REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT
LONGIDO DISTRICT

036 INFORMATION AND COMPUTER STUDIES

Time: 3 Hours **November 2025**

Instructions

1. This paper consists of sections **A**, **B** and **C** with a total of eleven **questions**.
2. Answer **all** questions in sections **A**, **B** and one question in section **C**.
3. Calculators, cellular phones and any unauthorized materials are not allowed in the examination room.
4. Write your Examination Number on every page of your answer sheets.

SECTION A (15 MARKS)

Answer all questions in this section.

1. For each of the following items (i) – (x), choose the most correct answer from the given alternatives and write its letter beside the item number.

(i) Which of the following will be most suitable for traveler?

A. Super computer
B. Mainframe computer
C. Palm note computer
D. Minicomputer

(ii) What is meant by the term analog data?

A. Data that never stops
B. Discrete data
C. Large data
D. Continuous data

(iii) What completes task of matching domain names to IP address?

A. HTTP
B. URL
C. DNS
D. HTML

(iv) HTTP refers to:

A. Hyper Text Transfer Protocol
B. Hyper Text Transfer Procedure
C. Home Text Translating Process
D. None of the above

(v) Which of the following is the database management system?

A. Ms word
B. Ms excel
C. Oracle
D. Lotus 1-2-3

(vi) An example of application package
A. An operating system
B. Printer drivers
C. A payroll program
D. A paper user guide

(vii) Which of the following keyboard keys executes the function of „Save as“ command in most programs?
A. F10
B. F8
C. F12
D. F11

(viii) The process of restarting a computer is called
A. Cold Booting
B. Warm booting
C. Hard booting
D. Simple booting

(ix) Which of following is the correct order of the units of computer memory in terms of size in descending order?
A. Byte>Kilobyte>Bit>Gigabyte>Megabyte
B. Bit>Byte>Kilobyte>Megabyte>Gigabyte
C. Gigabyte>Megabyte>Kilobyte>Byte>Bit
D. Byte>Bit>Kilobyte>Megabyte>Gigabyte
E. Megabyte>Gigabyte>Kilobyte>Byte>Bit

(x) A computer network media that supports large volume of data transfer is called
A. Two wire open line cable
B. Fibre optic cable
C. Twisted pair cable
D. Network Interface card
E. Coaxial cable

2. Match the following descriptions of the filed properties in **LIST A** to their corresponding names in **LIST B** by writing the letter of the correct answer beside the item number in the table provided.

LIST A:	LIST B
(i) Fragmentation (ii) ALU (iii) Data dictionary (iv) If function (v) BIOS	A. Deals with how to arrange your technology to reduce comfort and avoid health risks B. To do (carry out) arithmetic operations C. Define structure and properties of a data base table D. Deals with physical relationship between people technology and their work environment E. Used to search information about the last person to use the locked computer F. Capacity of the communication medium Checks input and output devices at shutting down G. A dictionary which enables the computer to work properly H. Logical condition that will return true whether the statement is true or false if the statement is false I. Scattering of portions of file

SECTION B (55 MARKS)
Answer all questions in this section.

3. Arrangements the following in terms of Computer generation
   (i) The computer used Transistors replaced
   (ii) Used in intelligent robot
   (iii) The computer used vacuum tubes for circuity and magnetic drums for memory1
   (iv) Integrated circuit
   (v) Used in VLSI technology

4. (a) (i) What is multimedia?
   (ii) With one example each, differentiate between linear and non-linear presentation.
   (b) Mr. Seypalm was typing a letter using his computer, suddenly a computer screen started displaying unusual messages, unknown programs appeared, operating system started running slowly and a computer started switching off and on unexpectedly. All these activities occurred without his permission.
   (i) Suggest the possible cause of that problem.
   (ii) What program you think could be run in a computer to solve such a problem?
   (iii) Outline four examples of the program named in 4 (b) (ii) above.

5. Mkonge agent in Tanga Region keeps a file of properties for sale on computer. The information stored on each property is shown in the table below.

Code	Type	Class	Price	No. of bedrooms
MSL 123	House	D	142,000.00	2
MSL 917	Store Building	S	1,000,000.00	3
MSL 134	House	S	750,000.00	4

MSL 912	Store building	D	2,000,000.00	2

(i) State how many records are there in the file?
(ii) State the names of the fields available in the table above.
(iii) Which of the above fields can be set as a primary key? Why?
(iv) Write a query that will select price above 750,000.00
(v) Write the query that will return all Type start with letter S.
(vi) Write the query that will return MSL (917 and 912), Class and Price.

6. (a) State four major categories of computer network elements (components).
(b)What is the difference between Switch and Hub devices in computer network?
(c) Describe four importances of computer networks in an organization.

7. (a) What HTML tags can be used to link the following?
(i) An image "log.gif"
(ii) Apage"home.html"
(b) Study the following HTML codes and give the output expected.

```
<html>
<body>
<fieldset>
<h2> Welcome to the ICT World</h2>
Name: <input type="text" name= "uname"><br><br>
Gender: <input type="checkbox" name="unradio" value="Fmale">Female
<input type="checkbox" name="uadio" value= "rnale">Male<br><br>
Married: <input type="radio" name="unradio" value="Female">Yes
<input type="radio" name="unradio" value="Female">No<br><br> Comments:
</fieldset>
</body>
</html>
```

8. The following spreadsheet shows marks of form one students at Amazon open school. Study carefully the given worksheet and answer questions that follow:

	A	B	C	D	E	F	G	H
1	SN	NAME	COMPUTER	COMMERCE	BOOK-KEEPING	AVERAGE	GRADE	POSITION
2	1	JUMA ALLY	67	89	90			
3	2	ZENA MUSSA	55	66	77			
4	3	JOHN JESSE	89	99	75			
5	4	JESCA JOHN	88	87	69			

Hint: The grading ranges are; “A” is >=75, “B” is >=65, “C” is >=45, D is >=30 and F<30

(a) Which steps would you follow to align the headings in the worksheet vertically?
(b) Which function can be used to assign grade, average and position?
(c) Give the steps which can be used to validate the marks entered by the user to start with whole number from 0 to 100 inclusive.

SECTION C (30 MARKS)

Answer only two questions in this section.

9. A school manager wishes to publicize school activities to make his school better known in the neighborhood. He could do this by using the school’s website or producing a magazine using DTP to be delivered by hand. Discuss two advantages and two disadvantages of each method.
