ST. ALOYSIUS GIRLS' SECONDARY SCHOOL
MID-TERM ONE EXAMINATION 2019
BIOLOGY FORM III

INSTRUCTION
TIME 2:30HRS

→ Attempt all the questions in section A and B and any one question from section C

SECTION A (20 marks)

1. For each of the following items (i-x) choose the correct answer from among the given alternatives and write its letter in the answer sheet provided
   (i) Frequent small exposure to a disease may build one's
      A. Active acquired immunity
      B. Active natural immunity
      C. Passive natural immunity
      D. Active passive immunity
   (ii) The principle of waste management in which we can use things over and over again instead of destroying them after a single use is known as
      A. Recycling
      B. Re-using
      C. Reducing
      D. Minimizing
   (iii) The part of the ear which converts sound signals into nervous impulses which are then transmitted to the brain for interpretation
      A. Ear ossicles
      B. Semi- circular canal
      C. Cochlea
      D. Oval window
   (iv) Which substance in tobacco combines with haemoglobin to prevent the haemoglobin from carrying oxygen?
      A. Carbon dioxide
      B. Carbon- monoxide
      C. Tar
      D. Micotine
   (v) The cell walls
      A. Give rigidity to plant and animal cell
      B. Are made up of layer of pectin
      C. Surround all types of cells
      D. Are composed mainly of cellulose
   (vi) Green plants are known as the producers because they
      A. Produce chlorophyll in the chloroplasts
      B. Produce green leaves
      C. Make their own food during photosynthesis
      D. Contain fruits and seeds
   (vii) The part of the brain which coordinates and support movement in the human body is
      A. Cerebellum
      B. Cerebrum
      C. Medulla oblongata

D. Hypothalamus

(viii) The function of cones of the human eye is to
- A. Sense light
- B. Sense colour
- C. Cover the eye
- D. Reflect light

(ix) One of the following cells lack nucleus
- A. Muscle cell
- B. Red blood cell
- C. White blood cell
- D. Sperm cell

(x) Which of the following hormones brings about secondary sexual characteristics in males
- A. Androgen
- B. Oestrogen
- C. Progesterone
- D. Adrenaline

2. Match the phrases in list A with the responses in list B by writing the letter of the correct response from list B beside the item number of list A in the answer sheet provided.

LIST A		LIST B
(i)	Initiates mille formation and secretion	A. Adrenaline hormone B. Brain
(ii)	Promotes development of female secondary sexual characteristics	C. Pancreas D. Myxoedema
(iii)	Causes uterus to contract during parturition	E. Oedema F. Testosterone hormone
(iv)	Initiates development of male secondary sexual characteristics	G. Aldosterone H. Antidiuretic hormone (ADH)
(v)	Regulates blood sugar by causing the conversion of glucose to glycogen	I. Prolactin hormone J. Secreting hormone K. Oxytocin hormone
(vi)	"fright", "flight" and "fight" hormone.	L. Test is M. Insulin hormone
(vii)	Contains cluster of cells known as "islets of langerhans"	N. Oestrogen hormone O. Thyroxin hormone
(viii)	A condition in which a person looks older than he/ she actually is and tends to forget past events	P. Thyroid gland Q. Glucagon hormone R. Growth hormone
(ix)	Increase water reabsorption in the kidneys	S. Follicle stimulating hormone (FSH)
(x)	Its under production causes enlargement of thyroid gland	

SECTIION B (60 marks)

3. (a) (i) define the term respiratory surface
(ii) State any four adaptive features of a respiratory surface

(b) (i) explain why it is advisable to breathe through the nose rather than the mouth

(ii) Name the structures which is used for gaseous exchange in
(a) Kangaroo
(b) Frog
(c) Tad pole
(d) Tilapia fish

(c) Arrange the following in the correct order Bronchi, Pharynx, Bronchioles, Nasal passage, Alveoli, Trachea.

4. (a) (i) define the term Tropism.
(ii) State the Biological importance of Hydrotropism and Photo tropism

(b) How is accommodation brought about in the human eye

5. (a) (i) what is an enzymes?
(ii) Name two enzymes involved in digestion that prefer an alkaline medium

(b) (i) Differentiate between homodont and heterodont detritions
(ii) List four types of teeth found in mammals
(iii) Name any one disease that affects the teeth

6. (a) (i) Define the term classification
(ii) Name two types of classification and state two advantages for each

(b) (i) Give four importance of classifying organisms
(ii) A mushroom is a fungi and not a plant Give three reasons to support this statement

7. (a) (i) Define the term immunity
(ii) Distinguish between natural acquired immunity and artificial acquired immunity

(b) Name four diseases against which children are immunized

8. (a) for each of the following process, state the site of the process, the raw materials and important products
(i) Photosynthesis
(ii) Aerobic respiration

(b) Give five adaptations of a leaf for Photosynthesis

9. (a) Define the following terms as used in Biology
(i) ecology
(ii) Environment
(iii) Community
(iv) Ecosystem
(v) Miche

(b) (i) by giving one example in each, state the differences between natural and artificial ecosystem

(ii)Explain why food webs are more represent actives of feeding relationship than food chain

SECTION C (20 marks)

10. With the aid of a well labeled diagram, describe the mechanism of hearing.

11. Write an essay of drug abuse using the following subheadings
    - → Meaning of drug abuse
    - → Examples of common drugs
    - → Causes of drug addiction and how to control it
    - → Effects of drug abuse
    - → Social economic hazards caused by drug abuse

12. Write an essay on Cholera using the following guidelines
    - → Causes
    - → Symptoms
    - → Transmission
    - → Effects
    - → Prevention

THE END

ST. ALOYSIUS GIRLS' SECONDARY SCHOOL
PRE- MOCK EXAMINATION 2019
GEOGRAPHY FORM IV

TIME 2:45 HRS DATE 01ST/4/2019

INSTRUCTIONS

- → This paper consists of section A, B, C and D
- → Answer all questions in section A, B and C and one (1) question from each part of section D
- → Map extract of ULETE is provided
- → Credit will be given for use of relevant sketch maps and diagrams
- → Electronic calculators are not allowed in the examination room
- → Cellular phones are not allowed in the examination room.

SECTION A (25 marks)
PHYSICAL AND MATHEMATICAL GEOGRAPHY

1. For each of items (i-x) choose the most correct answer from the given alternatives and write its letter against questions number

(i) Water fall, interrocking spurs, rapids and V- shaped valley are features found at which stage of the river
   A. Lower stage
   B. Mature stage
   C. Torrential stage
   D. Middle stage
   E. Any stage

(ii) A volcanic feature which emits carbon dioxide gas
   A. Solfatara
   B. Fumerole
   C. Mofelte
   D. Gysers
   E. Hot spring

(iii) Which among the following is not the characteristics of equatorial climate
   A. No definite dry season
   B. Convectional type of rainfall
   C. Snow form of precipitation
   D. High humidity
   E. Low temperature range

(iv) The point in the orbit of the moon when is nearest to earth
   A. Aphelion
   B. Perihelion
   C. Apogee
   D. Perigee
   E. Equinox

(v) An arithmetric scale of 1:450000 can be represented by statement scale of
   A. 1 cm to 45 km
   B. 4 cm to 18 km
   C. 3 cm to 9 km

D. 2cm to 4.5 km
E. 4.5 cm to 1 km

(vi) Which layer is belived to be Molten in nature due to intense heat
A. Crust
B. Asthnosphere
C. Lithosphere
D. Inner core
E. Outer core

(vii) The process whereby soil nutrients are removed from the top layer to the bottom
A. Illuviation
B. Leaching
C. Cheluviation
D. Soil profile
E. Cation exchange

(viii) The type of delta which looks like tooth shape
A. Cuspate delta
B. Digitate delta
C. Birds foot delta
D. Eustuarine delta
E. Lacustrine delta

(ix) If the time at Dakawa which is 15^0E is noon what will be the longitude of Chamazi if its time is 8:00 am?
A. 15^0W
B. 30^0E
C. 45^0W
D. 30^0W
E. 45^0E

(x) Which among the following is not a positive impact of mass wasting
A. Formation of land forms
B. Change of the river courses
C. Formation of fertile soil
D. Formation of lakes
E. Destruction of properties

2. Match the items in LIST A with responses in LIST B by writing the letter of the correct responses besides item number

LIST A	LIST B
(i) The breaking and decay of rocks	A. River capture
(ii) A largest depression in karst region	B. Doline
(iii) A renewal erosive power of the river	C. Mass wasting
(iv) The decrease of temperature with increase in altitudes	D. Erosion
(v) The feature with both dip slope and scarp slope	E. A cuesta
	F. Temperature inversion
	G. Delta
	H. Polse
	I. River rejuvenation
	J. Lapse rate
	K. Weathering

	L. Rift valley

3. Explain 5 features resulted from fluvial erosion in desert

SECTION B (27 marks)
ANSWER ALL QUESTIONS
APPLICATION OF STATISTICS, INTRODUCTION TO RESEARCH AND ELEMENTARY SURVEY

4. Carefully study the data given below about phone sells at Kariakoo then answer questions that follows

PHONE	NOKIA	IPHONE	APPLE	SAMSUNG
NUMBER	230	420	270	580

(a) Draw a simple divided circle to present data
(b) What are 3 merits and 3 demerits of the method used above

5. (a) What is prismatic compass survey?
   (b) Classify source of errors in prismatic compass survey
   (c) Suggest 5 ways of avoiding errors in prismatic compass survey

6. (a) What is library research
   (b)Explain 4 limitation of Library research
   (c)Explain 4 uses of research findings

SECTION C (28 marks)
Answer all questions in this section
MAP READING AND PHOTOGRAPH INTERPRETATION

7. Carefully study the map extract of ULETE sheet and answer the following questions
   (a) Calculate the area of south of Grid reference 050
   (b) Identify the type of climate
   (c) Draw a cross section between Kipund hill grid reference (618083) and Kikoluri hill (678121)
   (d) Identify four (4) economic activities might taking place to the mapped areas
   (e) Identify the hemisphere at which the mapped area taken
   (f) List 4 cultural contents found in the map.
8. Study carefully the photography provided below, then answer the questions that follows

(a) Identify the type of photograph
(b) Identify the type of climate
(c) Suggest 3 economic activities might taking place in the area
(d) Suggest 3 district where the photography might be taken
(e) List 4 possible factors which may cause the loss of biodiversity

SECTION D (20 marks)

Answer one (1) question from each part

PART 1: REGIONAL FOCUS STUDIES

9. Discuss the reason for the low level of industrial development in sub- Saharan Africa
10. Discuss the contribution of science and technology in development of Agriculture

PART 2: ENVIRONMENTAL ISSUES, POPULATION AND SETTLEMENTS.

11. Explain 4 social and economic problems associated with urbanization and suggest 4 remedies of solving them
12. (a) What is Family planning?
    (b)Explain 6 limitations of family planning in developing countries

THE END

ST. ALOYSIUS GIRLS SECONDARY SCHOOL
FORM THREE MID TERM EXAMINATION
GEOGRAPHY

TIME 2:30 HRS DATE 01ST APRIL 2019

INSTRUCTIONS

1. This paper consists of section A, B, C and D
2. Answer all questions in section A, B, C and any two (2) questions from section D
3. Map extract of UYOLE sheet 245/3
4. Credit will be given for use of relevant sketch maps and diagrams
5. Electronic calculators are not allowed in the examination room
6. Cellular phones are not allowed in the examination room

SECTION A (25marks)
PHYSICAL AND MATHEMATICAL GEOGRAPHY
ANSWER ALL QUESTIONS

1. For each of items (i-x) choose the most answer from the given alternatives and write its letter against question numbers

(i) The deflection of wind is caused by
   A. Rotation of the earth
   B. Revolution of the earth
   C. Carrols force of the sun
   D. Great circles

(ii) The type of mountains resulted through denudation
   A. Horst mountains
   B. Fold mountains
   C. Block mountains
   D. Volcanic mountains
   E. Residual mountains

(iii) If the scale of the map stated as 2cm to 9km what will be the R:F scale
   A. 1: 900000
   B. 1; 450000
   C. 2: 90000
   D. 1: 40000
   E. 2: 450000

(iv) The natural embarkments built up by a stream along the edges of its channel is called
   A. Delta
   B. Flood plain
   C. Levees
   D. Gorge
   E. Water shade

(v) Which among the following is not an example of organically formed sedimentary rocks
   A. Slate
   B. Bitimunous coal
   C. Limestone
   D. Chalk
   E. Lignite coal

(vi) The density of Mantle is about
   A. 10.5g/cm^3
   B. 2.7g/cm^3
   C. 2.9g/cm^3
   D. 3.03g/cm^3
   E. 11.5g/cm^3

(vii) If the match between Yanga and Simba at national stadium 45^0E started at 3:28p.m. What will be the time at Bujumbura 33^0E
   A. 4 : 16 p.m
   B. 2 : 40 a.m
   C. 4: 16 a. m
   D. 2 : 40 p.m
   E. 10 : 16 a.m

(viii) The lines drawn in the map to join places with equal height are referred to
   A. Hunches
   B. Isotherms
   C. Trigometric station
   D. Isobars
   E. Contours

(ix) The following are the characteristics of equatorial climate except one
   A. Two peak of rain maxima
   B. Small temperature range
   C. No distinct dry season
   D. Snow form of precipitation
   E. Thick forests

(x) The streams that branch off before the stream enter the lake or sea are called
   A. Tributaries
   B. Water shade
   C. Confluence
   D. Distributaries
   E. Yazoo stream

2. Match the items in list A with responses in list B by writing the letter of correct response besides the item number.

LIST A		LIST B
(i)	The type of rock formed when Molten materials cools and solidifies deeply from the surface	A. Lava B. Magma C. Igneous rocks
(ii)	The molten materials inside the earth crust	D. Plutonic rocks E. Hypabyssal rocks
(iii)	The type of rocks formed when other rocks undergo changes due to intense heat, pressure or both	F. Mechanically formed sedimentary rocks G. Metamorphic rocks
(iv)	The natural process where rocks changes from one type to another	H. Rock cycle
(v)	The types of rock resulted through decomposition of dead organic matter	I. Organically formed sedimentary rocks J. Chemically formed sedimentary rocks

	K. Metamorphism L. Intrusive igneous rocks M. Extrusive igneous rocks N. Geological time scale

3. With aid of diagram explain three (3) types of rainfall

SECTION B (22 marks)
ANSWER ALL QUESTIONS
STATISTICS AND ELEMENTARY SURVEY

4. Study the following climatic data of station x and then answer the following questions

month	J	F	M	A	M	J	J	A	S	O	N	D
Temp 0C	21.7	21	20.6	18.9	16.0	13.9	16.0	13.9	20	22.2	22.2	22.2
Rain mm	78.7	149.7	101.6	17.8	7.6	0	0	0	2.5	22.9	83.8	599.4

(a) Present data by using climograph
(b) Identify the type of climate
(c) List (3) crops and (3) animals which can be found in the region
(d) Identify the hemisphere in which the data have been taken

5. (a) Differentiate plane survey from Geodetic survey (4points)

(c) List 5 objectives of conducting survey

SECTION C (33 marks)
ANSWER ALL QUESTIONS
MAP READING AND PHOTOGRAPHY INTERPRETATION

6. Study the printed map extract of UYOLE sheet 245/3 and then answer the following questions
   (a) Calculate the area of forest in km^2
   (b) Measure the length of railway line from grid reference 550136 to 585175
   (c) Identify 5 economic activities might taking place in the area
   (d) Identify the type of climate
   (e) List 4 supportive contents found in the map
   (f) Identify the hemisphere where data have taken
   (g) Measure the bearing of Mbeya hill grid reference 575134 from itende hill grid reference 674674063
7. Study carefully the photograph given and answer the questions that follows

(a) Identify the type of photograph with 2 reasons
(b) Identify the time when the photography was taken
(c) List 2 uses of the crop
(d) Outline 4 necessary conditions for growing the crop
(e) Identify the stage reached by the crop

SECTION D (20 MARKS)

ANSWER ANY 2 QUESTIONS FROM THIS SECTION

REGIONAL FOCAL STUDIES, POPULATION, ENVIRONMENTAL ISSUES, AND SETTLEMENTS

PART 1: REGIONAL FOCAL STUDIES

8. Explain 6 significance of hydro electric power (HEP) to developing countries like Tanzania
9. Explain 7 problems facing agriculture sector in Tanzania

PART 2: POPULATION, SETTLEMENTS AND ENVIROMENTAL ISSUES

10. Explain six (6) challenges women and girls they face during moving at great distance to search fire wood
11. (a) What is settlement?
    (b)Differentiate rural settlement from urban settlement (5 points)

*HAPPY EASTER *

ST. ALOYSIUS GIRLS SECONDARY SCHOOL
FORM TWO MID -TERM EXAMINATION
GEOGRAPHY 2019

TIME 2: 30HRS

INSTRUCTIONS

→ This paper consist section A, B and C
→ Answer all questions from section A B and two in section C

SECTION A

1. Choose the most correct answer from the given alternatives
   i. Wet and dry thermometer will have same reading when
      A. Air contain water vapour
      B. Air contain no moisture
      C. There is little moisture in air
      D. Air is saturated with water vapour
   ii. The hollow depression on the earth surface where water is accumulated
      A. Dam hollow
      B. River basin
      C. Lake hollow
      D. Bog land
   iii. A representative scale of 1: 200,000 can be represented a statement scale of
      A. 0.5 cm on map represent 2 km on the ground
      B. 2 cm on the map represent 200 km
      C. 1 cm on map represent 2 km
      D. 1 cm on map represent 20km
   iv. The keeping of livestock on extensive land without grazing is called
      A. Sedentary livestock keeping
      B. Zero grazing livestock keeping
      C. Ranching
      D. Transhumance
   v. What is the compass Bearing of WSW?
      A. 247.5^0
      B. 270^0
      C. 292.5^0
      D. 315^0
   vi. The people in the Northern Hemisphere June 21st is known as
      A. Spring equinox
      B. Summer solstice
      C. Winter solstice
      D. Seasonal solstice
   vii. Some mountain own their origin due to denudation such mountains are called
      A. Block mountains
      B. Residual mountains
      C. Volcanic mountains
      D. Fold mountains

viii. What will be the local time of London if the time in Dar 45^0E is 03:00p.m?
   A. 06 :00 noon
   B. 3 :00pm
   C. 12 : 00noon
   D. 1: 00a.m

ix. If the temperature of Mtakuja at the sea level is 30^0C what will be the temperature of Lushoto 2000m above sea level
   A. 12^0C
   B. 32^0C
   C. 18^0C
   D. 10^0C

x. Lunar eclipse occurs when
   A. The earth rotate from East to West
   B. The earth comes between the earth and the moon
   C. The moons comes between the earth and the sun
   D. The sun comes between the moon and the earth

2. Match the items in column A with correct response from column B

COLUMN A	COLUMN B
(i) the side of the mountain which is away from wind direction (ii) The inner part of the earth surface (iii) A long narrow depression found on the ocean (iv) Temperature decrease at the rate of 0.6^0C for every 100m (v) Bodies that revolve around the sun	A. Orbits B. Planets C. Altitude D. Latitude E. Lee ward side F. Wind ward side G. Barysphere H. Mesosphere I. Ocean trench J. Ocean ridge

i	Ii	iii	iv	v

3. Write T in correct statement and F in the false statement.
   I. The out part of the earth is belived to be a hollow
   II. Lake Victoria is within rift valley belt
   III. If the earth was flat day and night would not occur
   IV. Equator and all meridians are greater circles
   V. A bearing of a certain point on a map may be found only if North is given
   VI. Northing's are line drown horizontally to East ward
   VII. Biogas is an example of gas produced by running water
   VIII. Salinity of ocean water depend on ocean currents
   IX. Air transport is more risk than land transport
   X. Plantation is an example of large scale farming

i	ii	iii	iv	v	vi	vii	viii	ix	x

4. Briefly explain the following
   i. Continental shelf

   _____
   _____
   _____
   _____

   ii. Continental slope

   _____
   _____
   _____
   _____

   iii. Continental island

   _____
   _____
   _____
   _____

   iv. Oceanic trench

   _____
   _____
   _____
   _____

5. Mention five advantages of weather fore casting
   i. _____
   _____
   ii. _____
   _____
   iii. _____
   _____
   iv. _____
   _____
   v. _____
   _____

6. (a) Study carefully the map provided below then answer the questions that follow
   i. Find the area of KOTA IS in km^2

   _____
   _____
   _____
   _____
   _____
   _____
   _____

   ii. Change the given scale on map into statement scale

   _____
   _____
   _____

_____
_____
_____
_____

iii. Name down three methods of showing relief on a map
   a. _____
   b. _____
   c. _____

iv. On a map above, the length on a map between grid reference (230635) and (298650) is 23.7 km, what will be the actual ground distance?

_____
_____
_____
_____
_____
_____
_____

v. Mention three ways of calculating an area on a map
   a. _____
   b. _____
   c. _____

SECTION C (30marks)

Answer any TWO (2) questions from this section

7. Describe five significance of Transport sector for the economic growth of Tanzania
8. Elaborate five importance of manufacturing industry for the economic development of Tanzania
9. Describe five significance of preserving and conserving forestry resources
10. Using examples, explain five importance of land reclamation

THE END

ST. ALOYSIUS GIRLS' SECONDARY SCHOOL
MID – TERM TEST MARCH 2019
FORM THREE CHEMISTRY

INSTRUCTIONS TIME 2: 30HRS

1. This paper consists of section A, B and C
2. Answer all questions in this paper
3. Calculators and cellular phones are not allowed in the examination room
4. The following constants may be used
   - Atomic masses H= 1, O= 16, S= 32, Mg= 24, C= 12, Na= 23, Ca=40
   - GMV at S.T.P = 22.4 dm^3
   - 1Faraday = 96500 coulombs
   - 1 litre = 1dm^3 =1000cm^3

SECTION A (20 MARKS)

1. For each items (i-x) choose the correct answer among the alternatives provided and write its letter beside the item number in the answer sheet(s)

   i. When ice melts in water
      (a) Particles come closer and move faster
      (b) Particles move far apart and move faster
      (c) Particles come closer and move slower
      (d) Particles become tightly held and move faster
      (e) Particles become static and vibrate only

   ii. Which properties represent luminous flame
      (a) It produces soot and blue flame
      (b) It does not produces soot and blue flame
      (c) It does not produces soot and bright yellow flame
      (d) It produces soot and bright yellow flame
      (e) It produces noise and very stable flame

   iii. Loose and floopy clothing is not allowed in the laboratory. Why?
      (a) It causes poor ventilation in the body
      (b) Movement has to be faster
      (c) It will get wet when water splashes
      (d) It may catches fire or cause one to fall
      (e) It may lead to poor vision

   iv. Sodium metal is kept in oil because it;
      (a) Is very alkaline
      (b) Elements with one electron in the outmost shell.
      (c) Reacts vigorously with water and air (oxygen)
      (d) Sink in oil but floats in water
      (e) Group 1 element

   v. The molarity of 5.3g Na_2CO_3 in 100cm^3 of solution is
      (a) 0.2M
      (b) 0.5M
      (c) 53M
      (d) 0.01M
      (e) 0.05M

vi. The IUPAC name of HNO_3 is
   (a) Nitric acid
   (b) Sulphuric (v) acid
   (c) Hydrogen chloride
   (d) Hydrogen nitrate
   (e) Nitric (v) acid

vii. Which of the following electronic configuration of Ca^{2+}?
   (a) 2: 8: 8: 2
   (b) 2; 8: 6
   (c) 8:8:2
   (d) 2: 8: 8
   (e) 8: 8: 6

viii. Most of laboratory apparatus are made up of glass, because glass
   (a) Is transparent
   (b) Is in reactive
   (c) Has high melting point
   (d) Is readily available
   (e) Stores chemical for quite long

ix. Hard water which softened just by boiling contains dissolved
   (a) Calcium carbonate
   (b) Calcium chloride
   (c) Magnesium sulphate
   (d) Sodium carbonate
   (e) Calcium hydrocabonate

x. A wasp sting is alkaline. The solution to help ease the pain by neutralizing the alkali would be one with PH of
   (a) 5
   (b) 7
   (c) 8
   (d) 10
   (e) 13

2. Match the items in list A with responses in list B by writing the letter of the correct responses beside the item number:

LIST A		LIST B
i.	The mass of one mole of the substance	A. Molar mass B. Molecular substance
ii.	The SI Unit for amount of substance	C. Mole D. Molar volume
iii.	6.022×10^{23} particle	E. Molar solution
iv.	The quantity of solute in the solution	F. Avogadris constant G. S.T.P
v.	A unit of measurement which has a fixed number of 12 dozen	H. Aqueous solution I. Dilution
vi.	A solution in which water is the solvent	J. Chemical equations K. Concentration
vii.	The concentrated solution purchased from chemical shop	L. Gross M. Dozen

viii.	A solution formed by dissolving one mole of the solute into the solvent to make litre	N. Stock solution O. Stoichiometry P. Molarity
ix.	The process through which the concentration of a solution is lowered by adding more solvent	
x.	The relationship between the relative quantities of a reactant in the chemical reaction and the product formed	

SECTION B (54 marks)

3. (a) give the correct meaning of the following
   i. Ionic equation
   ii. Spectator ions

   (b) Complete and balance the following chemical equations
   I. $NaCl_{(aq)} + Pd(NO_3)_{(aq)}$ _____
   II. $CaCO_{3(s)} + HCl_{(aq)}$ _____
   III. $Cu_{(s)} + H_2SO_4$ _____
   IV. $NaOH_{(aq)} + HNO_{3(aq)}$ _____
4. (a) Mention any three features of a good chemistry laboratory
   (b)Briefly explain three reasons why most basic laboratory apparatus are made by glass?
   (c) Define class B fire and mention two combustible material of class B fire.

5. (a) Give an account of the following
   i. Sodium is kept in a paraffin oil
   ii. Anhydrous copper (ii) sulphate become coloured when exposed in air for a long time
   iii. Hydrogen is used in filling balloons

   (b) Write the ionic equations of the following chemical equations
   i. $Na_2SO_{4(aq)} + BaCl_{2(aq)}$ _____ $BaSO_{4(s)} + NaCl_{(aq)}$
   ii. $KOH_{(aq)} + FeCl_{3(aq)}$ _____ $KCl_{(aq)} + Fe(OH)_{3(s)}$
6. (a) Define the following terms
   i. Empirical formula
   ii. Molecular formula

(b) Compound M has a molecular mass of 84. It has the following percentage composition by mass. 28.6% magnesium, 14.3% carbon and the rest is oxygen.

I. Find the molecular formula of compound M
II. Give the chemical name for compound M

7. (a) Define the following terms
   i. Molar mass
   ii. A mole

(b) Ethyl alcohol which is present in many be verges has the molecular formular C_2H_6O. if 9.2g of alcohol is available, calculate

(i) Number of molecules of ethyl alcohol in 9.2g of ethyl alcohol

(ii) Percentage of weight of oxygen of ethyl alcohol

8. (a) What do you understand by the following terms
    i. A base
    ii. A weak acid
    iii. A salt
    iv. With examples mention types of salts
9. (a) define the following terms
    i. Compound
    ii. Mixture
    iii. Element
    (b) Write down three differences between a compound and a mixture
10. (a) define
    i. Basicity of an acid
    ii. An indicator

(b) Suggest the suitable indicator for the following titrations
    i. strong acid against strong bases
    ii. Strong base against weak acid
    iii. Weak base against strong acid
    iv. Weak acid against weak base

11. (a) Which of the following are isotopes of the same elements

(b) Elements Q has 17 electrons and 18 neutrons
i. What is the atomic number of element Q?
ii. What is the mass number of element Q?
iii. Write down the electronic configuration of element Q.
iv.Which group and period in the periodic table does element Q occupy.

(c) If sample X consists of 99.76% of ^{16}X 0.04% of ^{17}X and 0.2% of ^{18}X, calculate the relative atomic mass of X.

SECTION C (26marks)

12. (a) Define
    I. Volumetric analysis
    II. Titration
    III. Molar solution

(b) 25cm^3 of impure sulphuric acid containing 2.5g/dm^3 reacted with 25cm^3 of sodium hydroxide solution made by dissolving 4.0g NaOH in distilled water to make 1.0 litre solution. Calculate the percentage
    I. Purity of acid
    II. Impurity of the acid

13. (a) Define the following terms

I. Atom
II. Molarity
III. An ion
IV. Normal salt
V. Deliquescence

(b) Calculate the total number of atoms in 0.18g of water

(c) When 2.65g of a solid P were heated, the residue formed weighed 1.32g and 560cm^3 of gas measured at S.T.P were evolved. Calculate the molar mass of gas.

THE END

ST. ALOYSIUS GIRLS SECONDARY SCHOOL
MID- TERM EXAMINATION
BIBLE KNOWLEDGE FORM THREE 2019

TIME 2:30 HRS
INSTRUCTIONS

- → bible and other related religious materials are not allowed in the examination room
- → answer all questions
- → each question carries (20)marks

i. According to Luke 3: 1-4, the message of John the Baptist touched people's hearts. Why was he called the Baptist? (2marks)
ii. State the message of Angel Gabriel to Zachariah on John the Baptist about the birth and the name of the son
iii. What was the main reason as to why Zachariah and Elizabeth could not have a child during the days of Herod?
iv. What was the Angels message to the shepherds? (Luke 2: 10-12) (state two points)
v. What did it mean for Mary to lay Jesus in the manger?
vi. In nunc- dimittis, why was Simeon ready to die?
vii. What was the central message of John's preaching?
viii. Who was prophetic Anna?
ix. State the content of the Gloria song as recorded in the book of Luke.
x. State two things that John the Baptist had in common with Elijah

2. (a) State the meaning of the following names (10 marks)

i. Elizabeth
ii. Zachariah
iii. John
iv. Gabriel
v. Jesus
vi. Joseph
vii. Mary
viii. Simeon
ix. Anna
x. Jerusalem

(b) State any five roles of Joseph in the history of salvation (10marks)

3. (a) mention the civil leaders and the roles they played when John started his ministry of preparing the way for the Lord (Luke 3: 1-2) Give 6 points (10 marks)

(b) Differentiate the three categories of people that John the Baptist addressed and specify the instructions John insisted to them as a sign of repentance (10 marks)

4. Describe the major four songs found in the infancy narratives (20marks)

5. (a) in three ways, show how Elizabeth praised Mary when she was filled with the Holy Spirit (Luke 1: 41-45) (10 marks)

(b) Match the item in list A with those in List B in the answer sheet provided (10marks)

LIST A	LIST B
i. The temple	A. The Samaritan temple
ii. The synagogue	B. King solomon's high Priest
iii. The scribes	C. They were dubbed as the separated one
iv. The Pharisees	D. The righteous one
v. The Sadducees	E. The name means "withdrawn from the rest"
vi. The Samaritans	F. Mixture of the Jesus and foreigners
vii. The essenes	G. They could either belong to the Pharisees sector Sadducees
viii. Zadok	H. One of the type of the temple
ix. Zerubbabel	I. A Jewish meeting place of prayer, Bible reading and interpretation and for community affairs
x. Mt. aerazim	J. The permanent building used by the Jews as a house of prayer and worship

INSTRUCTIONS

- ✓ Answer all questions
- ✓ Bible and other religious related materials are not allowed in the examination room

SECTION A

1. Choose the correct answer to each of the following questions and write its letter in the box provided.
   i. From the creation story at what time do we observe light?
      A. At night
      B. During the day
      C. During the day and night
      D. Early in the morning only
   ii. What was the main reason for man to be created at the end of everything?
      A. To have dominion up on the earth and over all creatures
      B. He was the last one to be created
      C. It was a punishment from God
      D. God saw everything he had made was very good
   iii. The fantastic outcome of the sin of Adam and his wife in the garden of Eden was that
      A. They were chased from the garden to fill the soil
      B. God multiplied the pain in child bearing
      C. They were warned not to repeat such sin
      D. They were made immortal
   iv. What was God's punishment to the people on construction of the tower of Babel?
      A. Confusion of language
      B. Deadly diseases
      C. Fall of the city
      D. Fire from heaven
   v. What is the main reason that made Abraham to be known?
      A. Disobedience to God
      B. Obedience to the almighty God
      C. Keeping livestock
      D. Making a journey without a map
   vi. The Bible can be termed as
      A. The story of book of Moses
      B. God's message or word of God to man
      C. The book of prophets and ancestors
      D. The historical book of great events
   vii. After God had completed the work of creation he;
      A. Went to visit the garden of Eden
      B. Blessed the seventh day and made it holy
      C. Cursed Adam and Eve
      D. Went to visit the garden of Eden

viii. From the story of Noah we learn that sin has harmful consequences because it destroys our relationship with
   A. An angle
   B. God
   C. Ancestors
   D. Gods

ix. Ishmael was circumcised when he was years
   A. 9 tears
   B. 13 years
   C. 99 years
   D. 45 years

x. Abimelech was a king of
   A. Jericho
   B. Gerar
   C. Canaan
   D. Egypt

i	ii	iii	iv	v	vi	vii	viii	ix	x

2. Match the items in list A and B by writing the letters in list B that bear their corresponding items in list A

LIST A	LIST B
i. Israel	A. Moab
ii. Babel	B. jehovahjireh
iii. Abimelech	C. Another name of Jacob
iv. Noah	D. The departure
v. Seth	E. The beginning
vi. Mount Ararat	F. He lived 950 years
vii. Abraham	G. The place where god confused the languages of all the earth
viii. Exodus	H. Son of Adam
ix. The nation that came out of lot's daughter	I. The ark rested or landed
x. The name of god	J. Wanted to sleep with sarah
	K. Father of faith
	L. Lived 89 years
	M. Died sinless

i	ii	iii	iv	v	vi	vii	viii	ix	x

SECTION B

3. Write true if the statement is correct or False if the statement is not correct

i. Circumcision in the fresh of the foreskins is the sign of the convent between God and Abraham _____
ii. Bethlehem means the house of bread _____
iii. Noah was told by God to select some creatures and save them into his ark seven days, before the flood, began _____
iv. Adam and Eve had the same dignity when God created them _____
v. Abel was killed by cain _____
vi. Rachel and leah were daughters of Laban _____
vii. Eliezer of Damascus was Abraham's maid whom he even thought to be his heir _____
viii. The day which God rested in the Sabbath _____
ix. Ishamel mean God hears _____
x. Adam and Eve eat the allowed fruit and they became naked _____

SECTION C (20 marks)

4. Describe notice on the following terms
   i. Mount Moriah
   _____
   _____
   _____
   _____
   _____
   ii. The sin of lot's daughters
   _____
   _____
   _____
   _____
   _____
   _____
   iii. The land of Shinar
   _____
   _____
   _____
   _____
   _____
   iv. Sodom and Gommorah
   _____
   _____
   _____
   _____
   _____
   _____
   v. Beer-la-hai-roi
   _____
   _____
   _____

_____
_____
_____

5. Fill in the gaps with the correct word to make a meaningful story
"Now _____ knew _____ his wife and she conceived and bore _____ saying I have gotten aman with the help of _____." And again she bore his brother _____ now _____ was the keeper of _____ and cain _____ of the ground. In the course of time cain brought to the lord an offering of the _____ and Abel brought of the firstlings of his flock and of their fat portions. And the lord had regard for Abel and his _____

Adam, offering, Eve, Cain, Abel God, sheep, tiller, fruit of the ground, Lord

6. "I don't know, am I my brother's keeper? Gen 4:9
   i. Who said these words _____
   ii. To whom where they said to _____
   iii. What was the occasion _____
   iv. How did God spare cain from being killed?
   _____
   _____
   _____
   v. What happened to Cain after slaying his brother
   _____
   _____
   _____
   vi. Name the place where Cain went after killing his brother _____
   vii. Mention any two punishment given to Cain for the evil he did
   _____
   _____
   _____
   _____

INSTRUCTIONS

- ✓ Answer all questions

SECTION A (20 marks)

1. For each of the items (i-x)choose the correct answer and write in the box provided

i. Refers to the ability of goods to satisfy human needs or wants
   - A. Utility
   - B. Production
   - C. Direct production
   - D. Indirect production

ii. The reward to labour as a factor of production
   - A. Wages
   - B. loyality
   - C. Rent
   - D. Profit

iii. The most important reason to why we study commerce is
   - A. To buy goods
   - B. To get knowledge about market and distribution of goods
   - C. To transport goods
   - D. To be teachers of commerce

iv. Clothes made in Tanzania and sold to U.S.A are
   - A. Import of U.S.A
   - B. Export of U. s. A
   - C. Import and export U. S. A
   - D. Import of Tanzania

v. The trade which involve goods for foods is
   - A. Home trade
   - B. Foreign trade
   - C. Retail trade
   - D. Barter trade

vi. These are costs incurred on every unit of output
   - A. Total cost
   - B. Variable cost
   - C. Average cost
   - D. Fixed cost

vii. Production involved in extractive industries
   - A. Tertiary production
   - B. Secondary production
   - C. Primary production
   - D. All the above

viii. The factors of production that organizes other factors of production is
   - A. Labour
   - B. Capital
   - C. Entrepreneur

D. Land

ix. Auxiliary services are
   A. Banking
   B. Insurance
   C. Aids to trade
   D. Tertiary services

x. Economics is
   A. Child of commerce
   B. A father of commerce
   C. A branch of commerce
   D. A branch of accountancy

2. Match the items in list A with the responses in list b writing the letter of the correct responses below the items number in the table provided

LIST A	LIST B
i. The cost of producing an extra unit	A. Sales promotion
ii. Concerned with choice and the ways of utilizing scarce resources	B. Scarcity
iii. Amount of money invested in a business	C. Economics
iv. Is an example of constructive industry	D. Capital
v. Items which last for long period of time	E. Durable goods
vi. Refers to one function of a retailer	F. Breaking bulk
vii. Means limited in supply	G. Bridge making
viii. Equals to sales minus gross profit	H. Cost of sales
ix. The means through which a retailer discovers information about the needs of the customers	I. Complementary
x. Refers to goods which are used together	J. Marginal cost
	K. Market research

i	ii	iii	Iv	v	vi	vii	viii	ix	x

SECTION B (40marks)

3. Complete the following by filling in the blank with correct words or term
   i. Goods which can stay for a long time without destruction are referred to as _____
   ii. Costs which rary with the level of output are termed as _____
   iii. Ability of goods and services to satisfy human needs _____
   iv. A large building of store which is made special for storage of goods for safety from weather or thieves is _____
   v. Price paid for the use of land as a factor of production _____

4. Explain five (5) five aids to trade
   i. _____
   _____
   ii. _____
   _____
   iii. _____
   _____
   iv. _____
   _____
   v. _____
   _____
5. Mention 4 four factors of production and their rewards

Factors	Reward
i. _____ _____	
ii. _____ _____	
iii. _____ _____	
iv. _____ _____	

SECTION C (40 marks)

6. Briefly explain the importance of commerce in our daily life
   i. _____
   _____
   ii. _____
   _____
   iii. _____
   _____
   iv. _____
   _____
   v. _____
   _____
7. (a) Define the term retail trade
   _____
   _____
   _____
   (b) Explain four functions of a retailer to the wholesalers

- ✓ Answer all questions

For each of the item (i-x), choose the correct answer from among the given alternatives and write its letter.

i. A cash discount is described as a reduction in the sum to be paid if payment is made
   A. For cash only
   B. By cash, not cheque
   C. Either by cash or cheque
   D. For cash, not for credit
   E. Within a previously agreed period

ii. What is amount by the term salvage value
   A. Cash paid when asset is disposed
   B. Estimated disposal value
   C. Selling price of the assets
   D. Cost price of assets
   E. Cash received when the line the assets ends

iii. Suppliers, personal accounts are found in the
   A. Nominal ledger
   B. General ledger
   C. sales ledger
   D. returns ledger
   E. purchases ledger

iv. the total of the returns journal is transferred to the
   A. credit side of the returns outward account
   B. debit side of the returns outwards account
   C. credits side of the returns outwards book
   D. debit of the purchases return books
   E. debit side of the returns book

v. if an accumulated provision for depreciation account is use, the entries for the years depreciation would be
   A. debit asset account, credit profit and loss account
   B. credit provision for depreciation account, debit profit and loss account
   C. credit asset account, debit provision for depreciation account
   D. credit profit and loss accounts, debit provision for depreciation account
   E. debit profit and loss account, credit asset account

vi. In the trading account, the wages expenses should be
   A. Added to cost of goods sold
   B. Deducted from purchases
   C. Deducted from sales
   D. Added to drawings
   E. Added to purchases

vii. A receipts and payments account does not show
   A. Cheque paid out during the year

B. The accumulated fund
C. Receipts from sales of assets
D. Bank balances

viii. Which of these errors would be disclosed by the trial balance?
A. A purchase of sh, 2500 was omitted from books
B. Selling expenses were debited to sales account
C. Credit sales of sh, 3000 were entered in both accounts as sh, 300
D. Cheque of sh, 9500 from Kagoma entered in kagomas account as sh 5,900
E. Shs, 5500 paid for motor expenses was debited to motor- vehicle account

ix. Given last year capital was shs 745,000, closing capital sh 462,000 and drawings shs 134,000 then
A. profit for the year was shs 149,000
B. loss for the year was shs, 228,000
C. loss for the year was shs, 417,000
D. loss for the years was shs, 149,000
E. profit for the year was shs,417,000

x. the sales day book does not contain
A. credit sales made without deduction of trade discount
B. cash purchases made to overseas customers
C. cash sales made to customers
D. credit sales which eventually turn out to be bad debts
E. credit sales made to local customers

2. Match the items in column A with the responses in column B by writing the letter of the correct response beside the item number in your answer booklet.

Column A	Column B
i. the profit of the company expressed a percentage of the owners investment	A. working capital
ii. the gross and net earnings express as a percentage of sales	B. acid test ratio
iii. current assets compared with current liabilities	C. earnings per share
iv. very liquid assets compared with immediate liabilities	D. invention ratio
v. the number of days of sales held in stock	E. payables ratio
vi. the number of days of purchases represented by creditors	F. divided cover ratio
vii. the number of days of sales represented by debtors	G. invention turnover ratio
viii. the ratio of fixed interest capital to equity capital	H. gross profit ratio
ix. compares the amount of profit earned per ordinary share with the amount of surplus paid	I. equity ratio
x. the ratio of prior charge capital to ordinary share capital and reserve	J. receivable ratio
	K. gearing ratio

SECTION B

3. (a) identify the accounts in which entries should be made to record each of the following transactions.

Transactions		Dr	Cr
i.	bought stock on credit from Omondi		
ii.	sold goods on credit to Muita		
iii.	bought a motor van in cash		
iv.	paid for electricity by cheque		
v.	returned goods to a supplier		

(b) Identify five errors that may be revealed by a Trial Balance

4. (a)(i) prepaid rent at the beginning of the period was sh 40,000 and shs 20,000 was not paid last years. During the year payments of sh 320,000 was made with respect to rent. It was established that at the end of the period prepaid rent should be shs 60,000.without F account compute the amount of rent expenses to be transferred to profit and loss.

(ii)Accrued wages at the beginning of the month was sh 240,000. At the end of the month sh 690,000 was transferred to profit and loss account and loss account and sh 10,000 was prepared. Sh 320,000 for wages was accrued but not yet paid during the month. Without using T account compute the amount of wages paid during the year.

(b) Outline five importance of a profit and loss account

SECTION C

5. (a) Majura and Majuni enter into a Joint Venture to share profit or losses equally resulting from dealings in second- hand digital to both parties take an active role in the business each recording his own transactions. They have no Joint banking account or separate set of books

2011

July 1. Majura buys TV for a total of sh 110,000

3. Majura pays for repairs sh 84,000

4. Majuni pays office rent sh 30,000 and advertising expenses sh 9,000

6. Majuni pays for packing materials shs 3,400

7. Majuni buys a TV in excellent condition for sh 60,000

31. Majura sells the five TVs to various customers, the sales being competed on this date, and totaling sh 310,000. Show relevant accounts in the books of both Joint Venturers

(b) On 31st December, 2008 the bank column of Tengeneza's cash book showed a debit balance of sh 15,000. The monthly bank statement written up to 31st Dec 2008 showed a credit balance of sh 29,500.on checking the cash book with the bank statement it was discovered that the following transactions had not been entered in the cash book.

Dividends of shs 2,400 had been paid directly to the bank

A credit transfer TRA and customer VAT refund of sh 2600 had been collected by the bank.

Bank charges 300

A direct debit of sh 700 for charity subscription had been paid by the bank.
A standing order of shs 2,000 for Tengeneza's loan repayment had been paid by the bank. Tengeneza's deposit account balance of shs 14,000 was transferred into his bank account

A further check revealed the following items
Two cheque drawn in favour of Tamale sh 2,500 and Fadiga sh 2,700 had been entered in the cash book but had not been presented for payment cash and chaque amounting to sh 6,900 had been paid into the bank on 31st December, 2008 but were not credited by the bank until 2nd January 2009

(i) bring the cash book (bank column) up to date, starting with the debit balance of sh 15,000, and then balance the bank account

(ii)Prepare a bank reconciliation statement as at 31st 12 2008

6. Jacob's runs his business into departments' book and stationary. The following trial balance was extracted from his books on 30th 6 2003

	DR	CR
Capital		Tsh 25,000
Drawings	Tsh 36,000	
Purchases : books Stationary	Tsh 18,000 Tsh 33,400	
Sales : Books Stationary		Tsh 67,700 Tsh 52,300
Stock 1/07/02 books Stationary	Tsh 8,100 Tsh 4,800	
Wages and salaries	Tsh 10,500	
Rent & rates & insurance	Tsh 3,700	
Light & heat	Tsh 2,600	
Advertising	Tsh 2,500	
Debtors	Tsh 4,200	
Bad debts written off	Tsh 320	
Creditors		Tsh 7,900
Discounts	Tsh 1,200	Tsh 1,640
Bank over draft		Tsh 460
Cash in hand	Tsh 130	
General expenses	Tsh 11,350	
Fixed asset	Tsh 20,000	
	155,000	155,000

The following additional information is also available

(a) stock on 30/ june/ 2003 were books 9,270/= stationary 5,230/=
(b) Books costing 1650/= were sold by stationary department and stationary costing 200/= were used by books department.
(c) D. Allowed and received shared be apportioned among departments in the ratios of sales and purchases respectively

(d) Floor space occupied by department in books 600 sq feet and stationary 400 sq feet. Department share rent, rates and insurance and light and heat expenses in this ratio
(e) Stationary department does not sell books on credit. All bad debts therefore to be charged to Books department
(f) All other expenses including 10% depreciation of fixed assets are to be shared equally by the departments

Required:
Jacob's trading, profit & loss account and Balance sheet

7. (a) Monalisa has surprises you with the following details

	April 2007	3/march/2008
	sh	sh
Cash	840	700
Fixtures	7,600	7,600
Balance at Bank	5,500	8,320
Inventory	17,800	14,000
Accounts receivable	8,360	4,640
Accounts payable	5,200	8,800

During the year to 31/03/2008 Monalisa withdrew shs 11,400 from the business for private purposes, in November 2007 Monalisa received a legacy of sh 18,000 which he paid into the business bank account

Monalisa agrees that sh 600 should be provided for depreciation of Fixtures and sh 200 for doubtfully debts

Required:
Prepare a balance sheet as at 31st /3/ 2008 which clearly indicates the net profit or loss for the year.

(b) A motor lorry which cost shs 12,000 was bought on credit from trucks limited on 1 January 2006. Financial statements are prepared annually to 31/12/and depreciation of Lorries account at 25% per annum under the reducing balance method

Required:

Prepare the lorry account and accumulated provision for the depreciation on the motor lorry's account for the first two years of the motor lorry's working life.

THE END

MID- TERM EXAMINATION

BOOK- KEEPING FORM THREE 2019

TIME 3 HRS DATE _____

NAME _____

INSTRUCTIONS

- ✓ Answer all questions in all section a, B and C
- ✓ Use pencil to draw the relevant accounts
- ✓ Your work should be tidy

SECTION A (20 marks)

1. For each of the items (i-x) choose the correct answer from among the given alternatives
   - i. Book keeping is the art of recording
     - A. Numbers of transactions
     - B. Business transactions
     - C. Goods and services reference
     - D. Financial information
   - ii. The gradual permanent decline in the value of a fixed asset in business can be termed as
     - A. Depreciation
     - B. Disposal
     - C. Obsolescence
     - D. Appreciation
   - iii. Business entity concept can be observed by using
     - A. Business transactions
     - B. Drawing and capital account
     - C. Capital account only
     - D. Proprietor's account only
   - iv. If the opening capital is 825,000/= drawings 165000/= and closing capital 567600/= then
     - A. Net profit for the year is 92400/=
     - B. Net profit for the year is 422,400/=
     - C. Net loss for the year is 257400/=
     - D. Net loss for the year is 92400/=
   - v. Which of the following is not an asset?
     - A. Furniture bought on credit
     - B. Loan to somebody
     - C. Bank overdraft
     - D. Cash at bank
   - vi. The ledger for suppliers personal accounts is known as
     - A. Bought ledger
     - B. Personal ledger
     - C. Sales ledger
     - D. Purchases ledger
   - vii. An allowance to doubtful debt is created
     - A. When bad debts are recovered
     - B. To provide for possible bad debts
     - C. When debtors become bankrupt
     - D. To write off bad debts
   - viii. The sum of direct materials, direct labour and direct expenses gives
     - A. Prime cost

B. Manufacturing cost
C. Factory overheads
D. Production cost

ix. Posting stands for ----------
A. Making the first entry in the cashbook
B. Making the second entry in the ledger
C. Transferring information from the main books to the ledgers
D. Receiving goods through post office

x. The descending order in which current assets should be drawn in the balance sheet is
A. Debtors, stock, bank and cash
B. Cash, debtors, stock and bank
C. Bank, cash, debtors and stock
D. Stock, debtors, bank and cash

i	ii	iii	iv	v	vi	vii	viii	ix	x

2. Match the items in List A with the response in List B

List A	List B
i. All public revenue and other money/ monies	A. Going concern
ii. Expenditure which does not add value to the government	B. Prudence concern
iii. The charge against profits for unexpected loss as debtors pay off their accounts	C. Accrued income
iv. A cheque paid by the business but not yet deposited in the bank	D. Journal proper
v. The ledger for customers personal account	E. Virement
vi. Accounts for business possessions	F. Income received in advance
vii. The income relating to the current accounting per rod but not yet received	G. Public money
viii. Records all transactions which do not appear in other subsidiary books	H. Unpresented cheque
ix. Authority granted by minister of finance to transfer funds from vete to another	I. Uncredited cheque
x. The concept which the business to exist continuously in operation	J. Provision for bad debts
	K. Provision for discount allowed
	L. Sales ledger
	M. Real accounts
	N. Nugatory expenditure
	O. Purchases ledger
	P. Nominal accounts

SECTION B (20 marks)

3. (a) list six types of Journey
   (b) List any four causes of depreciation of fixed assets

4. (a) identify the account in which entries should be recorded for the given transactions

	Transactions	DR	CR
i.	Returned goods to a supplier shayo		
ii.	Bought motor vehicle by cash		
iii.	Paid electricity by cheque		
iv.	Sold goods an credit to Rukra		
v.	Bought goods on credit from Sharon		

(b) Given cost of goods sold 160,000/= and mark up 25% find;
(i) Gross profit (ii) sales

SECTION C (60 marks)

5. A motor van was bought on 1st July 2010 for 280,000/= it is estimated to have a useful life of 5 years leaving a residual value of 40,000/=. The firm uses every 31 dec with depreciation charged by straight line method on time basis apportionment. Later the motor van was sold for 188000/= cash on 1st may 2013.

   Required:
   i. Calculate the depreciation for each year
   ii. Motor van account
   iii. Motor van disposal account
   iv. Provision for depreciation account
   v. Profit and loss account
   vi. Balance sheet extract

6. (a) the following errors were discovered from the books of Msafiri a sale trade as at 31st December 2013
   i. Discount received under cost by 2000
   ii. Rent account under cost 1000
   iii. Cash payment to Barbra 2500 was not recorded in the books
   iv. Purchases of furniture 10000/= was debited to purchases account
   v. Credit sales to Lydia 5500 was only shown in Lydia's account but not shown in sales account
   Required: Draw a journey proper to correct the above errors

(b) Given the trial balance below

Details	DR	CR
Bad debts	2500	
Provision for bad debts		3200
Debtor	8500	
Commission received		62500
Discount allowed	550	
Rent	400	
Creditors		6250
	11950	11950

Additional information

i. Provision for bad debts to be provided at 20% of debtors
ii. Rent outstanding 150/=

Required:

i. Prepare provision for bad debts account
ii. Profit and loss account
iii. The balance sheet

7. (a) A firm makes a provision for discount allowed 5% of debtors. The debtors balance were as follows

2010 15000
2011 18000
2012 16000

Show the entries in the provision for discount allowed account profit and loss account and the balance sheet

(b) A trader makes a provision for discount received at 6% of creditors at the end of the year. Creditors' balances were as follows

2004 21000
2005 23000
2006 19000

Prepare

i. Provision for discount received account
ii. Profit and loss account
iii. Balance sheet

THE END

MID- TERM EXAMINATION
BOOK- KEEPING FORM ONE 2019

TIME 2 HRS DATE _____

NAME _____

INSTRUCTIONS

- ATTEMPT ALL QUESTIONS

1. For each of the items (i-x) choose the correct answer from among the given alternatives and write its letter besides the item number in your booklet

i. Hamisi paid Marieta Tsh 5,000. What is double entry for this transaction?
   a. DR. cash5,000, CR Hamisi 5,000
   b. DR Hamisi 5,000, CR cash 5,000
   c. DR Hamisi 5,000, CR Marieta 5,000
   d. DR Marieta CR, Hamisi

ii. In which account cash payment and receipts are recorded
   a. Credit account
   b. Purchase account
   c. Sales account
   d. Cash account

iii. The transaction in which payment is made immediately is known as
   a. Average transaction
   b. Hard transaction
   c. Cash transaction
   d. Credit transaction

iv. Which of the following should not be called purchases?
   a. Items bought for prime purpose of resale
   b. Goods bought on credit
   c. Office stationary
   d. Goods bought for cash

v. A person to whom goods have been sold on credit is called
   a. Debtor
   b. Creditor
   c. Seller
   d. Buyer

vi. A person who sells goods on credit to another person is called
   a. Creditor
   b. Debtor
   c. Buyer
   d. Seller

vii. When Juma sales goods on credit to pili worth Tsh 60,000. The entries for this transaction are:
   a. DR pili Tshs 60,000, CR Juma Tsh 60,000
   b. DR JUma Tsh 60,000, CR Pili Tsh 60,000
   c. DR Juma Tsh 60,000 CR sales Tsh 60,000

viii. Cash transaction are
   a. Entries recorded at the credit sales
   b. Creditors transactions
   c. Transaction made for future payment

d. Transactions for credit note

ix. Bala bought goods valued at 5,000/= on credit from Sanjay therefore Sanjay is a
   a. Debtor
   b. Creditor
   c. Customer
   d. Supplier

x. The following are example of real account
   a. Cash and rent
   b. Debtors and creditors
   c. Machinery and building
   d. Sales and purchases

i	ii	iii	iv	v	vi	vii	viii	ix	x

2. Match the correct term from group B with the explanation in group A

GROUP A		GROUP B
i.	The system of recording business transactions twice	A. Book keeping B. Double entry C. Date column D. Separate entity E. Trading account F. Average stock G. Closing stock H. Revenue I. Real J. credit purchase K. profit and loss
ii.	The art of recording business transactions in terms of money on money worth in the books accounts	
iii.	The concept means that business and owner of that business are two separate legal entities	
iv.	This is used to write a date, month and year of particular transaction	
v.	This is the purchase of goods and services in which payments are made later	
vi.	This is the category of accounts which consists only fixed assets and non- personal current assets	
vii.	This is a branch of normal account which consists of only revenue transactions or items	
viii.	The value of goods that remain unsold at the end of the trading period.	
ix.	This is the average of goods that was held in each period in time during the accounting period	
x.	Is part of final accounts which is prepared to show gross profit of loss	

A	i	Ii	iii	iv	v	vi	vii	viii	ix	x
B										

SECTION B

3. given the following information
   i. opening stock ---------- 6,000
   ii. closing stock ---------- 8,000
   Required: Find an average stock

4. on 31/12/2013 there was the following data for AYCO
   i. premises ----------100,000/=
   ii. electricity bill ----------20,000/=
   iii. cash in hand ---------- 8,000/=
   iv. sales ---------- 80,000/=
   v. loan from AZ ----------20,000/=
   vi. income received ---------- 10,000/=
   Required: Draw up a trial balance

SECTION C (60 marks)

5. enter the following transactions in a trial balance for Mr. Cheusi which took place on 31st/ march/2014
   a. capital ---------- 100,000/=
   b. stocks ---------- 30,000/=
   c. liabilities ---------- 30,000/=
   d. cash at bank ----------50,000/=
   e. water bill ---------- 30,000/=
   f. discount allowed ---------- 10,000/=
   g. rent ---------- 80,000/=
   h. discount received ---------- 15,000/=
   i. sales ---------- 30,000/=
   j. interest received ---------- 25,000/=

6. Mutuli started business on 1st August with capital in cash Tsh 160,000
   August 2: purchased goods for cash ---------- 135,000
   ,, 3: bought furniture ---------- 105,000
   ,, 4: bought goods for cash---------- 20,000
   ,, 5: cash sales to data ----------40,000
   ,, 8: bought goods for cash ---------- 120,000
   ,, 9: paid transport charges ---------- 1400
   ,, 16: paid electricity bill ----------8,500
   ,, 20: sold goods for cash ---------- 250,000
   ,, 26 paid rent ---------- 12,500
   ,, 27: bought goods for cash ----------7000
   ,, 28: paid advertising ----------2000
   ,, 30 cash sales to date

Required:

a. Complete a double entry
b. Extract a trial balance

THE END

ST. ALOYSIUS GIRLS' SECONDARY SCHOOL
MID TERM EXAM 2019
FORM THREE MATHEMATICS

TIME 3 HRS
ANSWER ALL QUESTIONS

SECTION A 60%

1. (a) compute -21 + 17 ÷ 5 X (6 + 14) – 10% of 70
   (b) Express 0.002953
   i. correct to two significant figures
   ii. Correct to three decimal places
   iii. in scientific notation
2. (a) find the sum of L.C.M and G.C.F of the following numbers 24, 36 and 48
   (b) if m = 0. $\dot{2}\dot{7}$ And n = 0.$1\dot{5}$, find the fraction $\frac{n}{m}$ in its simplest form
   (c) Solve the following absolute value equation $|9 - 4x| = 3x - 5$

3. (a) A translation take (2, -7) into (4, 9). Find where a translation take (5, 6)
   (b) If p * q is defined as p + 4q. Find the value of x such that x * (2 * 1) = 27

4. (a) Find the value of X and Y if $\frac{3^{x+2}}{5^{2y-8}}$ = 2025
   (b) Evaluate by factorization the expression $(365)^2 - (135)^2$
   (c) Solve the expression $x^2 - 6x - 16 = 0$ completing the square.

5. (a) if A is an acute angle for right triangle, find the value of 4 tan A + 3 sin A, Given that 5 cos A = 4.
   (b) Find the value of y in the following logarithms equation log 2 = log (3y +5) - log y^2
   (c) Given that log 2 = 0.3010, log 3 =0.4771 and log 7= 0.8451, find the value of log 42.

6. (a) The area of a Trapezium is 300cm^2. If the parallel sides are 30cm and 15cm log. Find the height of the trapezium.
   (b) if the exterior angle of regular polygon is one- third of its interior angle
   i. How many sides does the polygon have?
   ii. What is the name of the polygon
   (c)Given that $(2y - 18)^0$ and $(3y + 28)^0$ are complementary angles, find the value of y.
7. (a) in a school of 60 Teachers, some drink Fanta and same drink Coca cola. If 46 drink Fanta, 18 drink Coca cola and 14 drink both coca- cola and Fanta. How many Teachser drink neither Fanta nor coca-cola? (use venn diagram)
   (b)Find the point of intersection of the lines x – 2y = -5 and 2x + 7y = 0

8. (a) Three relative shared Tsh 140,000/= so that the first one got twice as much as the second and the second got twice as much as the third. How much money did the first relative get?
   (b)Lety paid Tsh 900,000/= for a desk top computer and sold it the following year for Tsh 720,000/= Find: (i) The loss made (ii) The percentage loss

9. (a) A straight line AB passing through points A(2,4) and B(8, n) has a slope of 2. Find the value of n.

(b) The equation of a straight line passing through points P and Q is given by $3x + 4y + 16 = 0$

i. write the given equation above in the form of $y = mx + c$

ii. Determine the gradient of a line PQ

iii. Find the X and Y intercept of a line PQ

10. A relation R is defined as follows:

R $\langle (x, y): y = 3x^2 \ for - 2 \leq x \leq 4 \rangle$

(a) Draw the graph of a relation R
(b) Determine the domain and Range of R
(c) Find the inverse of a relation R
(d) Represent a relation R on a pictorial diagram

SECTION B 40%

11. The mass in kilogram of 36 Athleties were recorded as shown in the table below

Mass (kg)	40-44	45-49	50-54	55-59	60-64
Frequency	1	8	12	10	5

Find (i) the mode (ii) the median (iii) the mean

12. A quadratic function f is defined as follows f(x) $x^2 - 8x + 18$
    (a) Find $f^{-1}(x)$
    (b) State the domain and Range of $f^{-1}(x)$
    (c) Determine the axis of symmetry of f (x)
    (d) Determines the maximum or minimums value of f (x)
    (e) Sketch the graph of f (x)
    (f) State the Domain and Range of f (x)

13. John started business on 1st Dec 2009 with capital of 500,000/=
    Dec 2 purchased goods and paid in cash 100,000/=
    Dec 3 bought goods for cash 50,000/=
    Dec 5 paid wages in cash 5000/=
    Dec 7 sold goods in cash 30,000/=
    Dec 8 bought good in cash 80,000/=
    Dec 9 received the loan from CRDB 7000/=
    Dec 12 bought packing material in 2000/=
    Dec 28 paid transport charges 3000/=

    Enter the above transaction in cash account and balance it off and prepare trial balance

14. Given that f (x) = $\begin{Bmatrix} x \ if \ 0 \ x \leq 1 \\ x(2-x) if \ 1 < x \leq 3 \\ x - 6 \ if \ x > 3 \end{Bmatrix}$
    (a) Sketch the graph of f (x) and state the Domain and Range
    (b) From the graph find (i) f $\left(\frac{1}{2}\right)$ (ii) f (10)

(c) Is the function f (x) a one to one function?

THE END

ST. ALOYSIUS GIRLS' SECONDARY SCHOOL
MID TERM EXAM 2019
FORM FOUR MATHEMATICS

TIME 3 HRS

INSTRUCTIONS

- → This paper consists two sections A and B
- → Answer all questions in section A and any four questions in section B
- → Show all the necessary working for each question attempted and manage your time appropriately
- → Where necessary use R= 6370km
- → The basic four figures may be used

SECTION A (60 marks)

1. (a) arrange the following in descending order 0.625, $\frac{12}{11}$, $42\frac{6}{7}$% and $\frac{10}{13}$

   (b) Express $0.09\dot{6}$ as a rational number

   (c) Two numbers 60 and n have LCM of 420. If n is a multiple of 6 less than 90.

   Find (i) the possible values of n (ii) the GCF of the two numbers

2. (a) solve for x if $\sqrt{3^{x+3}}$ + 20 = 11

   (b) Find the value of y given that $\log_y 81 - \log_y 32 = -1$

   (c) Rationalize the denominator $\frac{8}{3\sqrt{3}+2\sqrt{2}}$

3. (a) Given that n(u) =20, n(A)=10, n(B)=11 and n(A u B)=18. If A and B are subsets of u find: (i) n(A n B)' (ii) n(A' n B)

   (b) Given that $m=\frac{n}{2}(2a + (k-1)r)$ make "r" the subject

   (c) if $P^* Q = \frac{1}{2}(3p + 2Q)$ find the value of $\frac{-1}{2} * \frac{3}{2}$

4. (a) Given $a = \frac{1}{2}i + \frac{1}{3}j$, $b= \frac{2}{3}i + \frac{1}{3}j$ and $c = I + 6j$

   Find

   i. $d = 6a + 3b - c$

   ii. unit vector in the direction of d

   iii. the direction cosines of vector d

(b) i. the straight line through points A(1, -2) and B(3,4) meets the y axis at point E. find the coordinate of E.

ii. Find the equation of the line through (4,6) and parallel to the line joining points (2, -4) and (10,4)

5. (a) Given the figure below. DE BC, AD= 3.4m, AB = 8.5m, and AC = 13.5m. use it to identify the triangles which are similar and hence find the value of EC

   (b) Determine the area and perimeter of an octagon inscribed in a circle of radius 10cm

   (c)Given two similar triangles with bases 10cm and 0.18m long. Find the area of the second triangle if that of the First triangle is $40cm^2$

6. (a) in working for 10 hours a day, 12 men can cultivate the school farm in 6 days. For how many hours a day must 20 men work in order to do the same work in 14 days.

   (b) the resistance of a wire (R) ohms is directly proportional to its length (L) cm and inversely proportional to its cross section area (A) mm^2. When L= 2cm and A= $4mm^2$, the resistance R is 8750 omhs. Calculate the length of the wire when A=$120mm^2$ and the resistance R=5250ohms.

7. (a) if 10,000/= is deposited in the bank and credited to mr. Adam's saving account for which the bank gives out 10% compound interest annually. Find his total accumulated interest after 5 years.

   (b) Fabiola imported a computer at 920,000/= with VAT inclusive of 15%. Calculate:

   i. the original price of the computer

   ii. the amount of tax she paid

   iii. if one use dollar is equivalent to 2500Tsh calculate her profit in use dollars if she sold the computer to Alice at 980,000/=

8. (a) Given the series 5+10+20+----------

   Find i. the sum of the 8th , 9th and 11th terms

   ii. The value of n for which the nth term is 2560

   (b) an AP series has 41 terms. The sum of the First 5 terms of this AP is 35 and the sum of the last five (5) terms of the same AP is 395. Find the common difference and the first term of this AP.

9. (a) If 5sin Q=3 given that Q is obtuse, evaluate $\frac{3\sin Q+2\cos Q}{3\sin Q-2\tan Q}$

   (b) Without using tables find the value of cos 150

   (c) Find the value of side b and angle c in the figure below

10. (a) solve for x by completing squares if $\frac{6}{x-4} = 1 + \frac{6}{x}$

    (b) Twice the length of a rectangle exceeds three times the width of the rectangle by one meter. If one third of the difference of the length and the width is one meter, Find the dimensions of the rectangle.

SECTION B Answer any four (4) questions

11. A gold mining company owns two small gold mines each of which produces three grades, G_1 G_2 and G_3. The First mine at Kahama costs 80,000/= per day to run and produces 300gramms of G_1, 100g of G_2 and 200g of G_3 per day. The second mine at Geita costs 60,000/= per day to run and produces 100g of G_1, 100g of G_2 and 600g of G_3 per day. The company has orders of 600g of G_1, 400g of G_2 and 12000g of G_3 per week. How many days per week should each mine work to fulfill the order as cheap as possible.
12. The frequency distribution table shows the distribution of 100 families according to their weekly expenditure.

Expenditure	0-10	10-20	20-30	30-40	40-50
No;of families	14	x	27	y	15

    a. Calculate the missing frequencies if the mode is 24
    b. Calculate the mean
    c. Calculate the median
    d. Draw the ogine and use it to estimate the median then compare your answer with that of (c) above
13. (a) An Aircraft takes off from Dar es salaam, Airport located at (10^0S, 32^0E)from 10:20 Am and flies northwards to Arusha (18^0N, 32^0E) with a speed of 450km/hr.

    Find: i. The distance between the Airports in Kilometers

    ii. The time the aircraft arrives in Arusha.

    (b) prove that two Fangents from an external point to the circle are equal

    (c) Find the values of angles x : y and z in the figure above.

14. From the information given below

Opening stock	68860/=
Closing stock	54240/=
Purchases	429980/=
Return out wards	5400/=
Markup	25%
Expenses	92760/=

Find ;

a. Cost of goods sold
b. Gross profit
c. Sales
d. Net profit

15. (a) solve by inverse matrix method the given equations

$4x + 2y - 8 = 0$

$-4y + 2 = -6x$

(b) i. If the point obtained above in (a) is translated by T onto (-4, 3) Find where T takes (2,1)

ii. Find the value of x if the matrix $\begin{pmatrix} 2x+2 & x \\ 4x-3 & x+3 \end{pmatrix}$ is non singular

(d) The line $3x + 2y + 6 = 0$ is reflected in the line $y=x$ followed by a rotation through 90^0 about the origin in the anti clockwise direction

(i) Find the composite matrix for the double transformation

(ii) Find the image of the line $3x + 2y + 6 = 0$ under this double transformation

16. (a) a linear function f(x) is given that $f(1) = 5$ and $f(2) = 14$. Write down the equation of f(x)

(b) Given that f(x) $\begin{cases} x & 0 < x \leq 1 \\ x\,(2-x) & 1 < x \leq 3 \\ x-6 & x > 3 \end{cases}$

i. Sketch the graph of f(x)

ii. From your graph state the domain and Range of f(x)

iii. Find the Value of $f(1) + f(7)$

(c) Given a relation $R=\{(x, y): 3x - 2y \leq 6,\ 2x + y \leq 4,\ x \geq 0\}$

i. Sketch the graph of R

ii. From your graph state the Domain and Range of R

END “MATHS IS A PRIORITY”

ST. ALOYSIUS GIRLS' SECONDARY SCHOOL
MID TERM EXAM 2019
FORM ONE MATHEMATICS

TIME 2:30 HRS
NAME _____ DATE _____
INSTRUCTIONS

- → This paper consists of section A and B with 15 questions
- → Answer all questions showing all necessary steps in each question and use pencil in drawing diagrams

SECTION A 4 marks each question

1. In the number 476.382500 estimate into nearest
   (a) Hundreds
   (b) 3 decimal places
   (c) Tens
   (d) 3 significant figures
   (e) Whole number
   (f) Thousandths
   (g) Tenths
   (h) 6 significant figure
2. Use prime factorization to find the G.C.F of 30, 40, 50. The find the quotient of the L.C.M and GCF of these numbers
3. (a) draw the number line to show the following integers (i) -4,-2,0, 2,4 (ii) $-5< Z <0$
   (b) Evaluate -3 x 8 x -5 x-2 $\div -6\ x - 4$
4. (a) write 0.26 as a percentage
   (b) Convert into decimal 16%
   (c) Change $8\frac{3}{4}$ into percentage
5. (a) work out subtraction

Km	m	dm
2	0	6
-1	96	9

   (b) Divide 18kg 5hg by 5

6. Change time of two weeks into (i) hours (ii) days (iii) seconds (iv) minutes

7. Name the diagrams below

8. (a) Simplify and state number of terms and the coefficient of each term in $3x + 4y - 7z + 2z$

   (b) write the $-2a(2xa - 3y + 4)$ without brackets and give the coefficient of a^2 and y

9. (a) Solve for m in $\frac{5+m}{m-1} - \frac{2}{4} = \frac{1}{2}$

   (b) Study the figure below and find the size of X^0

10. Re-arrange digits 9,0,3,7,5 and 1 to form
    i. The smallest 7 digit number when zero is repeated once repeated once
    ii. The largest 8- digit number when zero and 7 are repeated once
    iii. The smallest odd number possible
    iv. The largest even number possible

SECTION B Each 8 marks

11. (a) When a certain number is increased by 15% becomes 828. Find the number.

    (b) Chupaki began his journey at 9:45am, after 1 hour and 30 minutes he met his father. The two had a talk for 55 minutes, then Chupaki continued his journey. Two hours and 45 minutes later he arrived where he was going

    (i) How long did the whole journey take?

    (ii) At what time did he arrive where he was going? Give your answer in 12 hrs and 24 hrs.

12. Use substitution or elimination method to solve for x and y in the following pair of equations: $\begin{Bmatrix} 3x + 2y = 8 \\ 2x + 3y = 12 \end{Bmatrix}$

13. (a)Samwel planted trees on each side of the road to his house. The road is $\frac{3}{4}$ km long and the trees are 5m distance apart. How many trees are there?

    (b) Convert into fraction $2.3\dot{4}$

14. Express each of the following in litres

    (i) $6000cm^3$ (ii) 24500ml (iii)$0.75m^3$ (iv) 226500dl

15. (a) evaluate $\left(\frac{4}{7} \times \frac{3}{15}\right) \div \frac{4}{3} + \left(\frac{7}{5} - \frac{21}{5}\right) of \frac{15}{4}$

    (b) Use the number line in finding $-8 + 6$

THE END

ST. ALOYSIUS GIRLS' SECONDARY SCHOOL
MID TERM EXAM 2019
FORM TWO MATHEMATICS

TIME 2:30 HRS
NAME _____ DATE _____
INSTRUCTIONS

→ This paper consists of 10 compulsory questions
→ Show all necessary steps in each question

1. (a) Find the product of the L.C.M and G.C.F of 40, 120 and 240
   (b) from the set of number $\{1,3,4,5,6,7,8,9,10,15,17,21\ and\ 27\}$ *write down*
   (i) the prime numbers
   (ii) The multiples of 3
   (iii) The factors of 45

2. (a) What is the sum of $6\frac{5}{8}$ and 8.225?
   (b) Change $2.\dot{3}\dot{7}$ into mixed numbers
   (c) Find the period it will take principal of 3,200,000/= to earn interest of 72,000/= at the rate of 7.5% per annum.

3. (a) Given that P = 28.56, q= 474 and r = 19.527, use rough estimation to find x (in 2 s.f) in $x=\frac{P\ x\ q}{r}$
   (b) Sum of money is divided into two parts in the ratio 5 : 7 if the smaller amount is 8,000/=, Find the larger amount of money

4. (a) (i) Solve for value of n in $5^{n-1}=125$
   (ii) Find the value of y in (4^{x+3}) x $(16^{x})= 8^{3x}$
   (b) Simplify the expression $(3+\sqrt{2})\left(4-\sqrt{8}\right)$
   (c) Rationalize the denominator in $\frac{1}{3-2\sqrt{2}}$

5. (a) Factorize completely $m^2 - 7m + 12$
   (b) Evaluate $(83.1)^2 - (16.9)^2$
   (c) Expand (5x + 7y) (5x -7y)

6. Solve for x and y simultaneously after forming two equations from figures below

7. (a) Solve the equation $5n - \frac{n-2}{3} = 5 + \frac{3n+1}{2}$
   (b) Solve for m in $m^2 - 2m - 3 = 0$ using any method in quadratic equations

8. (a) if $a * b = \frac{1}{2}a - 2b$, find the value of $(2 * 1) * (4 * 5)$
   (b) Find y and represent in on the number line $4 - y < y + 8 < 5 - 2y$

9. (a) Find the lengths of the sides given by letters n and p in

   (b) From the diagram below find the value of (i) $\sin Q^0$ (ii) $\cos Q^0$ (iii) $\tan Q^0$

10. The table below shows the marks obtained in six weekly tests of mathematics done by Roselyne and Adeline

Test	1	2	3	4	5	6
Roselyne	70	73	60	70	70	80
Adeline	60	70	72	70	73	90

   (a) Draw multiple line graphs to represent this information
   (b) In which test did they obtain the same score?
   (c) In how many test did Adeline obtain a higher score than Roselyne ?
   (d) Show, write the scale you have used

"Mathematics is like subject of life, it is with you every where practice it daily!"

ST. ALOYSIUS GIRLS' SECONDARY SCHOOL
MID- TERM EXAMINATION BIBLE KNOWLEDGE
FORM II APRIL 2019

NAME _____ DATE _____
TIME 2: 00HRS

INSTRUCTIONS

- → Answer all questions
- → Bible and other related religious materials are not allowed in the examination room
- → Use the space provided to answer the question

SECTION A (10 marks)

1. Choose the correct answer to each of the following questions and write its letter in the box provided.

i. Identify the place where Moses died
   A. Moab
   B. Sinai
   C. Jericho
   D. Jordan

ii. The harlot who betrayed Samson to the hands of the Philistines was
   A. Rahab
   B. Ester
   C. Rehab
   D. Delilah

iii. The story of Joseph meeting his brothers in Egypt as narrated in the book of Genesis chapter 42, teaches us
   A. Forgiving
   B. Evil doers must be punished
   C. An eye for any eye
   D. Bad actions must be revenged

iv. Josha died when he was _____ year
   A. 111
   B. 130
   C. 175
   D. 110

v. Moses sent 12 spies to go and explore the land of Canaan one of them was Joshua whose father was _____
   A. Hori
   B. Joseph
   C. Raph
   D. Nun

vi. "go up into the Negeb younder and go up into the hill country……" numbers 13:17 to whom where these words dired too?
   A. Moses
   B. Joshua
   C. To the 12 spies
   D. Caleb

vii. When Joshua died in the promised land of Canaan he was buried in the land of _____
   A. Hor

B. Moab
C. Timnathserah
D. Rephidem

viii. Which book in the Bible follows after Joshua
A. Luke
B. Acts
C. Judges
D. Deutronomy

ix. Gaddi was among the spies sent to Canaan for exploration porporses of Joshua. In which tribe did he come from
A. Joseph (manasseh)
B. Dan
C. Asher
D. Benjamin

x. "Only be strong and very courageous, careful to do all according to the law that Moses my servant commanded you"
A. God said these words to Joshua
B. God said these words to Aaron
C. God said these word to Absolom
D. Joshua saod this to Aaron

Answers (10 marks)

i	ii	Iii	iv	v	vi	vii	viii	ix	x

2. The following statements are either correct or incorrect. Write true if the statement is correct and false if the statement is incorrect (10 marks)

i. Rachel was a kind of a prostitute _____
ii. Pharaoh did not allow Israel to leave even after all 10 plagues _____
iii. The serpent can be called an Ancient serpent, Satan, Devil and revolt angle _____
iv. Creation did happen by the word of God, nothing else can be done through it _____
v. It was the month of Abib that Israel left Egypt _____
vi. Isaac was offered as a sacrifice but he was not burnt _____
vii. After the fall of the first man Adam, God sent the second man that anyone who believes in him shall not perish _____
viii. Sarah was 100years old when Isaac was born _____
ix. 12 spies were sent by Moses to go and spy the city of Jericho _____
x. The Israelites crossed Jordan under Joshua _____

SECTION B

3. Match the items in list A with those in list B by writing the letter of the correct item in list B

LIST A	LIST B
i. The mountain where Moses was buried	A. Zoar
ii. The mountain where Noah's ark landed	B. Cherubin
	C. Morah
	D. Aaron

iii.	The mountain where Isaac was to be sacrificed as a burn offering	E. Joshua F. Jethro
iv.	A mountain where Moses received the ten commandment	G. Pithom and Raamses H. Canaan
v.	The land of promise	I. Egypt
vi.	The place where the store cities in Egypt	J. Sinai K. Moriah
vii.	He gave advice to Moses	L. Ararat
viii.	A place of bitter water	M. Nebo
ix.	Kept to guide the garden of Eden	N. Zion
x.	A place of Amnesty where lot ran	O. Kibo

Answers (20 marks)

List A	i	Ii	iii	iv	v	vi	vii	viii	ix	x
List B										

4. Describe the following names or phrases (20 marks)
   i. The convent renewal at schechem Joshua 24

   _____
   _____
   _____
   _____
   _____

   ii. The Gibeonites deception (Joshua 9:22-23).

   _____
   _____
   _____
   _____
   _____
   _____

   iii. Achan's sin

   _____
   _____
   _____
   _____
   _____
   _____

   iv. Rahab Joshua 2:16

   _____
   _____
   _____
   _____
   _____
   _____

   v. Joshua's commissions

   _____
   _____
   _____

_____
_____
_____
_____

SECTION C

5. Give short answers
   (a) Mention 5 things that the spies (12 men) were sent to spy in Canaan
      I. _____
      II. _____
      III. _____
      IV. _____
      V. _____
   (b) List 5 examples of apostasy in today's society (5 marks)
      i. _____
      ii. _____
      iii. _____
      iv. _____
      v. _____
6. Fill in the blank spaces to make a meaningful story (select the correct item from the words in the bracket) (10 marks)
   i. After the death of Moses, the servant of the _____, the lord said to Joshua the son of _____, minister. "Moses my servant is died, now therefore arise, go over this _____, you and all this people, into the land which I am giving to them, to the people of _____ (Joshua 1:3)
   ii. Joshua sent two men secretly from _____ as spies, saying, "Go view that the land especially _____" and they went and came into the house of the harlot whose name was _____ and _____ there. (Joshua 2: 1-2)
   iii. And to the Rubenites, the _____ and the _____ Joshua said "Remember the word which Moses the servant of the lord commanded you saying "the lord your God is providing you a place of rest and will give you this land (Joshua 1:12-13)

Gadites, half tribe of manas'she, shittim Jericho, Rahab, lodged, Lord, Nun, Jordan, Israel, Massah, Moses, Sword.

SECTION D (20 marks)

7. (a) Who were the Judges?

_____
_____
_____
_____
_____

(b) Mention the two major division of Judges

_____
_____

(c) Differentiate between the major two divisions mentioned above in (b) by giving (3 points)

THE END

SHULE YA SEKONDARI YA WASICHANA ST. ALOYSIUS
MTIHANI WA NUSU MUHULA APRIL 2019
SOMO LA KISWAHILI
KIDATO CHA KWANZA

MUDA SAA 2 DATE 29.03.2019

MAAGIZO

1. Karatasi hii ina sehemu A, B, C, D na E
2. Jibu maswali yote
3. Jaza majibu kwenye nafasi zilizoachwa wazi
4. Andika majibu kwa kalamu ya wino wa bluu au nyeusi

SEHEMU A (alam 10)

UFAHAMU

1. Soma kifungu cha habari kasha jibu maswali yatakayofuata.

Mwaka mmoja ilitokea njaa kali sana na majani yote yalikauka. Alikuwapo kapera mmoja tu mwenye shamba la mahindi. Kulikuwa na nyani.hao nyani wakafikiri namna ya kuyapata mahindi yale kwa urahisi. Walimchukua mwali wao mzuri sana na kumgeuza awe mtu ili akaombe mahindi. Walijua kuwa mwenye shamba akimwona tu, atamtamani akitaka kumuoa akubali. Kama akiolewa na Yule mwenye mahindi basi nyani wote watapata urahisi wa kwenda kuvunja mahindi bila kufukuzwa. Basi wakamgeuza motto mmoja wa nyani kuwa mwali katika umbo la binadamu mrembo na akaenda kuomba mahindi. Alipofika tu, mwenye shamba akamtamani. Alipomwambia anataka kumuoa, nyani alikubali. Basi akaoana. Yule mtu hakufahamu ya kuwa anaoa nyani. Ikawa asubuhi na jioni yale manyani yanakuja kuvunja mahindi bure.

Mwanamke Yule alikuwa hayafukuzi maana ni ndugu zake. Lakini siku moja akawaambia, “akina nyani nyie, mimi, sasa nimechoka kuwapa mahindi bure” “wewe tumekugeuza sisi kuwa mtu, lakini kama sasa unatukataa sisi kwa sababu ya mikia yetu, haya. Lakini tukikasirika sisi, wewe hukai na mumeo, maana tutakubadili ten uwe nyani kama sisi”

Yule mwali ndipo alipowaambia ya kwamba hawawezi ten kumgeuza nyani na tangu siku ile hataki tena kuwaona nyani nyumbani kwake. Basi nyani walikasirika na kurudi nyumbani. Walipofika nyumbani, waliitana mkutanoni na wote wakajaa na kuanza kusimulia aloyoyaongea mwali waliyemgeuza mtu ili wapone njaa. Wote wakakubaliana kuwa wampelekee mkia wake na kumrudisha kwenye umbo la nyani. Basi wakakutana wote na kwenda nyumbani kwa Yule mwali huku wakiimba;

Ukimwona loda,
Mpelekee mkia wake huo.

Walipofika karibu na nyumba yake wakaanza kusikia wimbo ule. Akamwambia mumewe kuwa anaumwa. Mume wake akaanza kushangaa kuumwa huko kumemuanza lini! Nyani walivyozidi kuja huku wakiimba ndivyo Yule mwali alivyoanza kugeuka miguu. Alipomaliza kugeuka na kuwa nyani alikimbia porini kwa nyani wenzake.

Maswali

(a) Kwa nini nyani aliolewa kwa binadamu?

_____
_____
_____

(b) Kwa nini nyani waliamua kumpelekea mkia mwali?

_____

_____

(c) Unadhani nyani walikuwa sahihi kumuozesha motto wao kwa binadamu? Kwa nini?

_____

_____

_____

_____

(d) Hadithi hii inatufundisha nini?

_____

_____

_____

(e) Toa maana ya maneno yafuatayo kama yalivyotumika katika kifungu cha habari

(i) kapera

_____

_____

(ii)Mwali

_____

_____

SEHEMU B (alama 20)

UTUMIZI WA LUGHA NA USAHIHI WA MAANDISHI

2. (a) oanisha orodha A na B kujenga dhana sahihi. Onesha majibu yako kwenye visanduku ulivyopewa.

ORODHA A	ORODHA B
i. Msamiati wa lugha hauna uhusiano na kitajwa	A. Sifa ya lugha
ii. Umbo linguine la mofimu ileile	B. Mfumo wa lugha
iii. Kitamkwa katika neno ambacho kikibadilishwa na kitamkwa kingine maana ya neno hilo hubadilika	C. Misingi ya ufasaha wa lugha D. Unasibu wa lugha E. Herufi, silabi, neno, sentensi, aya F. Fonimu
iv. Vijenzi vya lugha	G. Alomofu
v. Matamshi maumbo ya maneno, miundo ya tungo, mantiki, na msamiati.	H. Alofoni I. Lafudhi J. Kiimbo

i	ii	iii	iv	v

(b) sentensi zifuatazo zina makosa. Kwa kuzingatia matumizi ya Kiswahili sanifu, ziandike kwa usahihi.

i. jicho limeingia mdudu _____

ii. Nilipofika nilikokuwa nimetumwa, nilimkuta hayupo _____

_____

iii. gari yangu imeharibika vibaya _____

iv. nyimbo inayoimbwa ni yangu _____

v. rafiki yangu amenona nithili ya tembo _____

(c) Mojawapo ya sifa za lugha ni kuhusisha sauti. Taja sifa nyingine tano za lugha

i. _____
ii. _____
iii. _____
iv. _____
v. _____

(d) Dhima za lugha ni pamoja na kutambulisha jamii. Taja dhima tano za lugha

i. _____
ii._____
iii._____
iv._____
v._____

SEHEMU C (alama 15)

3. (a) Taja aina ya neno lililopigiwa mstari katika sentensi zifuatazo kwa kuandika kifupi sahihi cha aina hiyo ya neno.

Kwa mfano: Emiliana ndiye alikula chakula chote
t

(i) Aliyesoma kwa bidii ndiye aliyefaulu mtihani vizuri
(ii)Wageni walikuja kwenye sherehe walikula na kusaza
(iii)nenda chumbani ukalale
(iv)Mtoto huyu hali wala kunywa
(v)Doreen anaongea kitoto ingawa ni mkubwa

(b) Tunga sentensi kwa kutumia aina za maneno zifuatazo

Mfano: Jana usiku. Limetumika kama kielezi
Wote wawili waliondoka jana usiku

i. Yeyote litumike kama kiwakilishi
_____
ii. Mwenyewe litumike kama kivumishi
_____
iii. Ambaye litumike kama kiwakilishi
_____
iv. Chochote litumike kama kivumishi
_____
v. Kizungu litumike kama kielezi
_____

(c) Tumia neno “Kimasai” katika sentensi kama

i. Kivumishi _____
ii. Kielezi _____

(d) Ufuatao ni mfano wa neno lililomo kwenye kamusi. Taja taarifa tano za kamusi ukirejelea neno hilo.

Maamuma/ma amuma/ nm (-) (a-/wa -) 1(kd) mtu anayemfuata imamu katika sala; mfuasi.
2. Mtu asiye na ujuzi Fulani na inambidi amfuate mwenye ujuzi. (> kar)

i. _____
ii. _____
iii. _____

iv. _____

v. _____

SEHEMU D (alama 40)

FASIHI SIMULIZI

4. (a) Orodha B ina istilahi za fasihi simulizi na Orodha A ina maana za istilahi hizo. Oanisha orodha A na orodha B kwa kuandika herufi ya orodha A katika visanduku ulivyopewa.

ORODHA A	ORODHA B
A. Nyimbo za furaha zinazoimbwa ili kuwafurahisha watu. B. Nyimbo za kuaga mwaka C. Nyimbo za kilio na kuomboleza D. Nyimbo za kubembelezea watoto E. Nyimbo za jando F. Maigizo ya kujitapa kufanya jambo la kishujaa lisilo la kawaida G. Malumbano baina ya watu wawili au pande mbili na baadaye kuafikiana H. Hadithi fupi zinazosimulia masuala ya kihistoria I. Sadaka inayotolewa kwa mungu kupitia kwa mungu wakati wa kusali J. Semi za mafumbo zenye hekima na busara	i. Bembea ii. Mbolezi iii. Ngonjera iv. Tahiri v. Majigambo

(b) Taja methali moja ambayo ungeweza kuitumia kuonya au kuadilisha kulingana na tukio lililoelezwa hapa chini.

I. Motto alilelewa vibaya na hatimaye akawa jambazi
Methali; _____

II. Ndege alijenga kiota kwa kuchukua jani mojamoja na hatimaye baada ya siku tatu kiota kilikamilika kujengwa
Methali; _____

III. Wambura alikuwa maskini, akajibidiisha sana kufanya kazi usiku kucha hatimaye akafanikiwa kupata utajiri na kuishi maisha yenye hadhi.
Methali; _____

IV. Samba alivamia zizi la mzee Mwanzalima na kakamata ng'ombe wawili, alipotoka na mkuki na kumkabili, alishindwa, akarudi nyuma kwa hofu kasha alipiga yowe, wanakijiji walikusanyika wakiwa na mikuki na mapanga, marungu wakampiga na kumuua.
Methali: _____

(c) Fasihi simulizi huwasilishwa kwa njia ya mdomo. Taja sifa nyingine tano za fasihi simulizi.

i. _____

ii. _____

iii. _____

iv._____
v._____

(d) Fasihi kwa ujumla ina umuhimu mkubwa kwa jamii. Taja dhima tano za fasihi.
   i. _____
   ii. _____
   iii. _____
   iv. _____
   v. _____

(e) Kamilisha methali zifuatazo kwa kujaza nafasi zilizoachwa wazi.
   i. Mdharau mwiba _____
   ii. _____ndani kipande cha mti.
   iii. Usiache mbachao _____
   iv. _____ mwanadamu atakuudhi
   v. Mwenye shibe _____

(f) Eleza kwa kifupi maana ya dhana zifuatazo;
   i. Fasihi
   _____
   _____
   _____

   ii. Fani
   _____
   _____
   _____

   iii. Maudhui
   _____
   _____
   _____
   _____

   iv. Sanaa
   _____
   _____
   _____
   _____

   v. Hadhira
   _____
   _____
   _____

SEHEMU E (alama 10)

UANDISHI

Wewe ni mwanafunzi unayesoma shule ya sekondari Zegereni iliyoko mkoa wa Lindi. Andika barua kwa wazazi wako ukiwaeleza maendeleo yako shuleni na changamoto unazoaipata. Jina lako ni shukuru Jilala.

ST. ALOYSIUS GIRLS' SECONDARY SCHOOL
FORM TWO PHYSICS EXAMINATION
MID TERM 2019 APRIL

TIME 2: 30HRS

INSTRUCTIONS

- The paper consists of section A, B and C
- Answer all questions
- Wherever necessary use the following constants
  - → Acceleration due to gravity g = 10m/s^2
  - → Density of pure water = 1000kg/m^3
  - → Density of mercury = 13.6g/cm^3
  - → At standard temperature T = 273k
  - → At standard pressure p= 760mmHg

1. Write the letter of the most correct answer in the spaces provided

i. The unit of Momentum is
   A. Newton- Meter
   B. Newton – second
   C. Kilogram –meter per second
   D. Joule per meter

ii. The diagram below shows reflection of light on a plane mirror AB. The angle of reflection is
   A. 42^0
   B. 132^0
   C. 58^0
   D. 48^0

iii. The SI Unit of moment of a force is
   A. Newton meter
   B. Newton
   C. Newton per meter
   D. Joule per meter

iv. A drop of water is kept on a glass plate it spreads on the entire plate and this indicates that
   A. Adhesion is greater than cohesion
   B. Cohesion is greater than adhesion
   C. Cohesion and Adhesion are equal
   D. Water is a god conductor

v. A micrometer screw gauge has an error of -0.12 mm, it reads 1.14mm when measuring a diameter of a needle the true diameter of the needle is
   A. 1.02mm
   B. 13.68mm
   C. 1.26mm
   D. 2.36mm

vi. The effective resistance Re for three resistors having the same resistance connected in parallel is
   A. Re= $R_1 + R_2 + R_3$
   B. $\frac{R_1 + R_2 + R_3}{3}$
   C. Re= Re = $\frac{R}{3}$

D. Re = $\frac{1}{R_1} + \frac{1}{R_2} + \frac{1}{R_3}$

vii. A body which gains excess electrons becomes
   A. Negatively charged
   B. Positively charged
   C. Neutral
   D. Earthed

Viii. One of the following is not a force
   A. Apparent weight
   B. Upthrust
   C. Load
   D. Displacement

ix. all bodies which allow part of light to pass through them are termed as
   A. Transparent
   B. Opaque
   C. Translucent
   D. Penumbra

x. a 10kg of sugar on Jupiter will weigh 250N, then then Acceleration of gravity on Jupiter is
   A. 10m/s^2
   B. 2500m/s^2
   C. 25N/kg
   D. 0.04N/m

xi. a person standing in a bus moving at a uniform speed of 30m/s tend to fall forward when the bus stops abruptly, the person obeys
   A. Principle of equilibrium
   B. Newton's second law of motion
   C. Newton's third law of motion
   D. Newton's first law of motion

xii. a bottle full of water has a mass of 45g and when full bottle is 20g, the relative density of mercury is
   A. 13.6
   B. 7.1kg/m^3
   C. 6.3g/cm^3
   D. 12.0

xiii. Which of the following is not a function of Gold-leaf electroscope
   A. To measure the type of charge on a conductor
   B. Record charge density on a conductor
   C. The measure the magnitude of charge
   D. To protect building form lighting

xiv. Ajuna of 60kg fell from a tower of 600cm high, his potential energy on touching the ground is
   A. 3.6KJ
   B. 36000J
   C. 1800J
   D. 600J

xv. Three common method of magnetization include
   A. Stroking, induction and electrical
   B. Neutral, electrical and chemical
   C. Electrical, magnetic and induction
   D. Stroking, chemical and Natural

xvi. people suffer from nose bleeding at higher altitude due to the fact that the atmospheric pressure

A. Is less than the internal body pressure
B. Increase with height above sea level
C. Is equal to internal pressure of the body
D. Is greater than the internal body pressure

xvii. mosquito larva floats on water

A. Due to surface tension
B. Has needle like shape
C. Is able to swim
D. Is less dense than water

xviii. 2000g of sugar produced an extension of 0.8cm on a spring, the constant for the spring is

A. 2.5N/cm
B. 25N/cm
C. 160N/m
D. 0.04NM

xix. the following properties make water to be unsuitable for thermometric liquid except

A. Bad conduct of heat
B. Welting glass
C. Freezes at Zero centigrade
D. Density of $1g/cm^3$

Xx. For a body moving vertically upwards, it may be represented by

A. V=u-gt
B. $S= ut + \frac{1}{2} gt^2$
C. $V^2 = u^2 + 2gt$
D. V= gt

i	ii	iii	iv	v	vi	vii	viii	ix	x	xi	xii	xiii	xiv	xv	xvi	xvii	xviii	xix	xx

2. Match each item in list A with a correct response in list B by writing a letter of a correct response below the number of the corresponding item in list A in the table provided.

LIST A	LIST B
i. The force used to operate a machine ii. An example of 3rd class level iii. Ratio of number of teeth in a driven wheel to the number of teeth in driving wheel iv. The force that causes an efficiency of a machine to be less than 100% v. It is used to lift heavy weights with the least effort	A. Knife B. Lever C. Inclined planes D. Friction E. Wheel barrow F. Effort G. Velocity ratio

LIST A	I	ii	iii	iv	v
LIST B					

3. (a) state two conditions for a body to be in equilibrium
   i. _____
   ii. _____

(b) Distinguish between centre of mass and centre of gravity

_____
_____
_____
_____

(c) A uniform metre rule is balanced horizontally on a knife edge placed 5cm from B with a mass of 60g at B. find the mass of the rules

_____
_____
_____
_____
_____
_____

(d) State the principle of moments

_____
_____
_____
_____
_____

(e) Distinguish between stable equilibrium and unstable equilibrium

_____
_____
_____
_____
_____
_____
_____

4. (a) What are the uses of the following devices?
   i. Manometer

      _____
      _____

   ii. Hare's apparatus (inverted U tube)

      _____
      _____

   iii. U- tube

      _____
      _____

   iv. Barometer

      _____
      _____

(b) i. why it is easier to cut a piece of meat with sharp knife than when using blunt knife?

ii. The tip of a needle of hypodermic syringe has a cross- sectional area of $1 \times 10^{-6}\ m^2$. If a doctor applies a force of 20N to a syringe that is connected to the needle, what is the pressure exerted at the tip of needle?

(c)The small piston of hydraulic press has an area of $3.0 \times 10^{-4} m^2$. The two pistons are in the same level. If the force of 120N is applied to the small piston, calculate the force required to be applied to the bigger piston to stop it moving

5. (a) Define the terms:
   i. Light

   ii. Reflection of light

   iii. A beam of light

iv. A ray of light

_____
_____

(b) State laws of reflection of light

_____
_____
_____
_____
_____

(c) i. Two mirrors were placed in such a way that the angle between them is 45^0. Determine the number of images formed

_____
_____
_____

ii. if the angle between normal ray and incident ray is 30^0. Find the angle between normal ray and the reflected ray

_____
_____
_____
_____

6. (a) Define the following terms as applied to machines
   i. Mechanical advantage

   _____
   _____
   _____

   ii. Velocity ratio

   _____
   _____
   _____

   iii. Load

   _____
   _____
   _____

   iv. Effort

   _____
   _____
   _____

   v. Efficiency

   _____
   _____
   _____

(b) A force of 600N is used to move a load of 3000N up an inclined plane. Give that the slant height and vertical height of the plane are 18m and 3m respectively.
Determine:

i. The velocity ratio of the plane

_____

_____
_____
_____
_____

ii. The mechanical advantage of the plane

_____
_____
_____
_____

iii. The efficiency of the plane

_____
_____
_____
_____
_____
_____

(c) Why efficiency of machine is less than 100%
Briefly explain

_____
_____
_____
_____
_____

7. (a) What do you understand by the following terms?
   i. Work

      _____
      _____

   ii. Energy

      _____
      _____

   iii. Power

      _____
      _____

   iv. Kilowatt

      _____
      _____

   v. Kilojoules

      _____
      _____

   (b) Mention any five types of energy
   i. _____
   ii. _____
   iii. _____
   iv. _____
   v._____

(C) calculate the power of a pump which can lift 200kg of water through a vertical height of 6m and 10 seconds, given ($g=10/s^2$)

(d)A min-bus of mass of one and half tones is moving with kinetic energy of 30000J. What is its velocity?

8. (a) Define the term charge and state its SI-Unit?

(b) State Ohm's law

(c) Two resistors of 3Ω and 6Ω are connected in parallel to 3V battery.

i. Draw the schematic diagram

ii. Find the effective resistance of the circuit

iii. Calculate the current passing through a 6Ω resistor

(d) The form one student of Aloysius girls who were conducting an experiment to verify Ohm's law in the laboratory, were given the following instructions; connect in series a resistance R. a battery B of two cells. A switch K, an ammeter A and Rheostat S. then connect a voltmeter V, across resistor R. draw a well labeled circuit representing this experiment .

9. (a) Define the following terms

i. Upthrust

ii. Relative density

(b) i. State Archimedes principle

ii. State the law of floatation

(c)Calculate relative density of the stone. If the weight of the stone is 25N in air and 17N in water

10. (a) What is meant by the term Elasticity?

(b) Differentiate between the following terms

i. adhesion and cohesion force of attraction

ii. osmosis and diffusion

iii. conductor and insulator

iv. Luminous and Non- Luminous bodies

ST. ALOYSIUS GIRLS SECONDARY SCHOOL

MID-TERM EXAMINATION

BOOK- KEEPING FORM TWO

TIME 2:30 HRS

INSTRUCTIONS

1. This paper consists of sections A, B and C
2. Answer all questions
3. All writing must be in blue or Black ink
4. All answers must be written in the space provided.

SECTION A (20marks)

Answer all questions in this section

1. For each of the following items (i-x) choose the correct answer and write its letter in the box provided.
   - i. A system whereby a petty cashier is reimbursed to main his/ her original financial position is known as
     - A. Double entry system
     - B. Imprest system
     - C. Petty cash system
     - D. Columner petty cash book
   - ii. The goods bought for resale but remain unsold to the end of financial year are called
     - A. Return inwards
     - B. Return outwards
     - C. Closing stock
     - D. Opening stock
   - iii. Which of the following is used to determine the gross profit for a given period
     - A. Income statement
     - B. Statement of financial position
     - C. Trial balance
     - D. Sales day book
   - iv. The ledger account where debtors are found is categorized as
     - A. Nominal ledger
     - B. General ledger
     - C. Purchases ledger
     - D. Sales ledger
   - v. At what side does the total of discount received in the cash book is posted?
     - A. Credit side of discount received account
     - B. Debit side of purchases account
     - C. Credit side of creditors account
     - D. Debit side of discount received account
   - vi. Which of the following presents current assents in the financial statement
     - A. Bank overdraft
     - B. Creditors
     - C. Cash at bank
     - D. Furniture
   - vii. A book of original entry used to record goods returned to creditors is called
     - A. Purchases journey
     - B. Sales journal

C. Purchases return journal
D. Sales return journal

viii. A document which shows the customer's bank transactions in a particular period is called
A. Bank statement
B. Bank reconciliation statement
C. Adjusted cash book
D. Cheque book

ix. The financial assistance from friendly countries which are not refundable is called
A. Dividends
B. Loans
C. Interest on investment
D. Grants

x. The day to day expenses used in running of the government are called
A. Improperly vouched expenditure
B. Nugatory expenditure
C. Recurrent expenditure
D. Development expenditure

Answers

i	ii	Iii	iv	v	vi	vii	viii	ix	x

2. Match the items in list A with the responses in list B by writing the letter of the correct response below the corresponding item number in the table provided.

	LIST A	LIST B
i.	Is a government account where all government revenue deposited and all approved expenditure with drawn	A. Ambit of vote B. Government fiscal year C. Warrant Holders D. Public money E. Exchequer account F. Child G. Receiver of Revenue H. Appropriation Bill I. P.M.G J. Collector of revenue K. C. A. G L. Special fund M. Family N. Consolidated fund
ii.	Persons appointed by the treasury in writing to collect and account the public money	
iii.	Is a group of people who are related to each other	
iv.	Is a proposed legislation laid down before the national assembly approves withdrawal of money from the consolidated fund	
v.	Is a person appointed by president of the united republic to be the watch dog of public money	
vi.	Is the fund which is segregated for specific activities of the government	
vii.	Is the maximum amount of money an accounting officer can spend	
viii.	Is the financial year of the government	
ix.	Are officers who are re-allocated funds by accounting officers	

x.	Is the government money for the benefit of all the citizen in a country	

i	ii	Iii	iv	v	vi	vii	viii	ix	x

SECTION B (20 marks)

Answer all questions

3. On 1st January 2018 Peter's books shows the following assets and liabilities

Details	Tshs
Cash in hand	200,000
Cash at Bank	800,000
Furniture	50,000
Building	200,000
Stock	30,000
Debtors:	
→ P. Fundi	50,000
→ M. sonje	20,000
Creditors	
→ Chache	300,000
→ John	150,000

Using the given information, prepare Journal proper to determine peter's capital as at 1st January, 2018.

4. (a) Complete the following table

S/N	Transactions	Account to be Debited	Account to be credited
i	Withdraw cash from bank for office use, 8,000/=		
ii	Purchased goods from Aika 3,000/=		
iii	Cash sales 17,000/=		
iv	Received cheque from Dux 4,000/=		
v	Cash payment of rent 2,000/=		

(b) Why cash book and Bank statement balances differs? Give five reasons

i. _____

ii. _____

iii. _____

iv._____

v._____

SECTION C (60 marks)

Answer all questions in this section

5. Enter the following transactions in a petty cash book with the analysis columns for Postage, travelling, cleaning, petrol and stationary. The cash float is Tshs 300,000/= and should be reimbursed on 31st January 2018.

Date	Details	Amount
01/01/2018	Received from cashier as petty float	300,000
03/01/2018	Postage	23,000
04/01/2018	Bus fare	12,000
05/01/2018	Cleaning	15,000
06/01/2018	Petrol for delivery van	54,000
08/01/2018	Bus fare	33,000
12/01/2018	Stationary	26,000
14/01/2018	Cleaning	62,000
28/01/2018	Postage	18,000

6. H. Malebo drew up the following Trial Balance as at 30th October 2016. Draft an income statement for the year to 30th October 2016 and statement of financial position as at that date

Details	Dr(Tshs)	Cr (Tshs)
Loan from O. Nderito		5,000
Capital		25,955
Drawings	8,420	
Cash at Bank	3,115	
Cash in hand	295	
Debtors and creditors	12,300	9370
Stock at 30th September 2015	23,910	
Motor van	4,100	
Office equipment	6,250	
Sales and purchases	92,100	130,900
Returns	550	307
Carriage inwards	215	
Carriage outwards	309	
Motor expenses	1,630	
Rent	2,970	
Telephone charges	405	
Wages and salaries	12, 810	
Insurances	492	
Office expenses	1377	
Sundry expenses	284	
	171,532	171,532

Stock at 30th October 2016 was Tsh. 27,475.

7. Madiba enterprises had a cash book showed a debit balances of Tshs 786,000 at the bank account on 30th June, 2014 while the bank statement on 30th June, 2014 showed a credit balance of Tshs 1,378,000. In comparing the cash book with the bank statement the following differences had been observed
   (a) Unpresented cheque of Tshs 568,000
   (b) Uncredited cheque of Tshs 152,000
   (c) Bank charges of Tshs. 10,000 appeared on the bank statement but not in the cash book
   (d) A standing order Tshs 10,000 payable on 28th June had been paid by the bank but no entry had been made in the cash book
   (e) Interest of Tshs. 196,000credited by the bank to Madiba's current account but no entry has been made in the cash book.

Using the information provided
(i) Adjust the cash book to show the correct balance
(ii) Prepare bank reconciliation statement as at 30 June, 2014 using balance as per cash book

ST. ALOYSIUS GIRLS SECONDARY SCHOOL
MID- TERM EXAMINATION
HISTORY FORM TWO APRIL 2019

TIME: 2HRS
NAME _____ DATE _____
Answer all questions in section A and B and only two in section C

1. Choose the most correct answer and write its letter in the box provided.
   i. The people whose work is to study and explain the past remains are known as
      (a) Black smith
      (b) Archaeologist
      (c) Anthropologist
      (d) Professionals
   ii. Ntemi system was common among the
      (a) Nyamwezi and chagga
      (b) Zaramo and luguru
      (c) Pare and chagga
      (d) Nyamwezi and Gogo
   iii. The Kwavi was agricultural society among the
      (a) Hadzabe
      (b) Gogo
      (c) Maasai
      (d) Hehe
   iv. During middle stone age man discovered
      (a) Zinjanthropus at Oldivai Gorge
      (b) Money
      (c) Fire
      (d) Iron tools
   v. One of the following is not the factors for rise of Buganda Kingdom
      (a) The rise of Bunyoro
      (b) Good leadership
      (c) Strong army
      (d) Agriculture
   vi. The first people who lived in the interlucustrine region of East Africa were
      (a) Bantu
      (b) Bachwezi
      (c) Luo
      (d) Batembuzi
   vii. The series of wars fought in south African land xhosa called them wars of dispossession white Boers called them
      (a) Mfecane war
      (b) Great Trek war
      (c) Kaffir war
      (d) Chimurenga war
   viii. Patrilineal differs from matrilineal due to the fact that
      (a) Man has to pay bride price to a woman
      (b) Children belong to mother
      (c) Man moves to the woman's family
      (d) Clan's heritage belong to mother

ix. One among the following is non- exploitative, elation of production
   (a) Slavery
   (b) Communalism
   (c) Feudalism
   (d) Capitalism

x. The Trans- Atlantic slave trade had the following outcomes
   (a) Loss of African culture
   (b) Loss of African tradition
   (c) Loss of man power in Africa
   (d) The growth of forest in Oyo, Benin and Ife

i	ii	Iii	iv	v	vi	vii	viii	ix	x

2. Match the item in list A with corresponding response in list B

LIST A	LIST B
i. Portuguese intrusion in East African coast.	A. Ngoni short stabing spears adopted by East African societies
ii. Patrilineal societies	B. Moresby treaty
iii. Kinjekitile Ngwale	C. Societies that clan heritage based on mother side
iv. 1822	D. Kaffir war
v. It fought between Boers and xhosa	E. Disrupted all trading activities in East African coast
vi. Assengai	F. Used ideology to organize people against Germany rule
vii. 1652	G. Societies that clan heritage based on father side
viii. 1492	H. Discovery of America by Christopher Columbus
ix. Prominent chief in East Africa who actively involved in long distance trade	I. The time when Dutch settled at the cape
x. Low hard formation	J. Military technique
	K. Kabaka
	L. Mirambo
	M. Heligoland treaty

i	Ii	iii	iv	v	vi	vii	viii	ix	x

3. Write T for correct statement and F for the false statement
   i. Portuguese formed good relation between East African coast and India
   ii. Capitalism divided societies into two groups which is haves and have not
   iii. Primitive communalism was not indicating the future of pre- colonial economy
   iv. Dutch settlement in the cape aimed at helping them to fight the British.
   v. History can create employment for those who study it
   vi. An age is length of time determined by continuous event or situation
   vii. In man's History Homo erectus also discovered fire and changed his life

viii. The interest of early farmers in weather knowledge led them to develop astronomy
ix. Nomadic pastoralism was a seasonal movement of people without livestock
x. Burter trade involved the exchange of goods and currency to great extent

i	ii	Iii	iv	v	vi	vii	viii	ix	x

4. (i) Explain two ways used by pre colonial societies to extract salt
   (a) _____
   _____
   _____
   (b) _____
   _____
   _____

(ii) Differentiate local trade and regional trade

_____
_____
_____
_____
_____

(iii)Give the difference between matrilineal and patrelineal societies

_____
_____
_____
_____
_____
_____

5. Arrange the following sentences in chronological order
   i. Land use was entrusted to the clan heads. The distributed land and offered guidance in production activities
   ii. Each member of the clan was given land as much as he could cultivate without paying for it.
   iii. The smallest unit of social organization in early agricultural societies was family. It made up of wife, husband and children
   iv. There for clan was dvided into two types, matrilineal and patrilineal.
   v. Several families with close blood relationship formed a clan which was headed by clan head

1st	2nd	3rd	4th	5th

6. Complete the following statement with correct historical fact
   i. The family which originated from the ancestors and ensured stability within clan ruled by chief or king is called _____
   ii. Seasonal winds that brought early visitors _____
   iii. Development that involved domestication of animals and plants was known as _____
   iv. The book written by Greek sailors about East Africa is _____
   v. Feudal relation that developed along the coast was known as _____

SECTION C

CHOOSE TWO QUESTIONS

7. Explain five advantages of written records
8. What were the results of iron discovery in East Africa (six points)
9. Explain six techniques that British used to occupy the cape of South Africa
10. Why abolition of slave trade took long time along the East African coast?

NAME _____ DATE _____

INSSTRUCTIONS

- The paper consists of three (3) sections namely A, B and C
- Answer all questions
- Be neat
- Use blue or black pen
- Good handwriting will be appreciate

SECTION A (20 marks)

1. For each of the item (i-x) choose the correct answer among the given alternative and write its letter in the space provided
   i. The people whose work is to study and explain the past remains are known as
      a. Black smith
      b. Archaeologist
      c. Anthropologist
      d. Professionals
   ii. Ntemi system was common among the
      a. Nyamwezi and chagga
      b. Zaramo and Luguru
      c. Pare and chagga
      d. Nyamwezi and gogo
   iii. The kwavi was the agricultural society among the
      a. Hadzabe
      b. Gogo
      c. Maasai
      d. Hehe
   iv. During the middle stone Age man discovered
      a. Zinjanthropus at Olduvai Gorge
      b. Money
      c. Fire
      d. Iron tools
   v. One of the following was not a factor for the rise and consolidation of Buganda Kingdom in Uganda
      a. The rise of Bunyoro kingdom in Uganda
      b. Good and strong leadership
      c. Presence of strong standing army
      d. Geographical factor (agriculture)
   vi. Was the second mode of production principled on the exploitation of man by his fellow man it was on property and land
      a. Primitive communalism
      b. Capitalism
      c. Feudalism
      d. Slavery

vii. The following were the effects of iron technology in African societies except only one was not society
   a. Led to state formation
   b. More food produced from agriculture
   c. Population increased due to availability of food
   d. Formation of stone Age

viii. In which stage of the evolution of man did agriculture and domescacation of evolve?
   a. Early stone Age
   b. Iron age
   c. Late stone Age
   d. Middle stone Age

ix. The main factor for the decline of the Trans-Sahara trade in the 15th century was the
   a. Spread of islamic Jihad in west Africa
   b. Rise of Savanna states
   c. European conquest
   d. Rise of coastal trade or trans-Atlantic trade

x. The well known matrilineal societies in East Africa by the nineteenth century were the
   a. Mwera, makonde, Kury and Maasai
   b. Kikuyu, Kamba, Hehe and Gogo
   c. Mwera, Kamba, Kikuyu and Makonde
   d. Haya, Sambaa and Zigua

i	ii	Iii	iv	v	vi	vii	viii	ix	x

2. Match the responses in list B with the work/ phases in list A by writing the letter of the correct response in the box provided

LIST A	**LIST B**
i. Microlith ii. Kabaka iii. Isike, Mrambo iv. Study of language v. Geological period vi. Creationism vii. Australopithecus Africans viii. Development means ix. The pastoral societies were x. Material used to make clothes in pre-colonial time were	A. A smaller and refined stone tools used in the late stone Age B. Oral tradition C. Mtemi of Nyamwezi chiefdom D. The title of the king of Buganda kingdom E. The title of the queen of Nyamwezi chiefdom F. Stone tools used by man during the early stone age G. Chief of the Wahehe H. Linguistic I. These are spans of time characterized by certain condition and specific type of animals J. Is a line along which dates and events are shown K. The gradual development of plants and animals L. The theory that explain that the supernatural power created everything in

	the universe M. The first stage of mans evolution N. The second stage of man's evolution about 12,000,000 O. Progressive changes from low to high standard of living P. Means the sense of knowing how to use computer Q. Pokot, Karamajong, Nandi, Nottentos R. Yao, Maasai, Zigua, Kerewe S. Bark, Bast, Raffia, Silk, Wool and Cotton T. Bark, nylon, sisal, cotton, pyrethrum

i	ii	Iii	iv	v	vi	vii	viii	ix	x

SECTION B (40 marks)

Answer all questions in this section

3. (a) draw sketch map of Africa showing the East Africa coastal city states that existed. Namely Sofals, Lamu, Pate, Kilwa, Bagamoyo, Mombasa, Mogadishu

   (c) The wealthy of these city states were obtained by various ways, mention four (4) of them

   i. _____
   _____

   ii. _____
   _____

   iii. _____
   _____

   iv. _____
   _____

4. Complete the following passage by filling in the blanks with the right words from the list below
   Museums, archives, written documents, linguistics, anthropology, oral tradition

   i. _____include books, pamphlets, magazine and news paper in everyday use. They can be found in libraries, bookshop, school, colleges and other institution

   ii. _____ in history handed down by word of mouth, collecting historical surformation from the source is dove by talking and listening to people

   iii. The study of social and cultural institutions called _____ this science studies a societies cultural systems belief and ideas

   iv. _____ are places which created for preserving historical information they usually contain collection of all sorts of items which shows cultural social, political, economic and technological development from the past to present

   v. The study and analysis of various languages and their relationship is called _____ it deals with sound structure, information names and possible adaptation and changes of languages.

vi. _____ are collection of private and public documents. They include early missionary and travelers records, colonial and government record

5. The following statements are either TRUE or FALSE write T after the true sentences and F after false statement
   i. The trans Sahara was conducted by Europeans from spain and Portugal _____
   ii. Pastoralist was common in and or semi desert in east Africa _____
   iii. Discovery at archeological sites may also reveal past settlement _____
   iv. Bi- pedalism is the state of walking on two feet _____
   v. Mirambo of the Nyamwezi, mataka of the Yao and Kivol of the Kamba were chiefs who accumulated wealth from long distance trade _____
   vi. Late stone Age paintings can be found in Iringa _____
   vii. Salt came from rock only _____
   viii. The Sultans wealthy came from trade _____
   ix. Grafts were famous mineral in Zimbabwe _____
   x. History is about the actions great men in society such as Benjamin Mkapa, Ally Hassan Mwinyi, Jakaya Kikwete and Barack Obama _____

SECTION C (40 marks)
Answer all questions from this section

6. (i) Draw a timeline showing important events in your life

iii. What do you understand by the following terms?
   a. A millennium
   _____
   _____
   _____
   b. Primates
   _____
   _____
   _____
   c. Mixed farming
   _____
   _____
   _____

d. Kinship

_____
_____
_____

e. Gunguli

_____
_____
_____

7. Explain the eight (8) consequences of the regional trade in East Africa

i. _____
ii. _____
iii. _____
iv. _____
v. _____
vi. _____
vii. _____
viii. _____

ST. ALOYSIUS GIRLS SECONDARY SCHOOL
MID- TERM EXAMINATION
FROM THREE COMMERCE

TIME 2:30 HRS
INSTRUCTIONS

1. This paper consists sections A, B and C with total of 10 questions
2. Answer all questions in section A and B and Two (2) questions from section C
3. Observe all examination regulations

SECTION A (20 marks)

1. For each of the items (i-x) choose the correct answer from among the given alternatives and write its letter beside the item number
   i. _____ is a means used by produces to identify their products from the other manufacturers
      A. Branding
      B. Sorting
      C. Colour
      D. Packaging
      E. Survey
   ii. The most essential characteristic of money is
      A. Acceptability
      B. Portability
      C. Divisibility
      D. Durability
      E. Scarcity
   iii. Businessmen who do not have permanent business premises are called
      A. Itinerant traders
      B. Gamblers
      C. Brokers
      D. Underwriters
      E. Retailers
   iv. Money used to start business is called
      A. Interest
      B. Savings
      C. Loss
      D. Profit
      E. Capital
   v. Which of the following is not element of transport?
      A. Terminal
      B. Way of transport
      C. Motive power
      D. Containerization
      E. Unit of carriage
   vi. _____ means all activities necessary in bringing goods and services in the market
      A. Sales
      B. Distribution
      C. Market
      D. Market survey

E. Marketing

vii. A trader hiring a ship for a single journey will take
   A. Time charter
   B. Voyage charter
   C. Ship contract
   D. Charter party
   E. Ship contract

Viii. Which of the following is not function of marketing boards?
   A. Promote price discrimination
   B. Storage of produce
   C. Collection of produce and transportation
   D. Control production
   E. Buying and selling produce at fair price

ix. Variable cost is that which varies with
   A. Input
   B. Output
   C. Time
   D. Technology
   E. Position

x. One of the following is not a challenge facing cooperatives in Tanzania
   A. varieties of products
   B. high running cost
   C. unskilled personal
   D. competitions from private crop buy
   E. corruption

2. Match the items in list A with the responses in list B by writing the letter of the correct response beside the item number in the booklet provided.

LIST A	**LIST B**
i. The continuous increase in general price level	A. Legal tender
ii. Coins and Bank notes of a country authorized to be used and legally accepted in payment for debts	B. Advertising
iii. Is a form of providing information to the public about goods or services through a given media	C. Brand name
iv. Shops which sell the products of a particular manufacturer	D. Devaluation
v. The type of market involve buying and selling of final goods and services	E. Price
vi. Is the name, mark, symbol or sign given to a product with the aim of identifying the product and differentiating it from the competitors product	F. Factor market
vii. An activity which involves designing a	G. Deflation
	H. Currency
	I. Tied shops
	J. Appreciation
	K. Packing
	L. Commodity market
	M. Inflation
	N. Packaging
	O. Brand
	P. Pricing

	producer's container or wrapper in which goods are packed	
viii.	Is the whole process of putting or arranging goods in a container or package	
ix.	Is a purposeful action of the government of reducing the value of domestic currency in terms of a foreign currency	
x.	Is the exchange value of goods and services	

SECTION B (40 marks)
Answer all questions from this section

3. Differentiate the following commercial terms
   (a) Formal communication and informal communication
   (b) Oral communication and written communication
   (c) Audio media and Audio Visual media
   (d) Internal communication and External communication
   (e) Fax and Internet
4. (a) Describe five functions of Entrepreneurship as factor of production
   (b) Mention five qualities of a good package

5. (a) Mr. Chacha wants to advertise his product. Define advertising and give four (4) benefits he would gain by advertising his product
   (b) Mention five (5) important clauses in the charter party

6. The following figures of Mr. Mlacha are for the year 2016

Stock 01/01/2016	Tsh 1,000
Stock 31/12/2016	Tshs 1,400
Purchases	Tshs 12,000
Margin fraction	1/6

   Find
   (a) Mark up percentage
   (b) Cost price
   (c) Gross profit
   (d) Sales figure

SECTION C (40 marks)
Answer two questions only in this section

7. (a) Define Money
   (b) For the money to perform its functions there must be conditions necessary to be possessed by money. Explain five (5) conditions
   (c) Explain four (4) conditions for the existence of a market

8. (a) Define pricing
   (b) Explain five (5) factors a manufacturer should consider in fixing price of commodities
   (c) Explain four levels of stock

9. (a) Describe five (5) importance good internal communication in business organization
   (b) Explain five causes of inflation

10. (a) With vivid examples mention and explain four (4) forms of Demand
    (b) Explain five (5) arguments for Advertising to producer
    (c) Explain five (5) problems facing by marketing boards in Tanzania

ST. ALOYSIUS GIRLS SECONDARY SCHOOL
MID- TERM EXAMINATION
FROM FOUR COMMERCE

TIME 2:30 HRS
INSTRUCTIONS

1. This paper consists sections A, B and C with total of 10 questions
2. Answer all questions in section A and B and only two (2) questions from section C
3. Observe all examination regulations

SECTION A (20 marks)

Answer all questions in this section

1. For each of the items (i-x) choose the answer from among the given alternatives and write its letter besides the item number in your answer booklet(s)
   i. The difference between visible imports and visible exports is known as
      A. Invisible trade
      B. Terms of trade
      C. Balance of payment
      D. Balance of trade
      E. Visible trade
   ii. An equilibrium price is that price at which
      A. Demand is falling and supply is raising
      B. Demand and supply are equal
      C. Market price is falling
      D. Demand is rising and supply is falling
      E. Demand is greater than supply
   iii. Stale cheque is the one which
      A. Over six months old from the date drawn
      B. Cancelled by the drawer
      C. Date a head of the date of presentation
      D. Covering over due payment
      E. Dishonored by Bank
   iv. In a progressive taxation system
      A. Higher income earners pay less tax as their income increases
      B. Higher income earners pay less tax as their income remain constant
      C. Low income earners pay more taxes as their income increases
      D. Low income earners pay less tax as their income increases
   v. Agreement to hire a ship for a particular period of time is known as
      A. Time charter
      B. Voyage charter
      C. Advertising
      D. Containerization
      E. Charter party
   vi. The most essential characteristics of money is
      A. Acceptability
      B. Portability
      C. Divisibility
      D. Durability

E. Scarcity

vii. Other things remain constant the price of commodities are usually based on
   A. Demand and supply
   B. Competition
   C. Cost of selling
   D. Supply
   E. Demand

viii. The amount of capital a company is allowed to raise is called
   A. Paid up capital
   B. Called up capital
   C. Issued capital
   D. Nominal capital
   E. Call in arrears

ix. The tax levied on goods produced with in the country are called
   A. Custom duties
   B. Specific duties
   C. Advalorem duties
   D. Excise duties
   E. Preference duties

x. Where there is a limited company liability of
   A. Members is limited
   B. Reliable members is not limited
   C. Investors are limited
   D. Customers is limited
   E. Customer and members is limited

2. Match the item in Column A with the responses in column B by writing the letter of the correct responses besides the item number in your answer booklet

COLUMN A	COLUMN B
i. The shares entitled to profit payment after all other shares paid	A. Unsecured debenture
ii. The unit of loan that needs no property to be pledged against it	B. Non- cumulative preference share
iii. The shares that may be bought back by the company after a stated period of time	C. Debenture
iv. Profits which are not paid to the ordinary shareholders in the period they are earned	D. Retained earnings and provisions
v. The shares from which shareholders have the first right to receive dividends at fixed rate	E. Redeemable preference shares
vi. The unit of loan that can be bought back by the company	F. Participating preference shares
vii. The shares which are entitled to a fixed rate of dividends till they are paid.	G. Preference shares
viii. The shares which are entitled to a	H. Non- cumulative debenture
	I. Redeemable debenture
	J. Dividends
	K. Ordinary shares
	L. Cumulative preference shares
	M. Mortigaged debenture
	N. Ordinary share holders
	O. Redeeption of shares

	fixed rate of dividend when sufficient profit is available	
ix.	The shares which are entitled to a fixed rate of dividend when plus any extra profit after ordinary shares being paid	
x.	A long term finance raised by a company through public borrowing	

SECTION B (40 marks)
Answer all questions in this section

3. (a) Elaborate five disadvantages of Multiple shops
   (b) Briefly explain five benefits of installments selling to the seller

4. (a) Describe five functions of Entrepreneurship as factor of production
   (b) Explain five circumstances under which the wholesaler may be eliminated from the chain of distribution

5. (a) Why taxes are leaved by the government? Briefly explain by giving five reasons
   (b) In brief, analyse five advantages of direct taxes

6. Study the demand and supply schedule below and answer the questions
   Demand and supply schedule for sugar

Quantity demanded in kg	Quantity supplied in kg	Price per kg in Tshs
4000	1000	100
3500	1500	150
3000	2000	200
2500	2500	250
2000	3000	300
1500	3500	350
1000	4000	400

   (a) Calculate price elasticity of supply for sugar when the price increased from 150/= per kg to 200/= per kg
   (b) Draw up demand and supply curves; clearly show the equilibrium points, equilibrium price and equilibrium quantity, the region of excess supply and excess demand

SECTION C (40 marks)
Answer two (2) questions from this section

7. (a) Urafiki text tile industry of Dar es Salaam buys raw materials (cotton) in large quantity from Mwanza region. Such raw material needs to be transported to Dar es Salaam to effect production. Adoise them proper mode of transport to be used by describing the five advantages and five disadvantages of its use.

(c) Elaborate three circumstances which cause the dissolution of the partnership

8. (a) Explain five means in which any exporter may secure payments
   (b) Discuss three incentives provided by the government to its exporters to improve exports
   (c) Differentiate between planning and staffing in management

9. (a) Elaborate four main types of organization structure
   (b) Explain six (6) principles of insurance

10. (a) Explain how money solved the problems of Barter system (give four points)
    (b) Describe six merits of Barter system

THE END

SECTION A

1. For each of the items (i-x) chose the choose the correct answer among the alternatives and write its letter in the table provided below
   i. The following are reasons why waste disposal is a problem EXCEPT?
      A. Inadequate waste bins
      B. Excessive packaging of items
      C. Enforcing punishments to discourage littering
      D. Failure of cleaners to collect waste from public places
   ii. Clinical waste is described as
      A. Biodegradable
      B. Non- Biohazardous
      C. Non- Biodegradable
      D. Biohazardous
   iii. _____ is a statement that summarizes what a scientist has learnt from an experiment
      A. Hypothesis
      B. Conclusion
      C. Experiment
      D. Data analysis
   iv. Which one of the following branch is the study of micro- organisms
      A. Micro biology
      B. Bacteriology
      C. Mycology
      D. Morphology
   v. Which of the following do not match
      A. Tongue ----- sugar
      B. Ear ---- music
      C. Skin ---- touch
      D. Eye ------ Eye shadow
   vi. In a microscope if the eye piece reads x10 and objective lens reads x30, the total magnification is _____
      A. 30 times
      B. 300 times
      C. 3 times
      D. 10 times
   vii. Freedom from danger or injury is known as
      A. Burning
      B. Safety
      C. Good manners
      D. Personal hygiene
   viii. Why is it advisable to brush teeth after every meal?
      A. The food remains encourage germ growth
      B. The dentists advice us so
      C. Time is not enough in the morning
      D. To ease digestion
   ix. In biology, experiments are used to test
      A. Facts

B. Hypothesis
C. Laws
D. Problems

x. The surrounding in which living things live is called
A. Forest
B. Habitat
C. Environment
D. Crevices

I	ii	iii	iv	v	vi	vii	viii	ix	x

2. The following statements are either **TRUE** or **FALSE**. In the spaces provided write TRUE if the statement is correct and FALSE if statement is not correct.
   i. A hand lens is used to make object look smaller than normal size _____
   ii. Some laboratory accidents can be avoided by reading warning signs on the chemical containers _____
   iii. Irritability is the removal of cellular metabolic wastes from the body _____
   iv. Compost heaps are one way in which we can recycle kitchen waste _____
   v. We should buy new paper shopping bags each time we go shopping _____
   vi. Using cloth instead of paper to clean window helps to reduce waste _____
   vii. First Aid is given by a qualified doctor before a victim is sent to the hospital _____
   viii. Cigarette smoking is one of the risk behaviour _____
   ix. Sewage can be disposed by incineration _____
   x. If your partner is bitten by a mouse during an activity in the laboratory, you should report the matter immediately to the supervising teacher _____

3. The following are matching items. Match the phrase or term in list A with that in list B by writing its letter in the space provided in the table end of the question (10 marks)

LIST A	**LIST B**
i. A disease that occurs over a wide geographical area ii. The invasion of the body by a disease-causing micro organism iii. A way of inducing resistance to any antigen iv. A condition that affects the health of the body and is characterized by a certain symptom v. A micro-organism that can affect health if it gets into the body	A. Disease B. Vaccination C. Infection D. Pandemic E. Endemic F. Pathogen G. Immunity H. Symptom I. Contagious

List A	i	ii	iii	iv	v
List B					

4. Complete each of the following statements by writing the correct answer in the space provided (10 marks)

   i. A temporary treatment carried out to a sick person before arriving to hospital is termed as _____

   ii. Turning waste into useful products is termed as _____

   iii. A place where solid waste is buried in the ground is called _____

   iv. An involuntary ejection of substances from the stomach through the mouth is called _____

   v. The combustion of waste at high temperature is known as _____

SECTION B

5. Define the following Biological terms (10 marks)

   i. Health

   _____
   _____
   _____
   _____

   ii. Good manners

   _____
   _____
   _____
   _____

   iii. Personal hygiene

   _____
   _____
   _____

   iv. Environment

   _____
   _____
   _____
   _____
   _____

   v. Immunity

   _____
   _____
   _____
   _____

(b) Differentiate between (8marks)

i. Epidemic and Endemic diseases

_____
_____
_____
_____

_____
_____

ii. Waste and Waste disposal

_____
_____
_____
_____
_____
_____

(c) Mention three effects of poor waste disposal (3marks)

i.

_____
_____

ii.

_____
_____

iii.

_____
_____

8. (a) Use three words from the list given below to name the type of immunity possessed by the person in the table

   LIST OF WORDS: Active, Passive, Natural, Artificial and immunity (6marks)

How the immunity was gained		
i.	Anti bodies from immune horse were injected to a human body to protect him from tetanus infection	
ii.	A person developed immunity against measles after suffering and recovering from the disease	
iii.	A baby gained immunity through breastfeeding from its mother	
iv.	A boy was immunized against polio at the clinic when he was just two months	

   (b) Outline steps taken when helping a fainting person. (4marks)

   (a) _____
   _____

   (b) _____
   _____

   (c) _____
   _____

   (d) _____
   _____

9. (a) What are the causes of the following disease (3marks)
   i. Cholera _____
   ii. Typhoid _____
   iii. Malaria _____
   (b) Mention three factors that affect immunity (3marks)
      i. _____
      ii._____
      iii._____

   (c)List any two changes in boys at puberty (2 marks)
      i. _____
      ii. _____
   (d)Mention any two unique things that shows biology laboratory is different from other school facilities (2 marks)

HAPPY EASTER

ST. ALOYSIUS GIRLS SECONDARY SCHOOL
MID- TERM TEST
ENGLISH LANGUAGE
FORM THREE

TIME 2:30 HRS **3RD APRIL 2019**

INSTRUCTIONS

1. This paper consists of sections A, B, C and D
2. Answer all questions in sections A and B, and in section C and D as instructed under section
3. All writing must be in blue or black ink
4. Write all answers in the answer sheet provided.

1. Read carefully the passage below and answer the questions that follow:

The human mind makes possible all development achievements, from health advances and agricultural innovations to efficient public administration and private sector growth. For countries to reap these benefits fully and Tanzania is no exception, they need to unleash the potential of the human mind. And there is no better tool for doing so than education.

Twenty years ago, government officials and development partners met to affirm the importance of education in development on economic development and broadly on improving people's lives and together declared Education for all as a goal. While enrolments have risen in promising fashion around the world, learning levels have remained disappointingly and many remain left behind. Because growth, development, and poverty reduction depend on the knowledge and skills that people acquire, not the number of years that they sit in a classroom we must transform our call to action from Education for all to learning for all

First, foundational skills acquired early in childhood make possible a lifetime of learning. The traditional view of education as starting in primary school takes up the challenge too late. The science of brain development shows that learning needs to be encouraged early and often, both inside and outside of the formal schooling system. In the primary years, quality teaching is essential to give students the foundational literacy and numeracy on which lifelong learning depends.

Adolescence is also a period of high potential for learning, but many teenagers leave school at this point. Lured by the prospect of a job, the need to help their families, or turned away by the cost of schooling. For those who drop out too early, second- chance and non- formal learning opportunities are essential to ensure that all youth can acquire skills for the labour market.

Second, getting results requires smart investments, that is investments that prioritise and monitor learning, beyond traditional metrics, such as the number of teachers trained or number of students enrolled. Quality needs to be the focus of education investments, with learning gains as the key metric of quality. Resources are too limited and the challenges too big to be designing policies and programs in the dark. We need evidence on what works in order to invest smartly

Third, learning for all means ensuring that all students and not just the most privileged or gifted, acquire the knowledge and skills that they need. Major challenges of access remain for

disadvantaged populations at the primary, secondary and tertiary levels. We must lower the barriers that keep girls, children with disabilities, and ethno linguistic minorities from attaining as much education as other population groups. “learning for All” promotes the equity goals that underlie Education for All and the SDGS. Without confronting equity issues, it will be impossible to achieve the objective of learning for all. Achieving learning for all will be challenging, but it is the right agenda for the next decade. It is the knowledge and skills that children and youth acquire today- not simply their school attendance that will drive their employability, productivity, health and well- being in the decades to come, and that will help ensure that communities and nations thrive.

Questions

(a) Choose the most correct answer from among the alternatives and write its letter in the answer sheet given

i. Education is a tool for the development achievement as
   A. It make people have self awareness about many issues
   B. It makes health, agriculture and administration possible
   C. It helps people get employment
   D. Girls chance to acquire education that help them

ii. The challenge(s) of Tanzania’s education include
   A. Enrolment that does not consider the age of the learner
   B. Few number of classrooms and learners or students that are enrolled
   C. Shortage of trained teachers, classrooms and enrollment
   D. Education being for all

iii. What does the author mean when he say’s “We must transform our call to action from Education of all to learning for All?
   A. Girls should not be enrolled in schools
   B. Privileged and gifted only are the ones to study
   C. It is not important to take children to school because learning can also be done out of school environment
   D. Every child who is enrolled has the right to learn despite sex, disability should help society.

iv. The author suggests the investment in education that aims at focusing on
   A. Reducing the number of years a pupil to stay in school
   B. Increasing the number of teachers, enrolment and children
   C. The outcomes of the learning from the learner
   D. Increasing the number of children in schools

(b) Complete the following by using the right information from the passage

i. Why has learning levels have remained disappointing despite enrolment rising?
   _____
   _____

ii. What does the author say about the pupils stop schooling?
   _____
   _____

iii. What do “literacy” and “numeracy” mean as used in the passage?

_____
_____
_____

2. Read the passage below and summarize into five sentences

Adolescence can be tough enough to get through without questions of sex, sexuality and sexual identity. But adolescents are humans too no matter how alien they may seem to their parents at times. Openly addressing the all too human questions of sexual development, sexual desire and nature of the adolescent's developing sexual identity are critical. Sharing practical information with and giving good moral guidance to teenager is a vitally important part of helping teens understanding themselves. It can help the child avoid devastating and possibly life- threatening errors and judgment. Early adolescence is a dangerous period in youths, sexual development because of inter- relationship between sexual, mental and emotional developments. Youths at this age lack such development that is necessary to make ill- prepared to cope with consequences of sexual activity.

SECTION B (20marks)
PATTERNS AND VOCABULARY
Answer all questions in this section

3. Customer: Do you sell bread, sugar and some cooking oil?
Shopkeeper: Yes, I do _____
Customer: I want a big _____ of cooking oil, three _____ of sugar and two _____ of bread.
Shopkeeper: Here you are _____?
Customer: Yes, I want a _____ of mbuni soap _____ a _____ of oil, and a _____ of khanga

4. Re- write the following questions according to the instruction given after each
   i. Anna does not go to school every day. Mwajuma does not go to school either. (use: neither)
   ii. You will get division one if you study hard. use: unless_____
   iii. "Do you know when your sister will arrive, Gwantwa? She asked.
   Begin: she asked _____
   iv. Mt Kilimanjaro is the highest mountain in Africa. (Begin with: there is no mountain)
   _____

5. One of the words in each of the following sentences is wrong. Correct them by writing the right spelling of the wrong words.
   i. Our clothes got wait when it rained
   ii. Tanzania is reach in natural resources
   iii. The tourists climbed the heel but they could not come back
   iv. After standing for a while, she was told to have a sit.

6. Re write the following sentences by changing the underlined words into adjectives
   a. She has a friend from <u>China</u>
   _____

b. The bought a bed made of <u>wood</u>

_____

c. The community has many projects to ensure they <u>survive</u>

_____

d. Maria is one of the students who <u>succeeded</u>

_____

7. Complete the sentences with the correct question tag
   a. Let's go to the library after school

   _____

   b. Be here at 8 in the morning

   _____

   c. No one came while I was out

   _____

   d. Sam never comes on time

   _____

SECTION C (30 marks)
LANGUAGE USE

In this section answer question 8, 9 and two (2) of the four given alternatives in question 10.

8. Re- arranges the following sentences in a logical sequence to make a meaningful paragraph. Write your answers like this, 6---G.

1. This paper consists of sections A and B
2. Answer all questions in the spaces provided
3. All writing must be in the black or blue except diagram which must be in pencil
4. The following atomic mass may be used: H= 1, N=14, C=12, S=32, Cl= 35.5

SECTION A (20 marks)

1. For each of the items (i-x), choose the correct answer from the given alternatives and write its letter.
   i. Which of the following is not among the gases composing air?
      a. Hydrogen
      b. Nitrogen
      c. Carbon dioxide
      d. Noble gas
   ii. Which of the following are the states of matter?
      a. Gas, liquid and mixture
      b. Gas, liquid and solid
      c. Element, compound and mixture
      d. Element, mixture and gas
   iii. Which of the following are the main components of fire triangle?
      a. Oxygen, temperature and fire
      b. Oxygen, temperature and fuel
      c. Oxygen, heat and fuel
      d. Air, temperature and fire
   iv. Why is the fractional distillation of coal done?
      a. To add volatile
      b. To add oxygen in the furnance
      c. To remove volatile matter
      d. To remove oxygen in the atmosphere
   v. Fainting is a sudden loss of
      a. Confidence
      b. Weight of the body
      c. Water in the body
      d. Consciousness
   vi. When a small amount of salt is dissolved in a glass of water the mixture formed is
      a. Homogenous
      b. Suspension
      c. Immiscible
      d. Heterogenous
   vii. A certain element has atomic number “W” and mass number “Y” The number of neutrons contained in its nucleus is
      a. Y +W
      b. W-Y

c. Y- W
d. W

viii. How many zones are in a luminous flame?
a. Five zones
b. Four zones
c. Two zones
d. Three zones

ix. The process of coating iron or steel with a tin is known as
a. Tin plate
b. Galvanization
c. Alloying
d. Zinc painting

x. The process of removing solid contaminants from water is known as
a. Water decantation
b. Water solidification
c. Water purification
d. Water sedimentation

i	ii	iii	iv	v	vi	vii	viii	ix	x

2. Match each item in list A with a correct response in list B by writing the letter of the correct response below the corresponding item number in the table provided.

LIST A	LIST B
i. Ability of an atom to attract electrons towards it	A. Periodicity
ii. Minimum energy required to take one electron from a gaseous atom	B. Periodic table
iii. Tendency of an atom to lose electrons	C. Metalloids
iv. Distance between nucleus of an atom and outermost shell	D. Atomic size
v. Arrangement of the elements according to increasing atomic numbers.	E. Metallic character
	F. Electro positivity
	G. Atomic mass
	H. Electro negativity
	I. Reactive metals
	J. Ionization energy

ANSWERS:

i	ii	iii	iv	v

(b) Fill in the blank spaces with the correct answer

A. A reaction that releases energy in the form of heat and light is called _____
B. A chemical process that occurs in steel and iron in the presence of air and water is known as _____
C. Oxygen, heat and fuel are the three components that make _____
D. Injuries resulted from the body coming into contact with heat or harmful chemicals are called _____

E. A solution which can dissolve no more solute at a given temperature is called _____

SECTION B (80 marks)

3. (a) Write down meaning of the following terms

i. Flammable

_____
_____
_____

ii. Toxic

_____
_____
_____

iii. Oxidizing agent

_____
_____
_____

iv. Harmful

_____
_____
_____

(b) Give four importance of the first aid

i. _____
ii._____
iii._____
iv._____

4. (a) Draw and give one function of the following apparatus

Apparatus	Drawing	Function
i. Measuring cylinder		
ii. Conical flask		

(b) by excluding a Bunsen burner, mention other three sources of heat that can be used in the laboratory

i. _____ ii. _____
iii._____

(c) Why a Bunsen burner is the best heat source in the laboratory? Give three (3)

i. _____
_____

ii. _____
_____

iii. _____
_____

5. (a) Define the following terms

i. Chemical symbol

_____
_____
_____

ii. A metal

_____
_____
_____

iii. Non- metal

_____
_____
_____

(b) Write the chemical symbols for the following

i. Lead _____ ii. Potassium _____ iii. Gold _____

(c)Which method would you use to separate each of the following mixtures?

i. water mixed with Kerosene _____
ii. Iron powder mixed with sand _____
iii. Water mixed with alcohol _____
iv. Iodine mixed with sodium chloride crystal _____

6. (a) During preparation of Hydrogen gas by the reaction between dilute hydrochloric acid and zinc granules, the granules slowly dissolve in acid to form solution X.

i. Name solution x _____
ii. White chemical formula of X _____

(b) how can hydrogen gas be tested?

_____

(c)Mention four (4) chemical properties of hydrogen gas

i. _____
ii. _____
iii. _____
iv._____

(d)List three (3) uses of hydrogen gas

i. _____
ii. _____
iii. _____

7. (a) Define the following
   i. Chemical formula
   _____
   _____
   _____
   ii. Valency
   _____
   _____
   _____
   iii. Radical
   _____
   _____
   _____

(b) Give one reason for each of the following

i. Hydrogen is used in filling ballons
_____

ii. When a mixture of sand and ammonium chloride is heated, sand remains in the heating container
_____
_____

(c)Write the formula of the following compounds

i.	Calcium nitrate	iv.	Sodium sulphite
ii.	Ammonium sulphate	v.	Calcium hydrogen carbonate
iii.	Iron (iii) sulphate		

8. (a) What is meant by the term oxidation state
   _____
   _____
   _____
   (b) Name the following radicals and state their valencies

i. NH_4 _____ iv. NO_3 _____

ii. CO_3 _____ v. SO_4 _____

iii. HCO_3 _____ vi. SO_3 _____

(c)Find oxidation state of the underlined element in the following formula

i. $K_2 \underline{C_2} O_4$	ii. $K \underline{Mn} O_4$

9. (a) Define matter

_____
_____
_____

(b) Write the names of the following processes of changing matter from one state to another

a. _____ d. _____
b. _____ e. _____
c. _____

(c) State four points of the old Dalton's Atomic Theory

i. _____

ii._____

iii._____

iv._____

10. (a) Define the following terms

i. Empirical formula

_____

_____
_____

ii. Molecular formula

_____
_____
_____

(b) A compound consists of 85.7% carbon and 14.3% hydrogen by mass. If its relative molecular mass is 56, calculate

i. Empirical formula

iii. Molecular formula

ST. ALOYSIUS GIRLS SECONDARY SCHOOL

FORM FOUR PRE- MOCK EXAMINATION

HISTORY

TIME 3HRS

INSTRUCTIONS

1. **This paper consists of SECTION A,B, and C**
2. **Answer all questions in SECTION A, B and only 3 three questions from SECTION C**
3. **All answers must be written in the answer sheet provided.**

SECTION A 20 marks

Answer all questions in this SECTION

1. Choose the letter of the most correct answer from among the given alternatives.
   i. The following are characteristics of the East African slave trade except
      A. Severe human torture on transit
      B. Humiliation and dehumanization
      C. Slaves enjoyed fruits of their labour
      D. Slaves were brutally whipped by slave drivers
      E. Slaves replaced the machines
   ii. The world war I ended in 1918 with the defeat of
      A. Triple Entente
      B. Triple alliance
      C. Allied forces
      D. Axis power
      E. Neutral powers
   iii. The name given to the great series of actions or body of policies undertaken by president Franklin – Delana Roosevelt's administration to lift the American people out of depression and lead them to a new future
      A. Open Door policy
      B. Marshal plan
      C. New Deal
      D. Relief, recovery and Reform policies
      E. Industrialization policy in America
   iv. The following are the reasons for the Algerians to apply violent means during liberation struggles against the whites Except
      A. It had a large French population of setters
      B. It had a large British population of settlers
      C. It was a colonial laboratory where policies could be tested.
      D. The Regard of the colonies as the main source of wealth
   v. The following is causes of Zanzibar Revolution
      A. Ruthless leadership of ZNP/ ZPPP government
      B. Appeasement policy towards main Landers police
      C. ASP's reception toward election
      D. Dishonest/ Betrayal of NCP towards the Acera Agreement of 1958
      E. All the above

vi. The assassination of Edward Mondlane took place in
   A. 1969
   B. 1962
   C. 1975
   D. 1964
   E. 1966

vii. Most of the settler dominated colonies got independence through armed struggle due to the fact that
   A. There were no strong leaders in the counties
   B. The whites had heavily invested in their colonies
   C. They were not ready to demand their independence through peacefully means
   D. They had military strength
   E. They were few in number

viii. The permanent members of the UN security council are
   A. Britain, Canada, France and German
   B. USA, Russia, Britain, France and German
   C. Russia, China, USA, France and Britain
   D. Russia, France, USA, Italy and China
   E. Russia, USA, France, German and Italy

ix. One of the following factors lead to the withdraw of Tanzania from COMESSA
   A. Was suspended
   B. Personal interest of president Mkapa
   C. Political in stability is S. Africa
   D. Was charged a lot of money than other members
   E. Multiple membership

x. The first General secretary of UNO was
   A. Koffi Annan
   B. Trygive-Lief
   C. U Thant
   D. Boutros- Boutros
   E. Ban Ki- moon

2. Match the following items

i.	The founder of Luba empire	A.	Eduard Mondlare
ii.	Established the Tanzania, Zambia railway to reduce dependence on south – African network	B.	Patrice Lumumba
		C.	Adolf Hitler
		D.	Joaqim – Chisano
iii.	The first president of Zimbabwe	E.	Donald – Cameroon
iv.	The last leader of Boer government	F.	Carl Peters
v.	Nigerian's first president	G.	Keneth- Kanda
vi.	A German Dictator with unlimited power and ambition to make	H.	Samora- Matchel
		I.	Kalala Illunga

German great again vii. Mozambique became a sovereign state under his leadership viii. Prime minister of Congo independent state in 1960 ix. Played a leading role in pan Africanism x. Led a Ngoni group which settled in Ufipa	J. Tafawa- Balewa K. Nnandi Azikiwe L. Kwame Nkurumah M. Canan Banana N. Frederick De- Klerk O. Robert- Mugabe P. Rubia Banda Q. P.W . Bortha R. Zwangwendaba S. Lobengula T. Mobutu Sesseko

SECTION B 20 marks

3. **(a) draw a sketch map of Africa and locate the following by using capital Roman numbers**

   I. A country in which COMESA was formed
   II. A country which withdrew itself from COMESA in 2002
   III. A country whose current president is Cyril Ramaphosa
   IV. A country in which indirect Rule system of administration was first introduced by Governor Lugard
   V. Settler dominated colony in E. Africa

   (b**) Mention five roles of colonial military**

4. (a) Arrange the following sentences in the chronological order by writing number 1-5
   i. The District officers exercised full jurisdiction over the people
   ii. German Rule was renowed for its harshness
   iii. For the same reasons, very few officers could travel without armed escort for fear of being attacked by the people
   iv. Force war the base of German Rule and East European travelled with a whip
   v. They meted out to “offenders” any punishment they chose

   (b) **Write short notes on the following**
   i. European balance power
   ii. Sarajevo assassination
   iii. Umkoto we sizwe
   iv. Kipande system
   v. Marshall plan

SECTION C 60 marks

Attempt any 3 questions

5. Explain the contribution of political parties to the Africa's decolonization process (8points)
6. Comment on the motives behind the shift from Assimilation to Association policy (8 points)
7. Examine the weaknesses of colonial industry in East Africa (8 points)
8. Account for state formation in Africa (8 points)
9. Does Africa need Regional Economic integration? Why? Give 8 reasons
10. Otta Von Bismark was the Architect of the colonization process in Africa. Discuss.

ST. ALOYSIUS GIRLS' SECONDARY SCHOOL

PRE-MOCK EXAMINATION APRIL 2019

FORM FOUR BASIC MATHEMATICS

TIME 3HRS

INSTRUCTIONS

1. This paper consists of sections A and B
2. Answer all questions in section A and any four (4) questions in section B
3. All necessary workings and answers of each question attempted must be shown clearly
4. Where necessary R= 6370km
5. Untidy work may lead to loss of marks

SECTION A (60 marks)

1. (a) compute $\frac{8.802 \times 0.00123}{0.01252 \times \sqrt{3521}}$ by using mathematical table

   (b) Express 0.269 in the form of $\frac{x}{y}$ where y ≠ 0 hence deduce that 0.269= 0.27

2. (a) Given that $\sqrt{2} = 1.44$, $\sqrt{3} = 1.732$. evaluate correct into two significant figures

   i. $\sqrt{48} + \sqrt{72} + \sqrt{12.5}$

   (b) Solve the equation $1-2^{x+1} - 2^x = -2^{2x+1}$

   (c) Solve for x given the equation $\log_2 x - \log_8 x = 4$

3. (a) in form four class, 16 girls like dancing, 6 girls are pretty and 7 girls are intelligent. Every pretty girl in the class likes dancing, 4 intelligent girls do not like dancing. If 3 girls are both pretty and intelligent;

   i. represent this information in a Venn diagram
   ii. Find the number of girls in the class
   iii. Find the number of girls who are pretty but not intelligent
   iv. Find the number of girls who like dancing and are intelligent

(b) Express "C" in terms of other letters, if

$$M = \sqrt{a^2 + \sqrt{4 + pc^2}}$$

4. (a) Given vectors a= 4i + 2j, b= 3i + 2j, and c= 6i + 12j

   i. find the scalars m and n such that ma+ nb =c
   ii. Find the unit vector and direction cosines of d if d= 2a – 3b + c

(b) i. What value of "a" will make the line joining (a , 10) and (-4, 6) parallel to the line joining (6, a) and (2,0)?

ii. show that the mid- point of the line segment whose end points are $(\sqrt{8}, \sqrt{12})$ and $(4\sqrt{2}, 4\sqrt{3})$ is $\left(3\sqrt{2},\ 3\sqrt{3}\right)$

5. (a) if $a^2 + b^2 = 9$ and $a + b = -5$ find the value of ab

(b) if AB= 8cm, BC = 6cm, AC = 9cm and AD = 12cm calculate AE and DE given the diagram below.

(c) Given the ABC PQR and the area of ABC is $720cm^2$ while that of PQR is $80cm^2$ if the altitude of PQR is 3cm, find the corresponding altitude of ABC

6. (a) 15 students can dig a trench 45m long in 5 hours. How long would it take 16 students to dig a trench of 40m long?

(b) if the exchange rates on a given day were
1 US dollar = Tshs 1690
1 swedish kroner = Tshs 250/=

Convert i. 15 kroner into US dollars
ii. 30 US dollars into Swedish kroner

7. (a) A bookseller purchased books for 20,000/= She sold 80% of them at a profit of 25%, 60% of the remaining at a loss of 5% and the remaining at the buying price. Calculate her overall profit .

(b) How long will it take for a certain amount of money to double itself at a rate of 7% compounded annually?

8.(a) Prove that $\log x + \log xy + \log(xy^2) + \ldots\ldots\ldots\ldots\ldots\ldots\ldots\ldots\ldots\ldots . is\ an\ AP$

(b) Given the series $\frac{3}{4} + \frac{4}{7} + \frac{5}{10} + \frac{6}{13} + \ldots\ldots\ldots\ldots\ldots\ldots$

Find the nth term and hence give the 20th term of the series

(c) if a, b, and c, are consecutive terms of a GP series. Show that $\frac{1}{(a+b)}, \frac{1}{2b}, and\ \frac{1}{(b+c)}$ are consecutive terms of an AP series.

9.(a) without using mathematical tables evaluate cos 15

(b) Given that sin A= $\frac{3}{5}$, and Cos B = $\frac{5}{13}$ where A is obtuse while B is acute find Sin (A + B)

(c) Given a triangle ABC where A= 73^0 B= 28^0 and c= 42cm Find the missing angle and sides of this triangle

10. (a) solve by completing squares

$-4x^2 - 14x - 12 = 0$

(b) Solve for x and y such that

$\frac{7}{4x} - \frac{1}{2y} = \frac{3}{x} + \frac{2}{y} = \bar{8}$

SECTION B (40 marks) Attempt only four questions

11. Swabrah Enterprises company ltd operates two plants to manufacture products P, Q and R. the first plant at KITEMU can manufacture 1 (one) unit of P, 4 (four) units of Q and 4 (four) units of R at a cost of 6000/= per hour. The second plant at KIMARA can manufacture 3 (three) units of P, 5(five) units of Q and 1 (one) unit of R at a cost of 4000/= per hour. The company has received an order of 80 units of P, 230 units of Q and 110 units of R. how many hours should be allocated to each plant to satisfy the order but the least cost? What is the least cost?

12. The following table show marks of scored by 80 students in mathematics test

Marks (%)	No. of students
50-54	1
55-59	2
60-64	11
65-69	10
70-74	x
75-79	21
80-84	y
85-89	9
90-94	4
95-99	4

If x = 2y calculate

i. Mean using assumed mean as mid mark of the model class

ii. Find the mode and median
iii. Draw the cumulative frequency polygon

13. (a) Given two points along a parallel of latitude 60^0 N one is on longitude 30^0 E and the other is 15^0W if R = 6370km
Calculate
i. The length of parallel of latitude 60^0N
ii. The distance in (km) between the two points along this parallel of latitude use
iii. If a ship sets off from the first point heading to the second point steaming at 120 knots find the time it takes to reach the second point

(b) i. Prove that for any cyclic Quadrilateral the exterior angle is equal to the opposite interior angle.
ii. Find the unknown angles from the figure below

14. (a) List any two uses of the Trial balance
(b) MR: B.A M'S Trial balance as at 31/ Dec/ 2018

S/N	Details	Dr	Cr
1	Sales		80000
2	Purchases	45000	
3	Returns	5000	2000
4	Stock at start	8000	
5	Carriage outwards	6000	
6	Carriage inwards	2000	
7	Salaries and wages	1500	
8	Machinery	40000	
9	Carriage inwards	4000	
10	Discounts	1500	6000
11	Capital		32000
12	Advertising	7000	
	Total	120,000	120,000

Stock at close was valued at 3500

Use the above trial balance to calculate

i. Cost of goods sold

ii. Gross profit

iii. Net profit

iv. Average stock

v. Gross profit mark up

15. (a) Given that $\begin{pmatrix}13\\11\end{pmatrix} = \begin{pmatrix}x & y\\2x & 3\end{pmatrix}\begin{pmatrix}-2\\5\end{pmatrix}$ find the value of 2x - y

(b) A linear transformation "T" maps the point (x , y) to (x, y) where x = x- 3y and y= y + 3x

i. Write down the matrix corresponding to T

ii. Find the image of (-4 , 3) under this transformation

(c)Solve the following system of equations by inverse method

-5 – 21 = -4x and -3y = 2x-5

(d)Find the image of point obtained in (c) above when translated by T(-1, 2) followed reflection in the line y=x

16. (a) As given the relation R= (x,y) : 3x -2y > 6 and 2x + y < 4

i. Sketch the graph of R

ii. From your graph determine the domain and range of R

(b) Given the function $f(x) = 3\text{-}4x + x^2$

i. State the domain and Range of f(x)

ii. Sketch the graph of f (x) without a table of values

iii.Find $f^{-1}(x)$

(c) For which values of x is the function $f(x) = \frac{2x-1}{-3x^2+7x-2}$ undefined.

THE END

"MATHS IS A PRIORITY"

ST. ALOYSIUS GIRLS SECONDARY SCHOOL
MID TERM TEST APRIL 2019
CHEMISTRY FORM II

INSTRUCTIONS TIME 2:30 HRS

- ♣ This paper consists of sections A and B
- ♣ Answer all questions
- ♣ All writing must be in black or blue ink except diagrams which must be pencil
- ♣ The following atomic masses H= I C= 12 O= 16 S = 32 Ca= 40.

SECTION A (20MARKS)

1. For each of the items (I - x) choose the correct answer from the given alternatives and write its letter in the table below

(i) Which of the following is the most correct statement about hypothesis?

A. A stage in data interpretation

B. An important statement of a research conclusion

C. A possible explanation to the problem

D. A fundamental concept or theory

(ii) When an atom loses or gains electrons, it becomes:

A. An ion

B. An anion

C. A cation

D. A changed ion

(iii) What is the type of a fire associated with electrical equipment?

A. Class E

B. Class C

C. Class F

D. Class B

(iv) The sources of energy which when used can be put into use again is known as

A. Solar energy

B. Fuel

C. Non- renewable energy

D. Renewable energy

(v) Isotopes are atoms which have

A. The same number of neutrons

B. Different number of protons

C. Different number of electrons

D. Different mass number

(vi) When you melt a piece of iron, it undergoes

A. Sublimation

B. Physical change

C. Chemical change

D. Combination

(vii) One isotope of an element has atomic number A and mass number M. how many neutrons are contained in the nucleus of its atom?

A. M

B. A

C. A-M

D. M-A

(viii) The total number of protons and neutrons in the nucleus of an atom is called

A. Mass number

B. Atomic number

C. Molecule number

D. Valency number

(ix) Hydrogen gas can be collected by downward derivery because;

A. It burns in air with a pop sound

B. It is soluble than air

C. It is lighter than air

D. It can fill ballons

(x) Oxidation may be defined as

A. Loss of hydrogen by a substance

B. Gain of hydrogen by a substance

C. Reaction in which oxygen is lost

D. Reaction in which electrons are increased

(xi) Which of the following chemical species have the same number of electrons?

A. Cl, Be, He and O^{2-}

B. K^{+} ca^{2+} Cl^{-} and Ar

C. Na^{+}, Mg^{2+} Cl^{-} and Ar

D. O^{2-}, S^{2-} and Cl^{-}

i	ii	iii	iv	v	vi	vii	viii	ix	x

Match each item in list A with a correct response in list B by writing its letter below the number of the corresponding item in the table provided

LIST A	LIST B
i. Group of elements which react quickly with water to form alkaline solution	A. Metalloids
ii. The ability of an atom to attract an electron	B. Non- metals
iii. Group of elements in which their shells are completely filled up	C. Periodicity
iv. A vertical column of elements in the periodic table	D. Transition elements
v. Group of elements which react slowly with water to form alkaline solution	E. Electro negativity
vi. Group of elements which react with metals to form salts	F. Alkali metals
vii. Group of elements which react by receiving electrons	G. Halogens
viii. The systematic arrangement of elements according to their increase in atomic numbers	H. Periodic law
ix. Group of elements with high densities and melting points and often act as a catalysts	I. Alkali earth metals
	J. Rare non- metals
	K. Period
	L. Noble gases
	M. Periodic table
	N. Group

x. Group of elements which have both metallic and non- metallic characteristics	

i	ii	iii	iv	v	vi	vii	viii	ix	x

SECTION B (80marks)

(a) Give one reason for each of the following
Hydrogen gas is used in filling balloons
_____
When air is bubbled through lime water, it turns milky
_____
When iron bar exposed is exposed in air for 2 nights a reddish brown substance is formed.
_____
When a mixture of sand and iodine is heated sand remains in the heating container
_____

(b) Write chemical symbols of the following elements
(i) sulphur _____ (ii) fluorine _____ (iii) Argon _____
(iv) Magnesium _____ (v) iron _____ (vi) Mercury _____

(a) What is matter?
_____
_____
_____

(b) Mention three (3) states of matter (i) _____(ii)_____
(iii) _____

(c) Write the names of the following process of changing matter from one state to another

a. _____ b. _____ c. _____

d. _____ e. _____

5. (a)Define the following terms

(i) A rust

_____
_____
_____

(ii) rusting

_____
_____
_____

(iii) combustion

_____
_____
_____

(b) (i) Air is a mixture or a compound? _____

(ii) With four points suggest your answer

(i) _____

(ii) _____

(iii) _____

(iv) _____

(c) Mention four methods of preventing rusting

(i) _____

(ii)_____

(iii)_____

(iv)_____

6.(a) Define the following terms

(i) A fire

_____
_____

(ii) Firefighting

_____

_____

(b) Write down three (3) examples of combustible substances

(i) _____ (ii)_____

(iii)_____

(c) Explain why luminous flame is not used for heating

_____

(d) What do you understand by the following chemical warming terms? _____

(i) Explosive

_____

_____

(ii) Toxic

_____

_____

(iii) Flammable

_____

_____

(iv)Harmful

_____

_____

7. (a) draw an electronic configuration to illustrate the structure of atoms P and Q with 13 and 17 protons

(b) From the structures drawn in (a) above state valency, period and group. Where the atoms are placed in the periodic table

valency is _____ valency is _____

P. Period is _____ Q. Period is _____

Group is _____ Group is _____

(c) What is the use of the following apparatus?

(i) Sand bath_____

(ii) Dropper _____

(iii) Pipette _____

(iv) Tripod _____

(v) Desiccators _____

8. (a)(i) What do you understand by the term isotope?

_____

_____

_____

(ii) If sample X consists of 99.76% of ^{16} X, 0.04% of ^{17}X and 0.2% of 0.2 % ^{18} X , Calculate the relative atomic mass of X

(b) Write the formula of the following compounds

(i) Hydrogen chloride _____

(ii) Magnesium carbonate _____

(iii) Sodium carbonate _____

(iv) Magnesium sulphate _____

9. Study the Periodic table below

Use the letters shown in the Periodic table above to indicate:

(i) Elements with zero valency _____

(ii) The lightest atom _____

(iii) The alkaline earth metal _____

(iv) An element with electronic configuration of 2:8:1_____

(v) Give the names of elements represented by the mentioned letters
A._____ B. _____ C. _____ and D _____

(vi) Give the name of J as an element _____

(vii) Write the electronic configuration of J _____

10. (a) Draw a well labeled diagram for preparation of hydrogen gas

(b) What is the test of hydrogen gas?

_____

_____

(c) State any four uses of hydrogen gas

(i) _____

(ii)_____

(iii)_____

(iv)_____

ST. ALOYSIUS GIRLS SECONDARY SCHOOL
MID TERM TEST APRIL 2019
BIOLOGY FORM IV

INSTRUCTIONS : TIME 2:30 HRS

→ Attempt all the numbers in section A and B and any one number from section c

SECTION A (20 marks)

1. Choose the best answer and write its corresponding letter in the space provided.

   i. The part of the plant used for reproduction in Angiosperms is

      A. Flower

      B. Pistil

      C. Stamen

      D. Sepal

   ii. Fibrous tissue which joints one bone to another

      A. Filament

      B. Tendon

      C. Ligament

      D. Synovial joints

   iii. A disorder caused by over secretion of growth hormones during childhood

      A. Cretinism

      B. Dwarfism

      C. Gigantism

      D. Acromegaly

   iv. Which of the following hormones brings about secondary sexual characteristics in males

      A. Androgens

      B. Oestrogen

      C. Progesterone

D. Thyroxine

v. A term which best describes a condition where by a plant cell has lost too much water is

A. Turgidity

B. Haemolysis

C. Plasmolysis

D. Crenation

vi. Which of the following hormones stimulates seed germination in plants by breaking seed dormancy?

A. Gibberellins

B. Auxin

C. Cytokinins

D. Abscisic acid

vii. The function of the bright coloured petals in folowers is to

A. Store nectarines

B. Produce colour of the folower

C. Attract insects for pollination

D. Hold sepals in position

viii. How many gametes are produced from one cell during meiosis?

A. Eight

B. Two

C. Four

D. Six

ix. The role of optimum temperature in cellular activities is to

A. Change the chemical reaction

B. Destroy many enzymes at once

C. Speed up the rate of chemical reaction

D. Create favorable environment for the enzymes

x. Useful materials (substances) are retained in the kidney and sequentially in the body by

A. Ultra filtration

B. Osmoregulation

C. Selective reabsorption

D. Secretion

2. Match the phrases in list A with the responses in list B by writing the letter of the correct response from list B beside the item number of list A in your answer sheet

LIST A	LIST B
i. Pair of compound eyes raised on stalks	A. Diplopoda
ii. Numerous segments each bears one pair of legs	B. Coelenterata
iii. Numerous segments each bears two pairs of legs	C. Leech
iv. Have well defined head, thorax and abdomen	D. Arachnida
v. Consists of organisms which give birth to young ones	E. Liver flukes
	F. Mammal
vi. Have four pairs of jointed appendages	G. Insect
vii. Phylum which consist of earth worms	H. Nematode
viii. Phylum consisting of elongated round worms with pointed ends	I. Platyhelminthes
	J. Chordata
ix. Phylum consisting of endoparasites which have suckers and hooks on proscolex	K. Arthropoda
	L. Chilopoda
x. Endoparasites which have thin and leaf like body	M. Annelida

	N. Crustacea O. Vertebrata

SECTION B (60 marks)

3. (a) (i) Define the term classification
(ii) List three importance of classification
(b) With two examples in each case, give five class under phylum arthropoda
4. (a) draw a large and a neat labeled diagram of the villus found in the digestive system of human
(b)(i) Name the digestive juice which is produced by the pancreas
(ii) State the function of the substance contained in the digestive juice named in (b)(i) above
5. (a) define the term osmoregulation
(b) Briefly explain the mechanism of regulating sugar level in the blood
6. (a)(i) What is a neurone?
(ii) State three adaptations of any nerve cell
(b) Mr. Alex wanted to drink a hot coffee, he lifted up a hot glass of coffee and suddenly dropped it down and it broke because of hotness
(i) What name is given to this action?
(ii) Name three types of neurons involved in this action
(iii) Give one importance of the above action

7. (a) (i) What is gaseous exchange?
(ii) Arrange the following in correct order: Bronchi, Bronchioles, Nasal passage, Pharynx, Alveoli, and Trachea
(b) Name the structures concerned with gaseous exchange in
(i) Mammal
(ii) Camel
(iii) Spider
(iv) A young tadpole
(v) Fish
(vi)Earthworm
(c) Give three importance of gaseous exchange in plants
(d) Mention four features of respiratory surfaces which make its work efficient

8. (a) Define the following terms as used in Biology
i. Ecology
ii. Environment
iii. Community
iv. Ecosystem
v. Habitat
vi. Niche

(b) (i) state the difference between natural and artificial ecosystem. Give one example in each

(ii) Explain why food webs are more representative of feeding relationship than food chain

9. (a) (i) state four factors required for the formation of carbohydrates in plants

(ii) Describe an experiment in which you can show that any one of four factors stated above is necessary for carbohydrate formation

(b) Name two enzymes in human gut which breaks down carbohydrates and in each case state the site of production the substrate and the product

10. (a) (i) Define the term tropism

(ii) State the Biological importance of hydrotropism and phototropism

(b) How is accommodation brought about in the human eye?

SECTION C (20marks)

11. (a) What are endocrine glands?

(b) Outline any five hormones used to coordinate body activities. For each hormone, state the gland secreting it, its role and its effects to the body.

12. Write an essay on the economic importance of Bacteria

13. (a) What do you understand by the term disease?

(b) Write an essay on various methods by which human infectious diseases are transmitted. Give one example of disease in each case.

THE END

ST. ALOYSIUS GIRLS SECONDARY SCHOOL
MID TERM TEST APRIL 2019
COMMERCE FORM II

INSTRUCTIONS TIME 2:30 HRS

- ♣ This paper consists of section A B and C
- ♣ Attempt all questions
- ♣ All answers should be written in the space provided

SECTION A (30marks)

1. For each of the following items, write the letter of the correct answer in the box provided

(i) When the goods are transferred from the factory to the consumer so as to reach them this is known as

A. Primary production

B. Extractive materials

C. Tertiary production

D. Secondary production

(ii) Which of the following functions is not normally done by the wholesaler

A. Breaking the bulk

B. Selling goods to consumer

C. Market research

D. Buy goods from producer

(iii) Which of the following statements is not correct

A. The high the price of the commodity, the lower the quantity demanded

B. The lower the price of the commodity, the lower its quantity demanded

C. The lower the price of commodity, the higher the quantity demanded

D. The greater the quantity of a commodity demanded the lower its price

(iv) There is derived demand for one commodity or services when it is wanted

A. For consumption

B. For production process

C. As a factor of production

D. As a result of the demand of another commodity

(v) Subsistence is an example of

A. Direct production

B. Indirect production

C. Over production

D. Cost of production

(vi) The higher the price, the higher the quantity demanded, other factors being constant. This is

A. Exceptional demand

B. Law of demand

C. Law of supply

D. Exceptional supply

(vii) Economic is concerned with

A. Exchange only

B. Distribution only

C. Scarce resources

D. Manufacturing only

(viii) Goods which are so sensitive to change in price have

A. Inelastic demand

B. Elastic demand

C. Perfectly inelastic demand

D. Perfectly elastic Demand

(ix) Goods which are demanded together are called

A. Substitute goods

B. Complementary goods

C. Competitive goods

D. Durable goods

(x) Why do you study commerce?

A. To pass

B. To be commerce teacher

C. Commerce is part of o-level syllabus

D. To get commerce language and skills

i	ii	iii	iv	v	vi	vii	viii	ix	x

2. Match the items in LIST A which corresponds with the items in LIST B by writing the letter of the response against the number of relevant explanation in the table provided.

LIST A	LIST B
i. These are the paths in which goods move on their destination	A. Terminal
ii. Are the vehicles which carry goods or passengers from one point to another	B. Transportation
iii. Involve the power or force used to drive unit of carriage	C. Method of propulsion
iv. The physical movement of both goods and services or people from one place	D. Unit of carriage
	E. The way
	F. Charter party
	G. Air transport
	H. Container

to another v. The place of loading and unloading goods	

LIST A	i	ii	iii	iv	v
LIST B					

3. (a) For each of the following statements, write TRUE if the statement is correct and FALSE if the statement is not correct in the space provided

i. Bi-lateral is a trade that involve two countries only _____

ii. Durable goods are goods which last longer _____

iii. Price tag is the price of goods in the supermarket _____

iv. Entrepreneur is a person who provide capital and beers the risks of production _____

v. Surplus is the amount remains after need have been satisfied _____

vi. Indirect production is a production for own consumption _____

vii. Profit is a reward for Labour _____

viii. Vodacom and Zantel are examples of competitive demand _____

ix. Industry is a branch of production _____

x. Barter trader is the exchange of goods for money _____

(b) Complete the following by filling in the blank with correct word(s) or term(s)

(i) _____ is the study on how man can use scarce resources to satisfy unlimited wants

(ii) _____ is the division of production process into small units each being performed by a single person.

(iii) Small scale retailers who do not have permanent premises are known as _____

(iv) _____ solved the problems of barter trade

(v) A written acknowledgement of cash or cheque that has been received is termed as _____

SECTION B (30 marks)

4. Write short notes on the following (with example where necessary)

A. Broker

_____

_____

_____

_____

_____

B. Branding

_____

_____

_____

_____

_____

C. Spot cash

_____

_____

_____

_____

D. Dangerous stock

_____

_____

_____

_____

E. Giffen goods

_____

_____

_____

_____

_____

5. Ndugu Tweve has furnished you with the following records as at the end of the trading year

Stock 01/01/2008	84,500/=
Stock 31/01/2008	66,000/=
Net purchases	820,000/=
Gross profit mark up 50%	
Expenses for the year shs	145,880/=

Required: calculate

i. Cost of sales

_____

_____

_____

_____

_____

_____

_____

ii. Average stock

_____

_____

_____

_____

_____

_____

iii. Rate of stock turn over

_____

_____

_____

_____

_____

_____

iv. Sales(turnover)_____

_____

_____

_____

_____

_____

_____

v. Net profit

_____

_____

_____

_____

_____

6. (a) Find the elasticity of demand given that when the price of a commodity is Tshs 8 the quantity demanded is 20 units, and when the price increases to Tshs 16, quantity demanded decrease to 16 units

(b) Define self Employment

(c) Explain five (5) importance of Entrepreneurship

7 (a) Describe shift in supply curve

(b)Draw a graph to show the inwards and outwards shift in supply curve

(c) Describe five factors which cause increase in demand

ST. ALOYSIUS GIRLS SECONDARY SCHOOL
MID TERM TEST APRIL 2019
ENGLISH FORM IV

INSTRUCTIONS TIME 2:45HRS

- → This paper consists of section A, B, C and D with a total of 14 questions
- → Answer all questions A and B and section C & D as instructed under each section
- → Cellular phones, calculators and any unauthorized materials are not allowed in the examination
- → Write your name on every page of your answer sheets

SECTION A (10 marks)
COMPREHENSION AND SUMMARY

1. Read the passage below carefully then answer questions that follows

Africa is anxious for peace in Southern Africa. But the possibility of ending the present injustice without war. Neither free Africa nor the western world has the right to ask people of Southern Africa to accept indefinitely the present humiliation, oppression and foreign domination, and in any case they would not pay heed to any such demands. The only chance for peace in Southern Africa is if change can be secured without violence. If this is possible, no one will be happier than the people in Africa.

But we have tried peaceful methods and we have failed. The people of Southern Africa are therefore resorting war, and the free African states are supporting them. The only chance for peace now if the allies of the Southern Africa states are willing and able to exert the kind of pressure which brings change with the minimum of violence.

Do the western powers have the ability to exert such pressure? I believe they have a great deal of power if they are willing to use it for this purpose South Africa benefits greatly from its association with the Western nations: it will not wish to lose that benefit.

It is possible that South Africa would refuse to make any concessions to the democratic sensibilities of its allies, even at the cost of complete international isolation. I say this is possible because many people in South Africa believe in apartheid as a religion and will defend their faith until death. But there are other South Africans who rejoice in, and who support, the segregationist policies of that government because of material benefit and the position of privilege it gives them.

I believe this is the majority. Such people give a support which is conditional to the extent that it is not based on fear; there is a limit to the degree of international isolation they would be willing towards individual human equality. At the very least, therefore, strong western pressure on South Africa could introduce a new uncertainty among the dominant group. The police state machine would thus lose the virtually total white support which at present it enjoys in that case, the violence may not be of such long duration or of such bitterness.

Thus it is the west which makes the choice between peace and war in Southern Africa. The question is not whether the western powers are able to exert pressure on South Africa, but whether they are willing to do so. It is the implications of that question which I hope the people of this and other countries will carefully consider.

Questions

A. Select the answer to the following questions

(i)According to the writer, peace in Southern Africa can only be archived

A. If security can be archived without violence
B. If the peoples of South Africa pay heed to the just demands of Africa and the western powers
C. At the complete international isolation
D. If the present injustice is ended without violence

(ii)The writer thinks that people of South Africa have begun to fight because

A. Peaceful methods have been tried without success
B. The free African states are supporting them
C. They are resorting to war against their oppressors
D. They would not pay heed to the demands for peace in Southern Africa

(iii)The writer seems to think that the western powers

A. Are able but not willing to exert pressure on southern Africa
B. Are willing but not able to exert pressure on Southern Africa
C. Are both ready and willing to exert pressure despite south Africa's refusal to make any concessions
D. Are neither able nor willing to exert pressure on South Africa

(iv)The writer believes that if western pressure were applied to South Africa

A. Most people in the country would fight to the death

B. Some of whites at least would cease to support their government

C. The wide spread white support for the police state machine would vanish

D. Most South African whites would make demands for individual human equality

B. Change the following words into adverbs

I. Slow _____

II. Care _____

III. Faith _____

IV. New _____

V. Strong _____

VI. Kind _____

2. Read and summarize the following passage in about 40 words

Many people don't like commands. Sometimes it would actually appear like some people are thrilled by not following commands. For example, have you ever wondered why some drivers don't drive cautiously, as required when they near Zebra crossing? Some even accelerate their vehicles or even try to overtake, leaving pedestrians with no choice but scamper for safety.

Commands are very essential in life. There are, especially, certain areas in life where we cannot do without commands. Some examples of these areas are the classroom, sports and in writing recipes. In the science laboratory, for example, following instructions is very important. Failure to follow instructions can result in injuries, punishments or even death.

Recipe too employs many commands. If you expect to prepare food efficiently then you have to follow a number of instructions on how and when to mix, pour, stir, chop or shake the various ingredients appropriately.

SECTION B (20 marks)

PATTERNS AND VOCABULARY

3. Study Jesca's time chart carefully. Then fill in the blanks of the sentences about Jesca's life using correct verb form

Eg. Jesca left school in 1995

I. She _____ the army in 1998

II. She _____ pilot training in 2001

III. She _____ a jet fighter since 2005

IV. She _____ married in 2010

4. One of the words in the following sentences is wrong correct it to make each of the following sentences correct

I. Anna and Amina they are good students

C. (a) Write an invitation card to your 5 close friends to attend to your sisters PHD graduation who is graduating from university of Dar es salaam.

(b) Outline the format of writing telephone message for those who will call for excuse.

D. By six (6) points "write an essay to describe roles of women in the society" in not less than 250 words.

SECTION D (40marks)

RESPONSE TO READING

NOVELS AND SHORT STORIES

A wreath for Fr. Mayer	S.N.Ndunguru (1977). Mkuki na Nyota
Un answered cries	Osman Conteh, Macmillan
Passed like a shadow	B.M Mapalala (2006) DUP
Spared	S.N Ndunguru (2004) Mkuki na Nyota
Weep Not Child	Ngugi wa Thiong'o (1972), Hpinman
The interview	P. ngugi (2002), Macmillan

PLAYS

Three Suitors' One Husband	O. Mbia (1994), Eyre Methuen
The Lion and The Jewel	W. Soyinka (1963) OUP
This Time Tomorrow	Ngugi Wa Thiong'o (1972) Heinman
The black Hermit	Ngugi wa Thiong'o (1968) Heinman

POETRY

Song of Lawino and Ocol	O.P' Bitek (1979), EAPH
Growing up with Poetry	D. Rubadin (ed) (1989) Heinmann
Summons	R. Mabala (1980), TPH

11. Read the following poem and then answer the questions that follows

I TOO SING AMERICA

I am the darker brother

They send me to eat in the kitchen

When the company comes,

But I laugh,

And eat well,

And grow strong.

Tomorrow,

I'll sit at the table

When company comes

No body 'll dare

Say to me

'Eat in the kitchen;

Then

Besides,

They'll see how beautiful I am

And be ashamed.

I, too, am, America.

(a) What is the poem about?

(b) What type of poem is this?

(c) Describe the form of this poem

(d) What are 6 possible themes

(e) What message do we get from this poem

(f) Comment on language use

(g) What is the mood of the poet

(h) Who is the persona?

(i) Comment on the altitude of the persona

(j) Does the poem have any relevance to your society? Give reason.

12. “Poetry as other literary genre has a message to convey to the readers through poems”. Discuss the above statement referring to two poems you have read and appreciated. (4 message from each poem)

13. Using two books you have read under “plays section” show how the writers have succeeded to expose various issues happening in your community (4 points from each play)

14. Figures of speech are used by novelists to their literary works. Analyse the effectiveness of these elements in presenting the message by referring to two novels that you have studied. Give four points from each novel

THE END

ST. ALOYSIUS GIRLS SECONDARY SCHOOL
MID TERM TEST FOR BIBLE KNOWLEDGE
FORM FOUR, APRIL 2019

INSTRUCTIONS:
-Answer all 5 questions.
-Time: 2hrs

1. "Set apart for me Barnabas and Saul for the work to which I have called them."
   a) Who said these words to whom?
   b) Barnabas and Saul are also regarded as apostles. Give two reasons to support this.
   c) Name their starting point.
   d) After the work at Paphos there was a change of name from Saul to Paul. Give two reasons that might led to that change.
   e) How long did the whole First Missionary Journey take?

2. They went out to Seleucia and then they landed at Salamis.
   a) Why at Salamis?
   b) Who joined them at Salamis
   c) Do you know any relation of him who joined them to Barnabas?
   d) Where did he leave them and returned to Jerusalem?
   e) What do you think might be a reason for him to leave them?

3. At Paphos Barnabas and Saul met a certain magician.
   a) Give his Hebrew and Greek names.
