PRESIDENT'S OFFICE
MINISTRY OF EDUCATION SCIENCE AND TECHNOLOGY
LONGIDO DISTRICT EXAMINATION
FORM ONE PRE-REGIONAL EXAMINATION,SEPTEMBER, 2019
BIOLOGY

TIME: 2 HOURS

INSTRUCTIONS

i. This paper consists of section **A** and **B**
ii. Answer all questions in all sections
iii. All writings should be in blue or black pen except diagrams which should be by pencil

SECTION A

1. For each of the items (i) to (x) choose the correct answer among the given alternatives and write its letter beside the corresponding item number
   i. Which of the following terms is not branch of the biology
      A. Microbiology
      B. Ecology
      C. Science
      D. Taxonomy
   ii. Which are the two main braches of biology among the following
      A. Cytology and Ethology
      B. Botany and zoology
      C. Mammology and ornithology
      D. Limnology and hydrobiology
   iii. Which of the following is not a list of characteristics of living organisms
      A. Feeding, irritability and growth
      B. Reproduction, death and definite shape
      C. Excretion ,locomotion and feeding
      D. Growth, movement and respiration
   iv. In biology, an experiment is used to test
      A. Law
      B. Theory
      C. Hypothesis
      D. Concept
   v. Which of the following is expected to happens if blood supply to the brain is reduced
      A. Vomiting
      B. Fainting
      C. Yawning
      D. Shivering

vi. Which of the following is not the type of waste
   A. Solid waste
   B. Liquid waste
   C. Sludge waste
   D. Soil waste

vii. Interpretation means
   A. Clarification
   B. Investigation
   C. Evaluation
   D. Guessing

viii. The first step in scientific procedure is
   A. Asking question
   B. Experimentation
   C. Formulation of hypothesis
   D. Identification of a problem

ix. If you don't have gloves you can use ……..to protect your hands
   A. Socks
   B. Plastic bags
   C. Pieces of cloth
   D. Cotton wool

x. The ability of human body to resist infection and disease causing organisms is called
   A. Vaccination
   B. Immunity
   C. Injection
   D. Sterilization

2. Match the items in **list A** with the responses in **list B** writing the letter of the correct response beside the items number in the space provided

LIST A	**LIST B**
i) communicable disease	A. mirror
ii) HIV/AIDS	C) Compost
iii) type of immunity involves the passage of antibody from mother to unborn baby across the placenta	D) condenser
iv) mode through which malaria is transmitted	E) pathogens
V) state of physical mental and emotional well being of the body	F) health
vi) disease causing microorganisms	G) Endemic
Vii) method of waste disposal at home	H) immunity
viii)concentrates light on the stage	I) Pandemic
ix)bring the image into the focus and magnifies it	J)Anopheles mosquitoes
x)human waste	K) Natural active immunity

	L) Natural passive immunity
	M) Cholera
	N) immunity
	O)Sludge waste
	P) Liquid waste
	Q) objective lense
	R) Diaphragm
	S) Diabetes
	T) Burning

LIST A	i)	ii)	iii)	iv)	V)	vi)	vii)	viii)	ix)	x)
LIST B										

SECTION B (80 MARK)

3. a) Define the term laboratory
   b) Mention five (5) laboratory rules
   c)Outline any five (5) laboratory apparatus found in biology laboratory
4. define the following terms
   a) Artificial passive immunity
   b) Health
   c) Non-communicable diseases
   d) Endemic diseases
   e) Disease
5. a) write down seven (7) characteristics of living things
   b) Mention six (6) procedures of the scientific processes (arrange chronologically)
6. a) Define the following
   i) First aid
   ii) First aid kit
   b) Outline five (5) components of first aid kit and their uses
7. a) Define the following “warning signs”
   b) List five (5) warning signs
   c) Draw the following warning signs
      i) Irritant
      ii) Harmful
      iii) Explosive
8. a) list three accidents which may occur at home
   b) How can you prevent the accidents mentioned above
   c) What are the importance of giving first aid an injured person? Any four points.
