PRIME MINISTER'S OFFICE
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT
ARUSHA REGION

FORM ONE TERMINAL EXAMINATION

CODE: 031 **CHEMISTRY**

TIME: 2: 30 HRS **1st JUNE, 2026**

INSTRUCTIONS

1. This paper consists of section A, B and C.
2. Answer all questions from each section.

SECTION A

1. Choose the most correct answer among the given alternatives and write down the answer in the box provided.

(i) What should you apply to a burn immediately?
A. Ice B. Butter (c) Cool it with running water D. Oil

(ii) Loose or floppy clothing is not allowing in the laboratory. Why?
A. Movement has to be fast.
B. It will get wet when water splashes
C. It may catch fire or cause one to fall.
D. It can cause poor ventilation.

(iii) If a form one students aims to be a professional doctor, which among the following subjects a student should be advised to focus on in order to develop the necessary competencies:
A. Geography, physics, and chemistry.
B. Physics, chemistry, and Biology.
C. Agriculture, chemistry, and biology.
D. Chemistry, physics, and mathematics.

(iv) A person at home can apply chemistry in:
A. Playing games
B. Watching television
C. Cooking food in a kitchen
D. Dusting the floor in a house

(v) Which apparatus is used to measure volume of liquids accurately?
A. Beaker B. Burette (c) Test tube D. Conical flask.

(vi) You are not allowed to run in the laboratory to:
A. Avoid game in the laboratory
B. Avoid collision with chemicals or other students which may cause slip-fall accidents.
C. Make students quite in the laboratory.
D. Maintain laboratory rules.

(vii) A statement that explains what to do or not to do in the laboratory is called:
A. Laboratory order.
B. Laboratory Safety
C. A Laboratory rule
D. Laboratory instruction.

(viii) What are some of the main purposes of vaccines as chemical substance?
A. Cure animals and human beings from diseases.
B. Protect animals and human being from diseases.
C. Introduce vitamins and proteins in animals.
D. Make animals grow faster than normal

(ix) Why is it important to wear protective clothing like a lab coat?
A. To look professional
B. To protect your body from spills and chemicals
C. To keep warm
D. To carry tools.

(x) Imagine that, you are playing a chemistry - related trivia game with your friends. If you are to choose one term which does not relate to any recognized branches of chemistry among the following. Which term could you choose?
A. Organic chemistry.
B. Arithmetic chemistry.
C. Inorganic chemistry.
D. Physical chemistry.

Answers

(i)	(ii)	(iii)	(iv)	(v)	(vi)	(vii)	(viii)	(ix)	(x)

2. Match the following apparatus with their uses by writing the letter of the apparatus and the Roman number of its corresponding use:

LIST A	LIST B
(a)Test tube (b)Conical flask (c)Tripod stand (d)Retort stand (e)Electronic balance	(i) usually placed above the Bunsen burner with a wire gauze during heating or boiling Detergent (ii) Source of heat in the laboratory (iii)Holding chemicals and heating small portions of the chemicals in liquid or solid. (iv)Sucking liquids. (v) Holding liquids during experiments. (vi)Used with a clamp to support apparatus like round bottomed flask during experiments. (vii) Measuring the mass of chemicals in the laboratory.

(i)	(ii)	(iii)	(iv)	(v)

SECTION B (70 marks)

Answer All questions from this section.

3. (a)Explain the importance of shock positioning a person suspected to be in shock. Give four(4) points.
   (i) ……
   (ii) ……
   (iii)……
   (iv)……

   (b)Why is it necessary to take precautions while working in the laboratory? Give four reasons.
   (i) ……
   (ii) ……
   (iii)……
   (iv)……

4. (a)Safety signs are very important in the laboratory. List down three safety signs and give their meanings.
   ……
   ……
   ……
   ……

   (b)What would happen if there were no safety signs chemical found in school laboratory? Give 3 points.
   (i) ……
   (ii) ……
   (iii)……
   (iv)……

(c)Apart from school laboratory, where else can we found safety signs? Mention 4 areas.
   (i) ……..
   (ii) ……..
   (iii)……..
   (iv)……..

5. (a)Imagine you have been given a chance to advise the school committee on how should the laboratory building look like. What could be your advice? Give 5 points.
   (i) ……
   (ii) ……
   (iii) ……
   (iv) ……
   (v) ……

   (b)Mention five (5) ways to minimize accidents in the laboratory.
   (i) ……
   (ii) ……
   (iii)……
   (iv)……
   (v) ……

6. .(a)Form one students were arguing that through chemistry knowledge they can choose various careers where knowledge of chemistry is used as their ambition. List down five (5) careers that are results of studying chemistry.

(i) ……
(ii) ……
(iii)……
(iv)……
(v) ……

(b)Mention five (5) accidents that may can happen in the laboratory:

(i) ……
(ii) ……
(iii)……
(iv)……
(v) ……

7. (a)Most of the chemistry laboratory apparatus are made from glass.What could be the reasons behind? List 4 reasons.

(i) ……
(ii) ……
(iii)……
(iv)……
(v) ……

(b)A form one student was boiling water on a Bunsen burner without using a wire gauze. If you were to advise him/her, what could be your advice on the necessity of using the wire gauze when using a Bunsen burner in a laboratory setting? Give two points.

(i)…… (ii)……

(c)The first aid kit is among the thing that should be kept in chemistry laboratory so as to be used for offering first aid. Give four (4) significances of first aid.

(i) ……
(ii) ……
(iii)……
(iv)……
(v) ……

8. (a)Give the reasons to support each of the following:

(i)A laboratory should have large windows.

……
……
……

(ii)Read the instruction carefully before you start any activity

……
……
……

(iii)Do not use dirty apparatus.

……
……
……

(iv)Do not remove any chemicals or equipment from the laboratory without permission.
……
……
……
(v)Turn off all gas or water taps after using.
……
……
……
(b)How could you help your fellow student who is having nose bleeding.? Give all procedures in systematic order.

(i) ……
(ii) ……
(iii) ……
(iv) ……
(v) ……

9. (a)Differentiate the following terms by giving one point each:
   (i) Fire from fire fighting
   ……
   ……
   ……
   ……
   (ii) Luminous flame from non-luminous flame
   ……
   ……
   ……
   ……
   (iii)Fire triangle from fire extinguisher
   ……
   ……
   ……
   ……

(b)A form one student reads a statement from a certain book, “If the clothes worn by your friend catch fire, cover them with a fire blanket or pour water over him.” Why a fire blanket and water have to be used in that case?
(c)Complete the table below by filling the gaps:

Class	Burning material	Suitable extinguisher	Chemical composition
A		Air pressurized water	
	Cooking oils and fats		Potassium acetate
C		Dry powder/Carbondioxide extinguisher	
	Flammable liquids		Dry powder/Foam

SECTION C (15 marks)

10. (a)Give four differences between luminous flame and non-luminous flame.

……
……
……
……

(b)What are steps for extinguishing a fire? Mention four steps.

……
……
……
……

(c)Why is the Bunsen burner commonly used in the laboratory?

……
……
……
……

(d)Draw a well labelled diagram of laboratory apparatus used for heating in the laboratory.

(e)Give two uses of flames produced by the laboratory apparatus in 10(d) above

……
……
……
……
