viii Among of the purpose of spread sheet is to manipulate data apart from that which function is used to return the smallest value in series of numbers in the worksheet?

A. =max ()
B. =Product ()
C. =Sum ()
D. =Min ()
E. =Total ()

2. Match the item in LIST A with their corresponding description in LIST B by writing the letter of the correct answer below the item provided.

LIST A	LIST B
i The first memory to be accessed by CPU ii The memory where data immediately stored from the input device iii The type of the computer memory that fragment accessible files iv The temporally memory found in output device as well as input device v Memory for reading vi A type of storage device that uses flash memory (no moving parts) to store data.	A. Cache B. Register C. Buffer D. RAM E. Smart card F. Floppy diskette G. CD-ROM H. ROM I. Hard Disk J. Main memory K. SSD

SECTION B (54 Marks)

Answer all Questions in this section

3. (a) Computer software has big role to insure the main tasks is run all activities inside the computer explain the meaning of the following used in computer system.
   i. Operating system
   ii. System software
   iii. Application software

   (b)With the aid of example for each explain the two types of operating system in terms of users.
4. The following are the terms that found in word processor program and some of the student did not understand them, tell us what are they:-
   i. Formatting
   ii. Word wrap
   iii. Thesaurus

iv. Footnote

v. endnote

5. Employee of the certain company spend most of their time communicating their customers through the computer system and mobile phones. This expensive use of electronic device rises the health risks to them
   a) Identify three possible health risks which likely to be faced by this employee
   b) Explain three ways to minimize the identified risk in 5(a)
6. (a) Data communication is done through the computer network. With the aid of diagram explain the meaning of: -
   i Ring topology
   ii Bus topology
   iii Star topology
   iv Tree topology
   v Mesh topology

   (b) Mention one advantage and one disadvantage of the each topology mentioned in 6(a) above.
7. (a)An electronic database depends on a database management system (DBMS) by that statement what is the database management system.

   (b) What do you think traditional (manual) and modern (electronic) database are differ?

   (c) Multimedia is the one of the aspects which promote learning process by motivating teachers and student to meet their goals. What are the three components of multimedia and explain the two types of video compression.
8. Write the HTML codes for a form with three elements: Name, gender and a submit button. Both genders should be radio buttons and one of them checked. The background of the form should be pink

SECTION C (30 Marks)

Answer question two (2) from this section

9. Information is necessary in our society. Validate this statement by giving out five (5) points.

10. Development discussion without involvement of ICT is vain. Support this argument with valid and relevant points.
11. Describe five (5) types of database model according to their data organizations'.
