CATHOLIC DIOCESE OF IRINGA

ST. MARY'S ULETE SECONDARY SCHOOL
FORM ONE MONTHLY TEST
BIOLOGY

TIME:2:30Hrs **Wednesday 15th February 2023**

Instructions

1. This paper consists of sections **A, B**and **C** with a total of **Ten (10)** questions.
2. Answer all questions in sections **A and B** and one (1) question from section **C**.
3. Section **A carries (15) marks, section B seventy (70) marks** and section **C** carries **fifteen (15)** marks
4. All writings must be in **blue or black** pen, except for diagrams that must be in pencil
5. Cellular phones and any unauthorized material are not allowed in the examination room
6. Remember to write your name and stream on every page of your answer sheet(s)

SECTION A (15 Marks)

Answer all questions.

1. For each of the items (i) – (x), choose the correct answer from the given alternatives and write its letter in the box provided.

   i) Information collected during scientific inquiry is called
   - A. Results
   - B. Observation
   - C. Conclusion
   - D. Data

   ii) The Greek word which means life
   - A. Logos
   - B. Bios
   - C. Botany
   - D. Zoology

   iii) Which apparatuses are used for heating substances in the Biology laboratory
   - A. Test tube holder and thermometer
   - B. Spirit lamp and Bunsen burner
   - C. Bunsen burner and thermometer
   - D. Spirit lamp and test tube rack

   iv) An instrument which is used to estimate population of organisms at a particular place is
   - A. Mirror
   - B. Mounting needle
   - C. Quadrant
   - D. Specimen bottle

   v) Imagine you are in the Biology laboratory conducting food test experiment which apparatus will you use to grind or crush the sample
   - A. Beaker
   - B. Spatula
   - C. Crucible
   - D. Mortar and pestile

vi) Kobelo is a pre – form one student at Bright Future Secondary school, he dislikes studying science subjects including biology subject how can you explain to him about the benefit of studying biology

A. Biology deals with non – living objects in our environment
B. Biology helps us to appreciate and improve the nature
C. Biological research contributes to the development of low – yielding breeds of crops
D. Biology enables us to pollute environment

vii) The practice of arranging organisms into groups to be used in classification is known as

A. Taxonomy
B. Classification
C. Nomenclature
D. Systematic

viii) Biology teacher asked students not to bring sulphuric acid near open flame because it can accelerate burning process. Which of the following is the right category of the named chemicals?

A. Inflammable
B. Explosive
C. Corrosive
D. Oxidant

ix) Help to maintain safety in the laboratory

A. Scientists
B. Doctors
C. Warning signs
D. Biologists

x) Dorice quickly removed her hand upon touching a hot metal object. Which action Dorice exhibited

A. Response
B. Irritability
C. Fairness
D. Irresponsibility

Answers

i	ii	iii	iv	v	vi	vii	viii	ix	x

2. Match the descriptions of warning signs in List A with the corresponding sign label in List B by writing the letter of the correct response below the item number in the table provided.

LIST A	LIST B
i) Substances which are dangerous and may cause death	A. Corrosive B. Explosive
ii) Substances which easily break	C. Toxic
iii) Substances which emit harmful radiation	D. Irritant
iv) Substances which can damage the skin and other tissues	E. Fragile F. Flammable
v) Substances containing microbes which can cause disease	G. Biohazard H. Radioactive

Answers

i	ii	iii	iv	v

SECTION B (70 Marks)

Answer all questions in this section

3. (a) What do you understand the following terminologies

(i) Life

_____

_____

(ii) Zoology

_____

_____

(iii) Botany

_____

_____

(b) Imagine that you are with your fellow in the forest collecting firewood and she asks about the differences between dead plants and young one. Write short notes to educate her about the features of living things (seven points).

(i) _____

_____

(ii) _____

_____

(iii) _____

_____

(iv) _____

_____

(v) _____

_____

(vi) _____

_____

(vii) _____

_____

4. (a) With their sense perceived name the five sense organs used to make observation during scientific investigation.

(i) _____
(ii) _____
(iii) _____
(iv) _____
(v) _____

(b) Name the instruments used to measure the following

(i) Mass _____
(ii) Length _____
(iii) Temperature _____
(iv) Pulse rate _____

(c) Mention one weakness of using sense organs to make observation

_____

_____

_____

5. (a) What do you understand by the term biology laboratory

_____

_____

(b) For a biology tobe used as a special room it is not only what contains but also how it should be. By using four (4) points identify how a good laboratory looks alike

(i) _____
(ii) _____
(iii) _____
(iv) _____

(c) Differentiate biology laboratory from other school facilities. Four points

(i) _____

_____

(ii) _____

_____

(iii) _____

_____

(iv) _____

_____

6. Draw the following apparatuses which are found in the biology laboratory and state the use of each.

(a) Spatula	(b) Petri dish
(c) Test tube holder	(d) Filter funnel

7. Jovin stated to Jovina that the knowledge obtained from studying biology subject is very important in our daily life, with one example each support her by giving five (5) points.
   (i) _____
   _____
   (ii) _____
   _____
   (iii) _____
   _____
   (iv) _____
   _____
   (v) _____
   _____

8. (a) What is variables
   _____
   _____
   _____

   (b) Distinguish between
      (i) Response and irritability
      _____
      _____
      _____
      _____
      (ii) Anatomy and physiology
      _____
      _____
      _____
      _____

   (c) In what ways are the following substances harmful/dangerous?
      (i) Highly flammable substances
      _____
      _____
      (ii) Radioactive substance
      _____
      _____
      (iii) Biohazards
      _____
      _____

(iv) Corrosive substances

_____

_____

(v) High voltage

_____

_____

9. (a) How do you understand by the following terms

(i) Theory

_____

_____

_____

(ii) Hypothesis

_____

_____

_____

(iii) Facts

_____

_____

_____

(b) Identify the steps of the scientific method in each of the following situations

(i) John is not feeling well, he goes to the nearby hospital to see a medical doctor
(ii) The doctor asks John several questions about how he feels
(iii) The doctor orders John's body temperature, blood and urine samples for observation in the laboratory
(iv) The laboratory technician diagnose malaria parasites in John's blood
(v) The doctor confirms that John has malaria and prescribes medicine for him.

(i) _____
(ii) _____
(iii) _____
(iv) _____
(v) _____
(vi) _____
(vii) _____

SECTION C (15 Marks)

Answer question ten (10)

10. Write an essay to explain the relationship of Biology with the field of
    (a) Agriculture
    (b) Nutrition
    (c) Pharmacy
    (d) Medicine
    (e) Forestry
