2. Answer **all** questions from section A, and B, and only two questions from section C
3. **Write your** answer in the spaces provided.
4. All answers must be written **in black or blue ink.**
5. Cellular phones, calculators and any unauthorized materials are not allowed in the **Assessment room.**
6. Write for **Examination Number** at the top right corner of every page.

SECTION A (16 MARKS)

1. For each of the items (i) – (x), choose the correct answer from among the given alternatives and write its letter beside the item number in the answer booklet provided.

   i. Which objects will you use to create a form in Microsoft access?
   - A. Table and queries
   - B. Table and design view
   - C. Table and reports
   - D. Queries and reports
   - E. Queries and design view

   ii. Which method is best for protecting the computer against short circuiting?
   - A. Providing standby generator.
   - B. Providing fire extinguisher
   - C. Providing surge protector.
   - D. Providing insulated cables.
   - E. Providing air ventilation.

   iii. What does an advertisement with a combination of text, audio, picture and some animation present?
   - A. Hyperlink presentation
   - B. Multimedia presentation
   - C. Interactivity presentation
   - D. Hypermedia presentation
   - E. Single media presentation

iv. The correct sequence of computers arranged in descending order according to their physical size and processing power is.

A. Mainframe computer, minicomputer, supercomputer
B. Minicomputer, mainframe computer, supercomputer
C. Supercomputer, mainframe computer, minicomputer
D. Minicomputer, supercomputer, mainframe computer
E. Mainframe computer, supercomputer, minicomputer

v. The shortcut key used to open the new Microsoft word document without closing the existing document is

A. Enter + N
B. Insert + N
C. Ctrl + N
D. Alt + N
E. Ctrl + Alt

vi. A form one student from Seypalm secondary school reported some school laboratory computers malfunctioning. The investigation of the reported problem revealed the failure of data transfer in the CPU. Which part caused the reported problem?

A. ALU
B. CU
C. Memory
D. RAM
E. ROM

vii. You were asked to prepare a presentation on the importance of studying the Computer Studies subject. What kind of software will you use to accomplish the task?

A. Microsoft publisher.
B. Microsoft word.
C. Microsoft Power point.
D. Microsoft Excel.
E. Word pad

viii. How can you differentiate the third computer from second computer generation?

A. Third computer uses transistor while second computer used vacuum tube.
B. Third computer used vacuum tube while second computer used transistor.
C. Third computer used microprocessor while second computer used transistor.
D. Third computer used integrated circuit while second computer used transistor.
E. Third computer used artificial intelligence while second computer used transistor

ix. Suppose you want to find and download computer studies books from the internet, which program would you use?

A. Search engine
B. Web browser
C. Mozilla Firefox
D. Internet explorer
E. Microsoft Word

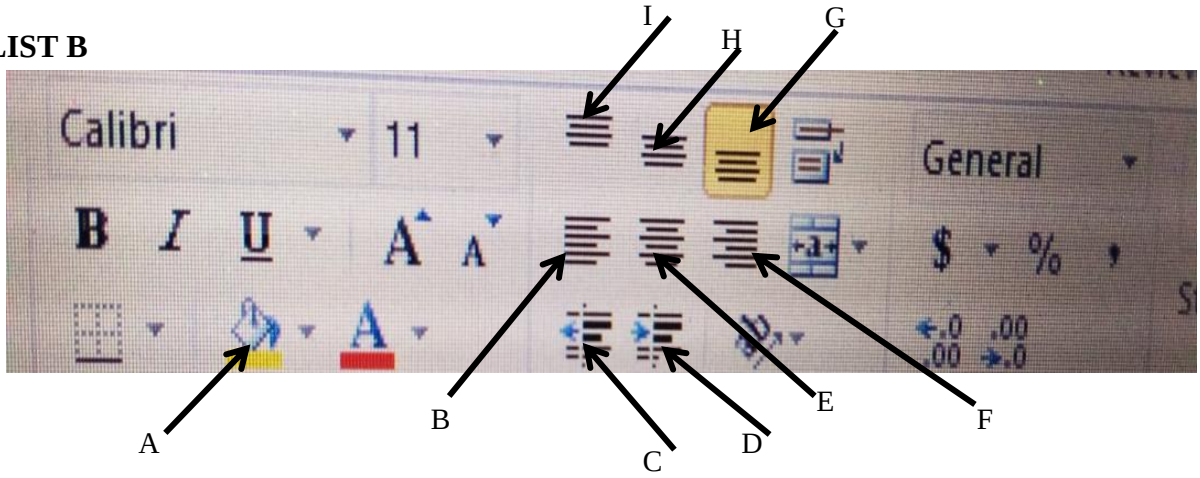

x. Which of the following formulas will Excel Not be able to calculate?
A. = SUM(A1:A5)-A3
B. = SUM(A1:A5)*.5
C. = SUM(A1:A5)/(10-10)
D. = SUM(A1:A5)-10
E. = SUM(A1:A5)

2. Match the description of the text button alignment used in Microsoft Excel in List A with the corresponding alignment in List B by writing the letter of the correct answer beside the items number in the space provided.

LIST A

i. It aligns the cell contents to the top edge of the cell.
ii. It aligns the cell contents to the right edge of the cell.
iii. It aligns the cell contents to the left edge of the cell.
iv. It aligns the cell contents horizontally within the cell.
v. It aligns the cell contents to the bottom edge of the cell.
vi. It aligns the cell contents vertically within the cell.

LIST B

SECTION B (54 MARKS)
Answer all Questions

3. What is the function of each of the given database objects?
a) Form
b) Table relationship
c) Macros
d) Query
e) Report

4. You have been assigned to create an e-mail account for effective communication for your further studies.
   a) Which program would you use to accomplish the task?
   b) Which steps would you follow to accomplish the task?
   c) Briefly explain the use of spam, carbon copy, and Blind carbon copy in the electronic mail.

5. Form six students complained that, their graduation video film had poor quality in term of order, size, color, and transitions. The analysis done showed that one of the stages in preparing the video was skipped.
   a) Identify the skipped step.
   b) Explain four procedures you would follow to accomplish the skipped step?
