TANZANIA HEADS OF ISLAMIC SCHOOLS COUNCIL

FORM FOUR INTER ISLAMIC MOCK EXAMINATION

INFORMATION AND COMPUTER STUDIES 2

036/2 **(PRACTICAL)**

(For both School and Private Candidates)

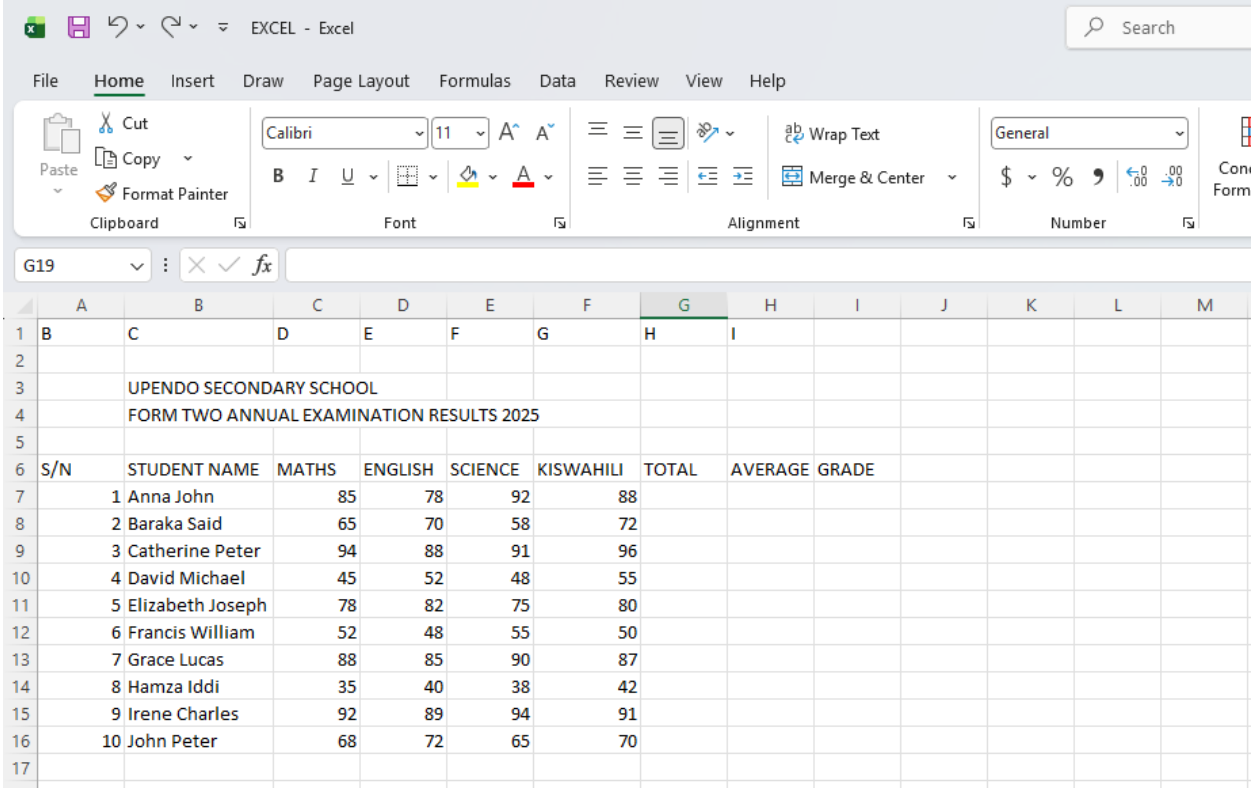

TIME: 3 Hours **Thursday, 03rd September 2026 a.m.**

darasahuru.ac.tz

Instructions

1. This paper consists of **three (3)** questions.
2. Answer **any two (2)** questions.
3. Each question carries **twenty-five (25)** marks.
4. Save your work on the desktop in the folder named by your **examination number**. You are not allowed to save your work under your name or your school's name.
5. Save your work by using the **1997-2003 version** of the MS Office software you are using.
6. Submit a **printed hardcopy** together with the **softcopy** of your work(s).
7. Check whether the printed work(s) are similar to the softcopy saved in the folder.
8. Communication devices and any unauthorised materials are not allowed in the examination room.
9. Write your **Examination Number** on every page of your softcopy work(s).

1. The following worksheet shows the end-of-year examination results for Form Two students at "Upendo Secondary School." Read the information given in the worksheet and answer the questions that follow.

	A	B	C	D	E	F	G	H	I	J	K	L	M
1	B	C	D	E	F	G	H	I					
2													
3		UPENDO SECONDARY SCHOOL											
4		FORM TWO ANNUAL EXAMINATION RESULTS 2025											
5													
6	S/N	STUDENT NAME	MATHS	ENGLISH	SCIENCE	KISWAHILI	TOTAL	AVERAGE	GRADE				
7	1	Anna John	85	78	92	88							
8	2	Baraka Said	65	70	58	72							
9	3	Catherine Peter	94	88	91	96							
10	4	David Michael	45	52	48	55							
11	5	Elizabeth Joseph	78	82	75	80							
12	6	Francis William	52	48	55	50							
13	7	Grace Lucas	88	85	90	87							
14	8	Hamza Iddi	35	40	38	42							
15	9	Irene Charles	92	89	94	91							
16	10	John Peter	68	72	65	70							
17													

(a) Create the worksheet as shown in the table above and save it as **"UpendoResults"**.

(b) Use appropriate functions to calculate the following:

(i) **Total** marks for each student (sum of Maths, English, Science, and Kiswahili)

(ii) **Average** marks for each student (round off the average to **one decimal place**)

(c) Use the **IF** function to assign grades based on the following criteria:

Average Range	Grade
75 – 100	A
65 – 74	B
45 – 64	C
30 – 44	D
Below 30	F

(d) Use an appropriate function to determine the **highest** score in Mathematics and the **lowest** score in English.

(e) Create a **three-dimensional pie chart** showing the **Total marks** for all ten students. Label the chart with student names. Save the chart in a separate worksheet as **"ResultsChart"**.
(f) Validate the marks columns (Maths, English, Science, Kiswahili) so that only numbers from **0 to 100 inclusive** can be entered. Use an appropriate warning message: **"Marks must be between 0 and 100"**.
(g) Format the worksheet as follows:
  (i) **Merge and centre** the title "UPENDO SECONDARY SCHOOL" across columns A to I
  (ii) Apply **bold** and **font size 16** to the title
(h) Apply **borders** to all cells containing data
(i) Print your worksheet. **(25 marks)**

2. A school librarian at "Milango Secondary School" wants to computerise the library records using a database. She needs to keep track of students who borrow books and the books available in the library. You have been hired as an IT expert to create the database.
(a) Create a database called **"LibraryDB"**.
(b) Create **two tables** in the database with the following fields:

Table 1: Students

Field Name	Data Type	Field Size/Properties
StudentID	Short Text / Number	Primary Key, Size 10
FirstName	Short Text	25 characters
LastName	Short Text	25 characters
Class	Short Text	5 characters (e.g., 2A, 2B)
Gender	Short Text	1 character (M or F only)
PhoneNumber	Short Text	15 characters

Table 2: Borrowing

Field Name	Data Type	Field Size/Properties
BorrowID	AutoNumber	Primary Key
StudentID	Short Text / Number	Foreign Key (linked to the Students table)
BookTitle	Short Text	50 characters
DateBorrowed	Date/Time	Short Date format
DateReturned	Date/Time	Short Date format

(c) Use **Form Wizard** to create a form for each table. Save the forms as **"StudentForm"** and **"BorrowingForm"**. Use these forms to enter the following records:

Students' Table Records:

StudentID	FirstName	LastName	Class	Gender	PhoneNumber
S001	Anna	John	2A	F	0712345678
S002	Baraka	Said	2B	M	0723456789
S003	Catherine	Peter	2A	F	0734567890
S004	David	Michael	2B	M	0745678901
S005	Elizabeth	Joseph	2A	F	0756789012

Borrowing Table Records:

BorrowID	StudentID	BookTitle	DateBorrowed	DateReturned
1	S001	Computer Science Form 2	10/01/2025	20/01/2025
2	S002	Mathematics Form 2	12/01/2025	25/01/2025
3	S003	English Form 2	15/01/2025	18/02/2025
4	S001	Biology Form 2	18/01/2025	15/02/2025
5	S004	Physics Form 2	20/01/2025	30/01/2025

(d) Validate the **Gender** field in the students table so that only **"M"** or **"F"** can be entered. If a user enters a different character, display the message: **"No such gender. Enter M or F"**.

(e) Create a **relationship** between the two tables using the StudentID field. Enforce **referential integrity**.

(f) Create a **query** that displays all students who have borrowed books but have **not yet returned** them (DateReturned is empty). Display StudentID, FirstName, LastName, BookTitle, and DateBorrowed. Save the query as **"NotReturned"**.

(g) Create a **query** that displays all students from **Class 2A**. Display all fields. Save the query as **"Class2AStudents"**.

(h) Create a **report** based on the "NotReturned" query. Save the report as **"NotReturnedReport"**.

(i) Print your work. **(25 marks)**

3. The manager of "Kilimanjaro Tours & Travel" wants to create a website to promote tourism in Tanzania. You have been hired to design the website's home page.
    (i) Use **HTML codes** to create the following webpage. Save it as **"TanzaniaTourism.html"**.

Webpage Descriptions:

Element	Requirement
Heading	"WELCOME TO TANZANIA" – Level 1, centered, blue colour
Subheading	"The Land of Kilimanjaro and Zanzibar" – Level 2, centered, green colour
Horizontal line	Width 50%, centered
Paragraph	"Tanzania is home to the highest mountain in Africa, Mount Kilimanjaro, and the beautiful beaches of Zanzibar. Visit our national parks to see the Big Five and experience the Great Wildebeest Migration." – Justified alignment, font size 14
Image	Insert any image of Mount Kilimanjaro or wildlife – width 300, height 200, centered
Table	Create a 3x3 table with a border 1 showing: "National Park", "Location", "Main Attraction". Include Serengeti (Mara/Wildebeest migration), Ngorongoro (Arusha/Crater), Kilimanjaro (Kilimanjaro/Mountain climbing)

(ii) Create a **hyperlink** from the text **"Visit our national parks"** to open a new page that displays the following message: **"Explore the beauty of Tanzania's national parks. Contact us at info@kilimanjarotours.co.tz"**.

(iii) Change the **background colour** of the entire webpage to **#F0F8FF (AliceBlue)**.

(iv) Print your HTML code and the webpage output. (5 marks)

(v) Create a **second HTML page** named **"Contact.html"** that contains a simple contact form with fields: Name, Email, and Message. **(Total: 25 marks)**

Wabillah Tawfiiq
