MKALAMA DISTIRCT COUNCIL

FORM ONE TERMINAL EXAMINATION MAY 2025

MARKING SCHEME

CHEMISTRY

SECTION A (15) MARKS

1. Multiple choice

i	ii	iii	iv	v	vi	vii	viii	ix	x
C	A	B	C	A	D	C	D	A	C

(@ 1mark total 10 marks)

wazaelimu.com

2. 2 Matching items

List A	i	ii	iii	iv	v
List B	B	C	F	D	G

(@ 1mark total 5 marks)

3. (a) chemistry laboratory is a special room designed for carrying out chemical experiment. **(2marks)**

   (b) Features of good laboratory

   i. it should have large windows for proper ventilation
   ii. it should have fume chamber (**Any four points @ 1mark total 4 marks)**
   iii. it should have doors opened outwards
   iv. it should have drainage system
   v. it has gas supply system

   (c) Laboratory rules ensure safety in the laboratory **(2 marks)**

   (d) Easy going escape outsides when fire accidents happen …….. **(2 marks)**

4. (a) First aid is an immediate help given to a person who is sick or injured before medical assistance is available …… **(2 marks)**

   (b) Importance of first aids

   i. It reduce pain
   ii. It prevents recovery time
   iii. It shorten recovery time **(Any four points @ 1mark total 4 marks)**
   iv. It prevent permanent disability
   v. It reduce the like hood of death
   vi. It prevent the victim's condition from getting worse

   (c) Precaution

   i. Do not use ice as it further damages the skin
   ii. Do not apply ointment or butter to the burn
   iii. Do not break any blister as that can cause infections
   iv. Burn to the face and in mouth or throat are serous seek medical helps

@ 1 marks total 5

5.

item	Uses
Soap	Washing hands, wounds, and equipment's

Bandage	Keeping dresses in place and immobilizing injured limbs
Sterile gauze	Covering wound to protect them from dirt and germs
Iodine tincture	Preventing infection in fresh cuts, burns and scrapes
Petroleum jelly	Smoothing dry, cracked sore skin

@ 1 marks total 5

(b)

Apparatus	Function
Spatula	used for scooping small amount of powder and crystalline chemicals
Gas jar	Used for collecting and testing properties of gases during experiments
First aid guide	Contain guidelines on how to use the item in the first aid kit
Mortar and pestle	Used for crushing and grinding
Wire gauze	Helps to spread out the flame and heat the substance evenly

6. (a) Areas where chemistry applied
   i. Agriculture sector
   ii. Medicines
   iii. Manufacturing industry **(@ 1mark total 5 marks)**
   iv. Transport
   v. Communication and technology

   (b) Importance of chemistry
   i. It helps to study how elements interact with each other
   ii. It helps to promotes professional development experts eg doctors, teachers
   iii. It also applied in various field eg agriculture
   iv. It helps us to know how chemicals are made and their properties
   v. It gives us the knowledge and skills to produces useful now products and chemicals.

(@ 1mark total 5 marks)

7. (a) the following are the danger s likely to occur in the laboratory.
   i. Chemical burns fire or explosions
   ii. Inhalation of toxic fumes **(@ 1 mark total 5 marks)**
   iii. Damage to property and injury to other
   iv. Contamination of experiments

   (b) the following are how safety signs prevent accidents and injured

   i. Guide on safe equipment usage
   ii. Provides warnings
   iii. Indicates dangerous substances and areas **(@1 mark total 5 marks)**
   iv. Remind users to wear protective gear
   v. Help in locating emergency exist and equipment

8. Answers
   i. To prevents accidental misuse or mixing
   ii. To maintain the chemical effectiveness
   iii. To ensure the safety by avoiding inhalation **(@ 2 marks total 5 marks)**
   iv. To ensure the safety by avoiding spills
   v. To comply with safety regulations
9. Answer
   i. Use of chlorine in water treatment
   ii. Fertilizer for farming
   iii. Soaps and detergents for cleaning **(@ 2 marks total 10 marks)**
   iv. Fuel like petrol and diesel for transportation
   v. Medicines and vaccines in health care

SECTION: C (15 marks)

10.

	signs	Meanings
(a)	Corrosive	Corrodes surfaces as well as the human skin
(b)	Flammable	Catches fire easily
(c)	Toxic	Poisonous and can cause death
(d)	explosive	Blasts easily
(e)	oxidant	Readily off oxygen or other oxidizing materials. May intensify fire and cause explosions
