THE PRESIDENT'S OFFICE - BALG.

CHEMISTRY I : MARCH 2026.

MID TERM TEST MARKING SCHEME.

SECTION A.

	i	ii	iii	iv	v	vi	vii	viii	ix	x
1.	C	B	C	B	B	C	B	A	C	D

1@ = 10 marks

	i	ii	iii	iv	v.
2.	D	E	H	G	B.

1@ = 5 marks.

SECTION B.

3a) Laboratory is a special room for conducting scientific experiments (01)

WHILE

Chemistry laboratory is a special room for conducting chemical experiments. (01)

b) i) Chemistry laboratory 01

ii) Doing experiments 01

iii) Importance of chemistry laboratory, 1@2 2marks

→ It develop conceptual understanding

→ It develop creative thinking and problem solving ability.

→ It help to explore chemical concepts.

4a) i) Apparatus (v) laboratory

ii) Mass v) Time.

iii) Volume

1@ = 5 marks.

b) i) Because are essential for scientists. chemists or laboratory technicians to carry out their work accurately and efficiently. (02)

4 b ii) Any five apparatus. 1@ = 5marks
iii) To tell a teacher or laboratory technician.
02marks

5. i) To avoid hair to contact with chemical substances.
ii) To behave in a way that is not very serious.
iii) It may catch fire or cause one to fall.
iv) It is important to reach safety equipment quickly incase of an accident.
2@ = 05marks

6. a) → Do not eat, drink or taste in the laboratory
→ Do not run, play or fight in the laboratory
→ Do not use broken apparatus
→ Do not use unlabelled chemicals.
→ Do not enter in the laboratory without permission. 1@ = 5marks

b) i) Turn off gas and water taps
ii) Tie back long hair
iii) Do not eat in the laboratory
iv) Do not enter in the laboratory without permission.
- If you do not understand something ask before proceeding.
2@ = 5marks

7 a) Teacher or laboratory technician. 01 mark
b) Any five causes of accident in the laboratory. 1@ = 5marks.

8. i) We wouldn't have professionals eg Doctors
ii) We wouldn't have construction materials eg cements
iii) No production of clothes.
iv) We wouldn't have agricultural chemicals eg fertilizers, vaccines.
v) No drugs.

1 @ = 5marks

9 a) Textile industry — clothes, dyes, packaging bags
Agriculture — fertilizer, pesticides.
Transport — fuels, lubricants
Food and beverage industry — soft drinks, canned food
Medicine — vaccines, drugs

1 @ = 10 marks

b) i) It help to have professional people eg scientist
ii) It help doctors and nurses to diagnose diseases
iii) It help scientists to discover new drugs
iv) It help factory workers to produce useful products eg soap
v) It help factory workers to produce agricultural products eg Fertilizers.

1 @ = 10marks.

10 a) i) A small box contain items used in first aid

ii) An immediate help given to a victim before medical care.

iii) A person who provides first aid.

1 @ = 3 marks.

b) i) Reduce pain

ii) Prevent permanent disability

iii) Shorten recovery time

iv) Saves life

v) Gives hope and encouragement

1 @ = 5 marks.

c) Any five components and their uses.

Components 1 @ = 5 marks

Uses 1 @ = 5 marks.
