Answer the following the following questions by using the query features of Microsoft office access.

(i) Create two forms named EmployeeForm and DepartmentForm with the current date inserted in the footer right corner of the form. Use the form created to enter the data for each table.

(ii) Validate the MonthlySalary field in the Employee table so that the field should accept the salary which is greater than 200000 and less than 850000.Otherwise a field give an alert message "The entered salary should between 20000 and 85000! ".

(iii) Generate a query to calculate the commission payable to sales managers which 20% of monthly salary.

(iv) Your query should include the following fields;
EmployeeNumber, FirstName,LastName,DepartmentName and MonthlySalaryComission. Save it Commission Query.

(v) Display all employee records which have joining dates within 1997.your query should include EmployeeNumber, FirstName,LastName,DepartmentCode,EmloyeeTittle and JoinDate. Save it "JoinDate Query".

(vi) Prepare a report of a query created in **(v)** above and name it "JoinDate Report".

(vii) Print the tables, forms and queries.

(viii) Save your work as your examination number.

Figure 1

www.WazaElimu.com

(b) Create a HTML form for processing orders for boxes that looks like those in the figures below to help the customer who do not yet registered to link pages with **figure 1** above. The order form is for a company called **'Land of Boxes'**.

Their product line consists of only five items:

(i) The EconoBox: Cost R5

(ii) The Standard Box: Cost R10

(iii) The Premium Box: Cost R15

(iv) The Deluxe Box: Cost R20

(v) The Super Deluxe Box: Cost R30

The order form should include the following elements:

(i) Contact details of purchaser, including name, address, telephone number and email.

(ii) Product details including price, product name, product number and product quantity.

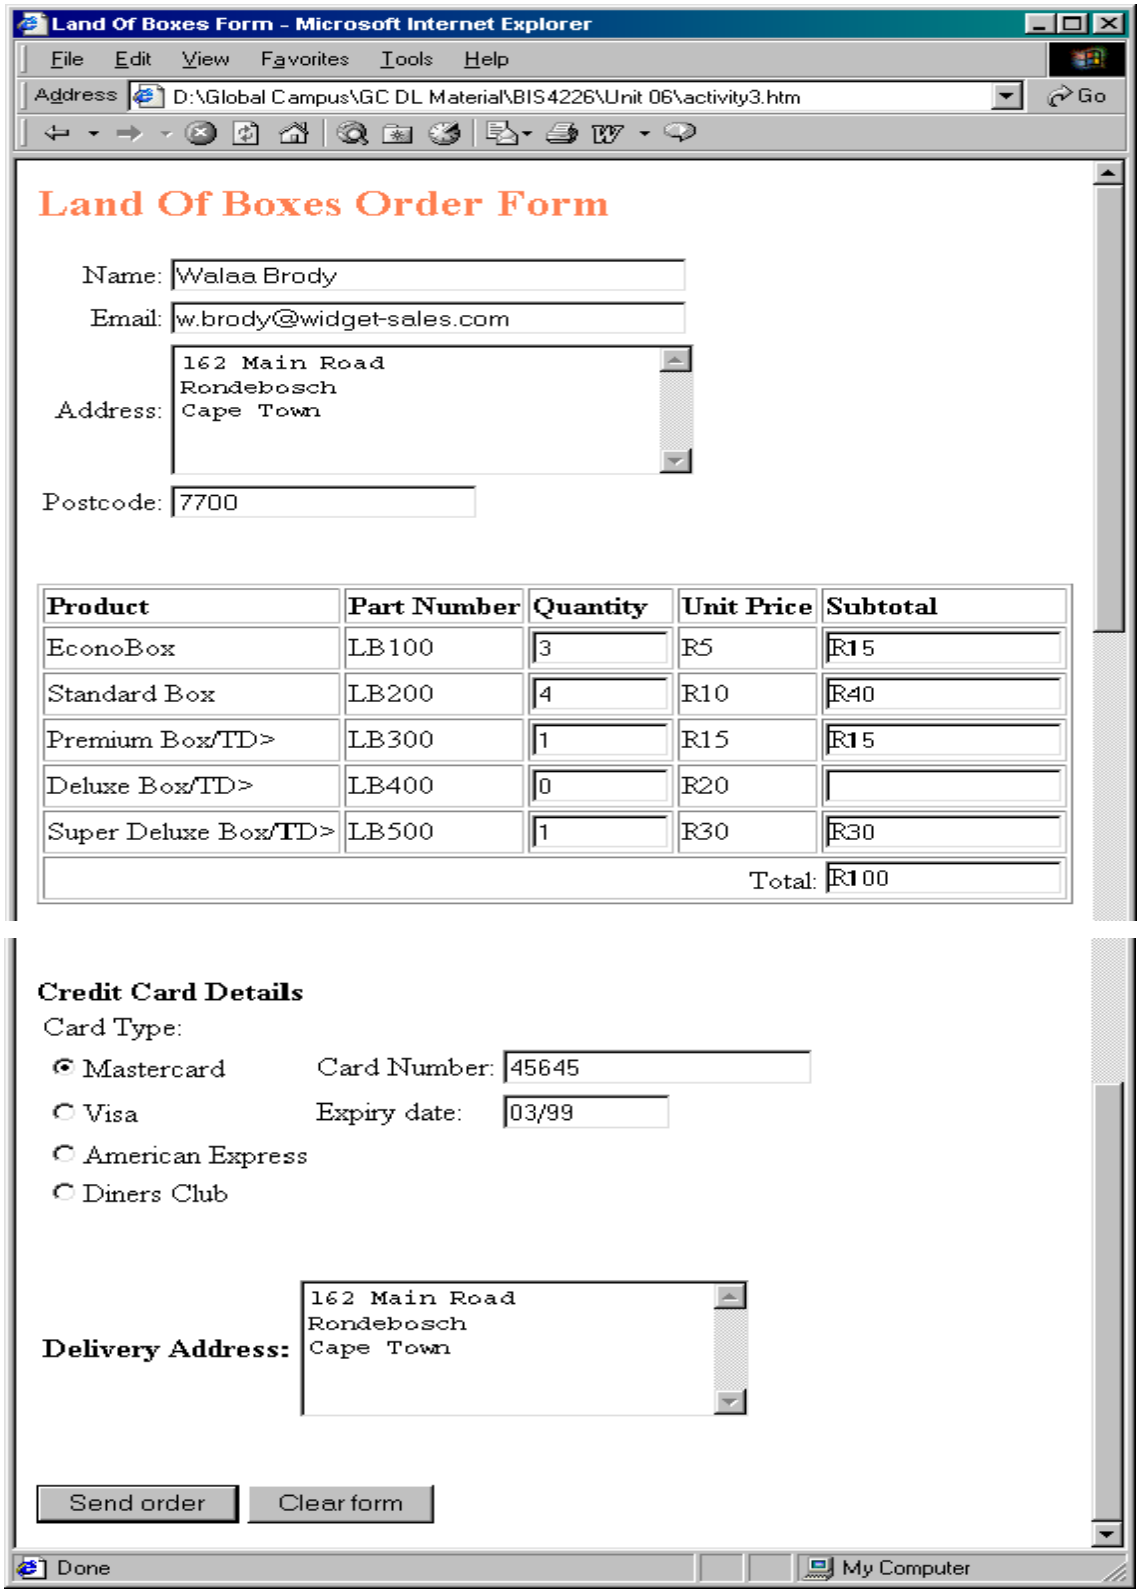

(iii) Method of payment including credit card type, card number and expiry date.

(iv) Billing address and delivery address if they are different.

HINTS: The final layout should look as shown in the next figure. You will need to use tables to achieve this layout.
