	I. 1979

3. a) Read the following passage and answer the questions that follow.

Kenya has currently witnessed the public demonstrations and protest led by civilians especially youth who are committed toward ensuring that their social and economic welfare are maintained by the government. The demonstrators were commonly known as Gen Z and they gained mass support.

The demonstration were made so as to protest the Kenyan Financial Bill of 2024 in which the public defined the bill that is wasn't beneficial to them as it could only lead to social and economic hardship to civilians. Among the news, which were trending include that of the demonstrators which who was riding the police horse majestically as it demonstrated that citizens are very confident and they are ready to face the government which drive the power from the people. The country witnessed death of some demonstrators, destruction of some properties and infrastructures and loss of public documents such judicial and parliamentary files

The demonstrators closed roads, invaded public offices such as courts and National assembly where videos and photos showed demonstrators eating rice and plough in the Kenyan National Assembly hotel, some were very aggressive as they even burn the national airplane. On 26th June 2024 the president of Kenya Hon Willian Ruto addressed they National where he confirmed that he won't assent the Kenyan Financial Bill.

Moreover he promised that the government shall minimize expenditures. This is the true meaning of democracy and democratic government as it signifies that the power belongs to the people. That is why in my opinions I can define democracy as the system of leadership and government where by power belongs to the people and the majority makes decisions while the rights of the minority are considered and protected.

All what happened in Kenya are only possible in a democratic state where leaders have the spirit of political tolerance and citizens have a wide range of participation in national affairs.
