THE UNITED REPUBLIC OF TANZANIA
PRESIDENT'S OFFICE
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT
MTWARA-MIKINDANI MUNICIPAL COUNCIL
FORM ONE MID-TERM EXAMINATIONS MARCH 2021
PHYSICS

TIME: 2:30 HOURS

INSTRUCTIONS

i) This paper consists of section A,B and C
ii) Answer all questions in each section in the space provided
iii) Write your examination number at the top of every page
iv) Show your work clearly 5.
v) Where necessary the following constant may be used
   (i) Acceleration due to gravity g= 10m/s or g=10N/Kg
   (ii) Density of water 1g/cm^3 or 1000kg/m^3

SECTION A (30Maks)

Answer **all** questions in this section

1. For each of the items (i)-(xx), choose the correct answer from among the given alternatives and write its letter in the box provided

   i) Physics is the study which deals with matter. What does it relate to?
   - A. Power
   - B. Force
   - C. Energy
   - D. Work

   ii) What does someone pays for if he/she buys sugar from the shop
   - A. Mass
   - B. Density
   - C. Volume
   - D. Weight

   iii) A beam balance is used to measure
   - A. Weight
   - B. Mass
   - C. Volume
   - D. Density

   iv) Which of the following is the property of gravitational force
   - A. It is repulsive in nature
   - B. It acts over a very long distance
   - C. It is much stronger
   - D. It is non-central force

   v) A Vernier caliper is used to measure
   - A. Distance of a car
   - B. Mass of car
   - C. Internal diameter of objects
   - D. Length of a table

   vi) A student gets electric shock and falls down unconscious in a physics laboratory. Which of the following would you do first to help the victim
   - A. Call physics teacher
   - B. Administer breathing exercise
   - C. Call other students
   - D. Take him/her to the hospital

   vii) Physics is
   - A. The most basic science
   - B. A quantitative science
   - C. An experimental science
   - D. All of the above

   viii) One among the following is not an item of First Aid Kit
   - A. Soap
   - B. Razor blade
   - C. Pencil
   - D. Safety Pin

   ix) One of the following is not a safety rule in physics laboratory
   - A. A. To sit on a table
   - B. To follow instructions
   - C. To wear shoes with hard soles
   - D. Handling apparatus

   x) A room designed for conducting scientific experiment

   A. Library C. Factory B. Industry D. Laboratory

2. Match each item in List A with a correct response in List B by writing a letter of a correct response below the corresponding item number in the table provided

List A	List B
(i) Contact force	A. Force that opposes the motion
(ii) Frictional force	B. Viscosity
(iii) Force of gravity	C. Fundamental force
(iv) Strong nuclear force	D. Type of force
(v) Effects of force on objects	E. Its SI-unit is Newton(N)
	F. Obtained from the nucleus
	G. Non-fundamental force

Answers

List A	(i)	(ii)	(iii)	(iv)	(v)
List B					

3. Complete each of the following statements by writing the correct answer in the space provided
   i) The quantity of space that an object occupies is known as……
   ii) The shape of the surface of water in a clean glass tube is…….
   iii) Solid, Gases and Liquids ……..
   iv) One similarity between micrometer screw gauge and vernier caliper is ……..……
   v) Temperature from our body is measured by ……..……

SECTION B (50 Marks)

4. (a) What do you understand by the following terms.
   i) Laboratory ……
   ii) First Aid Kit ……
   (b)Mention at least four (4) physics laboratory rules
   i) ……
   ii) ……
   iii) ……
   iv) ……

   (c) Name four items found in First Aid Kit and states their use

	Name of items	Uses
i		
ii		

iii		
iv		

5. (a)Name three (3) possible instruments for measuring lengths
   i) …….
   ii) ……
   iii) ……
   (b)State any four (4) fundamental quantities and appropriate instruments for measuring them

	Quantity	Instruments for measuring it
(i)		
(ii)		
(iii)		
(iv)		

(c) Explain how derived quantities are different from basic fundamental quantities

……
……
……
……
……
……

6. (a) Who is a physicist?

……

(b) Give five (5) importance's of studying physics in our daily life

i) ……
……
ii) ……
……
iii) ……
……
iv) ……
……
v) ……
……

(c)Identify four(4) items around your school and home whose use is related to the study of physics

i) …….
ii) …….

iii) ……..

iv) ……

7. (a) Why it is necessary for physics laboratories to have fire extinguishers?

.....

.....

(b) Mention any three (3) possible causes of accidents or injuries in laboratory

i) ……
……

ii) ……
……

iii) ……
……..

(c) Draw the symbols of the following warning signs

i) Toxic

ii) Irritant or harmful

iii) Flammable

iv) Oxidizing agent

v) Corrosive

SECTION C (20Marks)

8. (a)The following words are the science apparatus, rearrange the letters to gets correct words of the apparatus
   i) etortr dstna…….…….
   ii) uBnesn nrbure…….....
   iii) Pmierocsco……..
   iv) rekbea……..……....
   v) Stet bute…….
   vi) ttepiep…….
   (b) Complete the following paragraph by filling the blank spaces with one of the words from brackets
   Matter exists in……..(ten,four,three) states in everyday life. The air we breathe is in……(Solid,liquid,gas)state. At home, when we cook Ugali we use maize flour and water. In this case …….(gas,water,maize flour) is liquid and……..(liquid,water,maize flour) is solid.
9. (c) Read about these accidents and say which laboratory rule was broken
   i) While walking around the laboratory ,a student tripped over a bag and fall on the floor
   ……
   ……
   ……
   ii) Jenina threw a book to Dami and it hit a bottle containing chemicals. The chemicals burnt Husuda very badly
   ……
   ……
   ……
