TANZANIA HEADS OF ISLAMIC SCHOOL COUNCIL

FORM IV INTER ISLAMIC MOCK EXAMINATION 2026

INFORMATION AND COMPUTER STUDIES 1

MARKING SCHEME

SECTION A (16 Marks)

1.

(i)	(ii)	(iii)	(iv)	(v)	(vi)	(vii)	(viii)	(ix)	(x)
A	C	C	B	D	B	E	A	E	D

01 mark @ = 10 Marks

2. wazaelimu.com

COLUMN A	(i)	(ii)	(iii)	(iv)	(v)	(vi)
COLUMN B	D	H	C	B	E	G

01 mark @ = 06 marks

SECTION B (54 Marks)

3. (a) Formula to calculate average marks and return integer **(02 Marks)**

= INT(AVERAGE(D10:F10)) OR = ROUND(AVERAGE(D10:F10),0)

(b) Formula to count female students who obtained grade A **(02 $\frac{1}{2}$ Marks)**
= COUNTIF($B$10:$B$17, $A$7, $H$10: $H$17, $A$4) OR
= COUNTIF(B10:B17, "FEMALE", H10:H17, "A")

(c) Formula to count students who obtained grade B **(02 $\frac{1}{2}$ Marks**
= COUNTIF($H$10:$H$17, C4) OR = COUNTIF(H10:H17, "E")

(d) #NAME!
(i) If the error when excel does not recognize a formula name or function, it usually means there is a spelling mistake in a function or missing quotation marks **(01 Mark)**
(ii) How to fix it.
- Check and correct spelling of the formula or function name **(01 Mark)**

4. Desktop Publishing
(a). Three advantages of DTP over Word Processors
(i) Better layout control. DTP software provides precise control over text and image placement, allowing professional-looking publications with columns, text wrapping and grids **(02 Marks)**

(ii) Superior typography – offers advanced font management, kerning, leading, tracking for professional text appearance **(02 Marks)**

(iii) Master pages – allows creating templates where common elements (page numbers, headers, logos) appear automatically on all pages. **(02 Marks)**
(Alternatives: high resolution output, image manipulation)

(b). Three examples of DTP publications (03 Marks)

(i) Branches **(01 Mark)**

(ii) Magazines **(01 Mark)**

(iii) Newsletters **(01 Mark)**
(Alternatives: Flyers, Business cards, Posters)

5. Video Production

(a) Three types of shots based on framing

(i) Long shot – Shows the entire subject from head to toe with surroundings, extra shots, context **(02 Marks)**

(ii) Medium shot – Shows object from waist up, good for interviews and conversations **(02 Marks)**

(iii) Close-up shot – Shows only the face or a specific detail, conveys emotion or emphasis **(02 Marks)**
(Alternatives: Extreme close-up, Medium long shot)

(b) Difference between Panning and Tilting

(i) Panning – Horizontal movement of camera from left to right or right to left. Cam-era moves parallel to the ground. Example: Following a moving car. **(01 $^{1}/_{2}$ Marks)**

(ii) Tilting – Vertical movement of camera up to down. Camera moves perpendicular to the ground. Example: Shouting a fall building from bottom to tip. **(01 $^{1}/_{2}$ Marks)**

6. Log in form in HTML

(a) <h1> **(01 Mark)**

<form> **(01 Mark)**

<label> **(01 Mark)**

(b) <h1>
- Are used for heading **(02 Marks)**

<form>
- Important for a form. **(02 Marks)**

<label>
- Important for the names (labels) of the form. **(02 Marks)**

7. Computer Network

(a) Hospital Network

(i) Suitable type of computer network and features: **(01 Mark)**

- Type of Network: Local Area Network (LAN)

Give any two features of a LAN **(02 Marks)**

- Connects computers within a limited geographical area.
- Allows fast communication and data sharing.
- Usually owned and managed by a single organization (e.g., the hospital).

(ii) Differentiate between a Router and a Switch: **(02 Marks)**

- Router: Connects different networks together (for example, connecting the hospital network to the Internet).
- Switch: Connects devices within the same local network (LAN) and sends data specifically to the correct destination device inside the hospital net-work.

(b) Reasons why wireless networking is becoming popular:

- Easy Installation and Flexibility: No need for extensive physical cabling throughout the building.
- Mobility of Users: Users can access the network resources seamlessly while moving around.
- Cost Reduction in Cabling: Reduces the capital expenses of buying, and maintaining physical networking cable.
- Scalability: It is significantly easier to add new devices to the network without making major changes to the underlying infrastructure.

Any two (2) points @ 02 Marks = 04 Marks

8. Google Forms (Interactive Online Quiz)

(a) Five steps to create and share a Google Forms quiz:

(i) Go to Google Drive, click "New" → "More" → "Google Forms".

(ii) Click the gear icon (Settings) then click "Quizzes" and toggle "Make this a quiz" ON

(iii) Add questions (Multiple-choice, checkbox, etc.) and select the correct answer along with point values.

(iv) Enable "Release grade immediately" for automatic feedback after each question submission.

(v) Click "Send" and choose how to share it (Email, link, or embed code).

(Alternative acceptable answers: Customize design, set confirmation message)

Five (5) points @ 01 Marks = 05 Marks

(b) Two advantages of interactive assessments over paper-based assessments:

(i) Automatic Marking: Results are calculated instantly, which significantly reduces human grading errors.

(ii) Immediate Feedback: Students know their scores and correct answers right away, which enhances the learning process.

(Alternative acceptable answers: Accessible anywhere, environmentally friendly/paperless, easy data analysis)

Any two (2) points @ 02 Marks = 04 Marks

SECTION C (30 Marks)

9. Preparing an Effective Electronic Presentation

This question requires a student to explain how they would prepare and deliver an effective electronic presentation about the dangers of drug abuse to parents and teachers.

Introduction

An introduction about electronic presentations being a visual aid that supports a speech by displaying key points, images, and data. When addressing parents and teachers about drug abuse, a well-prepared presentation can make the message more impactful and memorable.**(01 $^{1}/_{2}$ Marks)**

Main Body

(i) Plan content carefully: Identify the key message (dangers of drug abuse). Or-ganize points logically: introduction, statistics, effects on students, prevention, and conclusion.

(ii) Use effective visuals: Choose a professional template (not too flashy). Avoid clip art, and ensure good contrast (dark text on a light background).

(iii) Add supporting media: Include a short video testimonial (if possible). Use charts showing drug abuse statistics in Tanzania.

(iv) Prepare technically: Test all equipment (computer, projector, speakers) before parents arrive. Have backups on a USB drive and cloud power. Bring printed handouts as an emergency.

(v) Deliver confidently: Face the audience, not the screen. Use the speech (not the slides) as your main guide. Pause for questions, and speak clearly in Kiswahili or English appropriate for the parents.

Any five (5) points @ 02 $^{1}/_{2}$ Marks = 12 $^{1}/_{2}$ Marks

Conclusion

A well-prepared and confidently delivered electronic presentation can effectively commu-nicate the dangers of drug abuse and encourage parents and teachers to take preventive action. **(01 Mark)**

10. ICT in Creating Awareness in the Society

Introduction

Information and Communication Technology (ICT) plays a significant role in creating awareness in society by spreading information quickly and widely through media such as mobile phones, radio, television, and social media platforms. **(01 $^{1}/_{2}$ Marks)**

Main Body

(i) Family life: ICT spreads awareness about responsible parenting, marriage coun-seling, and child care through TV programs and online platforms.

(ii) Corruption: ICT supports the reporting and awareness of corruption cases through social media, news websites, and hotlines.

(iii) Drug trafficking and abuse: ICT is used by police and health organizations to warn society about the dangers of drugs. In Tanzania, radio and social media messages educate youth about avoiding drug abuse.

(iv) Road safety: ICT is used to educate drivers and pedestrians about traffic rules through radio, TV, and social media campaigns.

(v) Gender issues: ICT is used to promote gender equality by spreading information through radio, TV, and social media platforms to educate people about equal rights for men and women in education and employment.

Any five (5) points @ $02\frac{1}{2}$ Marks = $12\frac{1}{2}$ Marks

Conclusion

ICT helps people understand global trends through internet access, websites, and online learning platforms. Tanzanian students use the internet to learn about international markets, cultures, and technologies. **(01 Mark)**

11. Advantages of Interactive Multimedia in Teaching

The question requires a student to explain the advantages of using interactive multimedia content in teaching and learning compared to traditional methods.

Introduction

Interactive multimedia refers to digital content that allows users to actively participate, control, and interact with the learning materials. Examples include simulations, online quizzes, educational videos, and interactive whiteboards. Traditional methods include chalkboards, textbooks, and lecture-based teaching. **($01\frac{1}{2}$ Marks)**

Main Body

(i) Increases student engagement: Interactive simulations (for example, a virtual chemistry lab) allow students to experiment safely, unlike traditional chalkboard methods.

(ii) Enhances understanding of complex concepts: Animations and 3D models can show processes that are invisible to the eye (for example, cell division or electric-ity flow). Traditional diagrams on a chalkboard cannot show movement or change over time effectively.

(iii) Provides immediate feedback: Online quizzes and interactive exercises tell stu-dents instantly whether their answer is correct. Traditional homework must wait days for marking, delaying the learning cycle.

(iv) Allows self-paced learning: Students can replay videos, redo simulations, and review content as many times as needed. In traditional classrooms, some students feel embarrassed to ask for repetition, leading to learning gaps.

(v) Makes learning accessible anytime, anywhere: Multimedia content can be accessed on phones and computers at home. Traditional methods require a physical presence in a classroom with a teacher, limiting learning to school hours only.

Any five (5) points @ $02\frac{1}{2}$ Marks = $12\frac{1}{2}$ Marks

Conclusion

Interactive multimedia content offers significant advantages over traditional methods by increasing engagement, enhancing understanding, providing instant feedback, allowing self-paced learning, and improving accessibility. **(01 Mark)**
