASSESSMENT SERIES II
037 COMPUTER SCIENCE

Duration: 2:30 Hours **Year: 2026**

Instructions

1. This paper consists of sections A, B and C with a total of **ten (10)** questions.
2. Answer all questions in the spaces provided.
3. Section A and C carry **fifteen (15)** marks each and section B carries **seventy (70)** marks.
4. All answers must be written in **blue** or **black** ink.
5. Communication devices and any other unauthorized materials are **not** allowed in the assessment room.
6. Write your **assessment number** at the top right corner of every page.

*Student's Assessment Number*_____

SECTION A (15 Marks)

Answer **all** questions in this section

1. For each of the items (i) - (x), choose the correct answer from the given alternatives and write its letter in the box provided. **(10 Marks)**

(i) A company hires an expert to protect its systems from hackers and viruses. This field is called? _____

A. Networking
B. Software engineering
C. Cybersecurity
D. Artificial intelligence

(ii) The steps and tasks needed to process data, such as responses to questions or clicking an icon, are called: _____

A. Instructions
B. Operating system
C. Application software
D. Data

(iii) Which of the following is not an example of a peripheral device? _____

A. Keyboard
B. Mouse
C. Speakers
D. Registers

(iv) Why should food and drinks be not allowed near computers? _____

A. They make students waste time eating
B. Spills can damage computer parts
C. Computer will become heavier
D. Computers will run faster than normal

(v) Which of the following is an example of good netiquette? _____

A. Typing your comments in all caps
B. Posting any videos, you receive to all your friends without their permission
C. Forwarding jokes and chain letters to all your friends
D. Staying on topic in a forum

(vi) What is the output of the following code? _____

```
int x = 10;
printf("%d", x + 5);
```

A. Compilation error
B. 10
C. 5
D. 15

(vii) Which of the following is used to search information on the internet? _____

A. Google chrome
B. Microsoft word
C. Google search
D. VLC media player

(viii) A bank uses a powerful computer for transactions while a student uses a laptop for assignments. Which is the correct classification? _____

A. Bank – supercomputer, student – multicomputer
B. Bank – mainframe, student – microcomputer
C. Bank – laptop, student – supercomputer
D. Bank – microcomputer, student – mainframe

(ix) The fifth generation languages are also called: _____

A. Assembly language
B. Machine language
C. Installation language
D. Natural language

(x) Which flowchart symbol is used to represent START or END operation? _____

A. Oval
B. Rectangle
C. Triangle
D. Parallelogram

2. Match the functions of software in **List A** with their corresponding types of software in **List B** by writing the letter of the correct response below the item number in the table provided. **(05 Marks)**

List A	List B
(i) Controls all activities of the computer. (ii) Conducts specific activities demanded by the user. (iii) Responsible for computer management and common services. (iv) Links external peripheral devices or external links to the operating system. (v) Enables more than one computer to share files.	A. Application software B. Operating system software C. Utility software D. Disc operating system software E. Network software F. Drivers software G. Computer software

Answers

List A	(i)	(ii)	(iii)	(iv)	(v)
List B					

***Student's Assessment Number*_____**

SECTION A (70 Marks)

Answer **all** questions in this section

3. (a) Name three types of system documentation you know and explain how they differ.

(03 Marks)

(i) _____

_____

(ii) _____

_____

(iii)_____

_____

(b) Write a C program that creates a file named "info.txt" and writes the following two lines into it: **(03 Marks)**

Learning C is fun!

File handling makes programming easier.

_____

_____

_____

_____

_____

_____

_____

_____

_____

(c)(i) Explain the importance of using comments in Python. **(01 Mark)**

_____

_____

(ii) Write a Python program that store your name, age, and height in variables. Print each variable along with a short description. **(03 Marks)**

_____

_____

_____

_____

_____

_____

_____

4. Cybercrimes is an issue that impacts the lives of many people, businesses, and organisations around the world.

   a) Explain the difference between cybercrime and cybercriminal **(02 Marks)**

   _____

   _____

   _____

   b) Explain two categories of cybercrime **(02 Marks)**

      (i) _____

      _____

      (ii) _____

      _____

c) List three forms of cybercrime **(03 Marks)**

(i) _____

(ii) _____

(iii)_____

d) Describe three causes of cybercrime **(03 Marks)**

(i) _____

_____

(ii) _____

_____

(iii)_____

_____

5. (a) Describe the meaning of the following terms as used in computer systems. **(03 Marks)**

(i) System unit

_____

_____

(ii) Computer generation

_____

_____

(iii)Hardware

_____

_____

(b)The first computer generation cover the period from 1940s – 1950s. Write down the periods covered by: **(03 Marks)**

(i) Second computer generation _____

(ii) Third computer generation _____

(iii)Fourth computer generation _____

(c) Analyse four characteristics of a computer. **(04 Marks)**

(i) _____

_____

(ii) _____

_____

(iii)_____

_____

(iv)_____

_____

6. (a) Explain the effects of each of the following on a computer. **(04 Marks)**

(i) Dust

- _____

_____

- _____

_____

(ii) Liquid

- _____

_____

- _____

_____

(b)Handling peripherals of a computer system is essential to prevent damage and prolong their lifespan. Describe three guidelines for handling a mouse. **(03 Marks)**

(i) _____

_____

(ii) _____

_____

(iii)_____

_____

(c) Computer maintenance requires both hardware and software tools. List three tools that are needed to perform computer maintenance. **(03 Marks)**

(i) _____

(ii) _____

(iii)_____

7. (a) Describe the term hardware troubleshooting. **(01 Mark)**

_____

_____

_____

(b) Explain two common hardware issues that can occur in a computer system. **(02 Marks)**

(i) _____

_____

(ii) _____

_____

(c) A form Two computer student is attempting to print a word document. However, the printer is not responding to the print command.

(i) State three possible causes for that problem. **(03 Marks)**

- _____
- _____
- _____

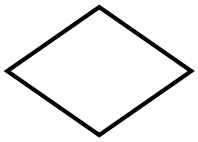

(ii) Suggest three possible solutions to solve the problem. **(03 Marks)**

- _____
- _____
- _____

8. (a) What are the names and the use of the following symbols? **(04 Marks)**

(i) 

- Name: _____
- Use: _____

(ii) 

- Name: _____
- Use: _____

(b) Sambayeti is a class master of form five PCM students at Kenyana high school. He usually gets complaints from some students about the wrong computation of their marks which leads to bad grades. Your friend Amina was one of the students; her marks of three subjects were corrected to 52, 75, and 91. She introduced you to her class master to plan and develop a flowchart that will be used to solve the problem. Sambayeti asked you to:

(i) Draw a flowchart to calculate the average score of Amina. **(03 Marks)**

(ii) Draw a flowchart assisting in deciding the student who met the criteria to proceed to form six if only those with an average of 60 will be allowed to move to their next year. **(03 Marks)**

9. (a) Describe the main components of the Central Processing Unit (CPU). **(02 Marks)**

_____

_____

_____

_____

_____

(b) Explain four the differences between primary and secondary memory. **(04 Marks)**

(i) _____

_____

(ii) _____

_____

(iii)_____

_____

(iv)_____

_____

(c) List down two advantages and two disadvantages of using plotters. **(04 Marks)**

_____

_____

_____

_____

_____

_____

_____

SECTION C (15 Marks)

Answer question **ten (10)** only

10. The internet can be used as a source of information about emerging issues that may not be available in print form. Give three advantages and three disadvantages of information obtained from the internet.
