Student's Name……..

THE UNITED REPUBLIC OF TANZANIA
MINISTRY OF DEFENCE AND NATIONAL SERVICE
MILITARY SCHOOLS ASSOCIATION
FORM TWO PRE-MOCK JUNE 2026

COMPUTER SCIENCE 1

TIME: 2:00 HR **JUNE 2026**

INSTRUCTIONS

1. This paper consists of sections A, B and C with a total of **ten (10**) questions.
2. Answer **all** questions in the space provided
3. All answer must have written in **black** or **blue** ink
4. Communication devices and any unauthorized materials are **not** allowed in the examination room.
5. Write your Examination Name on every page of your answer sheets

SECTION A (15 MARKS)

Answer **all** question in this section

1. For each of the following items (i)-(x), choose the correct answer from the given alternative and write its letter in the answer sheet

(i) The following are examples of mobile banking services **except**

A. M-Pesa
B. Airtel Money
C. Halo Pesa
D. N-Pesa

(ii) The branch of Computer Science that deals with making machines intelligent so that they can think and solve problems like humans.

A. Data science
B. Artificial intelligent
C. Quantum Computing
D. Computer Networking

(iii) A technology that enables farmers to remotely monitor their farms by receive real-time updates on critical parameters, such as soil moisture levels, weather, and crop health

A. Drones
B. Smart farming
C. Internet of things

Student's Name……..

D. Precision farming

(iv) A process of selling things online, reach more people, and make more money

A. E-business
B. E-commerce
C. E-ticketing
D. E-marketing

(v) The branch of Computer Science that deals with designing and organizing the parts of a computer to make it work.

A. Computer Architecture
B. Computer Networking
C. Data science
D. Software Engineering

(vi) A service which enables patients to remotely receive services via computer systems, when a doctor and patients are not physically in contact is known as;

A. Online hospital
B. Online medicine
C. Telemedicine
D. Telehospital

(vii) A computer system that facilitates contactless payment methods in public transport

A. Ride hailing
B. Electronic ticketing
C. Requesting
D. Online booking

(viii) The physical components of a computer system that can be seen and touched

A. Software
B. Programs
C. Systems
D. Hardware

(ix) Refers as raw facts entered in to a computer system that is used to make decisions, solve problems, or gain insights.

A. Data
B. Inputs
C. Information
D. Instruction

(x) Which of the following is not part of internal components of computer system?

A. Motherboard
B. Memory
C. Central Processing unit

Student's Name……..

D. Keyboard

2. Match the descriptions of computer generation in **List A** with their corresponding technology in the **List B** by writing the letter of the correct answer below the corresponding item number in the table provided

LIST A	LIST B
(i) Second generation computers	A. Very Large-Scale Integration technology
(ii) Fifth generation computers	B. Vacuum tube technology
(iii) Fourth generation computers	C. Transistor technology
(iv) First generation computers	D. Microprocessor design technology
(v) Third generation computers	E. Integrated circuits technology
.	F. Large scale-integration technology
	G. Artificial intelligence technology

SECTION: B (70MARKS)

3. (a)Explain the role of computer science in developing practical solutions to enhance transportation systems. **(5 Marks)**

i. …….
ii. ……
iii. ……
iv. ……
v. ……..

(b)Discus how computer science improves teaching and learning and give examples of software or platforms that support education delivery. **(5 Marks)**

i. ……

ii. ……..

iii. ……

iv. ……

v. ……

4.(a)The students of mwamabanza secondary school were discussing the features of first generation of computers. Help them to explain why the first generation of computers were Large, Overheating, and power inefficient**? (3marks)**

……

……

Student's Name……..

(b)Explain why the development of microprocessors was a major development in computer technology**. (3marks)**

……

……

(c) Explain the role of motherboard in computer systems in a computer system and how it connects the computers **(4marks)**

……

……..

5.(a)The computer requires memory in order to store and process. Explain two differences between primary and secondary memory. **(2 marks)**

i) ii)	I ii

(b)The ICT teacher was teaching her students how to manage files and folders on the computer. Assist the student to explain steps on how to create folder on the desktop. (**6marks)**

i. ……
ii. ……
iii. ……
iv. ……
v. ……
vi. ……

7.(a)Mwanaidi was required to design a square map of a foundation for building the classroom at Mbomai secondary school and was supposed to provide the size of the area that building will cover. Write the flowchart and pseudocode to solve such problem. **(5 marks @)**

……

……

……..

……

……

……

Student's Name……..

……

……

(b) explain the term flowchart and pseudocode **(2marks)**

……

……

……

8.(a) Computer system it involves the combination of hardware and software in order perfome it work. Identify the name of software that should be installed in the computer system before other program to be installed. **(2 marks)**

……..

(b)write four function of the software mentioned in 8(a) above**. (2marks @)**

i. **……..**
ii. **……**
iii. **……**
iv. **……**

9.(a)Differencient between internet and website **(2marks)**

……

……

……..

(b) Describe four reasons for computer programming. **(2marks @)**

i. **……..**
ii. **……**
iii. **……..**
iv. **……**

SECTION: C (15MAKS)

10.Explain the advantage and disadvantage of using electronic mail (3) points

……

……

……

Student's Name……..

……

……

……

……

……

……

……

……

……

……

……

……

……
