VUCHAMA UGWENO ISLAMIC SECONDARY SCOOL

FORM ONE MONTLY EXAMINATION

CHEMISTRY

Time $2^{1}/_{2}$ hours **MARCH 2025**

Instructions

1. This paper consists of sections **A, B,** and **C** with a total of **ten (10)** questions.
2. Answer all questions in both sections.
3. Section **A carries fifteen (15) marks, section B carries seventy (70) marks** and **section C carries fifteen (15) marks**
4. Answer should be written in the space provided.
5. All writing must be **blue or black ink**, except for diagram that must be in pencil
6. Cellular phone and any authorized material are not allowed in examination

SECTION A (15marks)

1. For each of the following items (i)-(x), choose the correct answer from the given alternative and write its letter in the table below
   i. Which of the following group substances represents flammable liquid?.
      A. Petrol ,pesticide and hydrogen
      B. Methylated spirit, petrol and kerosene
      C. Petrol ,sulphuric acid and methylated spirit
      D. Kerosene, diesel and hot water
   ii. What is the name given to a chemistry expert?
      A. Geologist
      B. Chemistologist
      C. Chemist
      D. Scientist
   iii. Nurat saw the flammable sign in a box. She made the following possible interpretation. Which one is correct
      A. The box contained fire wood
      B. The box contained paper
      C. The box contained nitric acid
      D. The box contained petrol, diesel, kerosene
   iv. Image that you are play chemistry – related trivia game with your friends. If you are to choose one term which does not related any reorganized branches of chemistry among of the following, which term could you choose?
      A. Organic chemistry
      B. Arithmetic chemistry
      C. Inorganic chemistry
      D. Physical chemistry

v. What are some of the main purpose of vaccine as chemical substance?
   A. Cure animals and human being from disease
   B. Protect animal and human being
   C. Introduction vitamins and protein in animals
   D. Make animal grow faster than normal

vi. A person at home can apply chemistry in
   A. Playing games
   B. Watching television
   C. Cooking food in a kitchen
   D. Dusting the floor in a house

vii. Chemistry is a scientific because
   A. Chemistry is the studied in school
   B. Knowledge of chemistry is acquired through observation, experimentation and logic reasoning
   C. It is an interesting subject
   D. It involve the study of non-living thing

viii. Loose or floppy clothing is not allowing in the laboratory why?
   A. Movement has to be fast
   B. It will get wet when water splashes
   C. It may catch fire or cause one to fall
   D. It cause poor ventilation in the body

ix. Chemical warning signs are important because
   A. They provide good impression or good vision
   B. They inform the user, the expire date of chemical
   C. They help to ensure safety of the user in the laboratory
   D. The induce fear to the user

x. Identify the skill not acquired during chemistry study
   A. Careful and thorough observations
   B. Accurate recording of what has been observed
   C. Drawing conclusion from observations
   D. Thorough observation and map reading skill

ANSWER

I	Ii	iii	iv	v	vi	Vii	viii	ix	X

2. Match description of warning sign in **LIST A** with the corresponding warning label in **LIST B** item in the table provided

LIST A		LIST B
(i)	Substance which emit harmful radiation	A. Flammable B. Irritant
(ii)	Substance containing microbes which can cause disease	C. Toxic D. Corrosive
(iii)	Substance which are dangerous	E. Explosive

and may cause (iv) Substance which catch fire easily (v) Substance which can damage the skin, and other tissue	F. Fragile G. Biohazard H. Radioactive

ANSWER

LIST A	I	ii	Iii	iv	V
LIST B					

SECTION B (70 MARKS)

Answer all questions in this section

3. In chemistry laboratory is not safe place because many accidents may occur if there is guidelines or rules. What do you think could be the rules that should be followed **during** experiments in order to minimize accident in chemistry laboratory? (Give five (5) points)
   (i)_____
   (ii)_____
   (iii)_____
   (iv)_____
   (v)_____
4. (a) The trainer of young African sports Club bought a small box which had a sign a red cross. Some people did not know about the box. By using the knowledge that you have learnt **CHEMISTRY** subject answer the following questions:
   (i) What is name of the box?_____
   (ii) Briefly explain the function of any four (4) possible items that can be found in the box by completing the table below:

S/N	**ITEM FOUND**	**ITS FUNCTION**
(i)	Whistle	
(ii)	Liniment	
(iii)	Painkiller	
(iv)	Soap	

   (b) State the significance of providing first aid to a sick person by using four (4) points

   (i)_____
   (ii)_____
   (iii)_____
   (iv)_____
5. (a) Your teacher may advice you on things you should never do in laboratory. For each of the following rules below, write what might happen if you never followed the instruction?
   i. Never enter in the laboratory without permission
   _____
   _____

ii. Never quarrel or fight in the laboratory

_____

_____

iii. Never throw any solid into the sink or waterways

_____

_____

iv. Replace the cover after using the chemicals

_____

_____

v. Never use laboratory apparatus for drinking or storing food

_____

_____

(b) Draw the warning symbol you would expect to see on

i. A car of petrol

ii. A bottle of concentrated sulphuric acid

6. Mr Ottuu in the rural area was interested to know how the knowledge of chemistry is necessary in following field

FIELD	PRODUCTS
i. Agriculture	
ii. Medicine	
iii. Home care	
iv.Textile industry	
v.Transport	

7. Assuming that you have been invited by your academic prefect to give the morning speech .How will you tell the audience on the following terms
   i. Chemistry
      _____
      _____
   ii. Chemist
      _____
   iii. Matter_____
      _____
   iv. Chemistry laboratory_____
   _____
   v . Laboratory rules_____
   _____
8. In order for chemist to conduct well their chemistry experiment, chemistry laboratory should possess a certain characteristics. You as student with full knowledge about characteristics of good chemistry laboratory mention any five qualities of good chemistry laboratory.
   i. _____
   ii. _____
   iii. _____
   iv. _____
   v. _____
9. (a) you have been appointed in the village meeting as an expert of chemistry to explain to villager four (4) application of chemistry in our daily life on the following field
   i. Agriculture
      _____
      _____
   ii. Transportation
      _____
      _____
   iii. Medicine and pharmacy
      _____
      _____
   iv. construction materials and industry_____

(b) A student was asked to mention four professional careers he/she may attain through studying chemistry subject. What correct answers can we get from her/him?

i. _____

ii_____

iii_____

iv_____

SECTION C (15MARKS)

Answer question ten (10)

10. As an expert in chemistry after completing from your studies you meet a foreigner who completely believes that chemistry is meaningless. Give out five 5) reasons to educate that person on the benefits of studying chemistry.

THE END
