THE UNITED REPUBLIC OF TANZANIA

PRIME MINISTER'S OFFICE

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT

FORM FOUR SYNDICATE JOINT EXAMINATION

036/1 INFORMATION AND COMPUTER STUDIES-1

Duration: 3 Hours **Year: 2026**

Instructions

1. This paper consists of sections **A, B** and **C** with a total of **eleven (11)** questions
2. Answer **all** questions in section A and B and **two (2)** questions from section C.
3. Section A carries **sixteen (16)** marks, section B **fifty four (54)** marks and section C carries **thirty (30)** marks
4. Communication devices and any other unauthorized materials are **not** allowed in the examination room.
5. Write your **Examination number** on every page of your answer booklet (s)

wazaelimu.com

SECTION A (16 Marks)

Answer **all** questions from this section.

1. For each of the items (i) - (x), choose the correct answer from the given alternatives and write its letter beside the item number in the answer booklet provided.

(i) Which device that can eliminate the manual step of keying in the data ?

A. Key-to-disk machine
B. Optical scanner
C. Keypunch machine
D. Electronic registerMouse

(ii) Which file system extension is used by default when saving a new document in Excel?

A. txt
B. .xcel
C. .xls
D. doc
E. .ppt

(iii) Which of the following actions will send an application window on the taskbar?

A. Resize
B. Close
C. Maximize
D. Minimize
E. Save

(iv) Most television users use remote to regulate volume and channels. What type of multimedia application does the remote belong?

A. Inventive multimedia
B. Integral multimedia
C. Input multimedia
D. Interactive multimedia
E. Interference multimedia

(v) Which of following is the correct order of the units of computer memory in terms of size in descending order?

A. Byte>Kilobyte>Bit>Gigabyte>Megabyte
B. Bit>Byte>Kilobyte>Megabyte>Gigabyte
C. Gigabyte>Megabyte>Kilobyte>Byte>Bit
D. Byte>Bit>Kilobyte>Megabyte>Gigabyte
E. Megabyte>Gigabyte>Kilobyte>Byte>Bit

(vi) What is a primary key in a database?

A. A field that stores text
B. A column with duplicate data
C. A unique identifier for each record
D. A password to access data
E. A field report

(vii) Which of the following is not the function of the control unit?

A. To coordinate transfer of data to and from primary storage
B. To change the sequence in which instructions are executed when directed to do so
C. To recognize data and to execute instructions
D. To perform arithmetic operations
E. To direct and to control input and output devices

A. Which type of a printer prints by striking small pins to a ribbon representing the character?

A. Dot-line
B. Drum
C. Desk jet
D. Laser jet
E. Dot-matrix

(viii) Cells A4, A7, C4, C5 and C7 contain values 5, 5, 4, 6 and 3 respectively. Then in cell D4, formula =C5*(A4+A7+C4/C7) is entered. What will be the value for cell D4?

A. 68
B. 16
C. 18
D. 28
E. 20

(ix) How can you arrange data, information and knowledge according to their relationship?

A. Data → Information → Knowledge
B. Knowledge → Data → Information
C. Data → Knowledge → Information
D. Information → Knowledge → Data
E. Information → Data → Knowledge

2. Match the following functions of input devices in List A with their corresponding devices in List B by writing the letter of the correct response beside the item number in the answer booklet provided.

	LIST A	LIST B
(i)	A device used to capture data from an object and converting it into digital format.	A. Camera B. Mouse
(ii)	A device that sometimes used to control video game.	C. Joystick
(iii)	An input device used to enter data by capturing image.	D. CRT
(iv)	A device used to enter data in form of speech into the computer	E. Scanner
(v)	A device that looks like a lever used to control a pointer on the screen.	F. Touch screen G. Microphone
(vi)	Electronic visual device used to enter data by using stylus pen.	H. OCR

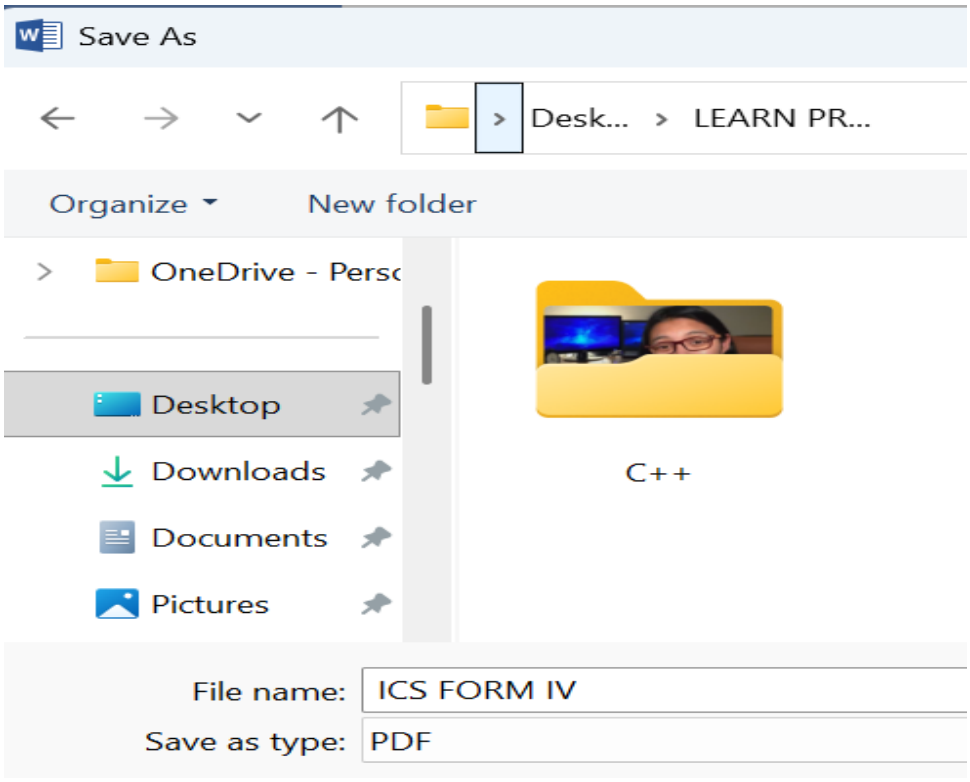

SECTION B (54 Marks)

Answer **all** questions in this section.

3. (a) Suppose your teacher gave you the software file into a flash disk. The size of the file was 2 GB. However, when you sent it into your computer the message appeared as - "the disk space is full". Your teacher advised you to delete some folders from your computer in order to have enough space. You deleted the folder, which has 3 GB, but when you sent it again the file still showed the same message. Briefly explain why the file failed to be transferred from the flash disk into your computer? Give 2 points. **(3 Marks)**
