FORM THREE TERMINAL EXAMINATION – MAY 2025

INFORMATION AND COMPUTER STUDIES

TIME: 3:00 Hours **May 2025**

INSTRUCTIONS

1. This paper consists of section A, B and C with a total of **eleven (11)** questions.
2. Answer **all** questions in section A and B, and **two (2)** questions from section C.
3. Section A carries **sixteen (16)** marks, section B carries **fifty-four (54)** marks and section C carries **thirty (30)** marks.
4. Cellular phones and any unauthorized materials are **not** allowed in the examination room.

SECTION A: (16 marks)

Answer **all** questions from this section

1. Choose the correct answer for each of the following questions and write its letter beside the roman number.

(i) What is the meaning of an *Icon* in computer studies?

A. A file, option or help menu
B. An image representing a program or some other object
C. Instruction contained on notepad
D. A component on a computer that interprets the instruction.

(ii) How do you open a program such as Microsoft Word when there are no icons on the desktop?

A. Click the start button and select program from the menu
B. Click the start button and select restart option
C. Click the start button and select the hibernate option
D. Right click the start button and select the program from the properties option.

(iii) If a file is added to be sent in an e-mail we refer to it as:

A. A hyperlink
B. A downloaded file
C. A linked file
D. An attachment

(iv) The …… tag in html is used to specify ……

A. Underline
B. Unordered list
C. Underline remover
D. Horizontal line

(v) Ctrl, Shift and Alt are called ……. keys.

A. Function
B. Alphanumeric
C. Modifier
D. Adjustment

(vi) The following are physical network topologies except

A. Ring topology
B. Ethernet topology
C. Bus topology
D. Star topology

(vii) Which technology was used in the fifth computer generations?

A. Large Scale Integrated
B. Vacuum tubes
C. Transistors
D. Artificial intelligence

(viii) Suppose you want to find and download computer studies books from the internet, which program would you use?

A. Google search engine
B. Mozilla Firefox
C. Web browser
D. Google chrome

(ix) Why do microcomputers need application software?

A. Executes a variety of fundamental operations
B. Executes routine service such as file handling
C. Executes specific task demanded by the user
D. Executes a variety of real time operations

(x) The following spreadsheet was prepared to show the results of the students who did three different tasks. In cell E5 an error occurred. What might be the reason?

	A	B	C	D	E	F
1	**Computer Studies Task Scores**					
2	**Name**	**Task 1**	**Task 2**	**Task 3**	**TOTAL**	**AVERAGE**
3	Juma	44	39	25	108	**36.0**
4	Emilia	37	42	30	109	**36.3**
5	Koku	40	39	27	#VALUE!	**35.3**
6	Batuli	22	40	29	91	**30.3**
7	**Average**	**35.8**	**40.0**	**27.8**		

A. The column is not wide enough to accommodate the value.
B. The formula references an invalid intersection of cells.
C. The formula uses incorrect argument or operator.
D. The reference to a value is not available to a formula.

2. Match the function of different types of operating systems in List A with their corresponding types of operating systems in List B by writing the letter of the most correct answer.

List A	**List B**
(i) A system that uses priority scheduling to allocate each task a portion of the time in a CPU (ii) A system that enables more than one user to access a centralized computer. (iii) A system that runs only one user program at a time. (iv) A system that performs a task by reading the command after pressing the enter key (v) A system that cannot allow a user to run both word processor and spreadsheet at time. (vi) A system that control machinery, scientific instruments and industrial system.	A. Menu operating driven operating system B. Single task operating system C. Multi-user operating system D. Command line operating system E. Real-time operating system F. Multi-task operating system G. Mixed user operating system H. Utility operating system. I. Single user operating system

SECTION B (54 MARKS)

Answer **all** questions from this section

3. Study the passage below

Samia Suluhu Hassan is the President of Tanzania. Born on **January 27, 1960**, in Zanzibar, she began her political career in the **1990s** and rose through various government roles. She served as Minister in Zanzibar and later as **Minister of State for Union Affairs**. In 2015, she became Tanzania's first female Vice **President** under Magufuli's administration. Since becoming president, Samia has focused on **economic reforms, diplomacy, and strengthening democracy**, making significant shifts from her predecessor's policies.

a) Outline four formatting styles that have been applied to the passage.

b) Give the shortcut control of those formatting style you mention in (a) above

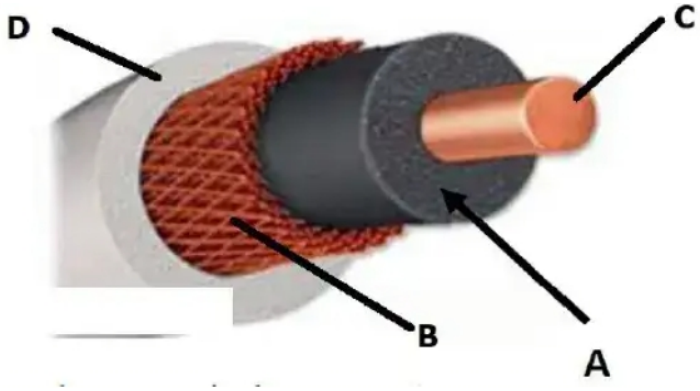

c) In the paragraph a line space of 1.5 is used, List any other five line spacing specifications available in Microsoft Word

d) Proofreading helps to identify and correct spelling, grammar, punctuation and typographical error. Name **three** proofreading tools used in word processing

4. (a) Explain four importance of information in our daily life, with examples

(b) Explain two ways of disseminating information with examples

5. (a) You are helping a neighbor to set up their new cable of AZAM dish. They are unsure about which type of cable to use. To give them information about coaxial cable is good compared to twisted cable and you come up with it as the figure shown below.

(i) State the function of each part labelled A–D

(ii) What are the two advantages do coaxial cable offer compared to twisted pair cabling for their AZAM dish installation?

(b) You are tasked with designing a network for a small office with 10 computers. Each computer needs to access shared resources like printer and files.

(i) By drawing sketch up diagram show which type of network topology would you suggest for this setup?

(ii) Why would it be the most suitable choice (provide two reasons)

6. "Use of telecommunication technology has meant that many workers can work from home rather than having travel to the office, this is the one of the positive impacts of ICT on employment", due to this statement

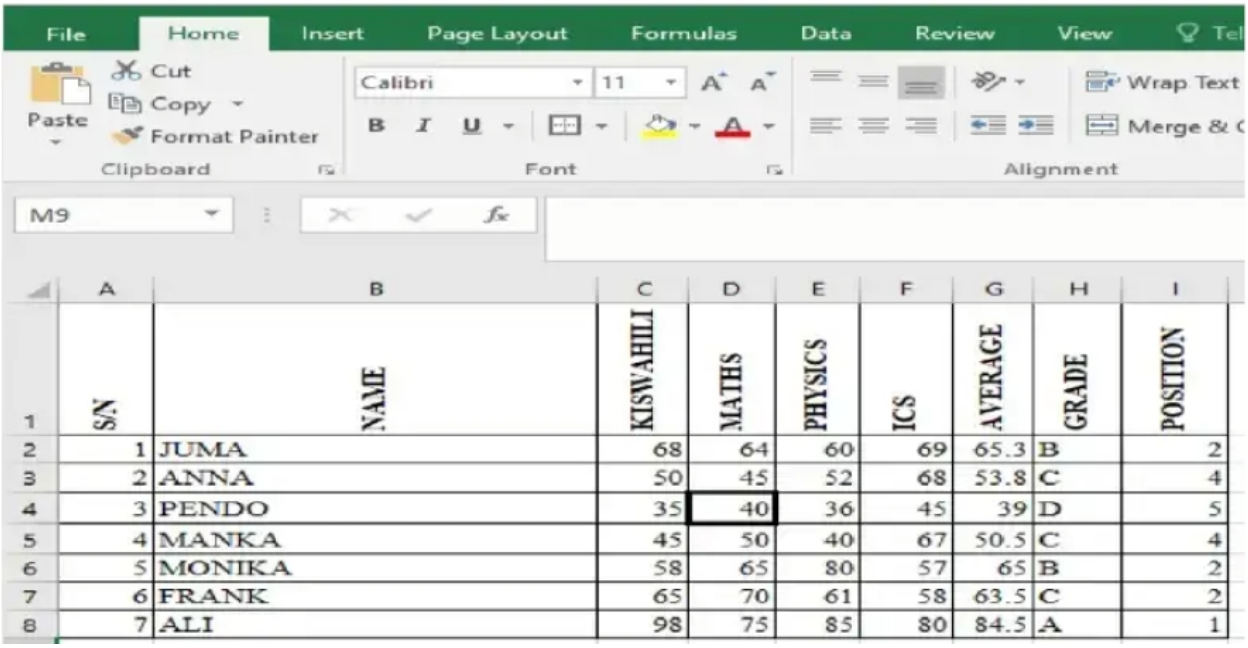

a) Briefly describe three effects of ICT on employment

b) State three advantages and three disadvantages on each part of working from home, from the point of view of:

(i) The worker

(ii) The company/ institution/ organization

7. Snap shot below shows the result of form three students at Mtandao Secondary School. Study it carefully and answer the questions that follows:

	A	B	C	D	E	F	G	H	I
1	S/N	NAME	KISWAHILI	MATHS	PHYSICS	ICS	AVERAGE	GRADE	POSITION
2	1	JUMA	68	64	60	69	65.3	B	2
3	2	ANNA	50	45	52	68	53.8	C	4
4	3	PENDO	35	40	36	45	39	D	5
5	4	MANKA	45	50	40	67	50.5	C	4
6	5	MONIKA	58	65	80	57	65	B	2
7	6	FRANK	65	70	61	58	63.5	C	2
8	7	ALI	98	75	85	80	84.5	A	1

Hints: (The grade is "A" if the average is >=75, "B" if the average is >=65, "C" if the average is >=45, "D" if the average is >=30 Otherwise "F")

(a) Name the program used to create the snapshot above.

(b) Which cell reference is the active cell?

(c) Identify the size and font type used to create the snapshot above.

(d) Show the function used to calculate the average marks of Monika.

(e) Write the function used to assign grade and position of ALI

SECTION C (30 Marks)

Answer only **two (2)** questions in this section

9. As a form three student taking ICS, you have visited the academic office and after observing the way they are preparing students' academic reports, office letters by using manual typewriters, write your proposal to convince the school administration to use electronic word processor over manual typewriter.

10. Suppose you are given an opportunity to speak to your fellow students on the motion which states that "Internet causes more harm to students than benefits." Explain six (6) points that you would use to **oppose** this motion.

11. The impact of Computers on modern society is to transform various sectors such as Education, Healthcare, Business and Communication. How does this statement become true?

— END —
